

Bowden's Xth

"At times, he says he prefers small, surlyn-covered balls to those of the oblong, leather covered variety. A solid 80ish golfer, Bowden is on the links most everyday during the off-season. He lives off the fairways of Killearn Country Club and has never met a man with a golf stick he didn't like."

—Pete Foley, Florida Times-Union

"I'd play 36 holes every day if I had the time. I really would. It gives me a chance to compete, and I love to compete. Sometimes I feel like if I don't play, I'm gonna explode."

**The
University**

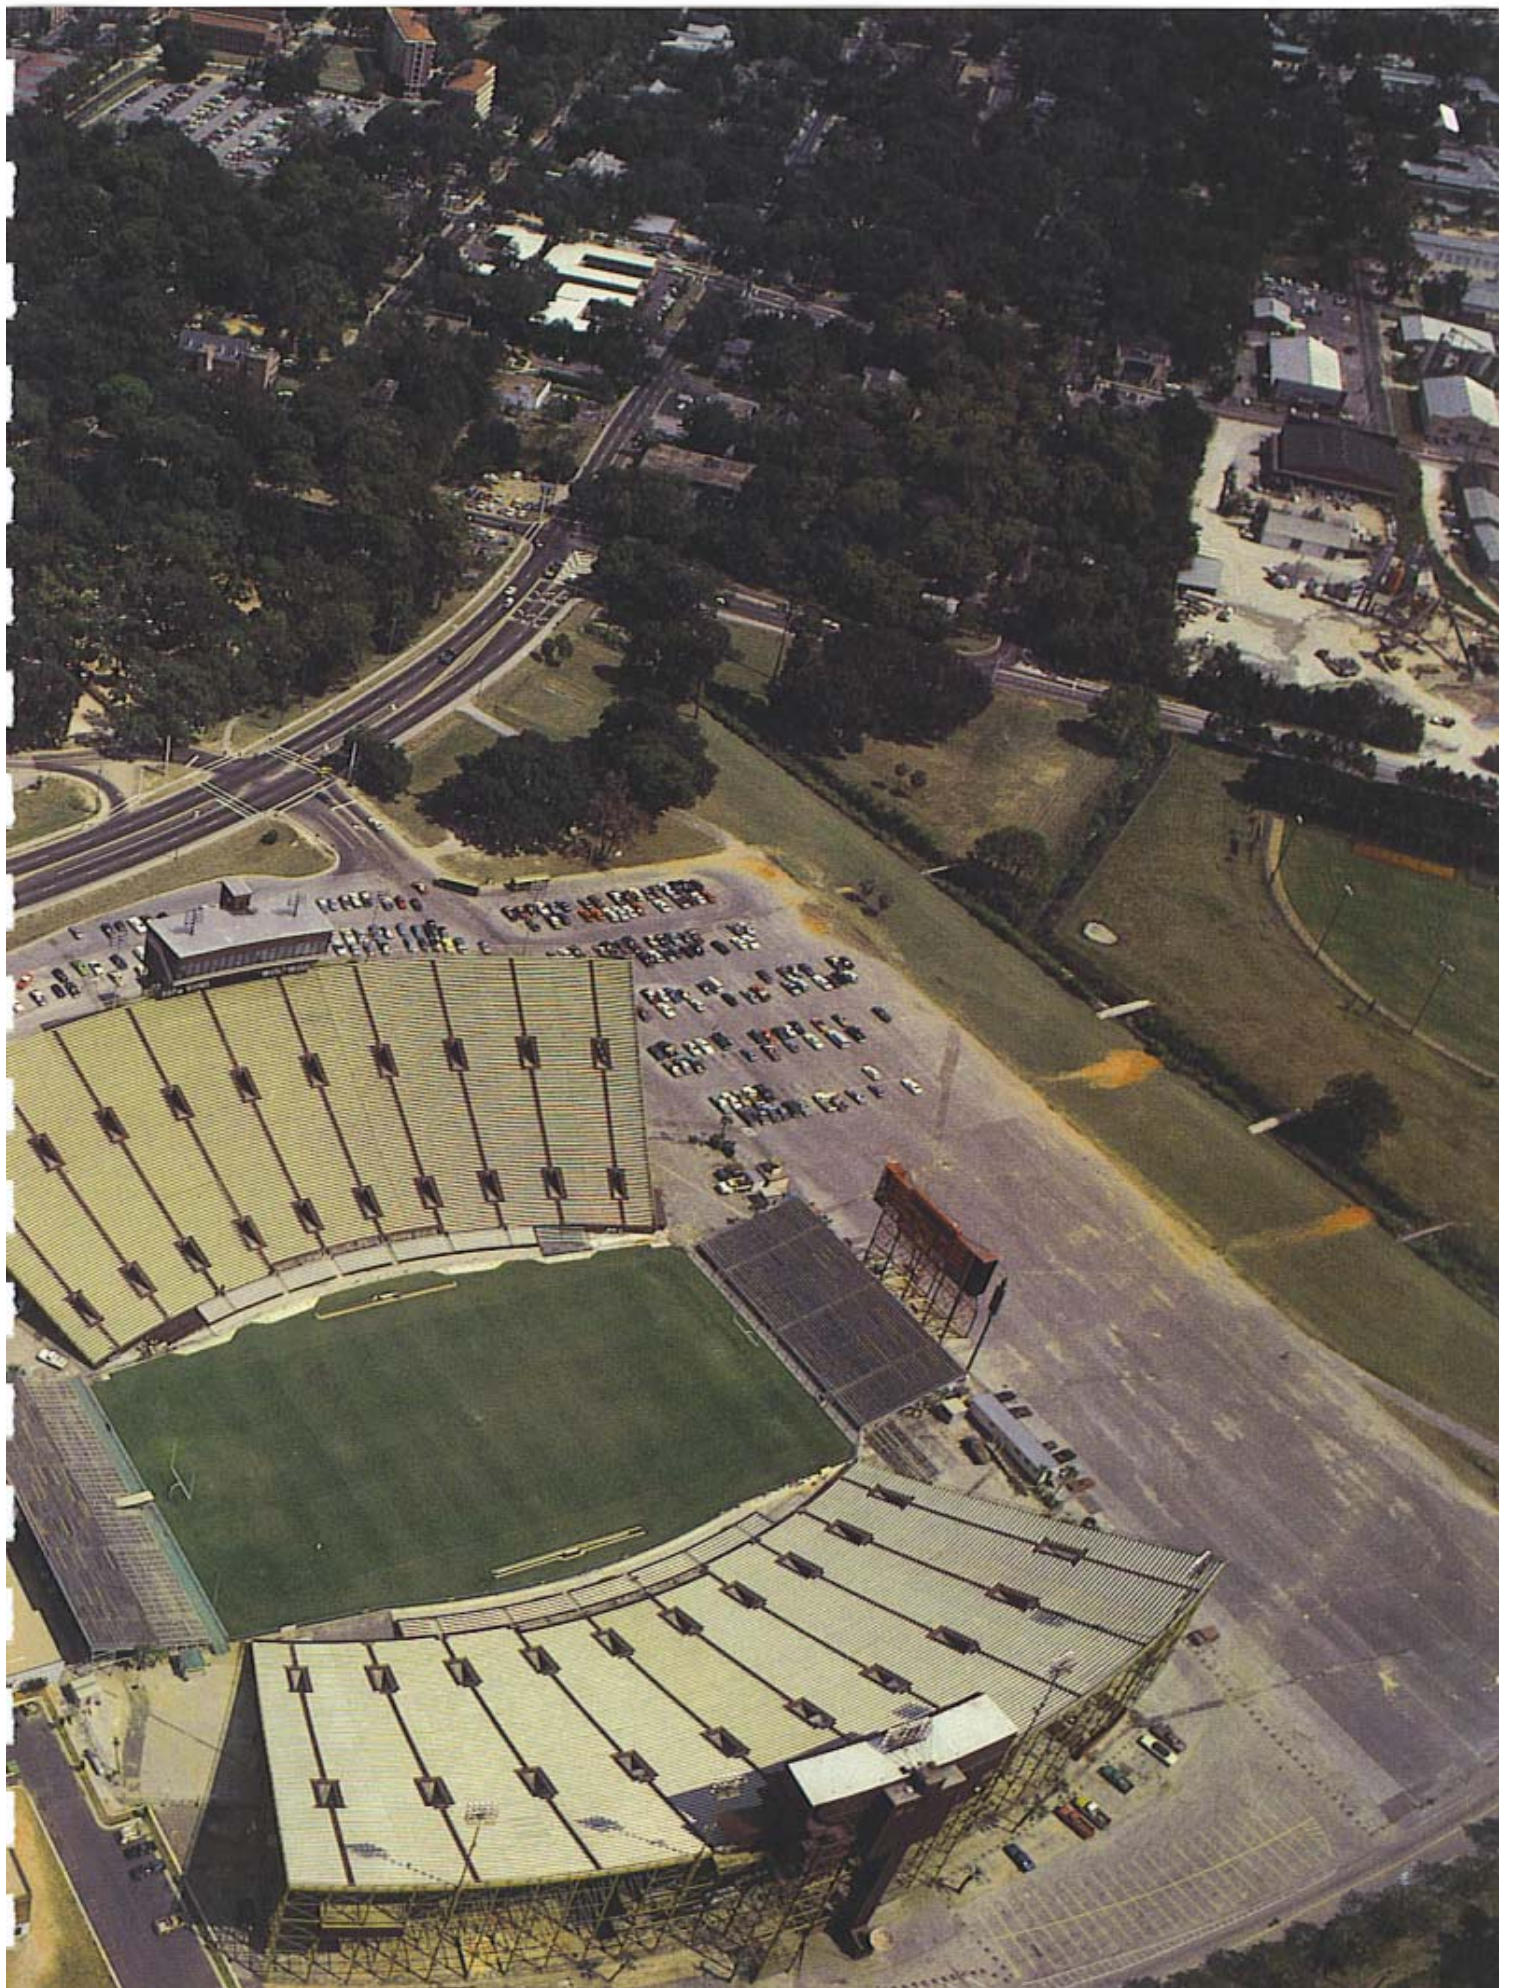

This Is Florida State

Florida State University, a coeducational institution and a senior member of the nine universities in the state system, is located in Tallahassee, the capital of Florida.

The Florida State campus, located just a few blocks from the Florida Capitol, is considered to be one of the most beautiful in the Southeast. The 347-acre campus is covered with hardwoods, pines and palms as well as springtime greenery that combines the blossoms of camelias, azaleas and dogwoods.

The 22,000 students currently enrolled at Florida State learn from a faculty of 1,300 which includes four active members of the National Academy of Sciences. The University has 537 administrative and professional staff and 2,372 career service positions. Nearly 5,000 part-time employees, most of them students, also are on the payroll each year.

The University

FSU was established in 1857, when the governor of Florida, James E. Broome, signed a bill establishing the Seminary West of the Suwannee in Tallahassee. The school consisted of one building located on 10 acres of land.

By 1860, the school, not yet a college, had an enrollment of 250. The president of the seminary organized the school into a four-year liberal arts college in 1887. At its first commencement in June 1891, degrees were conferred to two women and five men. Ten years later, the institution was renamed Florida State College. In 1905, it became Florida Female College, and in 1909 the name was changed to Florida State College for Women. Dr. Edward Conradi was named president and held that post until 1941.

In 1945, FSCW took on the additional title, Tallahassee Branch of the University of Florida (TBUF) due to the fact that GIs stationed nearby were attending classes at the women's school, but, as men, they couldn't legally enroll.

Gov. Millard Caldwell signed a bill in 1947 making both the University of Florida and FSCW coeducational. FSCW became Florida State University.

As a university, Florida State has had six chief executives: Doak Campbell (1941-57), Robert M. Strozier (1957-60), Gordon W. Blackwell (1960-65), John Champion (1965-69), J. Stanley Marshall (1969-76) and Bernard F. Sliger, who has been president since 1976.

Today, FSU offers students the opportunity to choose from more than 100 career options in arts and sciences, business, communication, criminology, education, home economics, law, library and information studies, music,

nursing, social sciences, social work, theatre, and visual arts. Also available is the FAMU/FSU College of Engineering, which operates in cooperation with Florida A&M University.

The state Board of Regents has recognized Florida State for its continuing leadership at the graduate levels of education. An active program of basic research is maintained in a great variety of disciplines at FSU. The nuclear physics laboratory is ranked by the National Science Foundation as one of the top four in the nation.

During 1984, Florida State began a new research program of national significance in computer science—the Supercomputer Computations Research Institute (SCRI). In establishing and operating SCRI, FSU will be able to provide access to supercomputing for university scientists and students throughout the U.S. who are engaged in research for the U.S. Department of Energy, to educate and train university scientists and students in the use of supercomputers and to research new techniques for using supercomputers in a wide variety of scientific disciplines. A Control Data CYBER 205 supercomputer, installed during March 1985 and now operational, is the forerunner for the CYBER 250 which will be installed by ETA Systems in 1988. Florida State has been designated a test site for the CYBER 250.

Florida State's location in the state capital affords excellent study, research and internship opportunities in the areas of government, social sciences and policy sciences. The Capitol and Supreme Court are located close to the FSU College of Law.

Social life for many students centers around 24 fraternities and 20 sororities. Wind surfing, swimming and sunning are among the activities to be enjoyed at FSU's lakeside "Reservation" or along the sandy beaches of nearby coasts. Every fall, the campus goes wild for football, supporting the Seminoles both at home and away.

A unique extracurricular activity is the Flying High Circus, the nation's only all-collegiate circus. Students from every academic major can become stars on the flying trapeze or highwire, or in clown acts.

When it comes to intercollegiate athletics, Florida State has established a winning tradition. Both the men's and women's athletic programs are among the nation's best.

FSU President Bernard Sliger takes pride not only in the programs, but also in the people—students, faculty, administrators and staff—who make Florida State a successful monument to learning.

Florida State is known throughout the South for achieving a university feeling with its beautiful scenery, hilly landscape and friendly students. Students come from all over Florida, the Southeast and the world to take advantage of the special advantages a Florida State education offers.

The FSU campus comes to life in the spring when flowering dogwoods and azaleas surround the pines, palms and Florida State buildings.

Doak Campbell Stadium

Florida State University, a young school in existence as a coed institution for just 38 years, has built up an alumni following that resulted in a record 338,932 fans attending Seminole football games in 1984. An average of 56,489 fans per game shattered existing stadium records and bettered 1983's attendance by close to 6,000 per game. Attendance for 1982, which had previously been the record at 51,934 per game, was still 4,500 fans shy of the booming interest in the 1984 Seminoles. In addition, all six home games in 1984 broke into the stadium's top 10 crowd list and two of those—Florida and Auburn—now rank one-two in FSU football annals for attendance. Clearly, the interest in Seminole football has grown like wildfire since a team was first fielded in 1947. That interest culminated in the 58,930 fans—3,648 over capacity—who packed into Doak Campbell for the FSU-Florida clash on December 1, 1984 while ABC-TV was televising the contest to a local and national audience.

The attraction of so many followers, from the local hometown folk to the die-hards who make the weekly 10-hour trek from Miami, has necessitated yet another expansion that will seat 4,700 more fans for the 1985 football season.

On October 8, 1950, just three years after FSU had fielded its first football team, the Seminoles and Randolph Macon Yellowjackets played the first game in Doak Campbell Stadium. A record crowd of 9,676 watched the game

CAMPBELL STADIUM'S TOP 20 CROWDS

under temporary lights as Florida State won 40-7.

Today, Doak Campbell is fully lighted for nighttime football—enabling FSU to be nationally televised—while its capacity for '85 will have grown to 60,519. Seven

Florida State boasts one of the most exciting pre-game football spectacles in college football as crowds of almost 60,000 pack Doak Campbell Stadium for each home game. The stadium, which has undergone seven expansions, is alive when the Seminoles come on the field, the balloons go up and Renegade and Chief Osceola make their triumphant appearance at the 50-yard line.

expansions over the last 34 years have added close to 45,000 seats, including the 4,700 during the summer.

Doak's original 15,000 capacity in 1950 soon grew to 19,000 four years later and in 1961, a further expansion enabled 25,000 to view Seminole football. During the Bill Peterson era, the stadium was expanded to seat 40,500 and it remained at that capacity for the next 14 years. Between 1978 and 1982, there were three more additions with the seventh becoming a reality just months ago.

Named for Doak S. Campbell, the first president of Florida State University, the garnet and gold steel structure sits adjacent to the two-year-old Moore Athletic Complex, just on the outskirts of campus. The stadium's gold seats rise out of a natural Bermuda grass playing surface,

enclosing the field except at the endzones where additional stands accommodate overflow crowds. Future expansion plans call for the south endzone to be completely bowled in, creating a horseshoe-like structure.

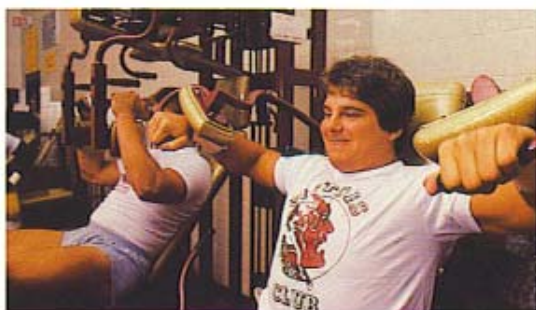

The press box above the west stands accommodates the media and includes seating for close to 100 writers as well as broadcast booths for radio and television. A catwalk extending from the press box allows additional working space for television cameras.

A skybox providing a comfortable viewing area for the Seminole Boosters, Inc. was erected over the east stands in 1982. The plush box seats over 200 in its main section while six loge boxes are on another level.

A half-million dollar scoreboard, installed in 1980, sits above the south endzone and includes a computerized message center that updates offensive and defensive statistics throughout the game. Flanking the scoreboard is one of the symbols of Florida State football, a neon spear that registers crowd noise.

From its humble beginnings, Florida State football's growth is seen in the constant changes of Doak Campbell Stadium.

With the coming of Strength Coach Dave Van Halanger Florida State's strength program has surged to the forefront in college athletics. Van Halanger's expertise and the top-of-the-line facility are a winning combination. Not only does the Seminole complex provide the best in conditioning, but is unmatched in its rehabilitation aides. An athlete at Florida State avails himself to the best possible conditioning during his time on the FSU campus.

Seminole Strength Complex

The strength program at Florida State University has taken on a new look. The first change is in the strength complex itself. Over \$100,000 of Nautilus and free weights fill the complex, making it one of the nation's finest. Every major muscle group in the body can be developed in at least six different exercise movements through workouts in the multi-equipped facility.

Dave Van Halanger is beginning his third year as the Florida State strength coach. He has implemented a year-round strength and conditioning program that begins to improve the athlete's strength as soon as he steps on campus. Not only have excellent strength gains come from the new program, but the flexibility, quickness, explosion and speed of the athlete has also improved. Van Halanger's philosophy "the strong shall survive," is understood by FSU athletes after going through an off-season program.

Athletes at Florida State train in a three dimensional manner. The physical aspect of the body is not the only concern in the program. Says Van Halanger, "we believe that the mental aspect of conditioning combined with a solid spiritual base is vital for our athletes to perform to the peak of their physical potential."

Athletic Staff

The University

Dr. Bernard Sliger University President

Dr. Bernard F. Sliger, Florida State University's 10th president, is an avid sports fan who believes that a top quality athletic program enhances—rather than hurts—a university's academic program.

Sliger is the first Florida State president to earmark substantial funds from bowl games and TV appearances for academic pursuits. In 1983, he was named by the American Council on Education to a committee of 26 college and university presidents to seek solutions to abuses in intercollegiate athletics.

Since assuming the FSU presidency on Feb. 7, 1977, Sliger has become increasingly visible on the national level. In February 1984, he was appointed to the executive committee of the Universities Research Association, which is comprised of 80 major research universities in the United States.

The American College Testing Program elected Sliger vice chairman of the Board of Trustees in December 1983. He has been on the 15-member board since 1981. He is also a member of the prestigious Federal Reserve Board of Atlanta.

Born Sept. 30, 1924, the native of Trout Creek, Mich., holds three degrees—the B.A. ('49), M.A. ('50) and Ph.D. ('55)—from Michigan State University, all in economics; he has done postdoctoral study in mathematical economics at the University of Minnesota on a sabbatical leave. He has taught at Florida State, Michigan State, Louisiana State and at Southern University in Baton Rouge, La., and began his educational career as an instructor in Michigan's Interior Township Schools in 1947.

Sliger joined Florida State University's administration on May 15, 1972, as executive vice president. He assumed the additional duties of chief academic officer and further served as director of the University's London Student Center during the fall quarter, 1975.

Formerly executive director of the Louisiana Coordinating Council for Higher Education, Sliger's background as an educator includes 19 years as a faculty member and administrator at Louisiana State University.

Sliger serves as economist for the Tallahassee Chamber of Commerce and the State Chamber of Commerce on a voluntary basis. He also holds memberships in 10 professional, scholastic and honor societies including Omicron Delta Kappa, Phi Kappa Phi and Alpha Kappa Psi. He is a member of the Tallahassee Kiwanis Club.

Dr. and Mrs. Sliger (Greta) have four children: Nan, Paul, Greta and Sten. They attend the Lutheran church and reside at the FSU President's Home, 1030 West Tennessee Street, in Tallahassee.

C.W. "Hootie" Ingram Athletic Director

Cecil Ingram, known to his friends and associates as simply "Hootie," has headed Florida State's athletic department for the past five years. He came to FSU in January of 1981 after eight years with the Southeastern Conference.

Upon arriving in Tallahassee, Ingram initiated a \$10 million dollar building program for athletic facilities. Moore Athletic Center, which houses administrative, coaching and ticket personnel, was planned, built and

completed under Ingram's leadership. Fully equipped with locker rooms, weight rooms, a gymnasium and cafeteria, the complex is home of the Seminole football and basketball teams, as well as the entire men's athletic program.

Seminole Baseball Stadium, second to none in the South, was completed during Ingram's second year at FSU, while Doak Campbell Stadium, the Bim Stults Aquatic Center and Mike Long Track were all renovated.

A native of Tuscaloosa, Ala., Ingram played football for the hometown Crimson Tide from 1951 to 1954. He was named all-SEC as a sophomore when he led the nation in pass interceptions. He was a member of both the 1953 Orange and 1954 Cotton bowl squads, and also lettered for the Alabama baseball team as an infielder.

After graduation and an Army stint, Ingram began his coaching career in 1956 as an assistant football coach at Bradenton (Fla.) Manatee High School. The next year, he became head coach at Tuscaloosa Brookwood High School for three years.

Ingram moved into the college coaching arena in 1960 as an assistant at Wake Forest. He also made coaching stops at Virginia Tech, Georgia and Arkansas before accepting the head coach's job at Clemson in 1970, the only collegiate head coaching job he held. Three years after taking the position, Ingram left Clemson to join the SEC as assistant commissioner.

During his eight-year tenure with the conference, his duties included supervision of football and basketball officials, rules interpretations and eligibility. After five years as assistant commissioner, he was named associate commissioner in 1978.

Ingram and his wife, Toni, have a son and two daughters.

Charles W. Ehrhardt Faculty Athletic Committee Chairman

A professor of Law at Florida State University since 1967, Charles W. Ehrhardt is beginning his second year as Chairman of the FSU Athletic Committee.

Ehrhardt served on the committee from 1969-71, and was reappointed to the board in 1983. He succeeded Dr. James Jones as chairman in 1984, and became Florida State's representative to the NCAA with the appointment.

A native of Elkader, Iowa, Ehrhardt received a bachelor's degree from Iowa State University in 1962. Two years later he earned his law degree from the University of Iowa and went on to become an Assistant United States Attorney in that state before coming to Tallahassee.

A widely-respected expert in the field of Evidence, Ehrhardt holds the Florida State position as the Ladd Professor of Evidence. He wrote the Florida Evidence Code, passed by the state legislature in 1976, which deals with the admissibility of evidence in court trials. Ehrhardt is also the author of a book on evidence, first published in 1977 and scheduled for a second edition soon.

Ehrhardt is frequently called on for lectures and speaking engagements. He is also asked to do private consultations with lawyers and judges nationwide on evidence matters.

In the spring of 1984, he was voted President of the Metro Conference, a position which makes him chief representative of the league in dealings with the NCAA.

Ehrhardt and his wife, the former Judy Sutton, have three children.

Dr. Bernard Sliger

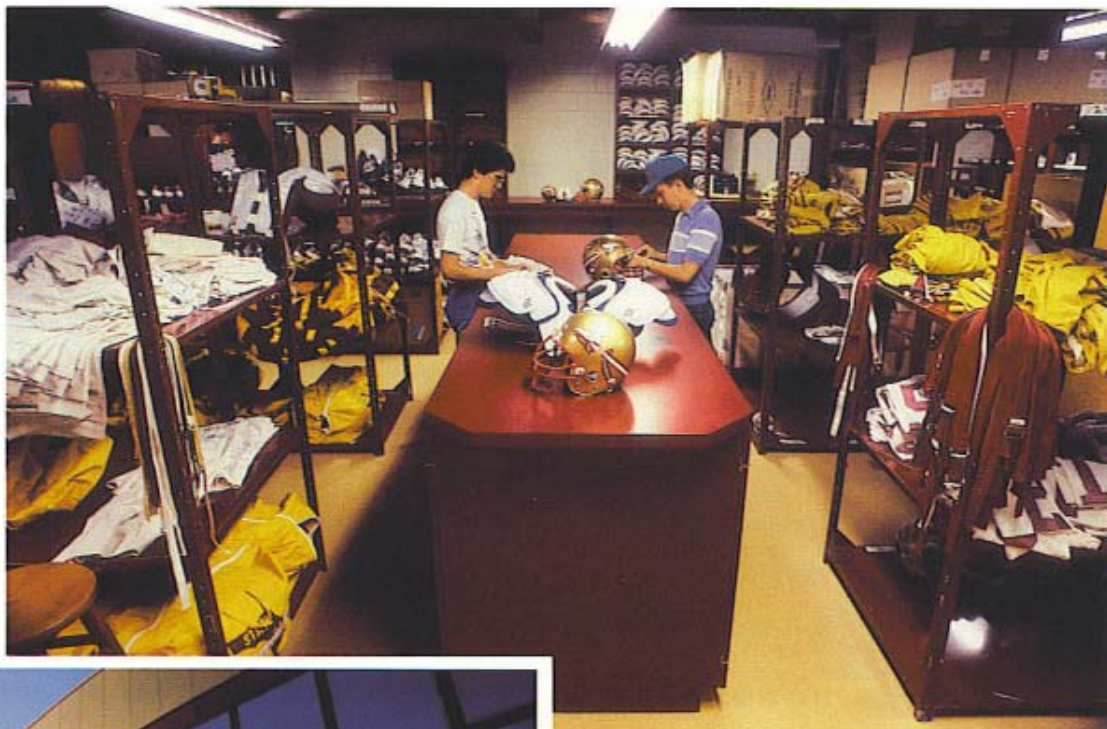

C.W. "Hootie" Ingram

Charles W. Ehrhardt

Florida State's football, administrative and men's sports staffs are housed in the Moore Athletic Center, located next to the FSU campus and Doak Campbell Stadium. The building was completed in fall of 1984 and includes a dining area, weight rooms, locker rooms and basketball gymnasium for use of Seminole athletes.

Bob Goin

Bob Goin
Associate Athletic Director

Bob Goin has been the associate athletic director at Florida State since July of 1981. Coaches of FSU's six men's non-revenue sports report to Goin, and he also assists athletic director Hootie Ingram with day-to-day operations of the athletic department. Goin is also responsible for a large portion of game-day operations for the football, basketball and baseball teams.

When FSU hosted the 1983, 1984 and 1985 NCAA South Region baseball tournament, Goin served as tournament director.

Goin came to Florida State with experience as both an administrator and a coach. He arrived at FSU after two years as athletic director of California (Pa.) State College, where he is credited with expanding the athletic department. He formed the Cal State Athletic Scholarship Fund and Athletic Booster Club and established the Cal State radio network.

Prior to taking the California post, Goin was assistant athletic director at West Virginia, from 1976 to 1979. At

Claude Thigpen

WVU, he was involved in several expansion projects including construction of a new stadium and athletic facility.

Between 1960 and 1976, he held a variety of positions at Bethany (W. Va.) College including coaching assignments in football, basketball and baseball. Goin was associate professor and chairman of physical education and athletics at the school from 1972 to 1976, and coached Bethany football teams from 1963 to 1972.

While coaching at Bethany, two of Goin's football and baseball teams won President's Athletic conference championships. He also won numerous individual awards, including Tri-State Small College Coach of the Year, Pittsburgh and Ohio Dapper Dan awards and the Morgantown Touchdown Club award.

Goin received a bachelor's degree from Bethany in 1959 and his master's from West Virginia in 1962.

He and his wife, Nancy, have four children. One son, Brian, is a graduate assistant football coach for the Tulane Green Wave.

Claude Thigpen
Assistant Athletic Director

Claude Thigpen has been a member of the Florida State athletic staff for the past 30 years and has held his present position as assistant athletic director since 1978. Only football assistant coach Bob Harbison has been with the department longer than Thigpen.

Over the years he has held a variety of responsibilities, including business manager, accountant and ticket manager.

Thigpen currently supervises ticket operations for all sports and helps coordinate season ticket drives for football, basketball and baseball. He also handles certain aspects of game-day operations for football and oversees the athletic department courtesy car program.

During football season, the Greenville, Fla., native takes on added duties as he makes travel arrangements for the Florida State football team and its official party. This

The University

includes making airplane and hotel reservations for the entire Seminole group of up to 145 people.

Thigpen is married to the former Carleen Lindley.

Larry Pendleton

Assistant Athletic Director

Assistant athletic director Larry Pendleton is in his 11th year as a member of the Florida State athletic department staff. From 1975 to 1980, Pendleton was academic advisor for FSU male athletes, before assuming the position of assistant athletic director in July of 1980.

Pendleton's current post touches many areas of the department. He is responsible for maintaining and scheduling of all athletic facilities. Pendleton also coordinates and supervises all building projects including the Moore Athletic Center, baseball and football stadiums, softball complex, Bim Stults Aquatic Center and Mike Long Track.

Additional duties include scheduling and making travel arrangements for the Seminole basketball team, and managing the athletic department insurance programs.

A 1969 graduate of Florida State, Pendleton returned to his alma mater in 1973 as a graduate assistant football coach. In 1974, he became a full-time member of the Tribe family when he was hired as an assistant football coach. The next year, he moved to the academic advising position.

A native of Winter Garden, Fla., Pendleton played linebacker and offensive guard for the Seminoles in the late 1960's. FSU offensive coordinator Wayne McDuffie and Pendleton were the two starting guards on the Seminole 1967 Gator Bowl squad. Larry was twice selected to the Florida all-star team while starting 33 consecutive games and participating in three bowl games.

Brian Mand

Academic Advisor

Brian Mand is in his fifth year as the academic advisor for all men's varsity sports at Florida State. Since 1980, he has coordinated and supervised all athletic academic advisement and organized support programs dealing with academics for FSU athletes.

Mand held similar positions at East Carolina (1979) and Rutgers (1977-79) before accepting the Tallahassee job. While at Rutgers, he also worked for a time in the office of admission, registration and student services as assistant to the director.

Mand earned a bachelor's degree in business administration from Wake Forest University in 1972. He received his master's degree in athletic administration in 1977 from Ohio State and also did some graduate coursework in counseling at Rutgers.

Currently, Mand is president of the National Academic Athletic Advisor's Association. He has also been a member of the American Alliance for Health, Physical Education and Recreation.

Mand and his wife, Roberta, are expecting their first child.

Joe Labat

Athletic Business Manager

As athletic business manager, Joe Labat controls the financial aspects of the entire athletic department. He oversees a five-person staff whose responsibilities include overall supervision of accounting, budgeting, financial reporting, internal control, payroll, purchasing and travel. Labat is also the athletic department representative for these areas in University and external organizations.

Labat joined the athletic staff in 1978, moving from

across campus where he served in the accounts payable section of the Florida State Comptroller's office.

An avid golfer and jogger, he also volunteers his time to officiate Florida State track meets.

Labat graduated from Florida State in 1967, then taught and coached football and track at Rickards High School in Tallahassee for two years before moving to the Florida State jobs.

A native of Tallahassee, Labat is a member of the national business manager's association.

He is married to the former Jane Starling.

John Sheffield

Assistant to the Athletic Director

Entering his third football season as director of marketing and promotions at Florida State, John Sheffield has also become involved in several aspects of ticket operations for the Tribe in 1985.

Sheffield directs the FSU season ticket campaigns for football, basketball and baseball and also organizes special event programs for the athletic department. He supervises the advertising portion of the TRIBE magazine, FSU's football game program, and serves as contact for all printed advertising in FSU's athletic facilities and game programs.

Prior to his arrival in Tallahassee, Sheffield was director of ticket operations for the Tampa Bay Buccaneers from 1977 to 1982.

A 1975 graduate of Florida State, Sheffield worked in the FSU athletic department for a few months following graduation. He then moved on to the Atlanta Braves organization and later moved to Miami where he was assistant ticket director for the Miami Dolphins. Before gaining the ticket director post in Tampa, Sheffield served as business manager for the North America Soccer League's Ft. Lauderdale Strikers.

Sheffield still retains ties with the NFL as he has coordinated ticket distribution for the last three Super Bowls.

He and his wife, Peggy, have a son.

Wayne Hogan

Sports Information Director

Tallahassee native Wayne Hogan is in his fourth football season as Florida State sports information director.

Hogan is responsible for all publicity and public relations matters concerning the FSU athletic department. The SID office handles all information on 16 intercollegiate sports, encompassing both men and women's athletics.

A 1979 Florida State graduate, Hogan returned to his alma mater in 1982 after serving as assistant sports information director at New Mexico for two years. Prior to that move, he worked as Director of Public Relations and Broadcasting for two minor league baseball teams—the Charleston Charlies and the Albuquerque Dukes.

Hogan began his career in the public relations and broadcasting fields while a student at Florida State. From 1975-79, he performed a variety of duties for the Seminole athletic program, including working in the sports information office, engineering the Seminole Sports Network for football and basketball broadcasts and play-by-play announcing for baseball.

In addition to his duties as sports information director, Hogan handled color commentary for the Florida State basketball radio network from 1982 to '84.

Wayne's father, Patrick Hogan, is a former FSU sports information director and now has the title of vice-president for University Relations at Florida State.

Hogan and his wife, Elaine, have two daughters.

Larry Pendleton

Wayne Hogan

The University

Lisa Morton

Dan Pearson

Lisa Morton

Associate Sports Information Director

Lisa Morton works with publicizing the entire FSU sports program through the media. Morton serves as editor of the TRIBE, Florida State's football game program, the FSU football and basketball media guides, and is responsible for many other publications produced by the athletic department. In 1982, her athletic department publications won six national awards, including the best football media guide in the nation.

Morton, a native of Pittsburgh, Pa., earned a bachelor's degree in sports management from West Virginia University in 1980. While at WVU, she was a student assistant in the sports information office for two years under Mike Parsons, a former FSU assistant sports information director. She was also a member of the women's basketball team for three years.

In addition to duties with WVU, Morton worked with the Eastern Eight (now Atlantic Ten) basketball conference, producing the league's media guide in 1978.

Dan Pearson

Assistant Sports Information Director

Dan Pearson begins his fourth year on the Seminole athletic staff as assistant sports information director. Pearson handles several areas of publicity and media relations work for the Florida State football team, as well as keeping the FSU statistics updated throughout the season.

Pearson also serves as sports information contact for the FSU baseball and women's basketball teams, in addition to other duties assigned by the director, covering all Florida State sports.

He came to FSU from West Virginia University, where he received a bachelor's degree in journalism in 1979. While at WVU, he spent three years working in the sports information office as both a student and graduate assistant.

Pearson came to FSU in 1981 as a part-time assistant before being named assistant sports information director in October of 1982.

The Emporia, Pa. native is married to the former Kathryn Smith.
