

THE UNIVERSITY

Academics
and
Athletics,
and yes, the
people who wear
the garnet and
gold, go hand-in-
hand to make
Florida State
University a great
monument to
learning.

Florida State is known worldwide for its Supercomputer. It is one of a select group of universities in the nation to have one of its kind. Its campus is also well known in the South for its rolling hills, beautiful trees and smiling faces.

THIS IS FSU

As Florida State University celebrates its 130th birthday as an institution of higher education and its 40th anniversary as a coeducational university, it marks its 10th year under the leadership of President Bernard F. Sliger, a decade of extraordinary progress.

Florida State is the University which boasts of such diverse assets as the world's most powerful supercomputer and the greatest all-collegiate show on Earth, the Flying High Circus.

Located in Tallahassee, the capital of Florida, FSU is a public, coeducational university and a senior member of the State University System.

About 23,500 students representing all 50 states and more than 100 foreign countries work toward more than 250 different graduate and undergraduate degrees in the 15 schools and colleges of Florida State. The colleges of arts and sciences, business, communication, education, engineering, home economics, law and social sciences combine with the schools of criminology, library and information studies, music, nursing, social work, theatre and visual arts to make FSU a nationally acclaimed university.

The Florida State campus, located just a few blocks from the state Capitol, is one of the most beautiful in the southeast. Traditional Gothic-style structures combine with the latest in modern architecture, all brought together by an array of oaks, pines, palms, dogwoods and azaleas. The natural beauty of the 347-acre main campus mirrors the picturesque features of the surrounding North Florida region.

Florida State was founded in 1857 as the Seminary West of the Suwannee River. Name changes over the years included Florida State College and, in 1909, Florida State College for Women. Governor Millard Caldwell signed a bill in 1947 which again made the institution coeducational and named it Florida State University.

Today, Florida State faculty and administrators generate more than \$35 million annually in external funding to supplement state sponsorship of research. In addition, almost \$13 million in private gifts was raised through the FSU Foundation during the past fiscal year. These contributions from alumni, friends, corporations, the university community and charitable foundations are for the sole benefit of Florida State's academic programs.

The FSU Supercomputer Computations Research Institute has attracted international attention to the University, home of the world's fastest supercomputer. The ETA10 has the capacity to perform 10 billion calculations per second.

The Tandem Van de Graaf-Superconducting Accelerator Laboratory in the Department of Physics houses two powerful atom smashers and has been ranked in the top four in the nation by the National Science Foundation.

The University's location affords excellent research and internship

opportunities in government, law and the social sciences. The reputation of Florida State's research programs, the expertise of its more than 1,500 faculty members—including four members of the National Academy of Sciences—and the quality of the graduate students involved in research represent major strengths of the University.

Programs in music, dance and theater at Florida State have earned well-deserved national recognition. The visual and performing arts exhibited and produced on campus offer students and the community a wealth of enrichment opportunities.

Student activities at FSU create an important balance between the classroom experience and the personal life of the individual scholar. Honors programs, student government, intramural sports and more than 200 organizations are available for student involvement.

Students from every academic major have a chance to become stars on the highwire or flying trapeze by participating in the Flying High Circus, the only one of its kind in the nation.

Florida State academic programs extend well beyond Tallahassee. The FSU Marine Laboratory is located on the Gulf of Mexico, 45 miles away. Students participate in professional training programs at the Asolo State Theater in Sarasota and the Burt Reynolds Institute for Theatre Training in Jupiter. The Panama City Campus of Florida State offers upper-level courses which lead to bachelor's and master's degrees. The Center for Professional Development and Public Service, housed in the Florida State Conference Center on the edge of campus, manages educational outreach activities from Pensacola to Miami. In addition, Florida State maintains programs of study in England, Italy, Costa Rica, Switzerland, Yugoslavia, the Panama Canal Zone and even the People's Republic of China.

The physical growth of the University during the Sliger administration is best evidenced by such additions as the new wing of the Rovetta Business Building, the University Union expansion project, the new Paul A.M. Dirac Science Library Building, the Panama City Campus, the Jeffersonian Village Green project at the College of Law and the new building for the FAMU/FSU College of Engineering, now under construction.

Florida State is setting the pace as higher education in Florida prepares to enter the 21st century. And President Sliger takes pride not only in the academic programs and facilities of the University, but also in the people—students, faculty, alumni, administrators and staff—who make Florida State a successful monument to learning.

University Administration

 Vice President for Development Harold D. Wilkins, Jr.
 Vice President for Research
 and Graduate Studies Dr. Robert M. Johnson

Bernie Sliger
 University President

Dr. Bernard Sliger has served as the 10th president of Florida State University since February 7, 1977, following a six-month stint as the University's interim president. In 1987 he is celebrating the end of his first decade of leadership.

After he joined the administration in 1972 as executive vice president, he assumed the additional duties of chief academic officer, and further served as director of the University's London Study Center during the fall quarter, 1975.

Sliger, a native of Trout Creek, Mi., was born Sept. 30, 1924. He holds three degrees, the B.A. ('49), M.A. ('50) and Ph.D. ('55), from Michigan State University, all in economics. He also has done post-doctoral study in mathematical economics at the University of Minnesota. Sliger has taught at Florida State, Michigan State, Louisiana State and at Southern University in Baton Rouge, La.

Sliger began his educational career as an instructor in Michigan's Interior Township Schools in 1947. Prior to joining Florida State, he worked for 19 years as a professor and administrator at Louisiana State University. During that time, he served LSU as head of the economics department, member and chairman of the graduate council, dean of academic affairs and vice chancellor. In 1969, he organized the Louisiana Coordinating Council for Higher Education, which is similar to the Florida Board of Regents, and became its executive director.

Sliger holds memberships in a number of professional, scholastic and honor societies, including Omicron Delta Kappa, Phi Kappa Phi and Alpha Kappa Psi. Since 1983, he has been a member of the board of directors of the Federal Reserve Bank of Atlanta and presently serves as chairman of the Board of Trustees of the American College Testing Corporation in Iowa City, Iowa. He also is a member of the Council of Presidents for the Southeastern Universities Research Association, based in Newport News, Va. He is active in a number of other civic and academic organizations.

As president at Florida State, Sliger is involved in athletics. He is a member of the NCAA's Presidents Commission and is one of 22 chief executive officers elected to that body from Division I schools. He began his four-year term in January of this year.

Sliger and his wife, Greta, have two sons, Paul and Sten, and two daughters, Nan and Greta.

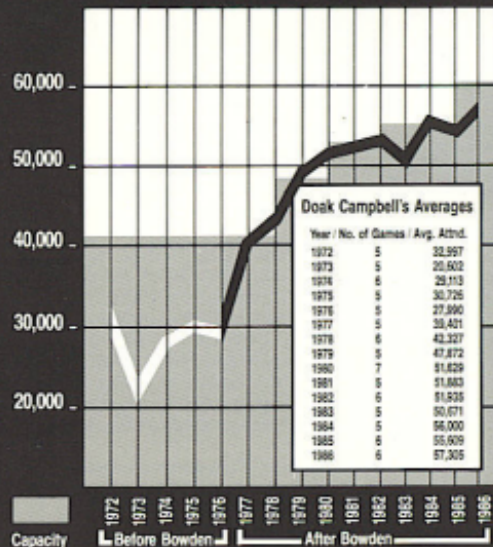

Charles W. Ehrhardt
 Faculty Athletic Committee Chairman

A professor of Law at Florida State University since 1967, Charles W. Ehrhardt is beginning his fourth year as Chairman of the FSU Athletic Committee.

Ehrhardt served on the committee from 1969 to 71, and was *continued page 108*

CAMP

Doak Campbell

Stadium Attendance and Capacity 1972-86

DOAK CAMPBELL STADIUM

Stadium is the place to be on fall Saturday nights!

The latest "Jack in the Beanstalk" story is taking place on the campus of Florida State University. Although the university has been a coed institution for just 40 years, its football program has sprouted up over the last 10 years, becoming one of the nation's top 20 teams year in and year out.

The booming interest in Seminole football was born in 1976 when head coach Bobby Bowden arrived to give the program new life. Doak Campbell Stadium has grown by some 20,000 seats since that time. The attraction of so many followers, from students and Tallahassee folks to the ever-increasing die-hard alumni who make the 10-hour weekly trek from Miami, has created demands that have made every expansion a necessity.

On Oct. 7, 1950, just three years after FSU had fielded its first football team, the Seminoles and Randolph Macon Yellowjackets played the first game at "Doak." A record crowd of 9,676 watched the game under temporary lights as Florida State won 40-7.

Today, Doak Campbell is fully lighted for nighttime football. Seven expansions over the last 37 years have added over 45,000 seats. Doak's original 15,000 capacity in 1950 soon grew to 19,000 four years later and in 1961, a further expansion enabled 25,000 to view Seminole football. During the Bill Peterson era, the stadium was expanded to seat 40,500 and it remained at that capacity for the next 14 years. Between 1978 and 1982, there were three more additions with the seventh becoming a reality in 1985 and giving Doak its present capacity of 60,519.

Named for Doak S. Campbell, the first president of Florida State University, the garnet and gold steel structure sits adjacent to the four-year-old Moore Athletic Complex, just on the outskirts of campus. The stadium's gold seats rise out of a Bermuda grass turf enclosing the field except at the endzones where additional stands accommodate over-flow crowds. Future expansion plans call for the south endzone to be completely bowled in, creating a horseshoe-like effect.

The press box above the west stands accommodates the media and includes seating for close to 100 writers as well as broadcast booths for radio and television. A catwalk extending from the press box allows additional working space for television cameras.

A skybox providing a comfortable viewing area for the Seminole Boosters, Inc. was erected over the east stands in 1982. The plush box seats over 200 in its main section while six logo boxes are on another level.

A half-million-dollar scoreboard, installed in 1980, sits above the south endzone and includes a computerized message center that updates offensive and defensive statistics throughout the game. Flanking the scoreboard is one of the symbols of Florida State football, a neon spear that registers crowd noise.

20. 53,772	1980	Florida	17	13

Campbell Stadium, from page 107

The sprouting growth of Seminole football continued into 1986, making it a record attendance year for Doak. Some 343,835 Garnet and Gold fans watched six Seminole home games, smashing the total attendance record as well as the mark for average attendance (57,305). Exciting football marked those six games, as two went down to the last minutes of the game before a final outcome was decided. The Florida-Florida State matchup drew an FSU record crowd of 62,307 and five of the six Seminole home attendance figures broke into the stadium's top 20 list.

Doak Campbell has also become a favorite of the networks and cable magnates who have made the trip to Tallahassee 13 times since Bowden became head coach. Eight of those games were national telecasts while five were regionals. The nighttime capabilities that Doak Campbell has enjoyed since its early years have also made FSU a natural choice for late night telecasts—three such have been televised from Doak since 1982 when the idea of nighttime college football first took root.

Truly, overnight, Florida State football has risen from humble beginnings.

Erhardt, from page 106

reappointed to the board in 1983. He succeeded Dr. James Jones as chairman in 1984, and became Florida State's representative to the NCAA with the appointment.

A native of Elkader, Iowa, Erhardt received a bachelor's degree from Iowa State University in 1962. Two years later he earned his law degree from the University of Iowa and went on to become an Assistant United States Attorney in that state before coming to Tallahassee.

A widely-respected expert in the field of Evidence, Erhardt holds the Florida State position as the Ladd Professor of Evidence. He wrote the Florida Evidence Code, passed by the state legislature in 1976, which deals with the admissibility of evidence in court trials. Erhardt is also the author of a book on evidence, first published in 1977 and scheduled for a second edition soon.

Erhardt is frequently called on for lectures and speaking engagements. He is also asked to do private consultations with lawyers and judges nationwide on evidence matters.

From 1984-86, he was president of the Metro Conference which made him the league's chief representative to the NCAA. He is still active in conference administration, serving on the editorial committee.

Erhardt and his wife, the former Judy Sutton, have three children.

SEMINOLE

Saturday Night Fever

Garnet and Gold balloons fill the stands at Doak Campbell Stadium as 60,000 fans await another action-packed Saturday night of Seminole Football.

Suddenly all heads turn to the north endzone as the Seminoles, led by head coach Bobby Bowden, burst out of the tunnel from the locker room onto the playing field following Chief Osceola and Renegade.

Renegade, a large Appaloosa horse, gallops the length of the field. Perched atop Renegade, holding a 10-foot flaming spear, is Chief Osceola. The Chief wears an authentic costume designed specifically for Florida State by Seminole Indians. His face is covered with grease-based makeup, giving him an Indian-reddish tint. Garnet and Gold stripes have been added in FSU Seminole fashion.

The 16 Seminole cheerleaders encourage the Campbell Stadium crowd as mascot Tommy Hawk pounds an intimidating beat on Big Sam, the Seminole Victory Drum. The fans move their arms in unison to the Scalp 'Em cheer following the beat of the drum. Renegade fidgets and shakes his head from side to side, awaiting the end of the coin-toss proceedings. Chief Osceola shakes the spear over his head and the crowd roars its approval.

The game captains and referees leave midfield. The excitement of the crowd is reaching its peak. Renegade and Chief Osceola gallop to the 50-yard line. Renegade rears up on his hind legs and Chief Osceola plants the fiery spear into the turf. This is what the crowd of 60,000 has been waiting for.

The roar of the crowd is deafening. The moment the spear hits the ground, thousands of balloons are released, filling the Tallahassee sky with garnet and gold while the Marching Chiefs play the FSU fight song in the background.

It is one of college football's greatest opening shows. But, it's just another Seminole Saturday night that has become the heart and soul of Seminole football.

SEMINOLE STRENGTH PROGRAM

The Seminole strength complex at Florida State is undoubtedly one of the nation's finest. With over \$100,000 worth of Nautilus and free weight equipment, every major muscle group of the body can be developed in at least six different exercise movements through workouts in the multi-equipped facility.

Five-year staff director Dave Van Halanger has implemented a year-round strength and conditioning program that begins to improve the athlete's strength as soon as he steps on campus. Not only have excellent strength gains come from the new program, but the flexibility, quickness, explosion and speed of the athlete have also improved. Van Halanger's philosophy of "the strong shall survive," is understood by FSU athletes after going through an off-season program.

Athletes at FSU train in a three dimensional manner. The physical aspect of the body is not the only concern in the program. Says Van Halanger, "We believe that the mental aspect of conditioning combined with a solid spiritual base is vital for our athletes to perform at the peak of their physical potential."

ATHLETIC STAFF

C.W. "Hootie" Ingram
Athletic Director

Cecil Ingram, known to his friends and associates as "Hootie," has headed Florida State's athletic department for the past seven years. He came to FSU in January of 1981 after eight years with the Southeastern Conference.

Upon arriving in Tallahassee, Ingram initiated a \$10-million-dollar building program for athletic facilities. Moore Athletic Center, which houses administrative, coaching and ticket personnel, was planned, built and completed under Ingram's leadership.

Dick Howser Stadium, second to none in the South, was completed during Ingram's second year at FSU, while Doak Campbell Stadium, the Bim Stults Aquatic Center and Mike Long Track were all renovated.

Ingram is in his second year of a four-year term on the prestigious NCAA Council. As an elected member of that body, he is one of 22 representatives from Division I schools. Ingram is also a member of the College Football Association (CFA) television committee, chairman of the NCAA nominating committee and chairman of the major independents.

A native of Tuscaloosa, Ala., Ingram played football for the hometown Crimson Tide from 1951 to 1954. He was named all-SEC as a sophomore when he led the nation in pass interceptions. He was a member of both the 1953 Orange and 1954 Cotton Bowl squads, and also lettered for the Alabama baseball team as an infielder.

After graduation and an Army stint, Ingram began his coaching career in 1956 as an assistant football coach at Bradenton (Fla.) Manatee High School. The next year, he became head coach at Tuscaloosa Brookwood High School for three years.

Ingram moved into the college coaching arena in 1960 as an assistant at Wake Forest. He also made coaching stops at Virginia Tech, Georgia and Arkansas before accepting the head coach's job at Clemson in 1970, the only collegiate head coaching job he held. Three years after taking the position, Ingram left Clemson to join the SEC as assistant commissioner.

During his eight-year tenure with the conference, his duties included supervision of football and basketball officials, rules interpretations and eligibility. After five years as assistant commissioner, he was named associate commissioner in 1978.

Ingram and his wife, Toni, have a son and two daughters.

Bob Goin
Associate Athletic Director

Bob Goin has been the associate athletic director at Florida State since July of 1981. Several sports programs report to Goin, and he also assists athletic director Hootie Ingram with day-to-day operations of the athletic department. Goin is also responsible for organizing and implementing

game day operations for the football, basketball and baseball teams.

Goin has served as tournament director for the NCAA South and Atlantic Regionals, which have been held in Tallahassee every year since 1983.

Goin came to Florida State with experience as both an administrator and a coach. He arrived at FSU after two years as athletic director of California (Pa.) State College, where he was credited with expanding the athletic department. He formed the Cal State Athletic Scholarship Fund and Athletic Booster Club and established the Cal State radio network.

Prior to taking the California post, Goin was assistant athletic director at West Virginia, from 1976 to 1979. At WVU, he was involved in several expansion projects, including construction of a new stadium and athletic facility.

Between 1960 and 1976, he held a variety of positions at Bethany (W. Va.) College including coaching assignments in football, basketball and baseball. Goin was associate professor and chairman of physical education and athletics at the school from 1972 to 1976, and coached Bethany football teams from 1963 to 1972.

While coaching at Bethany, two of Goin's football and baseball teams won President's Athletic conference championships. He also won numerous individual awards, including Tri-State Small College Coach of the Year, Pittsburgh and Ohio Dapper Dan awards and the Morgantown Touchdown Club award.

Goin received a bachelor's degree from Bethany in 1959 and his master's from West Virginia in 1962.

He and his wife, Nancy, have four children. One son, Brian, is an assistant football coach at Shippensburg (Pa.) State University.

Dr. Janice Stocker
Assistant Athletic Director

Dr. Janice Stocker begins her second year with the Florida State athletic administration. A veteran of 22 years of collegiate athletic experience, she serves as the prime women's administrator as well as handling several sports programs. They include volleyball, women's basketball, softball, men's and women's swimming and men's and women's tennis.

A native of Muncie, Indiana, Stocker has worked in almost every area of athletics, including coaching, teaching and administration.

Stocker has been a part of the athletic administration team of four universities as well as one conference. She was associate director of women's athletics at the University of Minnesota for the 1984-85 school year and prior to that appointment, was commissioner of the Wisconsin Women's Intercollegiate Athletic Conference that included 12 institutions.

She also worked as the assistant athletic director at West Virginia University from 1977 to 79, teaching and working with the entire program; at Ball State University where she was women's athletic director for six years; and at Slippery Rock where she taught and coached for four years.

Stocker received her bachelor's degree from Earlham College in Richmond, Va. in 1954 and holds a 1962 master's from Ball State. She completed her doctoral studies at Temple in 1972.

Claude Thigpen

Assistant Athletic Director

Claude Thigpen has been a member of the Florida State athletic staff for the past 32 years and has held his present position as assistant athletic director since 1978. He has been with the athletic department longer than any other employee.

Over the years he has held a variety of positions, including business manager, accountant and ticket manager.

He also handles certain aspects of game-day operations for football and oversees the athletic department courtesy car program.

During football season, the Greenville, Fla., native takes on added duties as he makes travel arrangements for the Florida State football team and its official party. This includes making airplane and hotel reservations for the entire Seminole group of up to 145 people.

Thigpen is married to the former Carleen Lindley.

Larry Pendleton

Assistant Athletic Director

Assistant athletic director Larry Pendleton is in his 13th year as a member of the Florida State athletic department staff. From 1975 to 1980, Pendleton was academic advisor for FSU male athletes, before assuming the position of assistant athletic director in July of 1980.

Pendleton's current post touches many areas of the department. He is responsible for maintaining and scheduling of all athletic facilities.

Additional duties include scheduling and making travel arrangements for the Seminole basketball team, and managing the athletic department insurance programs.

Pendleton coordinated the department's building of the Moore Athletic Center in 1983 as well as improvements to Doak Campbell Stadium, Dick Howser Stadium, Bim Stults Aquatic Center and Mike Long Track. He also supervised the building of FSU's softball complex.

A 1969 graduate of Florida State, Pendleton returned to his alma mater in 1973 as a graduate assistant football coach. In 1974, he became a full-time member of the Tribe family when he was hired as an assistant football coach. The next year, he moved to the academic advising position.

A native of Winter Garden, Fla., Pendleton played linebacker and offensive guard for the Seminoles in the late 1960s. FSU offensive coordinator Wayne McDuffie and Pendleton were the two starting guards on the Seminoles' 1967 Gator Bowl squad. Larry was twice selected to the Florida all-star team while starting 33 consecutive games and participating in three bowl games.

Charles Hurst

Assistant Athletic Director

Charles Hurst, one of the newest members of the Florida State Athletic Department staff, was hired last July to oversee FSU's business and ticket operations.

Although Hurst, 47, will be making his debut in the field of college athletics, he is certainly no stranger to the business aspect of the job. He came to the newly created position of Assistant Athletic Director for Business from the University of Florida, where he served as the Director of Internal Management Auditing since 1983. At Florida, Hurst directed a staff of 15 in developing all internal audit programs

within the university. Hurst had previously served as Manager of Internal Auditing at the University of South Alabama from 1981 to 1983.

The Talladega, AL native received his bachelor's degree from Jacksonville State (AL) University with a major in accounting and a minor in economics. He earned CPA status in 1975 while employed with the private accounting firm of Brooke & Freeman in Anniston, AL.

Hurst is also affiliated with several organizations related to his field, including the American Institute of Certified Public Accountants and the Florida and Alabama Societies of Certified Public Accountants.

Hurst and his wife, Juanita, are the parents of a daughter.

Dr. Beverly Yerg

Academic Coordinator

A member of the Florida State University faculty since 1977, Dr. Beverly Yerg is in her second year as academic coordinator for the athletic department. Yerg is responsible for implementing a plan to guide student athletes through their years of college.

Included in this plan is the evaluation of recruits for academic potential and the teaching of learning skills classes—mandatory two-hour classes for transfers and freshmen designed to teach basic survival skills of college life. The coursework includes goal setting, decision making, stress management, study skills and career planning.

Prior to taking the newly created position in 1986, Yerg was a member of two committees that studied the academic area of the athletic department. In 1983 she was on a six-member academic subcommittee of the athletic board that studied some of the problems of student athletes and recommended solutions in the form of the Student Academic Enhancement Plan. She also chaired a self-study committee in 1985 that studied every area of the athletic department.

A native of Warren, Pa., Yerg received a bachelor's degree in education from Temple University in 1960. She returned to Temple to finish a master's in education in 1973, and in 1977 she received her doctorate from the University of Pittsburgh.

Since 1977 Yerg has served as an assistant professor in the Department of Movement Science and Physical Education. In 1982 she was named department head, a position she held until 1985. She continues to hold the title of associate professor despite being named to the academic coordinator position in 1986.

A former national president of Delta Psi Kappa, the professional fraternity for Health, Physical Education and Recreation, Yerg belongs to many other professional organizations and has authored many articles and abstracts relating to teacher effectiveness and teacher education.

She is married to Robert Yerg and the couple has one son.

Brian Mand

Academic Advisor

Brian Mand is in his eighth year as the academic advisor for all men's varsity sports at Florida State. Since 1980, he has coordinated and supervised all athletic academic advisement and organized support programs dealing with academics for FSU football, basketball and baseball athletes.

Mand held similar positions at East Carolina (1979) and Rutgers (1977-79) before accepting the Tallahassee job. While at Rutgers, he also worked for a time in the office of admission, registration and student services as assistant to the director.

Mand earned a bachelor's degree in business administration from Wake Forest University in 1972. He received his master's degree in athletic administration in 1977 from Ohio State and also did some

graduate coursework in counseling at Rutgers. He is working on a doctorate at Florida State.

Mand is in his second year as president of the National Academic Athletic Advisor's Association. He has also been a member of the American Alliance for Health, Physical Education and Recreation.

Mand and his wife, Roberta, have a son.

Joe Labat

Athletic Business Manager

As athletic business manager, Joe Labat works with the day-to-day fiscal operations of the athletic department. He assists the assistant athletic director of financial planning in overseeing a staff whose responsibilities include overall budgeting, financial reporting, payroll, purchasing and travel.

Labat joined the athletic staff in 1978, moving from across campus where he served in the accounts payable section of the Florida State Controller's office.

An avid golfer and jogger, he also volunteers his time to officiate Florida State track meets.

Labat graduated from Florida State in 1967, then taught and coached football and track at Rickards High School in Tallahassee for two years before moving to the Florida State job.

A native of Tallahassee, Labat is a member of the National Business Manager's Association.

John Sheffield

Assistant to the Athletic Director

Entering his fifth football season at Florida State, John Sheffield serves as FSU's ticket coordinator. Sheffield directs the FSU season ticket campaigns for football, basketball and baseball and also organizes special event programs for the athletic department. He was responsible for computerizing FSU's ticket operation and oversees a staff of six who handle all FSU tickets.

Prior to his arrival in Tallahassee, Sheffield was director of ticket operations for the Tampa Bay Buccaneers from 1977 to 1982.

A 1975 graduate of Florida State, Sheffield worked in the FSU athletic department for a few months following graduation. He then moved on to the Atlanta Braves organization and later moved to Miami, where he was assistant ticket director for the Miami Dolphins. Before gaining the ticket director post in Tampa, Sheffield served as business manager for the North American Soccer League's Ft. Lauderdale Strikers.

Sheffield still retains ties with the NFL as he has coordinated ticket distribution for the last four Super Bowls.

He and his wife, Peggy, have a son.

Terry Hume

Promotions Coordinator

A former Florida State athlete, Terry Hume has been a member of the athletic staff for the past nine years. She is in her second year as the marketing director of the entire FSU athletic department.

Hume graduated from FSU in 1977 with an English and Business degree, capping a four-year volleyball career that saw her named team captain and MVP as a senior.

She went to work for her alma mater in October of 1978, assisting

former women's athletics director Barbara Palmer with a variety of administrative duties. She continued in that position until early in 1986 when the athletic department underwent a reorganization.

Hume's duties now include overseeing the department's advertising efforts as well as handling all promotional activities associated with FSU's 16 sports. She is also the department's advisor for its spirit groups.

The Tacoma Park, Md. native is a 1974 graduate of Coral Gables High School in Miami.

Gene Deckerhoff

Electronic Media Coordinator

Gene Deckerhoff is in his fourth year on the full-time staff at Florida State as its radio and television coordinator. He has been a member of FSU's football broadcast team for the past 10 years.

Deckerhoff joined the Seminole athletic family in November of 1983 after five years at WCTV Channel 6 in Tallahassee where he served as sports director and sports anchor. As the voice of the Seminoles, Gene first teamed with former FSU coach Bill Peterson for five years. He has spent the last five years working with color analyst Vic Prinzi. Deckerhoff has also been the Seminoles' play-by-play announcer for basketball for the last 11 years.

Since joining the FSU staff, Deckerhoff's responsibilities have grown to include executive producer of the Bobby Bowden Show as well as coordinator of all radio and television activity at FSU. Deckerhoff also co-hosts the Bobby Bowden Show.

He has also served as the play-by-play announcer for the Tampa Bay Bandits of the USFL.

Gene has worked at two television stations and four radio stations since entering the broadcasting field. He has received the Florida Sportscaster of the Year Award six times: in 1979, 1980, 1983, 1984, 1985 and 1986.

Deckerhoff and his wife, Ann, have three sons.

Wayne Hogan

Sports Information Director

Tallahassee native Wayne Hogan is in his sixth football season as Florida State sports information director.

Hogan is responsible for all publicity and public relations matters concerning the FSU athletic department. The SID office handles all information on 16 intercollegiate sports, encompassing both men and women's athletics.

A 1979 Florida State graduate, Hogan returned to his alma mater in 1982 after serving as assistant sports information director at New Mexico for two years. Prior to that move, he worked as Director of Public Relations and Broadcasting for two minor league baseball teams—the Charleston Charlies and the Albuquerque Dukes.

Hogan began his career in the public relations and broadcasting fields while a student at Florida State. From 1975 to 79, he performed a variety of duties for the Seminole athletic program, including working in the sports information office, engineering the Seminole Sports Network for football and basketball broadcasts and play-by-play announcing for baseball.

In addition to his duties as sports information director, Hogan handled color commentary for the Florida State basketball radio network from 1982 to '84 and again resumed those duties in the fall of 1985.

Wayne's father, Patrick Hogan, is a former FSU sports information director and now has the title of vice president for University Relations at Florida State.

Hogan and his wife, Elaine, have two daughters.

Lisa Franson

Associate Sports Information/
Publications Director

Lisa Franson has been a member of the FSU athletic staff for the past seven years; first as an assistant sports information director and then as the department's associate director. She has also handled department publications and printing for the last two years.

Two of the publications she handles are *TRIBE Magazine*, FSU's football game program, and the FSU Football Media Guide. In all, she has won 18 national awards for her publications, including the best football guide in the nation in 1983.

As associate SID, she works mainly with the football, basketball and track and field teams, coordinating publicity through the media.

A native of Pittsburgh, Pa., she earned a bachelor's degree in sports management from West Virginia University in 1980. While at WVU, she served as a student assistant in the SID office as well as being a member of the women's basketball team for three years. While at WVU she worked with the Eastern Eight Basketball League (now the Atlantic 10), producing the league's media guide in 1978.

She is married to Paul Franson.

Rob Wilson

Assistant Sports Information Director

Rob Wilson is the newest member of the Florida State athletic family. The 26-year-old native of Niceville returned to his alma mater in July to assume the duties of assistant sports information director.

Wilson spent the last three years in a similar position at East Carolina University. In addition to his duties as assistant SID, where he was the primary contact for the men's basketball team and editor of the school's football game program, Wilson was a color analyst on the Pirate Sports Network for basketball and football.

Wilson received a bachelor of arts degree in communication from Florida State in 1983. Following graduation, he spent the 1983-84 school year as a graduate assistant in the FSU Sports Information Office.

He originally attended Ole Miss for the 1979-80 school year where he played wide receiver for the Rebels under Steve Sloan, but transferred to Okaloosa-Walton Junior College where he received his A.A. degree in 1981.

Wilson is a bachelor.

David Zimroth (assistant basketball coach)	644-1060

SEMINOLE RADIO NETWORK

The Seminole Sports Network, a regional radio network covering three states, brings Florida State football to fans, alumni and college football enthusiast throughout the Southeast.

In June of 1985, Anheuser-Busch Sports Productions acquired the broadcasting rights to the network. Anheuser-Busch Sports Productions is a division of the Anheuser-Busch Marketing Department in St. Louis. The company also produces the St. Louis Cardinal Baseball Network, the University of Illinois Sports Network and a pair of nationally broadcasted weekly programs.

The Florida State network extends into some 51 markets and includes 54 stations. Locally in Tallahassee, WTNT carries Seminole Football.

For the ninth consecutive year, Gene Deckerhoff will bring the play-by-play into the homes of thousands of Seminole fans. Known as one of the finest announcers in the South, Deckerhoff has been named the Florida Sportscaster of the Year six times since 1979.

At Florida State, Deckerhoff is in his third year as the University's radio and television coordinator as well as the producer of the Bobby Bowden Show. He is also the Show's co-host.

Serving as Deckerhoff's color analyst is former Florida State quarterback Vic Prinzi (1954-57). A long-time friend and teammate of actor Burt Reynolds, Prinzi played briefly with the New York Giants and Denver Broncos following graduation from FSU. After a 12-year coaching career in high school and college football, Prinzi joined Dulin Brokerage in Tampa where he is Vice President of the Wholesale Division.
