T H I S I S

FLORIDA STATE

University

■ Florida State University, nearing its golden anniversary as a coeducational graduate research institution, is poised on the brink of joining the nation's academic elite.

Located on the oldest continuous site of higher education in Florida and building rapidly on the framework of a highly-regarded liberal arts college for women, the university has emerged over the past 45 years as an institution of national and international esteem. Its stature is evidenced by a number of recent additions to its record of excellence:

- In 1990, the National Science Foundation established the \$100 million National High Magnetic Field Laboratory at Florida State, which is partnered in research with the Los Alamos National Laboratory and the University of Florida. A Nobel laureate in physics and a top Russian physicist are among the first scholars drawn to the FSU faculty by the magnet lab.

- In 1990, Florida State ranked second in popularity nationwide among high school seniors, based on the number of students who requested that their Scholastic Aptitude Test (SAT) scores be sent to an institution. FSU was the only institution listed among the top 10 choices of both black and white college-bound students.

- FSU's high-tech program in structural biology in 1991 received the university's largest single foundation grant, \$4 million, to position it among the leaders in the field worldwide.

- Now the professional training ground for one of Florida's fastest growing industries, film production, FSU graduated the first class of graduate film students from its School of Motion Picture, Television and Recording Arts in 1991. Its students have already succeeded in producing award-winning films at national and international levels.

- To instill an awareness and understanding of the world's cultural diversity, FSU undergraduate students, beginning with the 1991 freshman class, are required to complete at least two courses that focus on diverse traditions beyond Western civilization. The multicultural

study requirement complements a long-established liberal studies program for undergraduates at Florida State.

- Florida's Office of Campus Volunteers, which matches college students with agencies in need of community service volunteers, is located at Florida State. It opened in 1990.

- The Dr. Bobby E. Leach Center, a state-of-the-art student recreation facility including an indoor pool, saunas, basketball and racquet-sport courts, was completed in 1991.

- Construction of the \$82 million University Center is underway adjacent to Doak Campbell Stadium. When completed, the University Center will provide 550,000 square feet of classroom and office space and a centralized location for student services. The three-phase project will include two eight-story buildings and three four-story buildings on the east and west sides of the stadium, enclosure of the south end zone and expansion of Moore Athletic Center.

- Capping more than a decade of national prominence in intercollegiate athletics, Florida State's athletic teams joined the prestigious Atlantic Coast Conference as its ninth member in 1990.

- In 1990-91, FSU ranked 20th in the nation in the number of black Ph.D. students it graduated. Over the five-year period from 1986 to 1990, FSU ranked eighth nationally by granting doctorates to 70 African-Americans.

- In 1992, FSU College of Law graduates led the state with a 97.5 percent passing rate among law graduates taking the state bar exam for the first time.

As this list attests, Florida State has begun the 1990s with exceptional strength, energy and vision for the future. Under the leadership of the university's 11th president, Dr. Dale W. Lick, FSU will continue to build on the foundation of its long history of excellence in scholarship, research and service.

A public institution and a senior member of the nine-member State University System, FSU was

founded as an institution of higher learning in 1851 by legislative act and began operating in Tallahassee with its first students in 1857.

A statue of Paul Dirac, a Nobel Prize winner in physics and former Florida State faculty member, sits outside the science library building that bears his name.

Today, Florida State's operating budget is \$412 million. Faculty and administrators generate more than \$100 million annually in external funding to supplement state-sponsored research. Three direct-support organizations serve to bolster the university: the private, non-profit FSU Foundation, which raises millions in private gifts to support academics, the Seminole Boosters and the FSU Alumni Association.

The main campus is spread over 396 acres in Tallahassee; FSU, which has the smallest campus in the SUS, acquired about 49 acres in 1991-92 after many years of being landlocked at 347 acres. The university owns a total of 1,172 acres in Leon, Bay and Franklin counties.

Within the state, FSU maintains facilities at its 25-acre campus in Panama City, its Marine Laboratory

101

SITY

SEMINOLE SIDELINE

The current expansion to Doak Campbell Stadium has little in common with the initial construction in 1950. Before the 15,000-seat stadium was opened that year, Florida State football players were paid one dollar an hour to assist in painting the structure. And once it did open, there were no dressing rooms, so players and coaches could not retire to their respective locker rooms; they met underneath the stands before the game and during halftime.

on the Gulf of Mexico and the Appleton Museum in Ocala. The university's theater and film professional-training programs, the FSU/Asolo Conservatory of Professional Actor Training and FSU/Asolo Conservatory of Motion Picture, Television and Recording Arts are both located in the Asolo Performing Arts Center in Sarasota. The Center for Professional Development and Public Service, housed in the Florida State Conference Center on the edge of the main campus, provides extensive credit and non-credit continuing education programs statewide.

For years, FSU has reached far beyond Florida through international programs in Switzerland, Yugoslavia, France, Panama, Costa Rica and the Caribbean. FSU's study centers in Florence, Italy, and London, England, are considered by many the nation's best in Europe.

Florida State offers 274 graduate and undergraduate degree programs through its eight colleges — Arts and Sciences; Business; Communication; Education; Engineering (operated jointly with Florida A&M University, a historically black institution); Human Sciences; Law; and Social Sciences (which also incorporates the School of Public Administration and Policy) — and eight schools — Criminology and Criminal Justice; Library and Information Studies; Motion Picture, Television and Recording Arts; Music; Nursing; Social Work; Theatre; and Visual Arts and Dance.

With 1,577 members, the FSU faculty currently includes five members of the National Academy of Sciences and four of the American Academy of Arts and Sciences, and has included five Nobel laureates. It is backed by 2,914 administrative, professional and support staff.

The main library facility, the Robert M. Strozier Library, is linked via a computerized information system to other state university and national research libraries. The Paul A.M. Dirac Science Center Library is located at the heart of the university's main science research complex.

On the top floor of the Dirac Library is the headquarters of the Supercomputer Computations Research Institute, a multidisciplinary, multinational program established in 1984 that brings together some 50 scientists, engineers and technicians. SCRI is electronically linked to an off-campus research complex and the university's two supercomputers.

Also providing unique research opportunities is the physics department's tandem Van de Graaff Superconducting Accelerator Laboratory, which houses two powerful atom smashers and is ranked among the top four nuclear research centers in the nation by the National Science Foundation.

Graduate students, who number more than 5,500, pursue advanced degrees in fields as diverse as business administration and theoretical particle physics. A

majority of research done at FSU is the direct result of student effort, culminating in numerous books and journal articles relating to the whole spectrum of intellectual interests and the practical needs of society.

FSU, a residential campus, places a high priority on its 28,600 students and their needs and interests. The Honors and Scholars program, the Distinguished Lecture Series, Student Government, the all-collegiate Flying High Circus and intramural sports are among more than 200 organizations and activities in which students participate.

Situated in the heart of the state's thriving capital city, Florida State's main campus blends Gothic and modern styles of architecture with the oaks, pines, dogwoods, palms and azaleas of North Florida.

Florida State continues to progress and grow — from its pre-Civil War foundation as the Seminary West of the Suwannee, through the early 20th century as the academically-respected Florida State College for Women, returning to coeducational status as a university in 1947, to its modern development as an acclaimed research institution, a top-ranked competitor in intercollegiate athletics and as a standard-setter in the basic sciences and the performing arts.

In all areas of its mission of excellence in teaching, research and public service, Florida State University is advancing boldly into the 21st century.

102

The Westcott Building and fountain at the entrance to the main campus has been a Florida State University landmark for over a century.

F S U
UNIVERSITY
Administration

Dr. Dale W. Lick
PRESIDENT
FLORIDA STATE UNIVERSITY

■ Dr. Dale W. Lick is the 11th president of Florida State University, a senior member of the nine public universities in Florida's State University System. The president heads a coeducational, research institution with an enrollment of 28,600 students, an operating budget of \$412 million and \$100 million in contracts and grants.

Lick, who took office at FSU in August of 1991, previously served as president of two institutions of higher education, the University of Maine and Georgia Southern College (now Georgia Southern University).

A mathematician by academic discipline, Lick also has held administrative positions at Old Dominion University, Russell Sage College and Drexel University.

A native of Michigan, born Jan. 7, 1938 in Marlette, Lick is an alumnus of Michigan State

University, where he received a bachelor of science degree in 1958, graduating in three years with honors, and a master of science degree in 1959, both in mathematics. He earned a Ph.D. in mathematics from the University of California at Riverside in 1965.

After completing his doctorate, Lick joined the faculty at the University of Tennessee-Knoxville as an assistant professor of mathematics. Two years later, while on leave, he was a visiting research mathematician at Brookhaven National Laboratory in New York. He returned to UT-Knoxville as a tenured associate professor of mathematics.

In 1969, Lick became head of the department of mathematics at Drexel University in Philadelphia, Pa., and at the same time served as an adjunct associate professor in biomathematics at Temple University Medical School. Also, from 1966 to 1971, he was a consultant to the Computing Technology Center of Union Carbide Corp. for Oak Ridge National Laboratory.

Lick moved to Troy, N.Y. in 1972 to serve as vice president for academic affairs at the private Russell Sage College. Two years later, he was named dean of the School of Sciences and Health Professions and professor of mathematics and computing sciences at Old Dominion University.

From July 1978 to September 1986, Lick was president of Georgia Southern and a professor of mathematics and computer science. He helped lead the Statesboro institution from a teachers' college to university status.

In September 1986, Lick became president and professor of mathematics at the University of Maine, the land-grant university and Sea Grant College of Maine, and the largest of the seven institutions in the University of Maine System.

Florida State's 11th president has been married since 1956 to Marilyn K. Foster. The Licks have three grown children, Kitty, Diana and Ronald.

With enrollment increasing and entrance requirements stiffening every year, more and more Florida State graduates enter the work force in Florida and across the nation.

ATHLETIC

Staff

Bob Goin ATHLETIC DIRECTOR

■ In his three years at the helm of the Florida State athletic department, Bob Goin has been one of the leading forces in moving Seminole athletics into the future. Presently, Goin is overseeing the expansion of Doak Campbell Stadium, the addition of the new state-of-the-art Academic Center, and the construction of the Daisy Parker Flory Wing of the Moore Athletic Center which will bring all FSU coaches and athletic staff under one roof.

BOB GOIN

Goin and former FSU President Bernard Slinger led the charge in Florida State's move into the prestigious Atlantic Coast Conference, and the 1992 football season, FSU's first as a conference member, marks the completion of the integration process. By implementing one of the nation's top compliance programs, spearheading the development of athletic facilities and committing himself to continuing FSU's success both on and off the athletic field, Goin has proven himself an excellent leader.

Among his many national responsibilities, Goin was recently named to the prestigious NCAA Interpretations Committee and to the Executive Committee of the Division I-A Athletic Directors Association. Goin also begins his second year as a member of the Atlantic Coast Conference Television Committee in 1992.

CHARLES W. EHRHARDT

An assistant and then associate athletic director at Florida State from 1982-90 before becoming the acting athletic director and then athletic director, Goin was responsible for many aspects of the day-to-day operation of the department. He was in charge of running all game-day operations for the Seminole football, basketball

and baseball teams, in addition to many other duties. Goin worked as tournament director for seven NCAA baseball regionals, including the South, Atlantic and East tournaments.

Goin came to Tallahassee in July of 1981 after two years as athletic director at California (Pa.) State College, where he was credited with expanding the athletic department. During his time there, he formed the Cal State Athletic Scholarship Fund and Athletic Booster Club.

Prior to taking the California post, Goin served as assistant athletic director at West Virginia University. From 1976-79, Goin was involved in several expansion projects at WVU, including construction of a new stadium and athletic facility.

From 1960-76, Goin worked at Bethany College, where he held a variety of positions, including associate professor and chairman of physical education and athletics. He also coached the football, basketball and baseball teams at Bethany.

A recipient of a number of coaching honors, Goin serves on many university-wide committees at Florida State. As chairman of the Compliance Committee, Goin has developed and implemented a program which protects the integrity of the University by making sure each and every regulation governing intercollegiate athletics is followed. He is a member of the Campus Alcohol and Drug Information Center Committee.

Goin and his wife, Nancy, have three sons — Doug, Brian and Bruce — a daughter, Janice, and two grandchildren — Nikk, 12, and Robbie, 8.

Charles W. Ehrhardt FACULTY ATHLETIC COMMITTEE CHAIRMAN

■ In his ninth year as Chairman of the FSU Athletic Committee, Professor of Law Charles Ehrhardt

continues to be an important voice for Florida State on the national level. Ehrhardt is a member of the National Collegiate Athletic Association's Special Committee, which was appointed by NCAA Executive Director Dick Schultz to review the NCAA Enforcement and Infractions process.

Twice elected president of the Metro Conference, Ehrhardt is a past chair of the Faculty Athletics Representatives Association. He has been a member of the College Football Association's Monitoring Committee since 1989.

This is Ehrhardt's second stint on FSU's Athletic Committee. A professor of Law at Florida State since 1967, he first served as a member of the committee from 1969-71. He was reappointed to the board in 1983 and succeeded Dr. James Jones as chairman in 1984, thus becoming Florida State's representative to the NCAA.

A highly-respected expert in the field of Evidence, Ehrhardt is the Ladd Professor of Evidence in the Florida State College of Law. He wrote the Florida Evidence Code, passed by the state legislature in 1976, which deals with the admissibility of evidence in court trials. Ehrhardt has written a book on evidence, which is now in its third edition.

Ehrhardt is in demand as a lecturer and speaker. He works with lawyers and judges nationwide as a private consultant on evidence matters. He currently teaches in the areas of torts, evidence, trial advocacy and sports law. He has been honored four times as the outstanding professor in FSU's College of Law and was the recipient of a University Teaching Award in 1989.

A native of Elkader, Iowa, Ehrhardt received a bachelor's degree from Iowa State University in 1962. He went on to the University of Iowa, where he earned his law degree two years later. He eventually became an Assistant United States Attorney in Iowa before coming to Tallahassee.

Ehrhardt and his wife, the former Judy Sutton, have three children.

The spacious atrium area of the Moore Athletic Center offers an attractive setting for the latest bowl and individual trophies picked up by the Seminole football team, and houses the Florida State Sports Hall of Fame.

Dr. Janice Stocker ASSOCIATE ATHLETIC DIRECTOR

■ Now in her seventh year with the Florida State athletic program, Dr. Janice Stocker was promoted to associate athletic director in 1992 after working as an assistant athletic director in her first six years at FSU. She continues to oversee the operation of the entire non-revenue sports program, as well as serving as the department's senior women's administrator.

The Muncie, Ind., native has worked in nearly every area of athletics, including coaching, teaching, and administration, in her 28 years as a collegiate athletic administrator.

Stocker has been a member of athletic administrations at four universities and one conference. She was commissioner of the Wisconsin Women's Intercollegiate Athletic Conference, which included 12 institutions, before serving as associate director of women's athletics at the University of Minnesota just prior to her arrival in Tallahassee in 1987.

Her earlier work included a stint as assistant athletic director at West Virginia University from 1976-79, where Bob Gojn was also an assistant AD. There, she was involved in the planning of the athletic facility. Prior to that, Stocker was women's athletic director at Ball State University for six years, and

an instructor and coach at Slippery Rock for four years.

Stocker received her bachelor's degree from Earlham College in Richmond, Ind. and earned her master's degree from Ball State University. She completed her doctoral studies at Temple University in 1972.

Charles Hurst ASSISTANT ATHLETIC DIRECTOR

■ The man responsible for all financial and business affairs at Florida State, Charles Hurst is beginning his sixth year as Assistant Athletic Director. His duties include supervision of the annual budget, business and ticket office operations, facilities management, personnel records administration and coordination of legal and administrative matters with university officials.

He came to Tallahassee after a stint at the University of Florida, where he was Director of Internal Management Auditing from 1983-87. While there, he guided a staff of nine in developing all internal auditing programs within the university. Hurst also served as Manager of Internal Auditing at the University of South Alabama from 1981-83.

A native of Talladega, Ala., Hurst received his bachelor's degree from Jacksonville State (Ala.) University with a major in accounting and a minor in economics. He earned CPA status in 1975 while

employed by the private firm of Brook and Freeman in Anniston, Ala.

Hurst is affiliated with several organizations related to his field, including the American Institute of Certified Public Accountants and the Florida and Alabama societies of Certified Public Accountants.

He and his wife, Juanita, have a daughter.

Andy Urbanic ASSISTANT ATHLETIC DIRECTOR

■ Andy Urbanic begins his third year with the Florida State athletic staff as assistant athletic director in charge of football operations. Urbanic's primary responsibility is to oversee all aspects of the football program, including team travel and home game operations, practice, class attendance, and dining hall and dormitory operations.

Urbanic came to Tallahassee with more than 20 years of experience in collegiate athletics, mostly as a football coach. Prior to taking the administrative post at Florida State, he was at the University of Akron (Ohio) — as offensive backfield coach and recruiting coordinator from 1986-87, and as assistant head football coach and offensive coordinator from 1987-88.

From 1980-86, Urbanic was the offensive backfield coach at the University of Pittsburgh, where he also directed the Pitt Panther and Foge Fazio football clinics.

Several Pennsylvania high school football programs benefited from Urbanic's abilities. He coached six undefeated seasons and earned eight state high school championships while coaching high school football. From 1976-78, his Pittsburgh Penn Hills Senior High team posted a 52-game winning streak.

Urbanic is a past president and member of the board of directors of the Pennsylvania State High School Coaches Association and remains active in the American Football Coaches Association.

He and his wife, Dorothy, have two daughters.

DR. JANICE STOCKER

CHARLES HURST

ANDY URBANIC

Dr. John Eason

ASSISTANT TO THE ATHLETIC DIRECTOR

■ An 11-year veteran of the Seminole football coaching staff, John Eason begins his third year with dual duties within the Florida State athletic program in 1992.

Eason's role on the field is coaching FSU's highly successful wide receivers. As an administrator, he works with Florida State athletes in all sports, in the area of student affairs and academics. He monitors the academic progress of the Seminole football team, working closely with the department's academic support crew.

A native of Ocala, Fla., Eason joined Florida State from Tallahassee's Lincoln High School, where he was assistant principal of student affairs for two years. He also coached high school football locally, serving as offensive coordinator at Leon High from 1973-79.

A receiver and punter for Florida A & M University from 1963-67, Eason earned All-America honors his junior and senior years. He was named Most Valuable Player of the Rattler squad his final two seasons and was invited to play in the Blue-Gray All-Star Game following his senior year.

Eason played two years of professional football with the Oakland Raiders after his collegiate playing days ended. He began his coaching career at Vanguard High School in Ocala, where he coached until 1971. He returned to pro football in 1972 to play for the Montreal Alouettes of the Canadian Football League.

Eason holds a doctorate in Educational Administration from Florida State and received both his bachelor's and master's degrees from Florida A&M.

He and his wife, Dorothy, have a daughter, Amanda.

DR. JOHN EASON

JOE LABAT

Joe Labat

ASSISTANT TO THE ATHLETIC DIRECTOR

■ A native of Tallahassee, Joe Labat begins his 14th year on the FSU athletic staff in 1992. He is in his third year as assistant to the athletic director, where his primary duty is to coordinate scholarships and financial aid assistance for Florida State student-athletes in all 18 sports. Labat also is involved in a variety of other activities as assigned by the athletic director. Recently, he served as tournament director for the 1992 NCAA South II Baseball Regional held at Dick Howser Stadium in Tallahassee.

Labat joined the athletic staff in 1978 after working in the accounts payable section of the Florida State Controller's office across campus. He spent the next nine years handling the day-to-day fiscal operations of the athletic department as the athletic business manager.

Upon graduation from Florida State in 1967, Labat began teaching and coaching football and track at Tallahassee's Rickards High School. After five years at Rickards, he moved into athletic administration at Florida State.

Labat is a member of the Collegiate Business Administrators Association and the Florida Institute of Certified Public Accountants.

He and his wife, Marcia, have a daughter, Sarah.

Brian Mand

ASSISTANT TO THE ATHLETIC DIRECTOR

■ In 1992, Brian Mand begins his 15th year on the athletic staff at Florida State. He is in his fourth year as an assistant to the athletic director, where he concentrates on compliance matters. His duties include coordinating and overseeing NCAA, Atlantic Coast Conference and institutional compliance, implementing and directing FSU's rules education programs and serving as the liaison to the NCAA and conference for legislative interpretations.

Prior to taking over his current job, Mand served as academic advisor to FSU athletes from 1980-89. Before coming to Tallahassee, Mand held academic advising positions at

East Carolina and Rutgers.

Mand earned a bachelor's degree in business administration from Wake Forest University in 1972. He earned his master's degree in athletic administration from Ohio State in 1977 and has completed coursework on a doctorate in athletic administration at Florida State. He was recently inducted into the Phi Kappa Phi National Honor Society.

Mand is a member of the American Alliance for Health, Physical Education, Recreation and Dance, the North American Society of Sports Management and the National Association of Athletics Compliance Coordinators.

Mand and his wife, Roberta, have a son, Brandon, and a daughter, Krystina.

John Sheffield

ASSISTANT TO THE ATHLETIC DIRECTOR

■ In 1992, Georgia native John Sheffield celebrates his 10th football season at Florida State. His responsibilities lie primarily in the areas of tickets and special events.

As ticket coordinator, Sheffield directs the FSU season ticket campaigns for football, basketball and baseball, and oversees the Florida State ticket office operation. He works closely with the FSU Sports Information and Sports Marketing offices to increase ticket sales and awareness. He brought the first computers into the Seminole Ticket Office and his six-person staff handles FSU ticket sales at all athletic events. Under his direction, Florida State's football season ticket sales have increased yearly.

A 1975 graduate of Florida State, Sheffield served as director of ticket operations for the Tampa Bay Buccaneers from 1977 to 1982 before returning to his alma mater as ticket manager in 1983.

Following graduation, Sheffield worked for the FSU athletic department and the Atlanta Braves before joining the Miami Dolphins as assistant director of tickets. He was the business manager for the Ft. Lauderdale Strikers of the North American Soccer League before taking the post with the expansion Buccaneers.

Sheffield retains his ties with the National Football League and has worked the last 13 Super Bowls.

He and his wife, Peggy, have two sons — John Jr. and Sam.

106

BRIAN MAND

JOHN SHEFFIELD

Greg Phillips ATHLETIC BUSINESS MANAGER

■ Greg Phillips starts his third year as Florida State's Athletic Business Manager in 1992 and has logged a total of six years with the Seminole business office since 1986.

Phillips handles the day-to-day fiscal operations of the department and helps the assistant athletic director of financial planning in budgeting, financial reporting, payroll, purchasing and travel. Phillips is also responsible for all departmental computer operations, a larger and more important job each year.

Phillips completed his master's degree in accounting at Florida State in 1986 and joined the athletic staff in the fall of that year as an assistant to the Athletic Business Manager. Working up through the ranks, he took over his current position in the fall of 1989.

A member of the College Athletic Business Management Association, Phillips completed a master's degree in Sport Management at the United States Sports Academy.

Phillips, a native of Bartow, Fla., is married to the former Deanna Porter.

Bernie Waxman FACILITIES COORDINATOR

■ Bernie Waxman begins his second year as facilities coordinator for the FSU athletic department this year. Presently, Waxman is heading up the planning and development of the new Scott Speicher Tennis Center at Don Loucks Courts, and the addition to the Coyle E. Moore Athletic Center.

Waxman oversees all scheduling and maintenance of FSU's many athletic facilities, including Mike Long Track, Dick Howser Stadium (baseball), Doak Campbell Stadium (football), the Moore Athletic Center, the football practice fields and Lady Seminole Field (softball). He directs the upkeep of these areas and is involved in all additions and construction work on the facilities.

One way or another, Waxman has been involved with FSU athletics for nearly 25 years. A 1971

graduate of Florida State, he earned three letters as a member of the FSU track and field team and captained the squad in 1972. He also earned his master's degree from FSU that year.

Waxman worked for the Tallahassee Parks and Recreation Department for two years before returning to FSU as assistant intramurals director in 1974. He later became director of intramurals, a post he held for more than 10 years prior to moving over to the athletic department last year.

During his time at the intramural office, Waxman served as a master official for track and field and as the head statistician for all Florida State men's and women's basketball and football games.

Waxman has completed coursework on a doctorate in Athletic Administration and is currently writing his dissertation. He is married to the former Lisa Kinch, also a former FSU track and field athlete. The couple has a three-year-old daughter, Gabrielle.

Dr. Beverly Yerg DIRECTOR OF ACADEMIC SUPPORT SERVICES

■ Dr. Beverly Yerg is in her seventh year directing Florida State's academic programs for the athletic department. A member of the Florida State University faculty since 1977, Yerg has helped Florida State student-athletes adjust to the pressures of college life by implementing a plan to guide student-athletes through their college years.

Her duties include evaluating recruits for academic potential and teaching academic enhancement classes. These mandatory, non-credit classes are designed to teach basic survival skills of college life to incoming transfers and freshmen. The class includes library orientation, time management, recognizing and managing stress and career planning.

Yerg also oversees the professional staff who deliver advising and tutorial services to the men and women in all varsity sports.

She began working with the athletic department in 1983 on a subcommittee of the athletic board that studied some of the problems of student-athletes and recommended solutions in the form of the Student Academic Enhancement Plan. In 1986, she became the first

director of academic support services.

A native of Warren, Pa., Yerg received her bachelor's and master's degrees in education from Temple University. She received her Ph. D. from the University of Pittsburgh in 1977.

Yerg served as an assistant and associate professor in Florida State's Department of Movement Science and Physical Education from 1977 to 1982, when she was named department head. She continues to hold the title of associate professor and teach classes in the department.

A former national president of Delta Psi Kappa, the professional fraternity for Health, Physical Education and Recreation, Yerg belongs to several other professional organizations and has authored many articles and abstracts related to teacher effectiveness and teacher education.

She and her husband, Robert, have one son, David, a 1988 graduate of FSU.

GREG PHILLIPS

BERNIE WAXMAN

Terry Hume DIRECTOR OF SPORTS MARKETING & PROMOTIONS

■ Terry Hume, a former Florida State athlete, begins her seventh year as the Director of Sports Marketing and Promotions for the FSU athletic department. This year marks her 14th as a member of the athletic staff.

A 1977 graduate of Florida State, Hume began working at her alma mater in October of 1978 as an assistant to former women's athletic director Barbara Palmer. In that capacity, Hume handled a variety of administrative duties, including promotion of Florida State's non-revenue sports. She ascended to her current position in 1986.

Hume now oversees all the department's advertising efforts and directs all promotional activities associated with FSU's 18 sports. She is responsible for the Florida State spirit groups and supervises a staff of five.

Hume was a four-year

DR. BEVERLY YERG

TERRY HUME

107

letterwinner on the Lady Seminole volleyball team while earning degrees in English and business. She was named team captain and Most Valuable Player her senior year.

A native of Tacoma Park, Md., Hume graduated from Coral Gables High School in Miami. She has a daughter, Amy Lauren.

Wayne Hogan DIRECTOR OF COMMUNICATIONS

■ Now in his 11th football season as the sports information director at Florida State, Tallahassee native Wayne Hogan begins his third year as Director of Communications. He is responsible for all areas of marketing, promotions and electronic media, as well as directing the operations of the FSU Sports Information Office.

Hogan and his staff handle the compilation and distribution of all information on Florida State's 18 intercollegiate sports. They serve as the liaison between Florida State athletics, the media and the public. The sports information staff includes three assistant SIDs, an administrative assistant and several student assistants.

Hogan began his career in the public relations and broadcasting fields while a student at Florida State. From 1975-79, he worked in the Sports Information Office, engineered the Seminole Sports Network broadcasts for football and basketball, and was the play-by-play announcer for the Seminole baseball team.

After graduating from FSU in 1979, he worked for two minor league baseball teams—the Charleston (W. Va.) Charlies and the Albuquerque (N.M.) Dukes—before taking over as assistant sports information director at New Mexico, where he worked for two years before returning to Tallahassee in 1982.

In addition to his job as director of communications, Hogan is the play-by-play announcer for the Seminole baseball telecasts on the

Sunshine Network. For the past three semesters, he has taught a class in sports information in FSU's College of Communication.

Wayne's father, Patrick Hogan, is a former sports information director and vice president for public affairs at Florida State. He was inducted into the Florida State Athletic Hall of Fame in 1990.

Hogan has two daughters, Lindsay and Kelly. He and his wife, the former Dawn Dewberry, celebrated the first birthday of their son, Justis Patrick, last summer.

Kim McWilliams ASSISTANT SPORTS INFORMATION DIRECTOR

■ Kim McWilliams begins her second year as an Assistant Sports Information Director at Florida State in 1992.

A 1990 graduate of North Carolina State University, McWilliams handles publicity for three of FSU's highly successful women's sports programs and directs the sports information operation for several other Florida State non-revenue programs. Her main responsibilities are with the volleyball, women's basketball and softball teams as she travels with those squads.

McWilliams was a four-year letterwinner at N.C. State as an outside hitter for the volleyball team. She served as a co-captain her senior season while earning a degree in speech communication. McWilliams was a member of the Fellowship of Christian Athletes and made the Outstanding College Students of America list. She was named to the Atlantic Coast Conference honor roll.

Last spring, McWilliams coached a United States Volleyball Association 18-and-older team that participated in tournaments in Tampa and Orlando. Recently, she joined the board of directors of the Friendship at the Leon County Library.

A Tallahassee native, the former Kimberly Ayer is married to Shannon McWilliams, also from Tallahassee. Both graduated from North Florida Christian High School.

Donna Turner ASSISTANT SPORTS INFORMATION DIRECTOR

■ Gainesville, Fla. native Donna Turner enters her fourth year as a member of the Florida State athletic staff in 1992. Her main responsibilities lie with the highly successful Seminole football and baseball teams as a primary contact for both sports.

For the past three years, Turner edited *TRIBE Magazine*, the FSU football program. She has been media coordinator for two NCAA baseball regionals.

A 1985 graduate of Florida State, Turner returned to her alma mater in June of 1988 as an assistant sports information director. She previously held a similar position at Iowa State University in Ames, Iowa for two years.

Turner logged four years of experience in the FSU Sports Information Office as a student assistant from 1981-85. After obtaining her degree in communication, she went to Ohio University, and earned a master's degree in sports administration. She completed internships at East Carolina University and the University of North Carolina before going to Iowa State.

There, Turner served as primary contact for ISU's baseball, women's basketball and volleyball programs. Additionally, she served as editor of the Cyclone Watch, a monthly booster club publication, and co-edited the football game program.

A member of the College Sports Information Directors of America and the National Collegiate Baseball Writer's Association, Turner's publications have earned several awards. Most recently, her 1991 football media guide was judged "Best in the Nation" by CoSIDA. The 1989 Florida State Football Media Guide and the 1990 FSU Baseball Guide received the same honor.

Rob Wilson ASSISTANT SPORTS INFORMATION DIRECTOR

■ Rob Wilson enters his sixth year with the Florida State athletic staff in 1992 with a new assignment as the editor of *TRIBE Magazine*, FSU's football game program. This is in

addition to his duties as the primary media contact for the FSU men's basketball team, and his responsibilities with several other Seminole squads.

A 1983 Florida State graduate, the San Diego, Calif., native returned to his alma mater in July of 1987 as assistant sports information director.

Wilson came back to FSU from East Carolina University, where he was assistant sports information director from 1984-87. While there, he worked with the Pirate football and men's and women's basketball teams, and served as the color analyst on the Pirate Sports Network for basketball and football.

Wilson received a bachelor's degree in communication from FSU with a minor in chemistry. He spent the 1983-84 school year as a graduate assistant in the FSU Sports Information Office.

Wilson attended Ole Miss in 1979 and played wide receiver for the Rebels under Steve Sloan. One year later, he transferred to Okaloosa-Walton Junior College where he earned an associate of arts degree in 1981.

Wilson has won numerous

awards for his publications, including a "Best in the Nation" honor for his 1988-89 Seminole Basketball Media Guide.

Wilson married the former Sherrill Sturgis of Ocala, Fla., on August 1, 1992.

Boo Corrigan ASSISTANT DIRECTOR OF MARKETING & PROMOTIONS

■ Boo Corrigan is the newest member of the the FSU athletic staff as he joined the Sports Marketing Office on July 1, 1992 as the assistant director of marketing and promotions.

A 1990 graduate of Notre Dame, Corrigan spent the past year as an intern with the Atlantic Coast Conference Office. His duties at the ACC included assisting in development and promotion of championships and serving as the operations manager for two sites in the ACC-Big East Challenge. Corrigan was also involved in marketing research, advertising sales and the development of a

licensing program.

Previously, Corrigan was a volunteer assistant at Wake Forest University in the Sports Marketing Office, where he assisted with the promotion of events. He served as a production assistant for WFMY, a CBS affiliate in Greensboro, N.C., NBC in New York City and for Jefferson-Pilot Teleproductions in Charlotte, N.C.

While serving as a production assistant, Corrigan gained an impressive list of event experience. He has been involved with the 1989 National League Championship Series, Wimbledon and the Indianapolis 500, the ACC Basketball Championships, and the 1991 NBA All-Star Game and Playoffs.

At Florida State, Corrigan's main focus will be soliciting new sources of advertising revenue for the entire athletic program. In addition, he is responsible for managing promotions for FSU's non-revenue programs and will direct an effort to improve student support of Seminole athletics.

10.	1981	5	259,414	51,882

■ Home of the Florida State Football Seminoles since 1950, Doak Campbell Stadium continues to grow and improve to accommodate an ever-increasing group of Seminole football fans. During the 1992 season, the stadium will actually grow right in front of the fans' eyes as the enclosure of the south end zone is scheduled for completion in the fall of 1993.

The south end zone enclosure and expansion of the Moore Athletic Center on the opposite side of the field is just a small portion of the University Center project, which will provide 550,000 square feet of classroom and office space and a centralized location for student services when completed. The University Center will eventually

wrap around the entire stadium, giving the structure a whole new look.

The current expansion is the eighth in the history of the stadium. It will bring the capacity of Doak Campbell Stadium to 70,123, up nearly 10,000 seats from the 60,519 it has held since the last expansion in 1985.

It's hard to imagine the first Doak Campbell Stadium, with a capacity of 15,000 back in 1950. Since then, seven expansions added over 45,000 seats to the stadium before the current work began. In 1954, the stadium grew to a capacity of 19,000, and six thousand more seats were added in 1961. During the Bill Peterson era (1960-70), the stadium was expanded to 40,500

110

A look at the "old" Doak Campbell Stadium. In 1992, the south end zone will be enclosed to offer a whole new look as well as additional seats for more Seminole fans.

TH

seats, and it remained at that capacity for the next 14 years. Between 1978 and 1982, there were three more additions.

The new south end zone should provide even more of a home-field advantage for Bobby Bowden's Seminole football team, as if it needs any more advantage. Since Florida State defeated the Randolph Macon Yellowjackets, 40-7, on Oct. 7, 1950 in the first game ever played in Doak Campbell, the Seminoles have enjoyed unbelievable success at home. All-time, Florida State is 159-66-3 in 228 home games for a winning percentage of .704. Under Bobby Bowden, that percentage has improved to .831 with only 15 home losses in 16 years. Bowden's record at Campbell Stadium is 76-15-1.

An empty Doak Campbell Stadium is not exactly one of the most impressive sites in college football. But fill it with over 60,000 die-hard, garnet-and-gold clad, screaming Seminole fans on a humid September night or a sunny November afternoon, and the stadium is transformed into one of the most exciting places in the state and even the nation. On those six Saturdays a year, it's easy to see and hear why FSU's football teams have found so much success at home.

Last year, the largest crowd in history, 63,442, packed every nook and cranny of the stadium to watch a classic battle between the top two teams in the nation when FSU played Miami on Oct. 16th. All six Seminole home game attendances last year ranked among FSU's Top 20 of all-time. Florida State averaged over 61,000 fans per game at home for the second straight year and for only the third time in school history. The Tribe home games last year attracted 367,833 fans for an average of 61,305.

Named for Doak S. Campbell, the first president of Florida State University, the stadium sits adjacent to the Moore Athletic Center on the edge of the main campus. The stadium seats, each one offering an unrestricted view of the field, rise out of a Bermuda grass turf. Fans enjoy all the modern conveniences with spacious aisles, numerous concession areas and plenty of restroom facilities. A professional public address system, first aid booths and effective security system operate at every Seminole home game.

The field itself is one of the finest in college football, carefully managed and manicured year-round. A prescription athletic turf

(PAT) system installed in 1988 quickly alleviates drainage problems through a series of underground pumps. The field can go from seemingly flooded to merely wet in a matter of minutes, thanks to the pumps which allow a deeper root system in the natural turf.

Seminole football games are always a media event and the press box at Doak Campbell Stadium features seating for nearly 100 writers, as well as broadcast booths for radio and television. Rising above the west stands, the box also includes separate president's and operations levels, and a photo deck area outside the top floor.

Another change to Doak Campbell Stadium this season is the brand new scoreboard in the north end zone, which replaces the large board that used to stand on the opposite side. The new scoreboard will feature an expanded graphics and message center with its state-of-the-art electronics system.

With the enclosure of the south end zone and

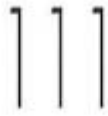

the start of the University Center project in 1992, the 1990s promise dramatic improvements to Florida State's football stadium. Like its residents, the Seminole football team and its fans, Doak Campbell Stadium is well on its way to becoming a top-notch facility, and a fitting showcase for Florida State University.

The largest crowd in Florida State history, 63,442, saw the top-ranked Seminoles and second-ranked Miami put on a classic show last November 16th.

SEMINOLE

Spirit

A symbol of Florida State football since 1977, Chief Osceola and Renegade are center stage before every FSU home game.

■ From the pregame ritual to the fourth-quarter fanfare, from the opening kickoff to the last tick of the clock, nothing compares to the pageantry and excitement of Seminole football. On a warm September night or a sunny November afternoon, fall Saturdays in Tallahassee mean only one thing — Florida State football.

Seminole football Saturdays have become a tradition for FSU fans, just as winning has become a tradition for the Tribe football teams. The excitement begins with the pregame tailgate parties and builds to a fever pitch as game time nears.

Minutes before kickoff, every eye is riveted on the north end zone. Suddenly, Chief Osceola and Renegade burst out of the tunnel onto the playing field, followed by Head Coach Bobby Bowden and the entire Seminole team.

A beautiful Appaloosa horse owned by Tallahasseean Bill Durham, Renegade gallops the length of the field. Riding Renegade, holding a 10-foot flaming spear, is Chief Osceola. The Chief is an FSU student carefully chosen and trained for this moment. He wears an authentic costume designed specifically for Florida State University by Seminole Indians. His face is covered with grease-based makeup with garnet and gold stripes added in FSU fashion.

Meanwhile, the Tribe cheerleaders encourage the packed and frenzied Doak Campbell Stadium crowd as the Marching Chiefs band pounds out an intimidating beat. The fans move their arms in unison to the now familiar, and much-imitated, Scalp 'Em cheer, following the beat of the drum. In the south end zone, Renegade fidgets and shakes his head, awaiting the end of the coin-toss proceedings. When Chief Osceola shakes the still-flaming spear over his head, the crowd roars its approval.

The game captains and referees finally leave midfield. The excitement reaches a crescendo. Renegade and Chief Osceola gallop to the middle of the field, where the Seminole head logo is painted. When the horse rears up on his hind legs, Chief Osceola plants the fiery spear into the turf.

The roar of the crowd is deafening. A thrill goes through the masses. The moment the spear hits the ground, an even larger cheer goes up while the Marching Chiefs start the Florida State fight song in the background.

Unique to Florida State, this opening show has become a trademark of Seminole football, featured on national television and recognized by fans across the country. Nothing can compare.

112

SEMINOLE SIDELINE

One of Florida State's most famous alumni and avid fans is actor Burt Reynolds, who went by the name Buddy during his days at Florida State. A promising running back, Reynolds visited Tallahassee in the spring of 1954, although he had already decided to play football at the University of Miami the following season. But FSU Head Coach Tom Nugent had other ideas and convinced Reynolds to spurn UM and play for the Seminoles. In 1954, Reynolds gained 134 yards on only 16 rushes for an average of 8.3 yards per carry and two touchdowns. A running back, Reynolds picked up 62 yards on three rushes against Auburn, with a long run of 54 yards. Reynolds also caught four passes for 76 yards in his only season of action at FSU.

The "scalp 'em" cheer, done in unison by the Seminole faithful for several years, has lately been imitated across the country.

THE

ACADEMIC SUPPORT & Student Services

■ Florida State football players work hard on the practice field. They endure hours of practice time, sit through meetings and even hit the weight room on an almost daily basis. They know that through hard work and dedication during the week, victory can be achieved each Saturday.

That same kind of hard work and dedication is required when it comes to the players' academic careers. The goal for every Florida State student-athlete — a degree.

Just as Seminole coaches work with the players to improve performance on the football field, a professional staff of academic support people work with the student-athletes to improve their performance in the classroom.

Florida State's academic support system is recognized as one of the strongest in the country. Soon, the importance of the student

Florida State student-athletes begin their academic indoctrination the minute they set foot on campus. All first-year student-athletes go through an orientation program which teaches time management and academic discipline, among other subjects. This program has proven effective in helping students adjust to the rigors of life as a student-athlete.

Dr. Beverly Yerg, a member of the FSU faculty since 1977, leads the academic support staff at Florida State. A full-time staff of four works with student-athletes year around in a variety of areas. Dr. John Eason, an assistant to the athletic director, works with Yerg's staff to monitor the class attendance and academic progress of each team member. Regular class attendance is required in order to participate in inter-collegiate athletics at Florida State.

Junior inside linebacker Ken Alexander is a strong candidate for Academic All-America honors in 1992.

Nick Menacof (l) conducts nightly study hall sessions throughout the school year for all Florida State student-athletes.

side of the student-athlete to the Florida State administration will be evidenced by a brand new state-of-the-art academic center which is a primary component of the new Daisy Parker Flory Wing of the Moore Athletic Center.

During the school year, nightly study halls and tutoring sessions help the student-athletes stay on course in their courses. The academic support staff works closely with the outstanding faculty at Florida State University, serving as

a liaison between the athletic and the academic departments of the University.

While awaiting completion of the new academic center, Florida State student-athletes enjoy the use of the 2,200 square foot study hall in the Moore Athletic Center. In addition to a study hall, the room serves as a resource center, where study carols, computers and basic reference materials are available. It is a quiet work area, completely devoted to the "student" part of the student-athlete.

The athletic department's Office of Student Services works closely with the academic support staff. The many functions of this office include monitoring eligibility and scholarship matters. They assist the student-athletes in dealing with scholarship paperwork and getting through some of the "red tape" that comes with being a student-athlete. The student services staff is the communication link between Florida State and Atlantic Coast Conference and NCAA officials.

For everyone in the Florida State athletic department — from the coaches and academic support people to student services staff and administration — giving each and every student-athlete every opportunity to earn a degree is the primary goal.

STRENGTH & Conditioning

■ "The Strong Shall Survive"

It's the motto of Florida State strength and conditioning coach Dave Van Halanger and his staff in the FSU weight room. It's also the philosophy that has made Seminole athletes in all sports among the strongest, fastest, fittest and most flexible anywhere.

At Florida State, the strong not only survive, they win. That's why the Seminole football team is dedicated to year-round weight training and constantly improving their physical gifts.

Thanks to a recent expansion, Florida State athletes now have a state-of-the-art facility in which to accomplish their goals. Last year, the weight room used by the Seminole football team moved from a 2,200 square-foot room to a spacious new area encompassing

Free weights, Cybex Eagle equipment and rowing and stair machines fill Florida State's huge weight room, which is open year-round.

7,200 square feet, but still located conveniently in the Moore Athletic Center. The carpeted and mirrored room includes exercise systems by Cybex Eagle as well as free weight equipment. A variety of exercise bicycles, rowing machines and Stairmasters incorporate both strength conditioning and cardiovascular endurance. The \$250,000 expansion made Florida State's strength complex one of the nation's finest.

In addition to the best equipment, Seminole athletes benefit from the professional guidance of Van Halanger, who takes a personal interest in every individual and tailors the weight programs to meet individual needs. Since Van Halanger's arrival nine years ago, Florida State athletes have improved their strength, speed, flexibility, quickness and explosion each year. The number

of athletes with top marks in the bench press, 40-yard dash and vertical jump, for example, increases every spring (see box).

Van Halanger, who completes a decade as the Seminoles' director of strength and conditioning in 1992, has the help of a pair of graduate assistants. They help in maintaining the weight room, working with non-revenue athletes and assisting Van Halanger with the football team.

Florida State student-athletes begin the strength and conditioning process the minute they step on campus. In addition to the physical work, Van Halanger and his staff believe in a three-pronged approach.

"The mental aspect of conditioning combined with a solid spiritual base is vital for our athletes to perform at the peak of their physical potential," says Van Halanger.
