

UNIVERSITY

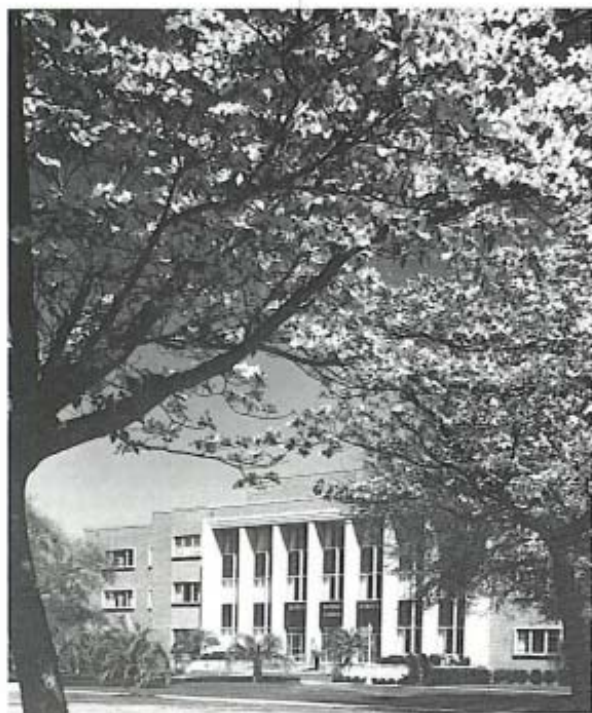

THIS IS FLORIDA STATE UNIVERSITY

SEMINOLE SIDELINE

Last year, Florida State earned \$1.4 million from licensing of FSU merchandise. That total ranked second among Florida's eight state schools with licensing programs. Miami led all state universities with \$3.5 million in sales while Florida was third, earning \$1.2 million.

Florida State's \$1.4 million is already accounted for as it will repay the bonded debt on the University Center construction project.

The dogwood trees and azalea bushes native to North Florida are everywhere on the Florida State campus, making it one of the prettiest in the nation.

Florida State University, nearing its golden anniversary as a coeducational graduate research institution, is poised on the brink of joining the nation's academic elite.

Located on the oldest continuous site of higher education in Florida and building rapidly on the framework of a highly regarded liberal arts college for women, the university has emerged over the past 46 years as an institution of national and international esteem. Its stature is evidenced by a number of exciting additions to its record of excellence since the decade of the 1990s began:

- ▼ In 1990, the National Science Foundation established the \$100 million National High Magnetic Field Laboratory at Florida State, which is partnered in research with the Los Alamos National Laboratory and the University of Florida. A Nobel laureate in physics and a top Russian physicist were among the first scholars drawn to the FSU faculty by the magnet lab. The new facility will be fully operational in fall 1993.
- ▼ At the forefront of supercomputing since obtaining its first high-speed computer in 1985, FSU took yet another step in ultrafast and parallel computing in 1990 when it acquired two supercomputers, the Thinking Machine Corp. Connection Machine and the Cray Y-MP.
- ▼ In 1990, Florida State ranked second in popularity nationwide among high school seniors, based on the number of students who request that their Scholastic Aptitude Test (SAT) scores be sent to an institution. FSU was the only school listed among the top 10 choices of both black and white college-bound students.
- ▼ FSU's high-tech program in structural biology in 1991 received the university's largest single foundation grant, \$4 million, to position it among the leaders in the field worldwide.
- ▼ The Appleton Museum of Art in Ocala, its vast and varied art collection and an eminent scholar chair were donated to FSU and Central Florida Community College in 1990. Valued at \$42 million, the gift is the largest ever received by Florida State.
- ▼ In 1990, the FSU School of Theatre began a mutual student-and-faculty exchange program with the renowned Moscow Art Theatre.
- ▼ Now the professional training ground for film production, one of Florida's fastest growing industries, FSU graduated the first class of graduate film students from its School of Motion Picture, Television and Recording Arts in 1991 and its first undergraduate class in 1993. The school offers a bachelor's degree program in Tallahassee and a master of fine arts program in Sarasota. Students are already producing award-winning films at national and international levels.
- ▼ To instill an awareness and understanding of the world's cultural diversity, FSU undergraduate students are required to complete at least two courses that focus on diverse traditions beyond Western civilization. The multicultural study requirement complements a long-established liberal studies program for undergraduates at Florida State.
- ▼ Florida's Office of Campus Volunteers, which matches college students with agencies in need of community service volunteers, opened at Florida State in 1990.
- ▼ The Dr. Bobby E. Leach Center, a state-of-the-art student recreation facility which houses an indoor pool, saunas, basketball and racquet sport courts, was completed in 1991.
- ▼ Construction of the \$82 million University Center got underway in 1991. When completed, the Center will provide 550,000 square feet of classroom and office space and a centralized location for student services. The three-phase project includes two eight-story buildings and three four-story buildings on the east and west sides of Doak Campbell Stadium, enclosure of the south end zone and expansion of the Moore Athletic Center.
- ▼ FSU ranked 20th in the nation for 1990-91 in the number of black Ph.D. students it graduates. Between 1986 and 1990, FSU ranked eighth nationally by granting doctorates to 70 African-Americans.
- ▼ In 1992, FSU College of Law graduates led the state with a 97.5 percent passing rate among law graduates taking the state bar exam for the first time.

The Florida State College of Law is quickly developing an excellent reputation.

SEMINOLE SIDELINE

How Seminoles? After the Florida State football team played its first game on October 18, 1947 without a name, FSU students were invited to submit ideas for potential names, on which the entire student body would vote. A week after the first game, the list was narrowed to six — Golden Falcons, Statesmen, Crackers, Senators, Indians and Seminoles. After the final ballot, "Seminoles" won out over "Statesmen" by 110 votes.

As this list attests, Florida State has begun the 1990s with exceptional strength, energy and vision for the future. Under the leadership of the university's 11th president, Dr. Dale W. Lick, who took office in August 1991, FSU will continue to build on the foundation of its long history of excellence in scholarship, research and service. Indeed, President Lick has set the goal of placing Florida State among the top 25 public institutions nationally by the year 2000.

A senior member of the 10-member State University System of Florida, FSU was founded as an institution of higher learning in 1851 by legislative act and began operating in Tallahassee with its first students in 1857.

Today, Florida State's operating budget is \$401 million. Faculty and administrators generate more than \$100 million annually in external funding to supplement state-sponsored research. Three direct support organizations serve to bolster the university: the private, non-profit FSU Foundation, which raises millions in private gifts to support academics, the Seminole Boosters and the FSU Alumni Association.

The main campus is spread over 405 acres in Tallahassee; FSU, which has the smallest campus in the SUS, acquired about 58 acres in 1991-92 after many years of being landlocked

at 347 acres. The university owns a total of 1,230 acres in Leon, Bay and Franklin counties.

Within the state, FSU maintains facilities at its 25-acre campus in Panama City, its Marine Laboratory on the Gulf of Mexico and the Appleton Museum in Ocala. The university's graduate theater and film professional-training programs are both located in the Asolo Performing Arts Center in Sarasota. The Center for Professional Development and Public Service, housed in the Florida State Conference Center on the edge of the main campus, provides extensive credit and non-credit continuing education programs statewide.

For years FSU has reached far beyond Florida through international programs in Switzerland, France, Panama, Costa Rica and the Caribbean. FSU's study centers in Florence, Italy, and London, England, are considered by many to be the nation's best in Europe.

Florida State offers 275 graduate and undergraduate degree programs through its eight colleges — Arts and Sciences; Business; Communication; Education; Engineering (operated jointly with Florida A&M University, a historically black institution); Human Sciences; Law; and Social Sciences (which also incorporates the School of Public Administration and Policy)—and eight schools—Criminology and Criminal Justice; Library and Information Studies; Motion Picture, Television and Recording Arts; Music; Nursing; Social Work; Theatre; and Visual Arts and Dance.

With 1,526 members, the FSU faculty currently includes five members of the National Academy of Sciences and eight of the American Academy of Arts and Sciences, and has included five Nobel laureates. It is backed by 2,837 administrative, professional and support staff.

Library holdings at Florida State include 1.98 million book titles, 18,436 serials and 3.9 million microforms. The main library facility, the Robert M. Strozler Library, is linked via a computerized information system to other state university and national research libraries. The Paul A.M. Dirac Science Center Library is located at the heart of the university's main science research complex. FSU also maintains extensive music, library science and law libraries.

On the top floor of the Dirac Library is the headquarters of the Supercomputer Computations Research Institute, a multidisciplinary, multinational program established in 1984 that

brings together some 50 scientists, engineers and technicians. SCRI is electronically linked to an off-campus research complex at Innovation Park and the university's two powerful supercomputers.

Also providing unique research opportunities is the physics department's tandem Van de Graaff Superconducting Accelerator Laboratory, which houses two powerful atom smashers and is ranked among the top four nuclear research centers in the nation by the National Science Foundation.

Graduate students, who number more than 5,700, pursue advanced degrees in fields as diverse as business administration and theoretical particle physics. A majority of research done at FSU is the direct result of student effort, culminating in numerous books, monographs and journal articles relating to the whole spectrum of intellectual interests and the practical needs of society.

FSU, a residential campus, places a high priority on its 28,500 students and their needs and interests. The Honors and Scholars program, the Distinguished Lecture Series, Student Government, the all-collegiate Flying High Circus and intramural sports are among more than 200 organizations and activities in which students can participate.

Situated in the heart of the state's thriving capital city, Florida State's main campus blends Gothic and modern styles of architecture with the oaks, pines, dogwoods, palms and azaleas of North Florida.

Florida State continues to progress and grow — from its pre-Civil War foundation as the Seminary West of the Suwannee, through the early 20th century as the academically respected Florida State College for Women, returning to coeducational status as a university in 1947, to its modern development as an acclaimed research institution, a top-ranked competitor in intercollegiate athletics and as a standard-setter in the basic sciences and the performing arts.

In all areas of its mission of excellence in teaching, research and public service, Florida State University is advancing boldly into the 21st century.

SEMINOLE SIDELINE

In 1993, four members of the Florida State football team have already earned bachelor's degrees and are working on master's degrees. Inside linebacker Ken Alexander graduated with a bachelor's degree in communications last spring after only 3½ years of study. Gerald Owens, a reserve defensive end, graduated last spring with a degree in criminology. Safety Richard Coes obtained his degree in finance, and receiver Matt Frier graduated with a degree in business communication this summer.

DR. DALE W. LICK PRESIDENT

Dr. Dale W. Lick took office as the 11th president of Florida State University in August 1991 and was formally inaugurated on Nov. 12, 1992.

He leads one of the senior institutions among the 10 public universities in Florida's State University System. Florida State is a coeducational, research institution with an enrollment of 28,500 students and an operating budget of \$401 million.

Lick previously headed two other institutions of higher education, the University of Maine and Georgia Southern College. He also held administrative positions at Old Dominion University, Russell Sage College and Drexel University.

Lick is a Michigan native, born Jan. 7, 1938, in Marlette, and is an alumnus of Michigan State University, where he graduated with honors in three years with a bachelor of science degree in 1958. He earned a master of science degree at Michigan State in 1959 and a Ph.D. from the University of California at Riverside in 1965. All three degrees were in mathematics.

After completing his doctorate, Lick joined the faculty at the University of Tennessee as an assistant professor of mathematics. Two years later, while on leave, he was a visiting research mathematician at Brookhaven National Laboratory in New York. He returned to UT as a tenured associate professor of mathematics.

In 1969, Lick became head of the department of mathematics at Drexel University in Philadelphia, Pa., while at the same time serving as an adjunct associate professor in biomathematics at Temple University Medical School. From 1966 to 1971, he also was a consultant to the Computing Technology Center of Union Carbide Corp. for Oak Ridge National Laboratory.

Lick moved to Troy, N.Y., in 1972 to serve as

vice president for academic affairs at the private Russell Sage College. Two years later, he was named dean of the School of Sciences and Health Professions and professor of mathematics and computing sciences at Old Dominion University.

From July 1978 to September 1986, Lick was president of Georgia Southern and a professor of mathematics and computer science. He was instrumental in leading the Statesboro, Ga., institution from a teachers' college to its current university status.

In September 1986, Lick became president and professor of mathematics at the University of Maine, the land-grant university and Sea Grant College of Maine and the largest of the seven institutions in the University of Maine System.

Florida State's 11th president has been married since 1956 to Marilyn K. Foster. The Licks have three grown children, Kitty, Diana and Ronald.

Every university has its signature building and at Florida State that landmark is the Westcott Administration Building at the main entrance to campus.

FSU ATHLETICS ON A ROLL

SEMINOLE SIDELINE

The nine Atlantic Coast Conference member institutions have claimed 65 NCAA or AIAW national championships in their histories. The ACC schools boast 290 first and second team All-Americans and 44 first team Academic All-America selections. The ACC is also well represented in the NFL. A total of 1,233 players picked in the professional football draft have come from league schools, including 74 first round selections.

A relative infant on the collegiate sports scene, Florida State has distinguished itself as one of the top all-around athletic programs in the country. And under the leadership of Athletic Director Bob Goin, it keeps getting better.

In just 46 years of competition in men's intercollegiate athletics, the Seminoles are becoming a household name—with the FSU football, basketball and baseball programs leading the way.

On the women's side, Florida State is even younger. FSU's first organized women's teams are celebrating a quarter-century of intercollegiate competition this decade. Yet, the Lady Seminole squads have claimed five national championships.

Each year, Florida State teams strive to climb one notch

higher on the ladder of national success. On July 1, 1991, Florida State joined one of the nation's most prestigious leagues when it entered the Atlantic Coast Conference. The move enabled Florida State's athletic program to reach new heights.

The 1992-93 school year marked Florida State's first season of ACC competition in all 16 sports. The triumphs nearly every FSU team enjoyed during the '92-93 season are unmatched in school history.

Athletically, Florida State claimed conference championships in football and softball, and finished in the upper division of nearly every league race. The softball team became Florida State's first repeat champion by winning the ACC title for the second consecutive year.

On the national scene, Florida State also enjoyed unprecedented success. FSU vied for the title of National Collegiate Athletic Association champion in 12 sports. The warriors of the gridiron, after a convincing 27-14 drubbing of Nebraska in the Orange Bowl, secured the school's highest national finish by placing second in the final college football poll.

The Tribe men's basketball team made its best showing in the NCAA Tournament since 1972 (when it reached the championship game) by advancing to the Elite Eight. That success followed a second-place finish in the Atlantic Coast Conference regular season race for the second consecutive year.

In tennis, the doubles team of Laura Randmaa and Audra Brannon made FSU history by advancing to the quarterfinals of the NCAA Championship Tournament, the highest finish ever by a Florida State duo or individual. Brannon also qualified on the singles side of the tournament.

For the fourth straight year, the Lady Seminole softball team emerged as NCAA Regional champions to advance to the eight-team College World Series. FSU is quickly becoming a regular at the championship in Oklahoma City.

Florida State qualified one of its largest contingents ever for the NCAA Outdoor Track & Field Championships in 1993. Ten

athletes qualified in 11 events, with Seminoles reaching the finals six times.

Volleyball continued its run of success by appearing in the national championship tournament for the eighth time. The baseball, swimming and diving, and men's and women's golf teams also all competed in NCAA Regional Tournaments.

Individually, Seminole coaches and athletes picked up more honors. Both Cecile Reynaud (volleyball) and Dr. JoAnne Graf (softball) were named ACC Coach of the Year in their respective sports. Pitcher Jonathan Johnson (baseball), leftfielder Shamalene Wilson (softball) and wide receiver Tamarick Vanover (football) all earned Rookie of the Year honors from the league. Johnson and Vanover were also named freshmen All-Americans.

Inside linebacker Marvin Jones capped an illustrious FSU football career by becoming only the second player in college football history to win both the Rotary-Lombardi and Butkus Awards in the same year. Jones also made Florida State football history when the New York Jets selected him with the fourth pick in the first round of the National Football League draft, making him the highest Seminole draft choice ever.

Florida State produced 10 All-Americans in 1993. Jones and Vanover were both named in football, while Randmaa and Brannon (tennis); Marla Looper, Lisa Davidson and Susan Buttery (softball); and Trinetta Johnson, Kevin Crist and Marcus Dixon (track & field) all garnered All-America honors.

Seminole athletes had a banner year in the classroom, too. Forty-six student athletes that competed for FSU in 1992-93 received undergraduate degrees. Four current football players have already graduated and are pursuing master's degrees in 1993.

Academically, 70 FSU student athletes were named to the ACC's Academic Honor Roll for 1992-93. These athletes maintained a grade point average of 3.0 or above for both the fall and spring semesters. The Lady Seminole golfers took top team honors among all 16

Lady Seminole tennis player Audra Brannon spent much of the 1992-93 season ranked nationally and finished the year as an All-American, along with her doubles partner, Laura Randmaa.

The Florida State Lady Seminole basketball team celebrated an upset victory over third-ranked Maryland in Tully Gym last January, marking the team's biggest win ever.

FSU teams with a 3.14 g.p.a. in the fall and a 3.32 mark last spring.

The FSU football team equaled its on-field success in the classroom as 29 players posted a grade point average above 3.0 for the spring semester. The team g.p.a. reached one of its highest points ever with a cumulative 2.44 mark last spring.

Football player Carl Simpson and golfer Kelly Pittman were named the University's ACC Scholar-Athletes of the Year. Simpson, a second round draft pick of the Chicago Bears, began work on a second degree while completing his eligibility last fall. The Baxley, Ga. native finished his career second on FSU's all-time sack list.

Pittman, who finished sixth at the 1993 conference tournament, graduated magna cum laude from Florida State last spring. She was the recipient of an ACC post-graduate scholarship for outstanding academic achievement and is currently pursuing a master's degree in marketing communication at FSU.

To support Seminole student athletes as they reach their full potential both on and off the field, the athletic department has undertaken several projects to improve the academic support services, and to upgrade many of the facilities. The expansion of the Moore Athletic Center as part of the University Center project means FSU student athletes will have access to a

state-of-the-art academic center, which will include individual study areas, the latest in computer technology, and a study hall and research area.

Other facility improvements include the ongoing expansion of Doak Campbell Stadium, which already sports a new look for the 1993 season with the completion of the south end zone. In addition, Mike Long Track, Tully Gym and Lady Seminole Field have all undergone upgrades. The Scott Speicher Tennis Center, completed this summer, is one of the finest collegiate tennis complexes in the country.

The Bobby E. Leach Center, home of the Seminole swimming and diving teams, will be the site of the 1994 Atlantic Coast Conference championships. FSU baseball's Dick Howser Stadium has been the site of 11 NCAA Regional baseball tournaments in the last 12 years, and has a reputation as one of the nation's best facilities.

Much of the ongoing expansion and facility improvements at Florida State are made possible by the financial backing the athletic department receives from the Seminole Boosters Inc., the second largest booster organization in the country.

Fans across the country are jumping on the Florida State bandwagon, as evidenced by the sale of FSU apparel. The Seminole logos and merchandise are among the five most popular sellers in the nation, which is another boon to the

University through licensing benefits.

With Florida State's vision toward the future, ever-improving facilities and the support of the University administration, athletic

department staff and fans across the country, the successes enjoyed by Florida State student athletes in 1992-93, both on and off the playing surface, are sure to continue for years to come.

In 1993, Florida State's baseball team continued a string of NCAA regional appearances with its 16th straight, the second-longest streak in Division I.

FLORIDA STATE ATHLETIC STAFF

Bob Goin ATHLETIC DIRECTOR

Florida State's athletic program has never experienced a growth period like the one currently in progress. From new facilities to the continued improvement of all 16 Seminole teams, both on the playing field and in the classroom, this growth has been spurred by the leadership of Athletic Director Bob Goin. In his fourth year at the helm of the Florida State athletic department, Goin is moving Seminole athletics into the future.

Recently, Goin saw the completion of the Scott Speicher Tennis Center at Donald Loucks Courts. The state-of-the-art tennis complex includes 12 lighted courts and 1,332 seats. It is continued proof of Florida State's commitment to building top-notch facilities for its athletes.

Goin is also watching over the expansion of Doak Campbell Stadium and the construction of the Daisy Parker Flory Wing of the Moore Athletic Center, which will bring all FSU coaches and athletic department staff under one roof for the first time in school history. Furthermore, the addition of a top of the line academic center shows Goin's commitment to a strong student athlete outreach program.

Goin was also a leading force in Florida State's move into the prestigious Atlantic Coast Conference in 1991. The decision to join the ACC has proven to be mutually beneficial to Florida State and the conference.

By implementing one of the nation's top compliance programs, spearheading the development of athletic facilities and committing himself to continuing FSU's unprecedented successes both on and off the athletic field, Goin has proven to be an excellent leader.

In addition, Goin is becoming a nationally-recognized leader. Recently, he was named the third vice-president of the Division I-A National Association of Collegiate Directors of Athletics, a position which will see him become president of that group in three years. Goin was also named a Chair of the College Football Association Board of Directors in 1993; he is a member of the NCAA Interpretations Committee. In 1993, Goin began his first year on the Atlantic Coast Conference Baseball Committee and his third on the ACC Television Committee.

An assistant and then associate athletic director at Florida State from 1982-90 before becoming the acting athletic director and then athletic director, Goin ran many aspects of the day-to-day operation of the FSU athletic department. He was in charge of all game-day operations for the Seminole football, basketball and baseball teams, in addition to many other duties. Goin worked as tournament director for seven NCAA baseball regionals.

Goin came to Tallahassee in July of 1981 after two years as athletic director at California (PA) State College, where he was credited with expanding the athletic department and forming the Cal State Athletic Scholarship Fund and Athletic Booster Club.

Prior to taking the California post, Goin served as assistant athletic director at West Virginia University. From 1976-79, Goin was involved in several expansion projects at WVU, including construction of a new stadium and athletic facility.

From 1960-76, Goin worked at Bethany College, where he held a variety of positions, including associate professor and chairman of physical education and athletics. He also coached the football, basketball and baseball teams at Bethany.

A recipient of a number of coaching honors, Goin has also

served on many university-wide committees. He and his wife, Nancy, have three sons—Doug, Brian and Bruce—a daughter, Janice, and two grandchildren—Nikki, 13, and Robbie, 11.

Charles W. Ehrhardt FACULTY ATHLETIC COMMITTEE CHAIRMAN

Entering his 10th year as the Chairman of the FSU Athletic Committee, Professor of Law Charles Ehrhardt is an important link for Florida State with the National Collegiate Athletic Association.

He is a member of the NCAA President's Commission Liaison Committee and the NCAA Special Committee which reviewed the Association's Enforcement and Infractions process.

During his tenure as the athletic committee chair, Ehrhardt twice served as president of the Metro Conference and at one time was the chair of the Faculty Athletics Representatives Association.

This is Ehrhardt's second stint on FSU's Athletic Committee. A professor of Law at Florida State since 1967, he first served as a member of the committee from 1969-71. He was reappointed to the board in 1983 and succeeded Dr. James Jones as chairman in 1984, thus becoming Florida State's representative to the NCAA.

A highly-respected expert in the field of Evidence, Ehrhardt is the Ladd Professor of Evidence in the Florida State College of Law. He wrote the Florida Evidence Code, passed by the state legislature in 1976, which deals with the admissibility of evidence in court trials. Ehrhardt has written a book on evidence, which is now in its third edition.

Ehrhardt is in demand as a lecturer and speaker. He works with lawyers and judges nationwide as a private consultant on evidence matters. He currently teaches in the areas of torts, evidence, trial advocacy and sports law. He has been honored four times as the

outstanding professor in FSU's College of Law and was the recipient of a University Teaching Award in 1989.

A native of Elkader, Iowa, Ehrhardt received a bachelor's degree from Iowa State University in 1962. He went on to the University of Iowa, where he earned his law degree two years later. He became an Assistant United States Attorney in Iowa before coming to Tallahassee.

Ehrhardt and his wife, the former Judy Sutton, have three children.

Charles Hurst ASSOCIATE ATHLETIC DIRECTOR

After five years as an assistant athletic director, Charles Hurst begins his second year as an associate athletic director in 1993 with responsibility over all of the athletic department's financial and business affairs.

Hurst's specific duties include supervision of the annual budget, business and ticket office operation, facilities management, personnel records administration and coordination of legal and administrative matters with university officials.

The Talladega, Ala. native came to Tallahassee after a stint at the University of Florida, where he was Director of Internal Management Auditing from 1983-1987. While there, he guided a staff of nine in developing all internal auditing programs within the university. He was Manager of Internal Auditing at the University of South Alabama from 1981-1983.

Hurst received his bachelor's degree from Jacksonville State (Ala.) University with a major in accounting and a minor in economics. He earned CPA status in 1975 while employed by the private firm of Brook and Freeman in Anniston, Ala.

Hurst is affiliated with several organizations related to his field, including the American Institute of Certified Public Accountants and the Florida and Alabama societies of Certified Public Accountants.

He and his wife, Juanita, have one daughter.

Dr. Janice Stocker ASSOCIATE ATHLETIC DIRECTOR

Dr. Janice Stocker enters her eighth year with the Florida State athletic program, and her second year as associate athletic director, in 1993. Promoted

from assistant athletic director in 1992, Dr. Stocker continues to oversee the operation of the entire non-revenue sports program at FSU, as well as working as the department's senior women's administrator.

The Muncie, Ind., native has worked in nearly every area of athletics, including coaching, teaching, and administration, in 29 years as a collegiate athletic administrator.

Stocker has been a member of athletic administrations at four universities and one conference during her career. She was commissioner of the Wisconsin Women's Intercollegiate Athletic Conference, which included 12 institutions, before serving as associate director of women's athletics at the University of Minnesota just prior to her arrival in Tallahassee in 1987.

Her earlier work included a stint as assistant athletic director at West Virginia University from 1976-79, where Bob Goin was also an assistant AD. There, she was involved in planning the athletic facility. Prior to that, Stocker was women's athletic director at Ball State University for six years, and an instructor and coach at Slippery Rock for four years.

Stocker received her bachelor's degree from Earlham College in Richmond, Ind. and earned her master's degree from Ball State University in Muncie, Ind. She completed her doctoral studies at Temple University in 1972.

Wayne Hogan ASSISTANT ATHLETIC DIRECTOR

Florida State graduate Wayne Hogan, in his 12th year on the athletic staff, begins his second year as Assistant Athletic Director for Communications in 1993. A long-time Seminole Sports Information Director, Hogan now is responsible for overseeing not only the SID office, but all phases of the department's marketing and promotions efforts.

Hogan works closely with the athletic director in the area of television and radio coverage, as well as on special events like the Golden Torch Gala and FSU Hall of Fame induction ceremonies. He is also involved in various fundraising projects. Hogan coordinates all operations for FSU home basketball games and will serve as the Tournament Manager for the 1995 NCAA Basketball Sub-Regional which will be held in Tallahassee.

Hogan began his career in public relations and broadcasting while a student at Florida State from 1975-79. After a stint as a sportswriter with the *Tallahassee Democrat*, Hogan worked in the sports information office at FSU as a student assistant. He served as the engineer/producer for the Seminole Sports Network for football and basketball and was the radio play-by-play voice of FSU baseball during that period.

After graduating with a communication degree in 1979, he handled play-by-play and public relations for two minor league (AAA) baseball teams — the Charleston (W.Va.) Charlies and the Albuquerque (N.M.) Dukes. While in Albuquerque, he was named assistant sports information director at the University of New Mexico. He spent two years there before being named SID at Florida State in the summer of 1982.

In addition to his duties as Assistant Athletic Director, Hogan is the play-by-play announcer for FSU baseball telecasts on the Sunshine Network. He also serves as host of the "Mike Martin Show" on the network. Twice daily, he does the "Wayne Hogan Seminole Report" on WTNT-FM in Tallahassee. One of his most popular ventures is the post-game call-in show, "Seminole Calls," broadcast after each football game on the Seminole Radio Network.

Hogan has also taught a Sports Information and Marketing class at Florida State as an adjunct professor in the College of Communication.

Hogan has two daughters — Lindsay and Kelly. He and his wife, the former Dawn Dewberry of Treasure Island, Fla., have a two-year-old son, Justis Patrick.

Brian Mand ASSISTANT ATHLETIC DIRECTOR

In 1993, Brian Mand begins his 14th year on the athletic staff at Florida State. He is in his second year as assistant athletic director in charge of compliance and student services.

Mand's duties include coordinating and overseeing NCAA, Atlantic Coast Conference and institutional compliance, implementing and directing FSU's rules education programs, and serving as the liaison to the NCAA and conference for legislative interpretations.

Charles Hurst

Dr. Janice
Stocker

Brian Mand

SEMINOLE SIDELINE

While Florida State's big games with its in-state rivals gather national attention, the truth is that the Seminoles have a national following. Over the years, FSU teams have faced opponents from every region of the country. In 46 seasons of college football, Florida State has faced teams from 30 different states, as well as the District of Columbia.

Andy Urbanic

Dr. John Eason

Joe Labat

Mand organizes the agent registration program and serves on various compliance-related committees. He supervises administrative staff in the areas of scholarships and financial aid, student services and eligibility certification, and the compliance assistance/student athlete database computer network.

Prior to taking over his current job, Mand served as assistant to the athletic director and compliance coordinator for three years, and as academic advisor to FSU athletes from 1980-88. Before coming to Tallahassee, Mand held academic coordinator positions in the athletic departments at East Carolina and Rutgers.

Mand earned a bachelor's degree in business administration from Wake Forest University in 1972. He earned his master's degree in sports management from Ohio State in 1977 and is currently completing a doctorate in athletic administration from Florida State, which he expects to earn this December.

He was inducted into the Phi Kappa Phi National Honor Society in 1988. Mand is a frequent lecturer in athletic administration classes at FSU and has taught an NCAA compliance class for high school and college coaches.

Mand is a past president of the National Association of Academic Advisors for Athletics (NAAAA) and is a current member of the National Association of Athletics Compliance Coordinators (NAACC).

He and his wife, Roberta, have a son, Brandon, and a daughter, Krystina.

Andy Urbanic ASSISTANT ATHLETIC DIRECTOR

In 1993, Andy Urbanic begins his fourth season as FSU's assistant athletic director in charge of football operations. He is directly responsible for all aspects of the football operation, including team travel, home game operations, practice, class attendance, and dining hall and dormitory operations.

He is charged with setting up Florida State's future football schedules and smoothly negotiated the Seminoles' football move into the Atlantic Coast Conference with regard to scheduling. He also assists the athletic director in day-to-day operations of the department.

Urbanic came to Tallahassee with more than 20 years of experience in collegiate athletics, mostly as a football coach. Prior to taking the administrative post at Florida State, he was at the University of Akron (Ohio), as offensive backfield coach and recruiting coordinator from 1986-87, and as assistant head football coach and offensive coordinator from 1987-88.

From 1980-86, Urbanic was the offensive backfield coach at the University of Pittsburgh, where he also directed the Pitt Panther and Foge Fazio football clinics.

Several Pennsylvania high school football programs benefited from Urbanic's coaching abilities. He coached six undefeated seasons and earned eight state high school championships while coaching high school football. From 1976-78, his Pittsburgh Penn Hills Senior High School team posted a 32-game winning streak.

Urbanic is a past president and member of the board of directors of the Pennsylvania State High School Coaches Association and remains active in the American Football Coaches Association.

He and his wife, Dorothy, have two daughters.

Dr. John Eason ASSISTANT TO THE ATHLETIC DIRECTOR

Entering his fourth year with dual duties in the Florida State athletic program, Dr. John Eason serves as an assistant to the athletic director and as the receivers coach for the Seminole football team.

A 12-year veteran of the coaching staff, Eason's role on the field is directing FSU's highly successful wide receivers. As an administrator, Eason works with Seminole athletes in all sports in the area of academics and student affairs. He monitors the academic progress of the Seminole football team, working closely with the department's academic support crew. His involvement touches all FSU student athletes.

In 1992, Eason earned the FSU Distinguished Administrator Award from the Black Alumni Association for outstanding service and commitment to excellence to the students of Florida State University.

A native of Ocala, Fla., Eason joined Florida State from Tallahassee's Lincoln High School, where he was assistant principal of student affairs for two years. He also coached

high school football locally, serving as offensive coordinator at Leon High from 1973-79.

A receiver and punter for Florida A & M University from 1963-67, Eason earned All-America honors his junior and senior years. He was named Most Valuable Player of the Rattler squad his final two seasons and was invited to play in the Blue-Gray All-Star Game and the Coaches All-American Game following his senior year. In 1984, he was inducted into the Florida A&M University Sports Hall of Fame.

Eason played two years of professional football with the Oakland Raiders after his collegiate playing days ended. He began his coaching career at Vanguard High School in Ocala, where he coached until 1971. He returned to pro football in 1972 to play for the Montreal Alouettes of the Canadian Football League.

Eason holds a doctorate in Educational Administration from Florida State. A distinguished alumnus of Florida A&M, Eason received both his bachelor's and master's degrees from that university.

He and his wife, Dorothy, have a daughter, Amanda.

Joe Labat ASSISTANT TO THE ATHLETIC DIRECTOR

A 15-year veteran of the Seminole athletic staff, Joe Labat begins his fourth year as assistant to the athletic director in 1993. Labat's primary duty is to coordinate scholarships and financial aid assistance for Florida State student athletes in all 16 sports.

Labat is also involved in a variety of other activities as assigned by the athletic director. Recently, he served as tournament director for the 1993 NCAA East Baseball Regional held at Dick Howser Stadium in Tallahassee. It was the third consecutive regional Labat has directed.

Labat, a native of Tallahassee, joined the athletic staff in 1978 after working in the accounts payable section of the Florida State Controller's office across campus. He spent the next nine years handling the day-to-day fiscal operations of the athletic department as the athletic business manager prior to moving into his current position.

The atrium of the Moore Athletic Center holds a multitude of trophies picked up by Seminole teams and athletes in all sports, retired jerseys, photos of many of FSU's all-time greats and the Florida State Hall of Fame.

Upon graduation from Florida State in 1967, Labat began teaching and coaching football and track at Tallahassee's Rickards High School. After five years at Rickards, he moved to Florida State.

Labat is a member of the Collegiate Business Administrators Association and the Florida Institute of Certified Public Accountants.

He and his wife, Marcia, have a daughter, Sarah.

John Sheffield ASSISTANT TO THE ATHLETIC DIRECTOR

John Sheffield begins his 11th season with the Florida State athletic department in 1993. A native of Georgia, Sheffield's responsibilities lie in the areas of tickets and special events.

As ticket coordinator, Sheffield directs the FSU season ticket campaigns for football, basketball and baseball, and oversees the Florida State ticket office operation. He works closely with the FSU Sports Information and Sports Marketing offices to increase ticket sales and awareness.

Sheffield brought the first computers into the Seminole Ticket Office, and his six-person staff handles FSU ticket sales at all athletic events. Under his direction, Florida State's football season ticket sales have increased almost every season; the Seminoles set a new record for season ticket sales again in 1993.

A 1975 graduate of Florida State, Sheffield served as director of ticket operations for the Tampa Bay Buccaneers from 1977 to 1982 before returning to his alma mater as ticket manager in 1983.

Following graduation, Sheffield worked for the FSU athletic department and the Atlanta Braves before joining the Miami Dolphins as assistant director of tickets. He was the business manager for the Ft. Lauderdale Strikers of the North American Soccer League before taking the post with the expansion Buccaneers in Tampa.

Sheffield retains many ties with the National Football League and has worked the last 14 Super Bowls.

He and his wife, Peggy, have two sons — John Jr. and Sam.

Dr. Roger Grooters DIRECTOR OF ACADEMIC SUPPORT SERVICES

The newest member of the Seminole athletic staff is Dr. Roger Grooters, who took over for Dr. Beverly Yerg as the Director of Academic Support Services this summer. Grooters will be responsible for evaluating recruits for academic potential, monitoring completion of degree requirements, and will oversee the professional staff who deliver advising and tutorial services to all Florida State athletes.

Grooters came to Tallahassee from the University of Nebraska at Lincoln where he

was the director of athletic academic programs since 1986. His academic advising program was honored as the nation's best in 1990. Under Grooters' direction, Nebraska consistently led the Big Eight Conference in academic and honor roll selections.

Prior to that, Grooters was the athletic director of South Washington County Schools in Cottage Grove, Minn.

A graduate of North Dakota State, Grooters has coached in the collegiate and high school ranks. He led the cross country programs and was an assistant track coach at both Oklahoma and Missouri. He taught physical education for eight years and coached track at his alma mater from 1968-74.

Grooters received both his bachelor's and master's degrees from North Dakota State. He also has a sixth-year degree in educational administration from St. Cloud State, and a doctorate in educational administration from Nebraska.

He has served as president of Region IV of the National Association of Academic Advisors for Athletics (N-4A) and as a member of the N-4A national executive board.

Grooters is married to Vicki Schurke-Grooters and they have seven children — Steve, Mark, Jon, Lisa, Ben, Kol and Josh.

Terry Hume DIRECTOR OF SPORTS MARKETING & PROMOTIONS

Terry Hume, a former Florida State athlete, begins her eighth year as FSU's Director of Sports Marketing and Promotions in 1993. This year marks her 15th as a member of the athletic staff.

A 1977 graduate of Florida State, Hume double majored in English Writing and Business and was a four-year letterwinner on the Lady Seminole volleyball team. She was named captain and Most Valuable Player of the squad her senior season.

Following graduation, she worked for a year as an intern feature writer for the *Tallahassee Democrat*. For the next three years, she wrote a weekly sports column for the paper.

In October of 1978, Hume returned to her alma mater to assist former women's athletic director Barbara Palmer with various administrative chores, including organizing a statewide lobbying effort that resulted in the Florida Legislature's passage in 1980 of the Women's Intercollegiate Athletic Equity Act.

SEMINOLE SIDELINE

The 1994 season will see Doak Campbell Stadium's seating capacity reach its highest mark ever. After the work in the north end zone is completed and another "pie" section is added at the north-west corner, the stadium will seat 74,655. However, in 1995 the capacity will drop to 71,717. The reason—the standard width of the U.S. bottom has apparently spread to 18 inches. The stadium was calibrated and painted with the 16-inch seat some years ago, so the repaint will reflect the wider seat and consequently, the loss of seats.

Greg Phillips

Bernie Waxman

Donna Turner

SEMINOLE SIDELINE

When Florida State ran out on the field clad in all-garnet for last season's Tulane game, they completed the trifecta of solid color uniforms. The Seminoles began the trend in 1983 when they wore gold jerseys and gold pants in a victory over Louisville. In 1988, FSU created quite a stir when the players entered Clemson's Death Valley in all-white uniforms. Last season, the Seminoles won two games in their garnet pants. And the man responsible for FSU's change of dress? None other than Florida State alum Burt Reynolds, who bought both the white and garnet pants for the Seminole players.

In 1985, Hume began marketing FSU's women's sports program. A year later, the men's teams were added to her responsibilities. She now oversees all advertising, marketing efforts and campaigns, as well as game promotions for FSU's 16 sports. Hume also sells sponsorships and oversees the University's spirit groups. She supervises a staff of five.

A native of Tacoma Park, Md., Hume graduated from Coral Gables High in Miami. She has a daughter, Amy Lauren.

Greg Phillips ATHLETIC BUSINESS MANAGER

Florida State alumnus Greg Phillips starts his fifth year as FSU's Athletic Business Manager in 1993, and has logged a total of seven years with the Seminole business office since 1986.

Phillips handles the day-to-day fiscal operations of the department and assists the associate athletic director in the formulation and implementation of fiscal policies and procedures, including internal accounting controls. He participates in budget preparation and is responsible for the department's accounting, cashiering, financial reporting, Title IX reporting, payroll, purchasing, and travel functions. Phillips also handles departmental computer operations.

Phillips completed his master's degree in accounting at Florida State in 1986 and joined the athletic staff in the fall of that year as an assistant to the Athletic Business Manager. Working up through the ranks, he took over his current position in the fall of 1989.

A member of the College Athletic Business Management Association, Phillips also completed a master's degree in sport management at the United States Sports Academy.

The Bartow, Fla. native is married to the former Deanna Porter.

Bernie Waxman FACILITIES COORDINATOR

In his third year as facilities coordinator, Bernie Waxman is currently one of the busiest people in the Florida State athletic department. He is overseeing the expansion of Doak Campbell Stadium and the addition to the Coyle E. Moore

Athletic Center going on with the University Center project. Waxman was also in charge of planning and development of the newly-constructed Scott Speicher Tennis Center at Don Loucks Court. Several other expansions and improvements are in the plans for the near future.

Waxman oversees all scheduling and maintenance of FSU's many athletic facilities, including Mike Long Track, Dick Howser Stadium (baseball), Doak Campbell Stadium (football), the Moore Athletic Center, the football practice fields and Lady Seminole Field (softball). He directs the upkeep of these buildings and is involved in all additions and construction work on the facilities.

One way or another, Waxman has been involved with Seminole athletics for 25 years. A 1971 graduate of Florida State, he earned three letters as a member of the FSU track and field team, and captained the squad in 1972. He also earned his master's degree from FSU that year.

Waxman worked for the Tallahassee Parks and Recreation Department for two years before returning to FSU as assistant intramurals director in 1974. He later became director of intramurals, a post he held for more than 10 years before moving over to the athletic department in 1991.

During his tenure at the intramural office, Waxman served as a master official for track and field, and as the head statistician for all Florida State men's and women's basketball and football games. In that capacity, he directed the crew which compiled statistics for all Seminole home games.

Waxman has completed coursework for a doctorate in Athletic Administration and is currently writing his dissertation. He is married to the former Lisa Kinch, also a former FSU track and field athlete. The couple has a four-year-old daughter, Gabrielle.

Donna Turner ASSOCIATE SPORTS INFORMATION DIRECTOR

In her sixth year as a member of the Florida State athletic staff, Donna Turner begins her second season as FSU's Associate Sports Information Director in charge of all Football Media Relations. As the primary media contact for the highly successful Seminole football program, Turner produces all of Florida State's football-related publications, including the award-winning media guide. She also handles all credential requests.

Turner has been the media coordinator for three NCAA baseball regionals held in Tallahassee and previously served as editor of *TRIBE Magazine*, the FSU football game program, and as FSU's Baseball SID.

A 1985 graduate of Florida State, Turner returned to her alma mater in June of 1988 as an assistant sports information director. Previously, she held a similar position at Iowa State University in Ames, Iowa for two years.

There, Turner helped coordinate publicity for the Cyclones' 21-sport athletic program. She served as primary contact for ISU's baseball, women's basketball, and volleyball programs in addition to working with the football and basketball squads.

The Gainesville, Fla. native logged four years of experience in the FSU Sports Information Office from 1981-85 as a student assistant. After obtaining her degree in communication, she went to Ohio University, where she earned a master's degree in sports administration.

A member of the College Sports Information Directors of America and the National Collegiate Baseball Writer's Association, Turner's publications have earned several awards. Most recently, her 1991 football media guide was judged "Best in the Nation" by CoSIDA. The 1989 Florida State Football Media Guide and the 1990 FSU Baseball Guide received the same honor.

Rob Wilson ASSOCIATE SPORTS INFORMATION DIRECTOR

Rob Wilson enters his seventh year on the Florida State sports information staff in 1993, and his second as Associate Sports Information Director. In that position, Wilson's primary role is as the media contact for the Seminole men's basketball team.

He produces the basketball media guide, game program, schedule cards and posters as well as handling all interview and information requests. In addition to many other duties, Wilson acts as the sports information office manager and is the editor of *TRIBE Magazine*, FSU's football game program.

A 1983 graduate of Florida State, the San Diego, Calif. native returned to his alma mater in July of 1987 as assistant sports information director.

Wilson came back to FSU from East Carolina University, where he was assistant sports information director from 1984-87. While there, he worked with the ECU football and men's and women's basketball teams, and was the color analyst on the Pirate Sports Network for basketball and football.

Wilson received a bachelor's degree in communication from FSU with a minor in chemistry. He spent the 1983-84 school year as a graduate assistant in the FSU Sports Information Office before going to East Carolina.

Wilson attended Ole Miss in 1979 and played wide receiver for the Rebels under Steve Sloan. One year later, he transferred to Okaloosa-Walton Junior College where he earned an associate of arts degree in 1981.

A member of the College Sports Information Directors of America and the National Basketball Writer's Association, Wilson has won numerous awards for his publications, including a "Best in the Nation" honor for his 1988-89 Seminole Basketball Media Guide.

Wilson is married to the former Sherrill Sturgis of Ocala, Fla.

Bob Burda ASSISTANT SPORTS INFORMATION DIRECTOR

Bob Burda begins his fifth year as a member of the FSU athletic staff in 1993. In his second year as an Assistant Sports

Information Director, Burda joined the SID staff as an Administrative Assistant in 1991.

Burda spent two years as a graduate assistant in the FSU Sports Marketing department in 1989 and '90 while completing his master's degree in marketing communication. Following graduation, he moved down the hall to join the sports information staff.

A 1985 graduate of Oakland (Mich.) University, Burda directs the sports information, publicity and publications for several of FSU's non-revenue sports. He is the co-editor of *TRIBE Magazine*, Florida State's football game program, and assists with media operations for the Seminole football, men's basketball and baseball teams. He has upgraded the SID office's computer facilities since assuming the role of computer "expert" in the office.

A native of Rochester Hills, Mich., Burda worked in advertising in Detroit before coming to Tallahassee in 1989. An avid hockey enthusiast and former player, he was a member of a state championship and a national tournament final four team during his 22-year playing career. He led another team to a state championship as the head coach. Burda is the player/advisor for the FSU Roller Blade Hockey Club.

Boo Corrigan ASSISTANT DIRECTOR OF MARKETING & PROMOTIONS

Entering his second year as Assistant Director of Marketing and Promotions, Boo Corrigan's primary responsibility is to solicit new sources of advertising revenue for the entire Florida State athletic program. He is also responsible for managing promotions for FSU's athletic programs and directs an ongoing effort to improve student support of Seminole athletics.

Following graduation from Notre Dame with a degree in economics in 1990, Corrigan worked as an intern in the Atlantic Coast Conference Office. His duties at the ACC included assisting in development and promotion of championships and serving as the operations manager for two sites in the ACC-Big East Challenge. Corrigan was involved in marketing research, advertising sales and the development of a licensing program while with the conference office.

Corrigan has worked in almost every facet of the sports field. He was a volunteer

assistant at Wake Forest University in the Sports Marketing Office, where he helped promote live events. He served as a production assistant for WFMY, a CBS affiliate in Greensboro, N.C., and for ESPN, NBC and Jefferson-Pilot Teleproductions.

While working as a production assistant, Corrigan gained an impressive list of event experience. He worked the 1989 National League Championship Series, Wimbledon Tennis Championships and the Indianapolis 500, the ACC Basketball Tournament, and the 1991 NBA All-Star Game and Playoffs.

A native of Charlottesville, Va., Corrigan is single.

Kim McWilliams ASSISTANT SPORTS INFORMATION DIRECTOR

In 1993, Kim McWilliams begins her third year as an Assistant Sports Information Director at Florida State.

A 1990 graduate of North Carolina State University, McWilliams handles publicity and publications for three of FSU's highly successful women's sports programs, and directs the sports information operation for several other Florida State non-revenue programs. Her main responsibilities lie with the women's volleyball, basketball and softball teams as she travels with and handles all home game media coordination for those squads.

A native of Tallahassee, McWilliams was a four-year letterwinner at N.C. State as an outside hitter for the volleyball team. She served as a co-captain her senior season while earning a degree in speech communication.

While at N.C. State, McWilliams was a member of the Fellowship of Christian Athletes and made the Outstanding College Students of America list. She was named to the Atlantic Coast Conference honor roll.

Last spring, McWilliams was inducted into the Hall of Fame of her high school, North Florida Christian. She currently serves on the board of directors of the Friendship at the Leon County Library. McWilliams is also marketing director of her church and has been involved in several committees and associations to promote women's athletics in the Tallahassee area.

McWilliams' husband, Shannon McWilliams of Tallahassee, also graduated from North Florida Christian.

DOAK CAMPBELL STADIUM

If you haven't been to Doak Campbell Stadium lately, get ready for a surprise! The home of the football Seminoles has had a makeover, and the changes are startling.

- ▼ Where wooden bleachers once stood, a beautiful new south end zone has arisen.
- ▼ A brick facade surrounds the new end zone and much of the east side of the stadium, matching the architectural style of many campus buildings.
- ▼ Construction on the east side of the new University Center complex is in progress with a completion date set for this summer. It will house the FSU School of Motion Picture, Television and Recording Arts, classrooms and several campus services and offices, including the registrar, admissions and financial aid.
- ▼ Inside Doak Campbell, the lowest tier of field level seats has been removed, providing increased sideline space and better viewing lines for the first few rows of fans.
- ▼ A matching brick wall has been constructed along the east and west sidelines,

Last year, Florida State's Doak Campbell Stadium held 60,000 fans for the first three games of the season, but expanded to 66,000 when the first 41 rows of the south end zone opened for the final three home contests.

limiting field access, increasing safety and giving the inside of the stadium a whole new look.

These are just a few of this year's changes. In the next year, several new skyboxes will be completed, a new wing of the Moore Athletic Center will open and overlook the stadium at the north end zone, and construction will begin on the west side of the University Center, which will eventually include a new press box and another seating section in the northwest corner.

So while this year's additions are impressive, there is much, much more to come.

The "bowling in" of the south end zone is the most obvious change for 1993. Completely connected to the east and west sides of the stadium, the south end zone can accommodate nearly 15,000 fans and includes concession stands and rest room facilities. The low center section is also the new home of the FSU Marching Chiefs band during Seminole home games. It was

specifically built to accommodate the 400-member band and their instruments, with wide row seats, a center entrance with garage door below and easy access to the field.

The increased seating capacity of Doak Campbell Stadium, up to 72,589 for 1993, means more fans, and no place for all the noise they make to go. That means an even louder stadium. As if Bobby Bowden and his team needed any more home field advantage!

In its last 24 home games, FSU is 22-2. In 40 contests at Doak Campbell since 1986, the Seminoles stand at 37-3. Bobby Bowden's Florida State teams have lost only 15 games at home in 17 years, giving the Coach an impressive 82-15-1 record and .842 winning percentage in Tallahassee. Against Georgia Tech on Oct. 2, Bowden will coach his 100th game in Doak

Top Single Season Home Attendances

NO.	YEAR	GAMES	TOTAL	AVERAGE

9.	1987	6	322,056	53,676
10.	1982	6	311,607	51,934

The huge scoreboard in the north end zone features the largest computer graphics section in the nation.

Campbell as Florida State's head coach.

But the winning feeling of Doak Campbell Stadium goes back before Bowden. All-time, Florida State is 165-66-3 in 234 home games for a winning percentage of .711.

Since the stadium first opened on Oct. 7, 1950 with Florida State taking a 40-7 victory over the Randolph-Macon Yellowjackets, millions of fans

have packed Doak Campbell to see the finest in college football action.

Last year, Florida State set a single season attendance mark by drawing 376,784 fans in six home games for its highest season average ever, 62,797. The top two crowds in stadium history saw Florida State take on Florida (68,311) and Maryland (64,127) at the end of the year.

Of course, 1992 attendance

Campbell Stadium's Top 20 Crowds

Stadium Facts

1992 Capacity	72,589
Surface	Natural Grass (PAT)
Location	Pensacola Street & Stadium Drive
First Game	Oct. 7, 1950
Opponent	Randolph-Macon
Score	FSU 40, RM 7
All-Time Home Record	165-66-3 (.711)
Bowden's Home Record	82-15-1 (.842)
Current Home Win Streak	6

was helped by the in-season expansion that saw capacity of the stadium increase from 60,000 for the first three games of the year, to 66,000 after the first 41 rows of the new south end zone opened in November.

The current expansion is the eighth in the history of the stadium. This year's capacity of 72,589 reflects an increase of 12,070 since the end of the 1991 season. And that number will change in each of the next two years, up to 74,655 for 1994 before dropping back to 71,717 for '95. The increase is due to addition of a section to the northwest corner, as well as the changes in the north end zone. The drop for '95 reflects the enlargement of each individual seat from 16 to 18 inches.

It's hard to imagine the first Doak Campbell Stadium, with a capacity of 15,000 back in 1950. In 1954, the stadium grew to a capacity of 19,000. Six thousand more seats were added in 1961. During the Bill Peterson era (1960-70), the stadium was expanded to 40,500 seats, and it remained at that capacity for the next 14 years. Between 1978 and 1982, there were three more additions.

Named for Doak S. Campbell, the first president of Florida State University, the stadium sits adjacent to the Moore Athletic Center on the edge of the main campus. The stadium seats, each one offering an unrestricted view, rise out of a Bermuda grass turf enclosing the field. Fans enjoy all the modern conveniences with spacious aisles, numerous concession areas and plenty of rest room facilities. A professional public address system, first aid booths and effective security system operate at every Seminole home game.

The field itself is one of the finest in college football, carefully managed and manicured year-round. A prescription athletic turf (PAT) system installed in 1988 quickly alleviates drainage

problems through a series of underground pumps. The field can go from seemingly flooded to merely wet in a matter of minutes, thanks to the pumps, which allow a deeper root system in the natural turf.

Seminole football games are always a media event, and the press box at Doak Campbell Stadium features seating for nearly 100 writers, as well as broadcast booths for radio and television. Rising above the west stands, the box also includes separate president's and operations levels, and a photo deck area outside of the top floor.

Both stadium scoreboards are new. The large scoreboard made its debut in 1992 and features the most technologically advanced scoreboard computer animation system in existence. Entertaining graphics, as well as factual information, make the board a valuable addition to FSU home games.

The 160-foot wide structure will be raised up to sit on top of the new wing of the Moore Athletic Center in the north end zone following the '93 season. The newest scoreboard is above the south end zone and clearly and conveniently provides all basic information.

With the changes already made since last season, Doak Campbell is growing and improving faster than ever before. Like its residents, the Seminole football team and its fans, Doak Campbell Stadium is well on its way to becoming a top-notch facility, and a fitting showcase for Florida State University.

SEMINOLE SPIRIT

From the pregame ritual to the fourth quarter fanfare, from the opening kickoff to the last tick of the clock, nothing compares to the pageantry and excitement of Seminole football. On a warm September night or a sunny November afternoon, fall Saturdays in Tallahassee mean only one thing — Florida State football.

Empty, Florida State's Doak Campbell Stadium is just another college football arena. But fill it with 60,000 die-hard, garnet-and-gold clad screaming Seminole fans on a fall Saturday, and the stadium is transformed into one of the most exciting places in the nation. On six dates each year, it's easy to see (and hear) why FSU's football teams have posted an amazing 37-3 mark at home over the past six years.

Gameday excitement begins hours before the game, as pregame tailgate parties kick off the fun. Friends and acquaintances, new and old, meet, greet and eat before entering the stadium. As game time nears, fans move to their seats. The Marching Chiefs band entertains

and the Seminole cheerleaders exhort the crowd to a fever pitch. The excitement is palpable.

Minutes before kickoff, every eye turns toward the north end zone. Suddenly, Chief Osceola and Renegade burst out of the tunnel onto the playing field, followed by Head Coach Bobby Bowden and the Seminole team.

An Appaloosa horse owned by Tallahasseean Bill Durham, Renegade gallops the length of the field. Astride Renegade, holding a 10-foot flaming spear, is Chief Osceola. An FSU student carefully chosen and trained for this moment, he wears an authentic costume designed specifically for Florida State University by members of the Seminole Indian Tribe of Florida. His face is covered with grease-based makeup, garnet and gold stripes added in FSU fashion.

Meanwhile, the Tribe cheerleaders encourage the packed and frenzied crowd as the Marching Chiefs pound out a menacing beat. Fans move their arms back and forth in unison, following the beat of the drum. In the south end zone, Renegade fidgets and shakes his head, awaiting the end of the coin toss proceedings. When Chief

Osceola raises the flaming spear over his head, the crowd roars its approval.

The game captains and referees finally leave midfield. The excitement reaches a crescendo as the horse and rider gallop to mid-field until they are on top of the Seminole head logo. The roar of the crowd is deafening. When Renegade rears up on his hind legs, Chief Osceola plants the fiery spear into the turf.

A thrill goes through the crowd. The moment the spear hits the ground, an even louder cheer goes up, while the Marching Chiefs start the Florida State fight song in the background.

Unique to Florida State, this opening show has become a trademark of Seminole football, featured on national television and recognized by fans across the country. Nothing can compare.

Seminole Are Heroic Symbol at Florida State

By Dr. Dale W. Lick
President, Florida State

The history of the Seminole Indians in Florida is the story of a noble, brave, courteous, strong and determined people who, against great odds, struggled successfully to preserve their heritage and live their lives according to their traditions and preferences.

From its earliest days as a university, Florida State has proudly identified its athletic teams with these heroic people because they represent the traits we want our athletes to have. Other athletic teams are called Patriots or Volunteers in the same way — they use a symbol that represents qualities they admire.

Recent critics have complained that the use of Indian symbolism is derogatory. Any symbol can be misused and become derogatory. This, however, has never been the intention at Florida State.

Over the years, we have worked closely with the Seminole Tribe of Florida to ensure the dignity and propriety of the various Seminole symbols we use. Chief Osceola, astride his Appaloosa when he plants a flaming spear on the 50-yard line, ignites a furious enthusiasm and loyalty in thousands of football fans, but also salutes a people who have proven that perseverance with integrity prevails.

Some traditions we cannot control. For instance, in the early 1980s, when our band, the Marching Chiefs, began the now-famous arm motion while singing the "war chant," who knew that a few years later the gesture would be picked up by other team's fans and named the "tomahawk chop?" It's a term we did not choose and officially do not use.

Our university's goal is to be a model community that treats all cultures with dignity while celebrating diversity.

I have appointed a task force to review our use of Seminole Indian symbols and traditions. This study group will identify what might be offensive and determine what needs to be done.

Our good relationship with the Seminole Tribe of Florida is one we have cultivated carefully and one we hope to maintain, to the benefit of both the Seminoles of our state and university.

Seminole Tribe of Florida Chairman James E. Billie expressed this point in these words: "We are proud to be Seminoles, and we are proud of the Florida State University Seminoles. We are all winners."

This column ran in USA Today on Tuesday, May 18, 1993.

A distinguished symbol of pride and excellence, Chief Osceola and Renegade represent Florida State football at every home football game.

ACADEMIC SUPPORT & STUDENT SERVICES

While awaiting completion of the new academic center as part of the Daisy Parker Flory Wing of the Moore Athletic Center, Florida State student athletes continue to receive personal attention and advice.

Florida State players work hard to become the best football team in the country each year. They endure hours of practice, sit through meetings and even hit the weight room. They know that with hard work and dedication during the week, victory can be achieved on Saturday.

The same kind of hard work and dedication is required when it comes to academics. The goal for every Florida State student athlete — a degree.

Just as the Seminole coaches work with the players to improve their performances on the football field, a staff of academic support professionals work with the student athletes to improve their performances in the classroom.

The latest information shows that Seminole football players are earning their degrees in ever-increasing numbers. From the summer of 1992 through this summer, 27 Florida State football players earned their degrees. That total includes four senior members of this year's squad, who will begin work toward graduate degrees this fall while completing their eligibility.

Florida State's academic support system is recognized as one of the strongest programs in the country. Recently, it became even stronger when Dr. Roger

Grooters was chosen to become Florida State's new Director of Academic Support Services in a national search. Formerly the director of Athletic Academic Programs at the University of Nebraska, Grooters' program there was recognized as the nation's top academic support unit in 1990. Under his direction, Nebraska consistently led the Big Eight Conference in academic and honor roll selections.

Grooters and his staff are anxiously awaiting completion of a new state-of-the-art academic center which will be a primary component of the Daisy Parker Flory Wing of the Moore Athletic Center. The center will provide study hall and tutoring rooms, as well as a resource area with study carrels, computers and basic reference materials. In the new wing, the entire academic support staff will work together in the same set of offices for the first time in school history, enabling them to provide even better services to all Florida State student athletes.

Florida State student athletes begin their academic indoctrination the minute they set foot on campus, and sometimes even before. Several members of this year's football signing class enrolled in Florida State's summer enrichment program to get a jump on their

academic careers. All first-year individuals go through an orientation program which teaches time management and academic discipline.

In addition to Grooters, FSU's academic support team includes two academic advisors, one of whom is football advisor Mark Meleney, tutors, study hall coordinators and graduate assistants. Dr. John Eason, an assistant to the athletic director as well as the Seminole receivers' coach, works with the staff to monitor the class attendance and academic progress of each team member. Eason was recently honored by the Black Alumni Association as FSU's 1992 Distinguished Administrator for his work with Florida State students.

Regular class attendance is required in order to play football at Florida State, and attendance is closely monitored during the playing and practice seasons. Throughout the school year, nightly study halls and tutoring sessions help the student athletes stay on course in their courses. The academic support staff works closely with the outstanding faculty members at Florida State University, serving as a liaison between the athletic and the academic departments of the University.

The athletic department's Office of Student Services works closely with the academic support staff. The many functions

of this office include monitoring eligibility and scholarship matters. They assist the student athletes in dealing with scholarship paperwork and getting through some of the "red tape" that comes with being a student athlete. The student services staff is the communication link between Florida State and Atlantic Coast Conference and NCAA officials.

Recently, they have taken on the added responsibility of coordinating some of the community outreach programs in which Florida State student athletes are involved. They are the initial contact when schools, churches and charities want Florida State student athletes to speak, appear or support their organizations. It is a phenomena occurring more and more often as FSU student athletes are seen as role models, in Tallahassee and across the state.

For everyone in the Florida State athletic department — from the coaches and academic support people to student services staff and administration — giving each student athlete every opportunity to earn a degree is the primary goal. And every year, that goal is becoming reality for more and more Florida State student athletes.

SEMINOLE SIDELINE

In all, 27 current and former Seminoles have earned their degrees since last summer, ensuring that graduation rates are on the rise at Florida State. (* indicates 1993 squad member)

STRENGTH & CONDITIONING

"The Strong Shall Survive"

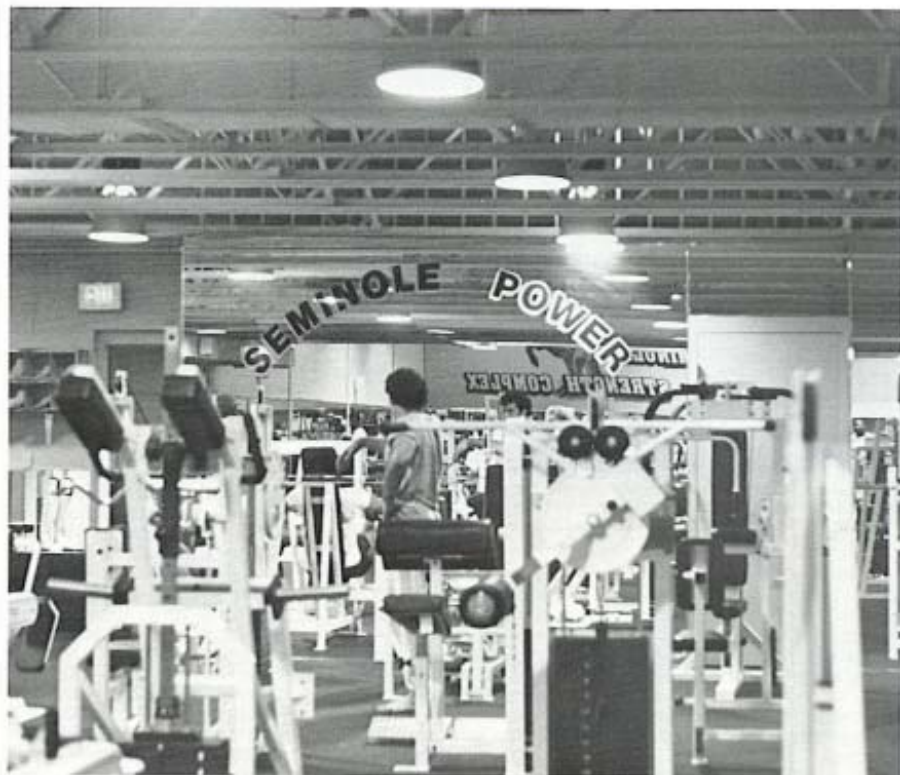

It's the motto of Florida State strength and conditioning coach Dave Van Halanger and his staff in the FSU weight room. It's also the philosophy that has made Seminole athletes in all sports among the strongest, fastest, fittest and most flexible anywhere.

At Florida State, the strong not only survive, they win. That's why the Seminole football team is dedicated to year-round conditioning and weight training as the way to improve their physical gifts.

The Seminole weight room is a carpeted and mirrored area which includes exercise systems by Cybex Eagle as well as free-weight equipment. A variety of exercise bicycles, rowing machines and Stairmasters incorporate both strength conditioning and cardiovascular endurance.

The weight room is open nearly every weekday, year-round, at the most convenient hours. This gives all student athletes time to work a strength and conditioning routine into their busy schedules.

Florida State athletes achieve their goals in a state-of-the-art facility in the Moore Athletic Center, located in the same building as the football locker and meeting rooms. The weight room used by the Seminole football team is a

Florida State's year-round strength program gives Seminole student athletes every opportunity to become stronger, faster, fitter and more flexible.

spacious area encompassing 7,200 square feet. Banners commemorating FSU bowl victories hang from the ceiling and inspirational slogans cover the walls. A variety of music blares from the stereo system

and words of encouragement are supplied as superior athletes strive to reach their peak performances.

The words of encouragement and guidance come from Van Halanger and his staff, who take a personal interest in each and every Seminole student athlete. Van Halanger works with each individual to tailor a weight program specific to his needs and goals. His office is located right in the weight room, where he is close to the action at all times.

He is assisted by a pair of graduate assistants who help maintain the weight room, work with basketball and non-revenue athletes, and assist Van Halanger with the football team.

Florida State student athletes begin the strength and conditioning process the minute they step on campus. In addition to

the physical work, Van Halanger and his staff believe in a three-pronged approach.

"The mental aspect of conditioning, combined with a solid spiritual base, is vital for our athletes to perform at the peak of their physical potential," says Van Halanger.

Since Van Halanger's arrival in Tallahassee 10 years ago, Florida State athletes have improved strength, speed, flexibility, quickness and explosion each year. They are always among the fittest in college football, which helps both endurance and injury prevention.

Superior strength and conditioning, just one more reason the Seminole football team has become a mainstay at the top.

FSU Football Standards — Spring 1993 Testing

Bench Press

Over 400 pounds 20 athletes
Over 350 pounds 39 athletes

Vertical Jump

Over 35 inches 26 athletes
Over 32 inches 47 athletes

40-Yard Dash

Under 4.5 seconds 10 athletes
Under 4.8 seconds 31 athletes
