

THE ACC

The Tradition

Consistency. It is the mark of true excellence in any endeavor.

However, in today's intercollegiate athletics, competition has become so balanced and so competitive that it is virtually impossible to maintain a high level of consistency.

Yet the Atlantic Coast Conference has defied the odds. Now, in its 58th year of competition, the ACC has long enjoyed the reputation as one of the strongest and most competitive intercollegiate conferences in the nation. And that is not mere conjecture, the numbers support it.

Since the league's inception in 1953, ACC schools have captured 120 national championships, including 64 in women's competition and 56 in men's. In addition, NCAA individual titles have gone to ACC student-athletes 130 times in men's competition and 91 times in women's action.

The conference had an immediate impact on the national college football scene in the fall of 1953 when the University of Maryland captured the first of what would eventually be five national football titles for the ACC. Clemson laid claim to the league's second national title in 1981 while Georgia Tech followed suit in 1990. Florida State pocketed national titles No. 4 and 5 in 1993 and 1999, respectively.

Additionally, Miami has laid claim to five national gridiron titles over the past 27 seasons. Four of the Hurricanes' five national titles (1983, 1987, 1989, 2001) were unanimous with both the sportswriters and coaches polls, while in 1991 Miami (AP) shared the national title with Washington (coaches).

The 12 institutions that take to the field this fall under the ACC banner have produced 558 first or second team gridiron All-Americans and 73 first team academic All-Americans.

ACC Football, though, has always been about more than just wins and losses and individual athletics honors. ACC schools, cumulatively, were ranked higher nationally than any other conference in the most recent rankings of American Universities by the U.S. News & World Report, with eight ACC institutions ranked 53rd or higher nationally and all 12 schools rated as "Tier One" schools.

The Conference was No. 1 with a diploma in 2009 for the fifth straight year, as the ACC led all Football Bowl Subdivision Conferences in the NCAA's graduation rate (GSR). The ACC also had the highest football APR as a league for the fourth consecutive year. Miami was honored nationally (AFCA) for the top graduation rate for any football program in the country. It marked the 20th time a current ACC school has recorded the highest football graduation rate in the nation.

Since becoming a 12-team league in 2005, the ACC has consistently made history in the NFL's annual professional football draft. When Clemson running back C. J. Spiller was chosen as the ninth overall pick in this past year's NFL Draft it marked the fifth consecutive year the ACC has had a player taken in the Top 10 of the Draft. The ACC is the only conference in the nation to have achieved that feat, but his was only the latest in a long line of Draft accomplishments.

In the 2009 NFL Draft, the ACC was the only league with four players chosen among the top nine selections in the draft. It marked the second time in four years the ACC had managed that trick, also claiming four of the top nine picks in 2005. During the 2006, 2007 and 2008 drafts, the Conference became the first college league in the history to have two of the top four NFL Draft picks in each of three consecutive years.

In 2008, the ACC also set an NFL Draft record having the first defensive player chosen for three straight years with NC State's Mario Williams (2006), Clemson's Gaines Adams (2007) and Virginia's Chris Long (2008) claiming the honor.

The ACC's run began with the 2006 Draft when the Conference set an NFL Draft record with 12 players chosen in the first round and 51 players chosen overall. In all, the ACC is second among all conferences in the last four years in first round draftees, having 34 chosen and overall draftees with 179.

Heading into the 2010 football season, no league in America has sent more linebackers to the NFL, as no fewer than 56 former ACC standouts began the summer on NFL rosters tying both the Big Ten and SEC for that honor. The 12 current ACC schools have had 2,221 players selected in the annual professional football draft, including 226 first round selections.

Three ACC teams—Georgia Tech (9), Virginia Tech (11) and Miami (15)—finished among the Top 15 in the final 2010 BCS Standings and four ACC squads—Virginia Tech (10), Georgia Tech (13), Miami (19) and Clemson (24) finished the year ranked in the final Associated Press poll.

The ACC also has a storied bowl tradition, setting an NCAA record with 10 of its teams (.833) to post-season bowl games in 2008, breaking its own record for bowl participation (.833) set originally in 2002. Since 2005, the Conference is second among all leagues with 41 of its teams travelling to post-season bowl games. Additionally, four of its teams—Boston College (5th, 13-8, .619), Florida State (6th, 23-14-2, .615), Georgia Tech (12th, 22-16, .579) and Miami (15th, 19-16, .543)—rank among the Top 15 winningest bowl programs of all-time. Four ACC schools are also among the Top eight nationally in current bowl game streaks including national leader Florida State (28 straight bowl games), Virginia Tech (3rd, 17), Georgia Tech (4th, 13) and Boston College (7th, 11).

2009-10 in Review

The 2009-10 academic year saw league teams capturing an all-time high eight national team titles and 9 individual NCAA crowns. In all, the ACC has won 50 national team titles over the last 13 years. The ACC has won two or more NCAA titles in 28 of the past 30 years.

A total of 123 ACC teams placed in NCAA post-season competition in 2009-10. League teams compiled a 116-64-3 (.637) mark against opponents in NCAA championship competition. In addition, the ACC had 170 student-athletes earn first team All-America honors this past year. Overall, the league had 235 first, second or third team All-Americans and the ACC produced four national Players of the Year and four national Coach of the Year honorees.

2009-10 National Championships

Field Hockey	North Carolina

UNIVERSITY FACTS

BACKGROUND: The Florida State University is one of eleven units of the Division of Colleges and Universities of the Florida Board of Education...It was established as the Seminary West of the Suwannee by an act of the Florida Legislature in 1951 and first offered instruction at the postsecondary level in 1857...It's Tallahassee campus has been the site of an institution of higher education longer than any other site in the state...in 1905, the Buckman Act reorganized higher education in the state and designated the Tallahassee school as the Florida Female College...In 1909, it was renamed the Florida State College for Women...In 1947, the school returned to co-educational status, and the name was changed to Florida State University...It has grown from an enrollment of 2,583 in 1946 to an enrollment of 40,255 in the Fall Semester of 2009.

ENROLLMENT (FALL, 2009): Total 40,255...75.7% undergrad, 21.3% graduate, 3.0% unclassified...81.9% in-sated...93.7% from the United States...students are from all 50 states and the District of Columbia are in attendance...18 state contributes over 100 students each...19 foreign countries contributed over 25 students each...female, 55.2%...male, 44.8%, minority, 26.1%...international, 3.4%.

ACERAGE: Main Campus: 451.6 acres in Tallahassee, Leon County (main campus)...Panama City Branch: 25.6 acres in Panama City, Bay County...The university owns a total of 1,545.5 acres in Leon, Bay, Franklin, Sarasota and Gadsden counties...sites are leased in Marion and Leon counties in Florida, and other locations overseas.

COLLEGE DEGREE PROGRAMS: With 16 college and schools, student made take courses of study leading to the baccalaureate degree in 101 programs, to master's degree in 118 programs, to the advanced master's degree in one program to the specialist degree in 35 programs, to the doctorate degree in 75 degree programs, to the professional degree in two degree programs. The academic divisions are the Colleges of Arts and Sciences, Business, Communications, Criminology and Criminal Justice, Education, Engineering, Human Services, Information, Law, Medicine, Motion Picture, Television and Recording Arts, Music, Nursing, Social Sciences and Public Policy, Social Work and Visual Arts, Theatre and Dance.

OPERATING BUDGET (2009-010): \$1,048,678,772

DEGREES AWARDED FOR 2008-09: Bachelor, 7,630...Masters, 2,129...Doctorate, 343...Specialist, 47...Juris Doctorate, 263... Medical Doctorate, 74...Total, 10,486.

ENTERING FRESHMAN FACTS (2009): The middle 50 percent high school GPA, 3.6-4.1...SAT score 1120-1280...ACT score 25-29...There were 18 National Merit Scholars, 4 National Achievement Scholars and 26 Hispanic Scholars enrolled as undergraduate students during the fall 2009 term.

RETENTION RATE: First year, 100%...second year, 86.7%, third year, 77.0%, fourth year, 73.9%.

FACULTY/STAFF: Total 2,268...FSU's faculty includes some past graduates, such as former astronauts Dr. Norm Thagard, who teaches electrical engineering, and Winston Scott who serves as the Vice President for Student Affairs...FSU's faculty has included six dynamic Nobel Laureates with 12 members who have been elected to the National Academy of Sciences and 11 members who have been elected to the American Academy of Arts and Sciences and two Pulitzer Prize winners Ellen T. Zwilich and Robert Olen Butler.

EDUCATIONAL ADVANTAGES: The Florida State University has a uniqueness in providing programs that are consistent in excellence across the board, from fine arts and humanities to the hard sciences... The balance of programs is based in FSU's long tradition as a liberal arts institution combined with its position as one of the top 10 universities in generating research-based revenues...FSU was ranked as the 18th

most connected university in the nation by Yahoo! Internet life.

EDUCATIONAL OPPORTUNITIES ABROAD: FSU offers a variety of overseas opportunities for students during the regular academic year. FSU has study centers located in Florence, Italy; Panama City, Republic of Panama; Valencia, Spain and London, England. Courses at the stud centers are offered each semester and cover a wide range of subject areas perfect for meeting general and liberal studies requirements. International Programs also offers study programs, some general and some major specific, in Cairns, Australia; Salvador, Brazil; Tianjin, China; San Jose, Costa Rica; Dubrovnik, Croatia; Prague, Czech Republic; Napo, Ecuador; London, England; Paris, France; Dublin, Ireland; Tokyo, Japan; Moscow, Russia; and Leysin, Switzerland. A summer law program is offered in Oxford, England. The is one Linkage Institute, FLORICA, in Costa Rica and Beyond Borders programs in Turriaba, Costa Rica, Kingston, Jamaica and Dresden, Germany.

EXTRACURRICULAR ACTIVITIES: FSU has over 500 student organizations that allow students to find their own niche.

FINANCIAL AID: FSU offers two types of financial assistance: need based and merit based...Over \$160 million is given away for financial assistance each year.

STUDENT/FACULTY RATIO: 22-1. Many of the general education classes are large, lecture classes; however 80% of major classes have fewer than 50 students.

RESEARCH: The Florida State University has built as reputation as a strong research center in both the sciences and the humanities. It is expected that more than \$140 million in external funds will be generated this year by the university faculty and administration as supplements for state funds used for research. The external funds are in the form of contracts and grants from private foundations, industries, and government agencies, and are used to support research, improve research facilities and provide stipends for graduate students.

SPONSORED RESEARCH (2008-09): \$199, 829, 173

LIBRARY HOLDINGS: The Florida State University Library System contains over 3.1 million volumes, of which more then 594,000 are available electronically as e-books. The libraries subscribe to more tan 78,300 current serials including academic journals, professional and trade journals, and major newspapers from around the country in both paper and electronic formats. The libraries also subscribe to more than 600 data bases. The FSU Libraries include eight libraries on campus: The Robert Manning Strozier Library, Paul A.M. Dirac Science Library, Mildred and Claude Pepper Library, Warren Allen Music Library, Harold Goldstein Library and Information Science Library, College of Law Library, the College of Engineering Library, College of Medicine Medical Library and the College of Engineering Library. Library materials and services are also available at the FSU Panama City Campus, as well as International Program study centers in London, Florence, and Panama, and a collection of art related materials at the John and Mable Ringling Museum of Art in Sarasota, Fla.

ATHLETIC ADMINISTRATION

Dr. Eric J. Barron President

Dr. Eric J. Barron became the 14th president of The Florida State University on February 1, 2010.

He is a 1973 Florida State alumnus, with a bachelor's degree in geology. He earned master's and doctoral degrees in oceanography from the University of Miami.

Prior to assuming the Florida State presidency, he served as director of the National Center for Atmospheric Research in Boulder, Colo., from 2006-2008. Dr. Barron was dean of the Jackson School of Geosciences at the University of Texas at Austin. At Pennsylvania State University from 1986 to 2006, he was professor of geosciences, director of the Earth System Science Center, director of the EMS Environment Institute and finally dean of the College of Earth and Mineral Sciences.

Dr. Barron is a Fellow in the American Association for the Advancement of Science, the American Geophysical Union, the American Meteorological Society and the Geological Society of America. He has received many national awards as a scholar, researcher and distinguished lecturer, has published extensively and has been editor or a member of the editorial boards of a dozen academic journals.

He has testified before Congress and has chaired numerous committees in service to the federal government, including the NASA Senior Review for the Earth Sciences in 2005. He has chaired committees and panels of the National Research Council since 1987 and currently chairs "An Ocean Infrastructure for U.S. Ocean Research in 2030."

A highly visible scientist, Barron is committed to the full spectrum of academic disciplines. He is an ardent supporter and advocate for the full spectrum of excellence in the arts and humanities, sciences, law, business and medicine.

A native of Lafayette, Ind., Barron and his wife, Molly, have two grown children.

ATHLETIC ADMINISTRATION

Randy Spetman Director of Athletics

Florida State Director of Athletics Randy Spetman can rightfully look at his first two years at the helm of the Seminole program with great pride. This past year, FSU athletics joined a very select fraternity when all of its 19 sports participated in

their respective NCAA Tournaments. Florida State was one of only two universities among the NACDA Director's Cup Top 20 to accomplish the feat. In addition, FSU's women's basketball, volleyball, tennis and golf teams all advanced further in their NCAA Championships than any before in school history and men's golf finished third nationally for its best finish ever.

After being ranked 15th nationally in the Director's Cup following his first year, FSU earned its highest ever ranking in 2009-10. And all this was accomplished during a time when budgets are as constrained at Florida's universities as they have ever been in the modern era.

Florida State was one of only three universities in the nation to have teams appear in a bowl game, the NCAA men's basketball tournament and advance to the College Baseball World Series during the 2009-2010 academic year. Only eight FBS schools in the country could match the Seminoles in claiming postseason appearances in football, men's basketball and baseball.

"We are blessed with a great staff, quality student-athletes and the best coaches in the nation and that is evident by all of the honors and successes we've celebrated over the past year," said Spetman. "I am proud of what we have been able to accomplish and excited about the fact that we can achieve even more. Our goal is to perform at the very top level both

academically and athletically and we have been able to do that in a very challenging economic environment."

The success under Spetman's reign begins in the classroom. In November of 2008, football's Myron Rolle highlighted the academic year when he became the second Seminole student-athlete in the past five years to earn a Rhodes Scholarship - one of the oldest and most prestigious awards for international study. It was the first time in nearly 25 years a Rhodes was awarded to a prominent college football player. Rolle is the fourth Florida State student ever to be named a Rhodes Scholar.

During the 2009-10 academic year, soccer's Becky Edwards earned CoSIDA Academic All-American honors and seven student-athletes earned District Academic All-America honors including Edwards, Victoria Huster (soccer), Erin McNulty (soccer), Marissa Kazbour (soccer), Brianna Barry (volleyball) and Taylor Wilson (volleyball). More than 60 of Florida State's best and brightest were named to their respective Academic All-ACC teams including Dustin Hopkins, EJ Manuel and Christian Ponder of the football team, eight members of the men's and women's swimming and diving teams, seven members of the men's and women's cross country teams and nearly 20 members of the men's and women's outdoor track and field teams.

This coming year will also see three exciting facility additions with the completion of a multi-purpose teaching facility, six indoor courts for the tennis program and a hitting complex for the women's softball team.

Spetman was introduced as Director of Athletics at FSU on February 4, 2008 following a national search. A former pilot and retired Air Force colonel, he took over after serving as Athletics Director at Utah State from 2004-2008 and in the same position at the United States Air Force Academy from 1996-2003.

Spetman, 57, was lauded over his tenure at Utah State for the success of the Aggies' athletic programs both on the field or court and in the classroom. Utah State joined the Western Athletic Conference (WAC) in 2005 and Utah State claimed four conference championships in its first

two years. USU's student-athletes led the WAC with a 78 percent graduation rate and maintained over a 3.0 cumulative grade point average.

Under Spetman's leadership, Utah State made high profile improvements to the football stadium. He also spearheaded fundraising and building efforts for a \$12.5 million facility and crafted a unique business partnership for medical health coverage that improved the overall coverage of USU student-athletes and reduced medical costs. In addition, he negotiated a lucrative new marketing agreement for Aggie Athletics with Learfield Sports Properties.

Spetman spent eight successful years as Director of Athletics at the United States Air Force Academy in Colorado Springs, Co. During his tenure, he administered the school's 27-sport intercollegiate program as well as the physical education and intramural programs. Under his command, the football team participated in four bowl games.

Born and raised in Council Bluffs, Iowa, Spetman graduated from the Air Force Academy in 1976. He earned three letters as a defensive end for the Falcons and was a team captain as a senior. He also won a pair of heavyweight Wing Open Boxing Championships. Spetman's 28-year military career took him around the world in a variety of positions. A command pilot with more than 3,000 hours of flight time, his range of positions took him from assistant football coach at his alma mater to Chief of Bomber Planning in Operations Desert Shield and Desert Storm to serving as Chief, Command and Control Division, Operations Directorate of the U.S. European Command in Stuttgart, Germany.

A graduate from Squadron Officer School, he attended the National War College and earned a master's degree in National Security Strategy. Spetman also holds a master's in management and supervision from Central Michigan University.

He served as President of the National Association of Collegiate Director's of Athletics (NACDA) in 2009-10.

He and his wife, the former Becky Luhning of Des Moines, Iowa, are the parents of two grown children, Brian and Kim.

Dr. Joe Beckham J.D., Ph.D.

Joe Beckham has been Florida State's Faculty Athletic Representative to the ACC and the NCAA since 2006. In the role of FAR, he chairs the University's Athletic Board, serves on ACC and NCAA governance committees and reports to the University President

and the Faculty Senate on matters related to Intercollegiate Athletics.

Throughout his career, Beckham has

maintained a commitment to education, law and policy. After receiving his J.D. degree in 1969, he was employed as administrative counsel to Connecticut Lt. Governor Peter Cashman and assisted in the development of programs for youthful offenders that spanned the Connecticut departments of education, corrections, and higher education. After completing his Ph.D. in 1977 he accepted a faculty appointment at the University of Pennsylvania on the staff of the Higher Education Finance Research Institute.

Dr. Beckham joined FSU's graduate program in higher education administration in 1980 and specializes in education law, policy and finance. He has chaired the department of Educational Leadership and Policy Studies on three separate occasions during his tenure. In addition to his appointment to a number of state and national boards representing educators and attorneys, he was the president of the National Organization on Legal Problems of Education in 1991 and was

awarded the McGhehey Award for contributions to the field of education law in 1996. Florida State University awarded him the Ross Oglesby Award for service to FSU in 1999 and he was named Allan Tucker Professor of Educational Leadership and Policy Studies in 2001. His publication list is extensive and he is a member of several editorial boards, including the editorial board of the Journal of Law and Education and the editorial advisory committee of West's Education Law Reporter.

In addition to his work in the field of education law, Dr. Beckham is an advocate for recreational greenways and programs for young people. His leadership was instrumental in the development of Florida's first trail greenway, the St. Marks Trail, which has become a successful pilot program for the development of other recreational greenways in Florida. He has served on the Governor's Advisory Committee on Greenways and Trails and on the Board of the Big Bend Boys and Girls Clubs.

ATHLETIC ACADEMIC SUPPORT SERVICES

The primary mission of the Athletic Academic Support is to provide an environment that facilitates the academic success of each student athlete

MISSION STATEMENT

The primary mission of Florida State University's Athletic Academic Support Services is to provide an environment that facilitates to academic success of each student-athlete. The focus is to provide a comprehensive support program integrated with the total university that will assist the all student-athletes with the transition into college and provide continued support in all phases of academic and professional development, culminating with graduation, job placement or graduate school.

MATT SCHMAUCH ACADEMIC COMMITMENT AWARD

The Matt Schmauch Academic Commitment Award was established in honor and memory of former Academic Support Assistant Director Matt Schmauch, who passed away in June of 2003, and is given annually to a deserving football student athlete. The award does not necessarily go to the football player with the highest GPA. Rather, it goes to the player who is dedicated to getting a degree, is accountable and responsible in the classroom and works everyday to be a better student.

SERVICES AND PROGRAMS

Academic Advising

The advisors in the Athletic Academic Support Services serve as the lower division advising unit for all student-athletes. The staff advises students through the Liberal Studies curriculum and degree prerequisites. The advisors work with the students in a number of related areas related to the academic experience at Florida State University, but with a primary emphasis in advising and monitoring the progress toward the selected degree program, taking into consideration all variables which would enhance or impeded each student's toward the goal of graduation.

Study Hall

Professionally supervised study sessions for each athletic team are organized in order to help ensure the academic success of the student-athletes. The main focus of the study hall program is to help students develop consistent and appropriate patters by providing a structured setting to work on class assignments had provide tutorial assistant before academic problems arise. Although the criteria for study hall is left to the discretion of each academic advisor, typically, most freshman, first year transfers, and upperclassmen who have not yet achieved a satisfactory cumulative grade average are required to attend study hall.

Tutoring Program

The Athletic Department at Florida State University has made a commitment to providing our student athletes with one of the finest and most comprehensive tutorial

programs in the nation. The tutorial program is just one of several key support services that are available to all student-athletes as they progress towards their ultimate goal of obtaining a college degree.

Academics hires approximately 85 tutors a year, from a variety of academic departments, who are committed to providing proactive individualized assistance with course comprehension and study skills. The Academic Mentoring program provides each student-athlete with the opportunity to have individualized assistance in the areas of study skills, test preparation, organization and time management. Mentors tailor their efforts to meet the needs of each student, their learning style and their academic strengths.

Most tutors are seniors or graduate level students who have outstanding academic backgrounds. Tutorial assistance is a free service available to all student-athletes in any of their academic coursework and may be obtained by filling out a tutorial request form at the beginning of the semester including summers, or as needed.

Computer Lab

The Athletic Academic Support Services computer labs are located in the Moore Athletics Center and in the new Learning Center located on the ninth floor of the University Center. Florida State has 47 PC compatible computers and several laser printers available for use by the student-athletes. A computer

Football

ATHLETIC ACADEMIC SUPPORT SERVICES

lab is available to student-athletes with a current FSU ID card. The entire Athletic Academic Support Services is also equipped with wireless internet.

Bridge Program

Athletics Academic Support Services, in conjunction with Athletic Student Services and the University, offers incoming student-athletes a "Summer Bridge Program" to aid in the transition from high school to college and highlights many different topics that are important for student-athlete success. The program is a week long intensive orientation that incorporates the University orientation with the athletics department orientation and continues throughout the six-week summer session. Seminars, designed to acclimate the students to the University community, are conducted weekly. Seminar topics include media training, health promotions, academic mapping requirements, the Academic Honor Policy and the Student Code of Conduct as well as faculty communications and expectations.

Academic Honors and Awards Program

Athletic Academic Support Services is committed to recognizing the academic success of all student-athletes. The annual "Golden Torch Gala," is an academic awards banquet that occurs each fall and is the highlight of the year. At this event, the ACC Honor Roll student-athletes, as well as the individuals with the highest GPA on their respective teams, and the men's and women's teams with the highest GPA are recognized.

Team meetings are held each year, during which time student-athletes are notified of potential honors and awards and are encouraged to apply. Combining a strong grade point average with athletic accomplishments, community service activities and leadership experiences make for a student-athlete capable of obtaining unlimited academic honors, awards and postgraduate opportunities.

Florida State student-athletes have achieved great success in obtaining recognition for academic success and that continued in 2009-10.

During the 2009-10 academic year, one student-athlete earned CoSIDA Academic All-American honors (Becky Edwards of the women's soccer team) while seven more student-athletes earned District Academic All-American honors including Edwards, Victoria Huster (soccer), Erin McNulty (soccer), Marissa Kazbour (soccer), Brianna Barry (volleyball) and Taylor Wilson (volleyball). More than 60 of Florida State's best and brightest was named to their respective Academic All-ACC teams including Dustin Hopkins, EJ Manuel and Christian Ponder of the football team, nearly 20 members of the men's and women's outdoor track and field teams, eight members of the men's and women's swimming and diving teams, seven members of the men's and women's cross country teams.

In the spring 2010 semester, 10 of Florida State's athletic teams had a 3.0 or better cumulative GPA, 251 student-athletes earned GPA's of 3.0 or better, 17 student-athletes made the President's List with a 4.0 GPA and 74 student-athletes earned Dean's List honors with a GPA of 3.5 or better.

In November of 2008, football's Myron Rolle became the second student athlete since 2006 to earn a prestigious Rhodes Scholarship – one of the oldest and most prestigious awards for international study. It was the first time in nearly 25 years that a Rhodes Scholarship was awarded to a prominent college football player. He accepted the scholarship and studied at Oxford before entering the NFL Draft in 2010. Rolle was drafted in the sixth round of the NFL Draft by the Tennessee Titans. He became the fourth Florida State student to be named a Rhodes Scholar. He follows in the footsteps of Student Body President Joe O'Shea (2008), track and field student-athlete Garrett Johnson (2006) and Caroline Alexander (1976). The scholarships provide all expenses for up to two or three years of study at the University of Oxford in England.

Over the past 16 years, more than \$470,000 in Postgraduate Scholarship monies has been granted to FSU student-athletes as well as numerous other academic honors.

STUDENT SERVICES

Brandi Stuart
Assistant Athletics Director

Dr. John Lata
Director of Student Services

Yashiva Edwards
Assistant Director
of Student Services

About Student Services

The Office of Student Services strives to establish a commitment to the total growth and development of each student-athlete. Through the N.O.L.E.S. program (New Opportunities for Leadership, Education & Service), an administrative commitment to academics and athletic excellence, as well as to personal development, these efforts are supported with programs and services in personal, career, and leadership development.

Personal Development

Fostering the development of personal growth is a fundamental component of the N.O.L.E.S. program. This support program ensures that the student-athletes will be provided with opportunities to focus on personal growth areas such as values clarification, goal setting, fiscal planning, decision-making and personal responsibility. Programming focuses on helping the student-athletes develop a healthy lifestyle while they are at Florida State University and habits that will benefit them throughout their lives.

Career Development

Preparing for life after college is a major focus of the N.O.L.E.S. program. The program is designed to work in cooperation with Florida State's Career Center to acquaint students with the job search process, provide networking opportunities and ultimately assist with job placement. The program places a priority on the development of the total person, with the goal of developing individuals who will have rewarding and productive lifestyles after they leave Florida State University.

Community Service

Serving the community is the focus of the Seminole Spirit program. Student-athletes are challenged to give service to our community and individuals who are in need. With a clearly defined program of service, student-athletes are given the opportunity to develop a lifelong commitment to volunteerism. Over the years, our commitment to community service has grown leaps and bounds. During the 2006-2007 and 2007-2008 academic school year, the Florida State University department of athletics was recognized by the National Consortium for Academics and Sports for having one of the most successful outreach and community service programs in the nation, in which Seminole Student-Athletes

impacted the lives of over 150,000 youth. During the 2009-10 academic year, Florida State's student-athletes performed over 6,400 hours of community service as a group.

Leadership Development

The Florida State University Department of Athletics is committed to developing programs of excellence that foster leadership development. Currently, the Office of Student Services offers three leadership programs to our student-athletes.

The Student-Athlete Advisory Council (SAAC) has been in place at Florida State for over fifteen years and is a fantastic group of motivated student-athletes. The SAAC is made up of 42 student-athletes, with at least two representing every sports team and the spirit groups. Regularly scheduled meetings occur bi-weekly which gives the members an opportunity to discuss issues confronting student-athletes, here at Florida State, as well as in the Atlantic Coast Conference (ACC) and across the nation. The SAAC at Florida State has many responsibilities: they take the lead on a variety of events, starting with New Student-Athlete Orientation, Peers Helping Athletes Transition (P.H.A.T.) Tuesdays, the Welcome Back Picnic and the Golden Nole Awards Banquet, where seniors from each team are recognized and student-athletes who have excelled in the area of community service are honored. SAAC officers for the 2010-2011 academic year are President James Ramsey from Baseball, Vice president Chad Colley from Football and Secretary Ashley Stager from Softball.

In addition to the leadership program and opportunities provided to the student-athletes on the SAAC, there are two additional leadership programs that are offered to all male and female student-athletes. WILD (Women in Leadership Development) Women, and REAL (Reliable Educated Accountable Leaders) Men provide an opportunity for a small group of male and female student-athletes to further develop their leadership skills. Materials used for these groups are adapted from Jeff Janssen's 'Captain's Leadership Manual', John Maxwell's 'Ultimate Leadership', and Dale Carnegie's 'Leadership Institute'. Topics addressed include: effective communication, values and ethics, conflict resolution, goal setting, time management, leaving a legacy, and writing a personal mission statement. Group members are chosen on a first come, first serve basis and the curriculum lasts throughout the academic year.

NCAA COMPLIANCE

Vanessa Fuchs

Associate Athletics Director for Compliance

Jody Smith

Assistant Athletics Director for Compliance

Jennifer Santiago

Assistant Athletics Director for Admissions and Initial Eligibility

Bret Cowley

Compliance Coordinator

The following information is provided by the Florida State University Compliance Office for prospective student-athletes, alumni and boosters. It is intended as a guideline to introduce you to some of the rules governing NCAA athletics.

Key Definitions You Should Know

Representatives of Athletics Interests: A representative of athletics interests, commonly called a booster, is any individual who is known (or should have been known) by a member of the institution's athletic department that has ever:

- * Contributed financially to the athletics department or to its booster club.
- * Joined the institution's booster club or any sport specific support group.
- * Provided benefits to enrolled student-athletes or their families.
- * Assisted in any manner in the recruitment of prospective student-athletes.
- * Promoted the institution's athletics program.
- * Purchased season tickets.

*** Once an individual is identified as a representative, the person retains that identity forever. ***

Prospective Student-Athlete: A prospective student-athlete "prospect" is any student who has started classes for the ninth grade regardless of his/her athletics ability and/or participation. Any student younger who receives any benefit from an institution or representatives of athletics interests immediately becomes a prospective student-athlete. In addition, student-athletes enrolled in preparatory school, two-year colleges or who have officially withdrawn from a four-year institution are considered prospective student-athletes. A prospective student-athlete remains a prospect even after he or she has signed a National Letter of Intent or accepts an offer of financial aid or admissions to attend an institution. The prospect remains a prospect until he/she reports for the first day of classes for a regular term (fall or spring) or the first official day of practice, whichever occurs earlier.

Contact: A contact is any face-to-face encounter between a prospect or the prospect's parents, relatives or legal guardian(s) and an institutional staff member during which any dialogue occurs in excess of an exchange of a greeting.

Evaluation: An evaluation is any off-campus activity designed to assess the prospect's academic qualifications or athletic ability, including any visit to his/her high school (during which no contact occurs) or the observation of a prospect's practice or competition at any site.

Phone Calls and Letters

Phone calls from coaches (but not boosters) are permitted beginning July 1 before the prospect's senior year in high school. A coach is limited to one phone call per week except that unlimited phone calls may be made:

- * During the five days immediately before an official visit to the university;
- * On the day of a coach's off-campus contact with a prospect; or
- * During the time beginning with the National Letter of Intent signing date through the two days after the signing date and the day after a National Letter of Intent or scholarship agreement is signed.

A Prospect of Any Age Could Receive the Following From a Coach:

- Questionnaire
- Camp brochure
- NCAA educational information

- Non-athletics institutional publications (official academic, admission and student services publications and videotapes produced by the institution and are available to all students)

After September 1 of a Prospect's Junior Year, a Coach Could Provide:

- Written correspondence, including letters and e-mails
- Business Cards
- Game programs (only on an official or unofficial visit)
- Pre-enrollment information after prospect signs National Letter of Intent or has been admitted
- Any other information may be provided via the institution's web site

Who is Permitted to Recruit for Florida State?

Only Florida State coaches who have successfully completed the NCAA Recruiting Rules Examination on an annual basis may be involved in the recruitment process. Boosters may not make any recruiting contacts. This includes letters, telephone calls or face-to-face contact on or off campus with a prospect or the prospect's parents.

Alumni and Boosters Do's and Don'ts

- You may forward information about prospects to the appropriate coaches.
- You may have contact with a prospect regarding permissible pre-enrollment activities such as summer employment, provided the prospect has already signed a National Letter of Intent and the Compliance Office is aware you are making these contacts in regard to employment.
- You may have a telephone conversation with a prospect only if the prospect initiates the call. Such a call may not be prearranged by an institutional staff member and you are not permitted to have a recruiting conversation, but may exhibit normal civility. You must refer any questions about our athletic programs to an athletics department staff member/coach.
- You may view a prospect's contest at your own initiative provided you do not contact the prospect or his/her parents. In addition, you may not contact a prospect's coach, principal or counselor in an attempt to evaluate the prospect.
- You may continue established family relationships with friends and neighbors. Contacts with sons and daughters of these families are permitted as long as they are not made for recruiting purposes or encouraged by Florida State University coaches.
- You may not become involved in making arrangements to receive money or financial aid of any kind for a prospect or the prospect's family and friends.
- You may not make contact with a prospect and his/her parents when the prospect is on campus for an official or unofficial recruiting visit.
- You may not transport, pay or arrange for payment of transportation costs for a prospect and his/her relatives or friends to visit campus (or elsewhere).
- You may not pay or arrange for payment of summer camp registration fees for a prospect.
- You may not provide anything to a prospect, the prospect's family or friends without prior approval from the Compliance Office.

For more information, please contact the Florida State University Compliance Office at (850) 644-4272.

BOBBY BOWDEN FIELD AT DOAK CAMPBELL STADIUM

From a maximum capacity of 15,000 in 1953 to a record crowd of 84,347 in 2005 against Miami, Doak S. Campbell Stadium has risen along with the Florida State football program to the top of the college football ladder. In a special ceremony prior to the Florida game on November 20, 2004, the home of Florida State football took on a meaning even more special when Bobby Bowden Field was dedicated. Now, with numerous additions to enhance the gameday experience, Seminole fans are treated to one of college football's greatest venues.

The 2008 season saw Doak Campbell Stadium come alive with new and exciting features. The north endzone scoreboard went from a video board that was 33 feet wide to a new 100 foot wide high quality digital board. The south endzone, which did not have any scoreboard prior to 2008, now dons a 24'x 45' video board.

The video boards weren't the only improvements, however, as 500 feet of ribbon board was also added around the stadium which display colorful graphics. The LED displays, which stand four-feet high, were placed in all four corners of the stadium. There are also ribbon boards running under the scoreboard in the north end zone and one just below where the band is located on the south side.

In 2007 a new sound system was installed improving the sound quality and smoothness. The system provides high quality sound to each and every person in the 83,000+ seat stadium.

The newest structural portions of the stadium are a second deck of the Varsity Club in the northwest corner of the stadium and additional Skyboxes leased through Seminole Boosters in the northeast corner.

A brand new playing surface was installed in Summer of 2010. The entire floor of the stadium was excavated eight inches deep and the old pump drainage system was replaced with a complete wall-to-wall system built exactly to USGA golf green standards. Sod, with the same variety of 419 Tiftway Bermuda that the Seminoles have been playing on for most of the previous 12 years, was laid on the entire field in 2004 and again in the spring of 2009.

The south end zone houses the Florida State University School of Hospitality, where students in the program receive hands-on experience in various aspects of the food and beverage industry. The multi-level facility includes a restaurant and a sports grill on the top floor that gives a breathtaking panoramic view of Bobby Bowden Field at Doak Campbell Stadium.

The north end zone, which consisted of wood bleachers until the 1994 season kicked off, is topped by the offices of the football coaches. The offices are just part of the Daisy Parker Flory wing of the Moore Athletic Center which includes a number of amenities for the football staff. An even more drastic change came to completion in June of 2005 when the athletics department offices moved back into the newly rebuilt Moore Center.

Towering above college football action from the east side are skyboxes, which stretch from goal line to goal line. New skyboxes are located above the west stands on the eighth floor. The west addition also houses the president's level on the seventh floor (which includes an open air terrace in the northwest corner) and one of the largest press boxes in college football with seating for over 250 members of the media.

A brick facade surrounds the stadium, matching the architectural design of most of the buildings on the Florida State campus. The University Center

Stadium Facts

- 2009 Capacity:..... 82,300
- Surface: 419 Tiftway Bermuda
- Location:..... Pensacola Street & Stadium Drive
- First Game: October 7, 1950
- Opponent:..... Randolph-Macon
- Score:..... Florida State 40, Randolph Macon 7
- All-Time Home Record: 257-86-4 (.746)

BOBBY BOWDEN FIELD AT DOAK CAMPBELL STADIUM

surrounds Bobby Bowden Field at Doak Campbell Stadium and houses numerous offices that were located on the interior of the FSU campus.

Inside the stadium, the lowest tier of field level seats were removed, providing increased sideline space and better viewing lines for the first few rows of fans. A matching brick wall was constructed along the east and west sidelines, limiting field access, increasing safety and giving the inside of the stadium a whole new look.

In its last 130 home games, FSU is 113-16-1. Bobby Bowden's Florida State teams have lost only 30 games at home in 32 years, giving the coach an impressive 164-30-2 record and an .842 winning percentage in Tallahassee. A milestone was reached on September 28, 1996 when Bowden won his 100th game in Doak Campbell Stadium as FSU's head coach with a 13-0 victory over North Carolina. In 2007, Bowden won his 300th career game at FSU right on the field that bears his name with a 24-16 win over Maryland.

But the winning tradition of Doak S. Campbell Stadium, which was named after the former FSU president of the same name, goes back before Bowden. All-time, Florida State is 254-83-4 in 341 home games for a winning percentage of .751.

Since the stadium opened on Oct. 7, 1950 with Florida State University taking a 40-7 victory over Randolph-Macon, millions of fans have packed Doak S. Campbell to see the finest in college football action. In 2003, Florida State set a single season attendance mark by drawing 498,895 fans over six home games. The latest expansion is the ninth in the history of the stadium. The current capacity of 82,300 reflects an increase of 28,281 since the end of the 1991 season.

Florida State first began play at Centennial Field during the inaugural 1947 season. In the three seasons that the Seminoles called Centennial Field their home, FSU had an overall home record of 8-4, including Coach Don Veller's undefeated 8-0 home mark over the 1948 and '49 seasons.

It's hard to imagine the first Doak Campbell Stadium, with a capacity of 15,000 back in 1950 was built at a cost of \$250,000. In 1954, the stadium grew to a capacity of 19,000. Six thousand more seats were added in 1961.

During the Bill Peterson era (1960-70), the stadium was expanded to 40,500 seats, and it remained at that capacity for the next 14 years. Between 1978 and 1982, there were three more additions.

Doak Campbell continues to grow and improve and has become an outstanding showcase for Florida State University.

THE DON FAULS ATHLETIC TRAINING ROOM

- Construction on the state-of-the-art Don Fauls Athletic Training Room was completed in 2004. The 15,000 square foot athletic training room is housed off Doak Campbell Stadium and is used by all 19 Seminole varsity teams.
- This facility is adequately equipped with the latest advances that the field of sports medicine has to offer. Some of the attractions include an in-house pharmacy, x-ray machine and two physician evaluation rooms.
- There is also a 4,000 square foot rehabilitation room with the latest version of a Biodex isokinetic testing machine.
- The treatment area includes 24 treatment tables with various modalities, computer injury tracking devices, and 18 taping benches.
- Florida State's athletes have ample accessibility for aquatic therapy as the Don Fauls Athletic Training Room includes a 8' x 40' in-ground workout pool, a 9' x 16' in-ground cold whirlpool, a 9' x 16' in-ground warm whirlpool and nine extremity whirlpools.

One of the most important aspects of a top athletic program is the athletic training staff and Florida State's sports medicine operation is headed by one of the best in the country in Randy Oravetz, who enters his 23rd year as the Director of Sports Medicine and his 31st year as an employee at Florida State.

A 1979 graduate of Florida State, Oravetz was instrumental in the design of the Don Fauls Athletic Training Room, named in honor of the legendary FSU athletic trainer. He supervises a staff of 10 assistant athletic trainers, six graduate-assistant athletic trainers and 42 student athletic trainers. He also oversees the medical care of over 500 athletes in 19 varsity sports. He is the primary liaison between the Florida State team doctors and the coaching staff and is directly responsible for the everyday care and treatment of the FSU football team.

Well-respected nationally, Oravetz has been recognized for excellence in his field. He was named to the Hall of Fame, Class of 2007 for the Athletic Trainers' Association of Florida (ATAF) and was honored by the National Association of Athletic Trainers in 1988 when he was awarded the National Service Award and again in 2000 when he received the Distinguished Athletic Trainer Award.

FSU Strength and Conditioning Mission Statement and Philosophy

It is the goal of the FSU Strength and Conditioning program to help each athlete reach their full athletic potential by providing them with training programs that are scientifically based and founded on modern methods of strength and conditioning.

Our motto as a strength and conditioning staff is simple, "stay in the eye of the storm." The most fundamental and important aspect of the Florida State University strength and conditioning program is that our coaches will always be on the floor coaching their athletes. No athlete is left to train on his or her own. Every workout, every exercise, every set, and every rep will be monitored by a coach. The coach will teach, instruct, provide feedback, and motivate the athlete.

The objective of the Florida State strength and conditioning staff is not only to produce stronger, better conditioned athletes, but also to build discipline and mental toughness in each athlete through the implementation of a very structured and organized environment. Athletes are held accountable for the commitment and effort that they put into the program, and lifting and conditioning must be viewed as a vital element in the training program for athletes of any sport.

The Florida State strength and conditioning staff also plays a major role in the nutritional counseling and implementation of healthy diets for each of our athletes. Our staff is responsible for selecting NCAA approved supplements that we deem the most beneficial to our athletes. On a daily basis, our strength and conditioning coaches weigh-in athletes to help monitor changes in bodyweight that may be associated with dehydration, sickness, skipping meals, overeating or eating junk food. This is all done in an effort to help our athletes reach their ideal playing bodyweights, keep energy levels high, and sufficient hydration levels.

SUN SPORTS

Paul Kennedy and Keith Jones

Sun Sports & FOX Sports Florida provides exclusive statewide coverage of the Florida State Seminoles in top-ranked football, basketball, baseball and other athletics action. FSU was the first team to sign an agreement with Sun Sports back in 1988 and has remained a partner of the network's each year since. Sun Sports goes beyond just game coverage with specials such as Seminole Gametime, coverage of women's sports and much more. As a national cable partner of the ACC, FOX Sports Florida provides viewers with extensive coverage of the Seminoles year-round with "ACC Sunday Night Hoops" and much more. Additional Florida State video content and exclusive analysis can be found on FoxSportsFlorida.com

Launched in March 1988, Sun Sports (formerly known as Sunshine Network), a Fox owned and managed regional sports network, currently reaches over six million cable and satellite

homes throughout the state of Florida and via satellite across the United States. FOX Sports Florida (launched in 1997 as SportsChannel Florida), another Fox owned and managed network, also serves the state of Florida via cable and satellite and is also available in over six million homes. While they are unique and separate channels, both Sun Sports and FOX Sports Florida are managed from headquarters in Florida.

In addition, Sun Sports airs and produces numerous FSU games/programs, including its own production of every FSU regular season football game, which replay statewide on Sun Sports on Sunday evenings during "Prime Time 'Noles," and again on Monday afternoon. "The Jimbo Fisher Show" can be seen statewide. Weekly highlights of FSU athletics air Saturdays with "Seminole Sports Magazine."

Twenty years ago the Sunshine Network cable venture seemed risky, but after two decades FSU's partnership with the state's premier broadcasting network has proven to be a stroke of genius – for both parties.

Excerpt from GAME TIME Magazine:

October, 2007

20 Years of "Sunshine" With Paul and Keith By: Rob Wilson, Assistant Athletics Director

Let's roll back the calendar 20 years ago and remember...

The year is 1988... Deion Sanders is a senior along with Pat Tomberlin, Steve Gabbard, Chip Ferguson and Dayne Williams among others. The junior class features Odell Haggins, Sammie Smith, LeRoy Butler, Terry Anthony, Dexter Carter and Peter Tom Willis. Lawrence Dawsey is a sophomore and the Fab Four is just good – one year away from fabulous.

TV's were not so flat panel that you could hang them on your wall 20 years ago. In fact, they weren't even flat at all. But a television venture began in 1988 that has meant a great deal to Florida State University and reshaped the way people view televised sports in our state. Sunshine Network launched in 1988 with ambitious plans to serve the sports hungry state of Florida with cable television access to the very best that the Sunshine State (get it?) had to offer. Some critics predicted the concept was doomed to failure. Looking for a sports program to anchor the network in its infancy, Sunshine knocked first on Florida State's door in hopes that the Seminoles would agree to be that partner in the innovative effort. Thanks to great foresight by both the FSU administration and the good folks at Sunshine – now Sun Sports and FOX Sports Florida – we have enjoyed 20 years of FSU sports on cable homes throughout Florida and the nation.

Adding to the unique nature of the relationship is that for the entire 20 years, the announcers have remained the same giving FSU football on Sun Sports a uniquely rich and familiar feel. The 2007 season is the 20th for broadcast partners Paul Kennedy and Keith Jones.

Now the Sports Director for Sun Sports & FOX Sports Florida and serves as one of the Fox-owned regional sports networks' primary hosts and play-by-play announcers, Kennedy is a consummate professional with Sun Sports, moving with ease and grace from professional hockey to baseball to football and everywhere in between. His smooth style and genuine enthusiasm for his work shows every time he is on camera. Few people appear to love their work as much as Kennedy does, but in that mountain of television he manages to bring the viewers every year, it's clear that his work with the Seminoles is special.

While Kennedy was a fresh face who has become synonymous with FSU athletics, his 20-year partner is a Seminole all the way. Keith Jones roamed the FSU secondary from his safety position from 1978-80 playing on some of the finest defenses in the history of FSU football. He jokes that Warrick Dunn selected jersey No. 28 to emulate him, but we all know better. KJ, as he is known within FSU circles, has dissected the action of nearly 250 FSU football games and has become one of the most respected color commentators around. His broadcasting talents made him an easy pick as the radio color analyst for Seminole men's basketball games.

SEMINOLE ISP SPORTS

ISP, America's Home for College Sports, is nationally recognized for its quality performance, professional workmanship and unrivaled service. Founded in 1992 in Winston-Salem, N.C., ISP Sports has enjoyed tremendous growth within the intercollegiate athletics marketplace. The ISP Sports family of leading NCAA members now touches every state in the Southeast while extending across the Mid-Atlantic into the Northeast, Midwest and West Coast corridors to more than 60 collegiate properties and growing.

Florida State fans can follow their Seminoles whether on the road or at home by listening to one of the nation's finest sports broadcasts when Gene Deckerhoff, William Floyd and the entire pregame crew bring you all the action of the Seminole ISP Sports Network. The show brings pregame breakdowns, all the game action, and postgame analysis to fans, alumni and college football enthusiasts throughout Florida and Georgia. In addition, fans can access the network's broadcast worldwide via All-Access, by logging onto Seminoles.com, the official website of Florida State Athletics. The Seminole ISP Sports Network will reach into over 30 markets in 2010, including some of the largest in the country. In Tallahassee, all the Seminole Football action can be heard on flagship stations WTNT-FM (94.9) and WNLS-AM (1270).

Florida State's broadcast crew is known as one of the nation's best, as it provides insight and entertainment, as well as detailed and expert play-by-play. The broadcast features award-winning play-by-play announcer Gene Deckerhoff, a 31-year veteran of the Seminole broadcasts. Deckerhoff is nationally known as one of the finest announcers in the South. The "Voice of the Seminoles" for the past 32 years, he is an 11-time winner of the NSSA Florida Sportscaster of the Year Award and has been inducted into the Florida Sports Hall of Fame. A native of Jacksonville, Fla., Deckerhoff has been the play-by-play announcer for the Tampa Bay Buccaneers of the NFL for the past 21 years, making for some very busy fall weekends. He runs Gene Deckerhoff Productions, a firm specializing in sports broadcasting and the production of radio and television commercials.

National Champion and Super Bowl winner William Floyd joins Deckerhoff in the booth as the color analyst. Floyd is now in his third season working with Seminole ISP Sports after joining the team in 2008. The former Florida State great is very familiar with the broadcasting world as he has hosted his own radio show in the Bay Area and worked as a reporter and studio analyst for SUN Sports.

During the pregame show, sportscaster Tom Block and Senior Associate Athletic Director Monk Bonasorte joins Floyd in providing in-depth analysis of the upcoming game. Florida State's game-day broadcasts begin two hours prior to every kickoff.

The Jimbo Fisher Show

"The Jimbo Fisher Show," televised throughout the entire state of Florida, features the head football coach of the Florida State Seminoles. Jimbo is joined each week on the show by co-hosts Gene Deckerhoff.

Every Monday afternoon during football season, Gene reviews the action-packed highlights of the previous day's game.

Jimbo Fisher Wednesday Call-In Show

On Wednesday evenings, Seminole fans know that the Seminole ISP Sports Network is THE source for information on Seminole Athletics. Coach Fisher's call-in show is an hour-long broadcast beginning at 7:00 PM. The show will feature Jimbo Fisher and Gene Deckerhoff talking directly with fans from across the country, touching on game insights, trivia, and random Seminole banter. The show will also be heard on the Seminole ISP Sports Radio Network.

COVERING THE SEMINOLES

PROCEDURES

All media who wish to cover FSU athletics will be expected to comply with all the procedures of the Sports Information office in order to be credentialed. Procedures will be provided in detail at the start of the 2010-11 athletic year.

CREDENTIAL REQUESTS

All requests for working press, radio, television, photography or scouting credentials should be directed to Sports Information Director Tina Dechausay no later than four days prior to the game. Requests for season credentials should be made at least two weeks prior to the first game. Space for the working press, radio and television is allocated by the FSU Sports Information Office.

PRESS PARKING

Once again, parking is limited in 2010 and passes will be issued on a priority basis within the same guidelines as working credentials. Press parking is approximately 600 yards from the press box, located in the parking garage just north of the Seminole soccer field on Spirit Way.

FOOTBALL GAMEDAY

All media, with the exception of the live network telecast crew, will work from the 9th level of the press box. Media can access the press box only through the designated elevator in the northwest tower of the University Center. After parking, media should proceed down Stadium Drive and move towards Gate B in the northwest corner of the end zone. To enter the press box, do not enter the stadium but proceed to the right and enter through the external doors marked "Press Entrance."

RADIO-TV

Florida State will host network television and both home and visiting radio in booths in the press box. Network television (or the network broadcasting live) will be working from a mid-field booth on the 8th Level (one below working press). Both home and visiting radio will broadcast from booths at the south end of the 9th level.

PHOTOGRAPHERS

Florida State reserves the right to admit only those photographers deemed to be on the premises for legitimate media purposes. All photographers working FSU games should be prepared to show a media ID card and equipment designed to photograph major college football. Florida State uses a double photo line system on its sidelines. Only those photographers actually shooting the game will be allowed on the "front" line. These shooters will be given photo armbands upon check-in to allow them front line access. All other photo personnel will be required to stay behind a second line as not to obstruct the view of the shooters. This would include grips, runners and sideline reporters. No media personnel are allowed in the team area of the sidelines at any time during a game. Sideline passes for local television will be severely curtailed for televised games and each station will be restricted to two passes. Still photographers may have access to the sidelines only. Those holding a photography credential should report to the Press Box where they will be issued an armband, rosters and a pre-game meal.

The only access to the field is through the gate at the northwest corner of the stadium near Gate A.

VIDEO SERVICES

Florida State's Sports Information Office has the ability to assist networks and television stations by providing video services through Seminole Productions, Inc. (SPI). Please call general manager Mark Rodin at (850) 644-6275 to arrange for these services.

TELEPHONES

Telephone service should be secured directly through the Florida State University Office of Telecommunications at (850) 644-4357. The Telecommunications Office can provide both lines and phones. Orders can also be placed on-line at www.otc.fsu.edu. Please make sure to request phone lines at least three days prior to the game.

INTERVIEWS

Media interviews with all FSU players MUST be arranged through the Sports Information Office. Contact Bob Thomas, Football SID at (850) 644-0615 to arrange interviews with players or assistant coaches. For interview requests with Coach Fisher, contact Sports Information Director Tina Dechausay (850) 644-1065. Please give at least one day advance notice when requesting players for mid-week interviews. Player's phone numbers will not be given to the media and players should not be called directly.

FISHER PRESS CONFERENCE

Head Coach Jimbo Fisher will meet with the media on Monday's during the season. Contact the Sports Information Office or refer to the weekly release for exact times and location for the press conferences which will begin during the week of the first game and run throughout the season.

SEMINOLE PRODUCTIONS

Anyone who has visited the second floor broadcast facilities in the Moore Athletics Center has seen them, the two very large, yet overcrowded trophy cases in the Seminole Productions area. That's because each and every year Florida State's Seminole Productions is recognized for excellence. With an experienced, award-winning staff and creative and talented students, Seminole Productions is looked at as a leader in sports production, graphics and corporate video. Creating the perfect blend of high-tech wizardry with good ole' Seminole sports action is a big part of what Seminole Productions is all about.

Established in 1987, Seminole Productions handles virtually every video production need for Florida State Athletics. Seminole Productions produces the Jimbo Fisher TV show, the Leonard Hamilton show and the Mike Martin show, as well as Seminole Sports Magazine and contracted shows for Sun Sports/Fox Sports Net. Seminole Productions also produces all of the production elements for Seminole Vision, the in-game entertainment productions for all of FSU football, basketball, and baseball home contests and provides visual communications support for Government and other agencies throughout the state of Florida.

In the spring, Seminole Productions learned that they would be adding five new pieces of hardware to their bustling collection. Through the Aurora Awards competition, Seminole Productions was recognized for its work with FSU athletics on both Athletic TV Programs, and for content running on FSU's Big Screen Displays. Of the five Aurora Awards received, one was a Platinum Best of Show Award recognizing the top production in the category, while four others were Gold Awards recognizing production excellence.

The Platinum Best of Show award went to Jim Garbarino for his creation of Graphics and Visual Effects in the 2009 Bobby Bowden Show open. This season Garbarino updated the Bowden show to give fans watching the show that exciting game day feel by incorporating video footage on a massive video display. This is the second year in a row

that the Visual Effects and Graphics in the Bobby Bowden Show open were recognized with a Platinum Best of Show Award.

Two of the four Aurora Gold Awards went to the popular Seminole Gametime programs, one highlighting the FSU Soccer team and the second highlighting the Seminole Volleyball team. These "behind the scenes" programs were created by Seminole Productions for Fox Sports. These shows offer viewers unparalleled access into their favorite FSU programs with content usually only seen through the eyes of coaches and players. The Gold Award for the Seminole Gametime soccer went to Jerry Tootle, while the other Gold Award for Seminole Gametime volleyball went to Zachary Judkins.

Two Gold Aurora's were also awarded to Seminole Productions staff members, Brant Wells for his 2009 FSU Football Open that was shown on the big screens as the Seminole football team hit the field, and another Gold Award went to Phil Jackson and Brant Wells for the "In The Doak" Music Video.

Previous Aurora Award winners include Disney I.D.E.A.S, The History Channel, A&E Network and Fox Sports Net. The Aurora statue itself was commissioned specifically for the competition by a nationally renowned sculptor. The statues are cast in the same foundry that creates the Emmy, Oscar and Clio statues.

Al Groh, Virginia	12:00 pm
Frank Beamer, Virginia Tech	12:10 pm
Jim Grobe, Wake Forest	12:20 pm

FLORIDA'S SEMINOLES

The Unconquered People

By Barry Ray

FSU Office of News and Public Affairs

As a people, few have prevailed over more trying circumstances than the Seminole Indians of Florida. Over the course of almost two centuries, Florida's Seminoles endured three wars with the U.S. government, resisted numerous efforts to relocate them to federal reservations in the West, and ultimately made their home in one of the world's most inhospitable environments, the Florida Everglades. That they have not only survived, but thrived – all while maintaining their fierce independence and rich culture – is a tribute to their courage and perseverance. This is their story.

Long before European explorers ever visited the area now known as Florida, native peoples had been living here for thousands of years. In fact, as many as 100,000 members of four Indian nations – the Apalachee, the Tequesta, the Timucua and the Calusa – were living in highly organized settlements throughout the peninsula when the Spanish first arrived in 1513.

The native peoples' lack of resistance to smallpox, yellow fever and other "European" diseases, as well as later slaving raids from the English colonies of Georgia and South Carolina, eventually decimated their numbers. By the mid-18th century, the Indian nations of Florida had ceased to exist.

In their place, groups of Indians from a confederation of tribes collectively referred to as the Lower Creeks began moving into Florida from Alabama and Georgia. They had been pushed out of their former homes by the encroachment of white settlers, as well as by conflicts with other tribes. It was around this time that the name "Seminoles" first appeared; there are several possible explanations as to its origins.

When the first English speakers began arriving in Florida in 1763, they found many Creeks living as *yat'siminoli*, or "free people," across the northern part of the Florida peninsula. ("*Yat'siminoli*" was a term used in the Mikisúkí, or Miccosukee, language, which still is spoken today.) The settlers may have simply ignored the Indians' separate tribal affiliations and called them all Seminoles, or Seminoles.

Others believe that the Seminole name comes from the Spanish word *cimarron*, meaning "wild men" or "unconquered." The Indians may have been given this name because they had escaped from slavery in the English-controlled colonies to the north.

With the end of the American Revolutionary War in 1784, English-speaking settlers began moving southward in ever greater numbers, buying or seizing land from the native inhabitants. By 1813, some of the Creek tribes in Alabama rose up against the white settlers and the Indian tribes that supported them. This conflict, known as the Creek War of 1813-14, proved disastrous to all of the tribes. U.S. troops led by Gen. Andrew Jackson crushed the uprising and forced a treaty on the Creeks that took more than 2 million acres of land from them. Several thousand Creek warriors and their families migrated south into Spanish Florida, where they and the Seminoles increased their resistance to white settlement.

In 1814, such conflicts escalated into the first of three Seminole wars. Over the next four years, Jackson illegally entered Spanish Florida numerous times to burn Seminole villages and kill resistance leaders.

With the end of the First Seminole War in 1818, many Indians moved further into Florida. By 1820, the year before Spanish Florida became a U.S. territory, there were at least 5,000 Seminoles, Creeks and Mikisúkí people living here. However, a series of federal treaties failed to protect their rights and, in 1835, war broke out again.

The Second Seminole War (1835-42) proved to be the longest, most

costly, and the last of the U.S. wars of Indian removal fought east of the Mississippi River. It also would be the first guerilla-style war faced by U.S. troops. Led by the fierce warrior Osceola, the Seminoles were aided by runaway slaves, who received protection from their allies in return for a portion of the agricultural staples that they grew. These so-called "Black Seminoles" also had a reputation as fierce fighters, and were equally determined to preserve their freedom.

The fighting ended in a stalemate in 1842, and an uneasy peace lasted for 14 years. In 1856, however, Seminole leader Billy Bowlegs and his followers were provoked by U.S. soldiers. They retaliated, and the ensuing series of skirmishes became known as the Third Seminole War (1856-58).

When U.S. troops once more withdrew – again with no treaty or victory – the Seminole Wars finally ended. All told, more than 3,000 Seminoles had been forcibly removed from Florida to the Western territories of Arkansas and Oklahoma. As few as 300 remained in Florida, and they took refuge within the dense swamps of the Everglades. However, their place in history was assured as the only American Indian tribe never to have signed a peace treaty with the U.S. government.

From the 1920s onward, as the development boom exploded in South Florida, the Seminoles lost more and more of their hunting lands to tourists and settlers. They became agricultural workers in the vegetable fields of South Florida, and also ran tourist attractions, wearing their colorful patchwork clothing, producing souvenirs and wrestling alligators.

On Aug. 21, 1957, the Seminole Tribe of Florida was established through a majority vote of Florida's Seminole Indians. This vote gave the Seminoles federal recognition as a self-governing tribe with a constitutional form of government. The Seminole Tribe of Florida now has almost 3,000 members living on five reservations across the peninsula at Hollywood, Big Cypress, Brighton, Immokalee and Tampa.

The Seminoles work hard to be economically independent. Tourism and gaming profits pay for infrastructure and schools on their reservations, while citrus groves, cattle agriculture, aircraft production, tobacco sales, land leases and aquaculture are other significant sources of revenue.

Having persevered through two centuries of adversity, the Seminole Indians of Florida have earned the right to call themselves "the unconquered people." Their indomitable spirit is one that Florida State University proudly seeks to emulate in all of its endeavors.

The Symbol: Seminoles

Florida State would play two games in 1947 before students demanded the school acquire a symbol. While details conflict, most believe the account of a poll of the student body is accurate. The Florida Flambeau reported that Seminoles had won by 110 votes over Statesmen. The rest of the top contenders (in order) were Rebels, Tarpons, Fighting Warriors and Crackers.

In the 1950s, a pair of students dressed in Native American costumes and joined the cheerleaders on the field which eventually evolved into the majestic symbol of Osceola and Renegade that FSU now enjoys. Today, the Seminole Indian Tribe participates in many campus activities.

Florida State University is proud of its longstanding cooperative relationship with the Seminole Tribe of Florida. The Seminole people have suffered many hardships and injustices, but they have remained brave, dignified and proud. The Seminoles are unconquered. They symbolize what we hope will be the traits of all of our graduates, including our student-athletes.

THE FLORIDA STATE UNIVERSITY

One of the nation's elite research universities, Florida State University – with the Carnegie Foundation's highest designation: Doctoral/Research University-Extensive – offers a distinctive academic environment built on its cherished values and unique heritage, a welcoming campus on the oldest continuous site of higher education in Florida, championship athletics, and a prime location in the heart of the state capital.

Combining traditional strength in the arts and humanities with recognized leadership in the sciences, Florida State University provides unmatched opportunities for students and faculty through challenging academics, cultural discovery and community interaction.

Underlying and supporting the educational experience at Florida State University is the development of new generations of citizen leaders, based on the concepts inscribed in our seal: **Vires, Artes, Mores – Strength, Skill and Character.**

Epitomized by recently named Rhodes Scholars Garrett Johnson and Myron Rolle – elite athletes and scholars committed to public service – and Joseph O'Shea – a campus and community leader as well as a top scholar – Florida State's 40,000 students are dedicated to academic excellence and providing leadership in our complex world.

Florida State University's 15 colleges offer more than 275 undergraduate, graduate, doctoral, professional and specialist degree programs, including medicine and law, covering a broad array of disciplines critical to society today. Each year the University awards over 2,000 graduate and professional degrees.

With its impressive breadth of leading graduate, professional and undergraduate programs, Florida State University is a demanding, intellectually stimulating, yet warm and caring environment for students and faculty. Recognized nationally for its commitment to diversity, Florida State University is a national leader in the number of doctorates awarded to African-American students and in the graduation rate of African-American undergraduates. Its College of

Medicine and College of Law are ranked in the nation's Top 10 for Hispanic students.

Florida State University's arts programs – dance, film, music and theatre – rank among the finest in the world, offering an arts education comparable to leading conservatories. Its creative writing program is ranked among the nation's best and is home to

the most consistently honored and published student body in the United States. Florida State is responsible for governance of the John and Mable Ringling Museum of Art and associated arts programs, one of the largest museum/university complexes in the nation.

Other programs consistently included in the top public university list include physics, chemistry, political science, psychology, criminology, public administration, library science, information, human sciences, business and law.

At the Ph.D. level, interdisciplinary programs draw on notable research faculty strengths that transcend the traditional disciplines, including neuroscience, molecular biophysics, computational science, materials science and research at the National High Magnetic Field Laboratory—home to the world's most powerful magnets.

Based on forward-thinking research through innovative interdisciplinary academic clusters, the campus-wide Pathways of Excellence initiative, a plan adopted in 2005, characterizes the university's aspirations and commitment to the future.
