

THE ACC

THE TRADITION

Consistency. It is the mark of true excellence in any endeavor. However, in today's intercollegiate athletics, competition has become so balanced and so competitive that it is virtually impossible to maintain a high level of consistency.

Yet the Atlantic Coast Conference has defied the odds. Now, in its 59th year of competition, the ACC has long enjoyed the reputation as one of the strongest and most competitive intercollegiate conferences in the nation. And that is not mere conjecture, the numbers support it

Since the league's inception in 1953, ACC schools have captured 122 national championships, including 65 in women's competition and 57 in men's. In addition, NCAA individual titles have gone to ACC studentathletes 140 times in men's competition and 99 times in women's action.

The conference had an immediate impact on the national college football scene in the fall of 1953 when the University of Maryland captured the first of what would eventually be five national football titles for the ACC. Clemson laid claim to the league's second national title in 1981 while Georgia Tech followed suit in 1990. Florida State pocketed national titles No. 4 and 5 in 1993 and 1999.

Additionally, Miami has laid claim to five national gridiron titles over the past 27 seasons. Four of the Hurricanes' five national titles (1983, 1987, 1989, 2001) were unanimous with both the sportswriters and coaches polls, while in 1991 Miami (AP) shared the national title with Washington (coaches).

The 12 institutions that take to the field this fall under the ACC banner have produced 572 first- or second-team gridiron All-Americas and 73 first-team academic All-Americas.

ACC Football, though, has always been about more than just wins and losses and individual athletics honors. ACC schools, cumulatively, were ranked higher nationally than any other conference in the most recent rankings of American Universities by the U.S. News & World Report, with eight ACC institutions ranked 56th or higher nationally and all 12 schools rated as "Tier One" schools.

The Conference was No. 1 with a diploma in 2010 for the sixth straight year, as the ACC led all Football Bowl Subdivision Conferences in the NCAA's graduation rate (GSR). The ACC also had the highest football APR as a league for the fifth consecutive year. In 2010, six ACC schools were honored nationally (AFCA) for their graduation rates. ACC schools have led the nation in football graduation rates no fewer than 20 times.

Since becoming a 12-team league in 2005, the ACC has consistently made history in the NFL's annual professional football draft. This year, the ACC had 15 of the first 60 players chosen in the NFL Draft. No other league had more than 10 of the first 60 players drafted.

In the 2009 NFL Draft, the ACC was the only league with four players chosen among the top nine selections in the draft. It marked the second time in four years the ACC had managed that trick, also claiming four of the top nine picks in 2005. During the 2006, 2007 and 2008 drafts, the Conference became the first college league in the history to have two of the top four NFL Draft picks in each of three consecutive years.

In 2008, the ACC also set an NFL Draft record having the first defensive player chosen for three straight years with NC State's Mario Williams (2006), Clemson's Gaines Adams (2007) and Virginia's Chris Long (2008) claiming the honor.

The ACC's run began with the 2006 Draft when the Conference set an NFL Draft record with 12 players chosen in the first round and 51 players chosen overall. During that time, the ACC is second among all conferences in the last six years in first-round draftees, having 37 chosen, and total number of draftees with 214.

Heading into the 2011 football season, no league in America has sent more linebackers to the NFL, as no fewer than 53 former ACC standouts began the summer on NFL rosters leading both the Big Ten (49) and SEC (46) for that honor. This marked the third straight year the Conference had led or tied in numbers of linebackers on NFL rosters.

The 12 current ACC schools have had 2,256 players selected in the annual professional football draft, including 229 first-round selections.

The ACC was one of only three conferences nationally to have at least four teams chosen in both the final 2010 Associated Press Top 25 in Virginia Tech (16), Florida State (17), Maryland (23) and NC State (25); and the 2010 final Top 25 for the USA Today Coaches poll in Virginia Tech (15), Florida State (16), Maryland (24) and NC State (25).

The ACC also has a storied bowl tradition, setting an NCAA record with 10 of its teams (.833) invited to post-season bowl games in 2008, breaking its own record for bowl participation (.778) set originally in 2002.

Since 2005, the Conference is second among all leagues with 50 of its teams travelling to post-season bowl games. Additionally, four of its teams—Florida State (5th, 24-14-2, 625), Boston College (11th, 13-9, .591), Georgia Tech (14th, 22-17, .564) and NC State (15th, 13-11-1, .540)—rank among the Top 15 winningest bowl programs of all-time, with a fifth--Miami (19-19-17-0, .527)--ranked 20th. Four ACC schools are also among the top eight nationally in current bowl game streaks including national leader Florida State (29 straight bowl games), Virginia Tech (3rd, 18), Georgia Tech (tied for 4th, 14) and Boston College (tied for 7th, 12).

2010-11 IN REVIEW

The 2010-11 academic year saw league teams capturing two more national team titles and 19 individual NCAA crowns. In all, the ACC has won 52 national team titles over the last 14 years and has won two or more NCAA titles in 28 of the past 30 years.

The ACC was the only conference in America to place four of its teams in the final Top 10 rankings of the 2009-10 Learfield Director's Cup Standings--symbolic of the nation's top overall programs--as Duke (5th), North Carolina (6th), Virginia (7th) and Florida State (9th) all were ranked nationally in the Top 10.

This past year also marked the 10th consecutive year that the ACC has placed four or more teams in the Top 30 as Maryland finished 17th in this year's final rankings. In all, the ACC is one of only three conferences to have all of its member schools in the Top 75.

Á total of 132 ACC teams placed in NCAA post-season competition in 2010-11. League teams compiled a 125-79-5 (.610) mark against opponents in NCAA championship competition.

2010-11 NATIONAL CHAMPIONSHIPS

Field Hockey Men's Lacrosse Maryland Virginia

SCHOOL AFFILIATIONS

BOSTON COLLEGE -- Charter member of the Big East Conference in 1979; joined the ACC in July, 2005.

CLEMSON -- Charter member of the Southern Intercollegiate Athletic Association in 1894; a charter member of the Southern Conference in 1921; a charter member of the Atlantic Coast Conference (ACC) in 1953.

DUKE -- Joined the Southern Conference in December, 1928; charter member of the ACC in 1953.

FLORIDA STATE -- Charter member of the Dixie Conference in 1948; joined the Metro Conference in July, 1976; joined the ACC July, 1991.

GEORGIA TECH -- Charter member of the Southern Intercollegiate Athletic Association in 1894; charter member of Southern Conference in 1921; charter member of the SEC in 1932; joined the ACC in April, 1978.

MARYLAND -- Charter member of the Southern Conference in 1921; charter member of the ACC in 1953.

MIAMI -- Charter member of the Big East Football Conference in 1991; joined the ACC in July, 2004.

NORTH CAROLINA -- Charter member of the Southern Intercollegiate Athletic Association in 1894; charter member of the Southern Conference in 1921; charter member of the ACC in 1953.

NC STATE -- Charter member of the Southern Conference in 1921; charter member of the ACC in 1953.

VIRGINIA -- Charter member of the Southern Intercollegiate Athletic Association in 1894; charter member of the Southern Conference in 1921; resigned from Southern Conference in December 1936; joined the ACC in December, 1953.

VIRGINIA TECH -- Charter member of the Southern Conference in 1921; withdrew from the Southern Conference in June, 1965; became a charter member of the Big East Football Conference in Feb. 5, 1991; joined the ACC in July, 2004.

WAKE FOREST -- Joined the Southern Conference in February, 1936; charter member of the ACC in 1953.

MISSION STATEMENT OF THE ATLANTIC COAST CONFERENCE

The Atlantic Coast Conference, through its member institutions, seeks to maximize the educational and athletic opportunities of its student-athletes while enriching their quality of life. It strives to do so by affording individuals equitable opportunity to pursue academic excellence and compete successfully at the highest level of intercollegiate athletics competition in a broad spectrum of sports and championships. The Conference will provide leadership in attaining these goals, promoting diversity and mutual trust among its member institutions, in a spirit of fairness for all. It strongly adheres to the principles of integrity and sportsmanship, and supports the total development of the student-athlete and each member institution's athletics departmental staff, the with intent of producing enlightened leadership for tomorrow.

UNIVERSITY FACTS

OVERVIEW: The Florida State University is a state-funded, fully accredited coeducational, comprehensive research institution with an international reputation in the sciences and humanities. Recognized for providing a diverse and caring environment, it is widely known for offering extensive opportunities in research, service learning and study abroad. It is one of the top 50 public universities in the nation, according to U.S. News & World Report's "America's Best Colleges."

BACKGROUND: Florida State was established as the Seminary West of the Suwannee by an act of the Florida Legislature in 1851 and first offered instruction at the postsecondary level in 1857. Its Tallahassee campus has been the site of an institution of higher education longer than any other site in the state. In 1905, the Buckman Act reorganized higher education in the state and designated the Tallahassee school as the Florida Female College. In 1909, it was renamed Florida State College for Women. In 1947, the school returned to coeducational status, and the name was changed to The Florida State University. It has grown from an enrollment of 2,583 in 1946 to 40,838 in 2010.

ENROLLMENT (FALL 2010): Total 40,838...75.9% undergraduate, 20.9% graduate, 3.2% unclassified...80.7% in-state...93.3% from the United States...students hail from all 50 states and the District of Columbia...17 states contributed more than 100 students each...20 foreign countries contributed more than 25 students each... female, 54.9%...male, 45.1%...minority, 27.2%...international, 3.5%.

ACREAGE: Main Campus: 451.6 acres in Tallahassee, Leon County (main campus)...Panama City Campus: 25.6 acres in Panama City, Bay County...the university owns a total of 1,613.5 acres in Leon, Bay, Collier, Franklin, Sarasota and Gadsden counties...sites are leased in Marion and Leon counties in Florida, and other locations

COLLEGE DEGREE PROGRAMS: With 16 colleges, students may take courses of study leading to a baccalaureate degree in 102 programs, to a master's or advanced master's degree in 118 programs, to a specialist degree in 25 programs, to a doctoral degree in 75 programs, to a professional degree in two programs. The academic divisions are the colleges of Applied Sciences; Arts and Sciences; Business; Communication and Information; Criminology and Criminal Justice; Education; Engineering; Human Sciences; Law; Medicine; Motion Picture Arts; Music; Nursing; Social Sciences and Public Policy; Social Work; and Visual Arts, Theatre and Dance.

OPERATING BUDGET (2010-2011): \$1.1 billion

DEGREES AWARDED FOR 2009-2010: Bachelor's 7,926...Master's 2,203...Specialist 42...Doctorate 340... Juris Doctorate 249...Medical Doctorate 94...Total 10,854.

ENTERING FRESHMAN FACTS (2010): The middle 50% high school GPA, 3.5-4.0...SAT score 1130-1280...ACT score 24-28...there were 18 National Merit Scholars, 4 National Achievement Scholars and 4 Hispanic Scholars enrolled as undergraduate students during the fall 2010 term.

FACULTY: Total 2,285...Florida State's faculty has included six Nobel Laureates...12 faculty members have been elected to the National Academy of Sciences...11 faculty members have been elected to the American Academy of Arts and Sciences...two faculty members have been elected to the National Academy of Engineering...one faculty member has been elected to the National Academy of Medicine...and two faculty members are Pulitzer Prize winners.

EDUCATIONAL ADVANTAGES: Florida State has the No. 1 ranked criminology and criminal justice program in the nation...is located a mere four blocks from the state Capitol, which affords students from many academic disciplines opportunities for employment or internships with legislators and state agencies...is home to the National High Magnetic Field Laboratory, the largest and highest-powered magnet laboratory in the world.

EDUCATIONAL OPPORTUNITIES ABROAD: Florida State offers a variety of overseas opportunities for students during the regular academic year. It has study centers in Florence, Italy; Panama City, Panama; Valencia, Spain; and London, England. Courses at the study centers are offered each semester and cover a wide range of subject areas that are perfect for meeting general and liberal studies requirements. Summer programs are currently being offered in Argentina, Australia, Bahamas, Brazil, China, Costa Rica, Croatia, Czech Republic, Ecuador, France, Israel, Peru, Russia, South Africa, Switzerland and Turkey.

EXTRACURRICULAR ACTIVITIES: Florida State has more than 450 recognized student organizations that allow students to find their own niche.

RESEARCH: Florida State has built a reputation as a strong research center in both the sciences and the humanities. The faculty generates \$199.8 million in external funds to be used for research. These external funds are in the form of contracts and grants from private foundations, industries and government agencies, and are used to support research, improve research facilities and provide stipends for graduate students.

LIBRARY HOLDINGS: Florida State's Library System contains more than 3 million volumes, of which 878,189 are available electronically as e-books...FSU Libraries subscribe to 53,691 electronic journals and 746 databases.

UNIVERSITY ADMINISTRATION

Dr. Eric J. Barron became the 14th president of The Florida State University on February 1, 2010.

He is a 1973 Florida State alumnus, with a bachelor's degree in geology. He earned master's and doctoral degrees in oceanography from the University of Miami.

Prior to assuming the Florida State presidency, he served as director of the National Center for Atmospheric Research in Boulder, Colo. From 2006-2008 Dr. Barron was dean of the Jackson School of Geosciences at the University of Texas at Austin. At Pennsylvania State University from 1986-2006, he was professor of geosciences, director of the Earth System Science Center, director of the EMS Environment Institute and finally dean of the College of Earth and Mineral Sciences.

Dr. Barron is a Fellow in the American Association for the Advancement of Science, the American Geophysical Union, the American Meteorological Society and the Geological Society of America. He has received many national awards as a scholar, researcher and distinguished lecturer, has published extensively and has been editor or a member of the editorial boards of a dozen academic journals.

He has testified before Congress and has chaired numerous committees in service to the federal government, including the NASA Senior Review for the Earth Sciences in 2005. He has chaired committees and panels of the National Research Council since 1987.

A highly visible scientist, Barron is committed to the full spectrum of academic disciplines. He is an ardent supporter and advocate for the full spectrum of excellence in the arts and humanities, sciences, law, business and medicine.

A native of Lafayette, Ind., Barron and his wife, Molly, have two grown children and one granddaughter.

ATHLETIC ADMINISTRATION

RANDY SPETMAN

Director of Athletics

Florida State Director of Athletics Randy Spetman can rightfully look at his first three years at the helm of the Seminole program with great pride. This past year, FSU athletics was the only Division I department in the NCAA to have all of its 19 sports participate in the NCAA postseason. Florida State has now sent every one of its sports into postseason competition for the second consecutive year, once again something no other school can match. In addition, this past athletic year the FSU's men's basketball program played in the Sweet 16 for the first time since the 1992-93 season, while both the men's and women's cross country teams finished second in the nation as did the men's outdoor track and field team.

After being ranked 15th nationally in the Director's Cup following his first year, FSU earned its highest ever ranking in 2009-10 when the school finished fifth overall. This past year FSU was in the top 10 once again, finishing ninth in the nation. These are the first top 10 finishes in school history and in each of the last six years the Seminole athletic program has finished higher in the standings than at any other point in program history. The first ever top 10 finishes under Spetman are so impressive as this was accomplished during a time when budgets are as constrained at Florida's universities as they have ever been in the modern era.

In 2010-11, Florida State had a banner athletic year under Spetman's guidance. FSU was one of only eight schools to have its football team play in a bowl game, its men's basketball team selected to the NCAA Tournament and its baseball team selected for the NCAA Championships. This comes on the heels of 2009-10 when the Seminoles were one of only three universities in the country to appear in a bowl game, an NCAA men's basketball tournament and advance to the baseball College World Series.

"We are blessed with a great staff, quality student-athletes and the best coaches in the nation and that is evident by all of the honors and successes we've celebrated over the past two years," said Spetman. "I am proud of what we have been able to accomplish and excited about the fact that we can achieve even more. Our goal is to perform at the very top level both academically and athletically and we have been able to do that in a very challenging economic environment. Finishing in the top 10 in the Director's Cup the last two years and producing over 130 All-ACC Academic Team honorees in that span is proof of our progress towards those goals."

The success Spetman has experienced at Florida State begins with excellence in the classroom. In November of 2008, football's Myron Rolle highlighted the academic year when he became the second Seminole student-athlete since 2006 to earn a Rhodes Scholarship - one of the oldest and most prestigious awards for international study. It was the first time in nearly 25 years a Rhodes Scholar was awarded to a prominent college football player. Rolle is the fourth Florida State student to be named a Rhodes Scholar.

In just his second full academic year, Spetman's vision of performing among the nation's best academically and athletically continued in 2010-11. Florida State finished with three national runner-up team finishes, four ACC Team Championships, three ACC Coach of the Year honors, more than 60 All-America honors, three CoSIDA first team Academic All-Americans, four ACC Scholar-Athletes of the Year and 69 All-ACC Academic team selections.

Football's Christian Ponder was named the ACC James Tatum Award winner as the top scholar athlete among all ACC football players. Jennifer Dunn (Cross Country), James Ramsey (Baseball) and Ciaran O'Lionaird (Outdoor Track & Field) were also named the top scholar athletes in their individual sports by the ACC last year. Three Seminoles earned CoSIDA Academic All-America first team honors and seven other FSU athletes were named academic all-district by CoSIDA.

This past year FSU added two exciting facilities with the completion of a multi-purpose teaching facility and six indoor courts for the tennis programs and a women's softball hitting complex. In 2011-12 the football practice fields, which underwent a major renovation during the summer, will open for fall practice.

Spetman was introduced as Director of Athletics at FSU on February 4, 2008 following a national search. A former pilot and retired Air Force colonel, he took over after serving as Director of Athletics at Utah State from 2004-2008 and in the same position at the United States Air Force Academy from 1996-2003.

Spetman, 58, was lauded over his tenure at Utah State for the success of the Aggies' athletic programs both on the field or court and in the classroom. Utah State joined the Western Athletic Conference (WAC) in 2005 and claimed four conference championships in its first two years. USU's student-athletes led the WAC with a 78 percent graduation rate and maintained over a 3.0 cumulative grade point average.

Under Spetman's leadership, Utah State made high profile improvements to the football stadium. He also spearheaded fundraising and building efforts for a \$12.5 million facility and crafted a unique business partnership for medical health coverage that improved the overall coverage of USU student-athletes and reduced medical costs. In addition, he negotiated a lucrative new marketing agreement for Aggie Athletics with Learfield Sports Properties.

Spetman spent eight successful years as Director of Athletics at the United States Air Force Academy in Colorado Springs, Co. During his tenure, he administered the school's 27-sport intercollegiate program as well as the physical education and intramural programs. Under his command, the football team participated in four bowl games.

Born and raised in Council Bluffs, Iowa, Spetman graduated from the Air Force Academy in 1976. He earned three letters as a defensive end for the Falcons and was a team captain as a senior. He also won a pair of heavyweight Wing Open Boxing Championships. Spetman's 28-year military career took him around the world in a variety of positions. A command pilot with more than 3,000 hours of flight time, his range of positions took him from assistant football coach at his alma mater to Chief of Bomber Planning in Operations Desert Shield and Desert Storm to serving as Chief, Command and Control Division, Operations Directorate of the U.S. European Command in Stuttgart, Germany.

A graduate from Squadron Officer School, he attended the National War College and earned a master's degree in National Security Strategy. Spetman also holds a master's in management and supervision from Central Michigan University.

He served as President of the National Association of Collegiate Director's of Athletics (NACDA) in 2009-10.

He and his wife, the former Becky Luhring of Des Moines, Iowa, are the parents of two grown children, Brian and Kim.

PAMELA L. PERREWE'

· Faculty Athletics Representative

Pamela L. Perrewé (Ph.D.) is in her first year as the Faculty Athletic Representative to the NCAA and the Atlantic Coast Conference.

Perrewé is the Haywood and Betty Taylor Eminent Scholar of Business Administration and Distinguished Research Professor at Florida State University. She received her Bachelor degree in Psychology from Purdue University and her Master and Ph.D. degrees in Management from the University of Nebraska. Dr. Perrewé has focused her research

interests in the areas of job stress, burnout, coping, mentoring, organizational politics, emotion and personality. Dr. Perrewé has published several books, over 20 book chapters and over 100 articles in journals such as Academy of Management Journal, Journal of Management, Journal of Applied Psychology, and Organizational Behavior and Human Decision Processes. She holds Fellow status in the Society for Industrial and Organizational Psychology and the American Psychological Association.

Dr. Perrewé has maintained a commitment to her profession as well as to Florida State University for over 25 years, and she has won teaching, mentoring, and research awards at Florida State University. She has served as the Management Department Chair as well as the Associate Dean for Graduate Programs in the College of Business. She has a passion for sports, enjoys playing tennis, and has served on the Athletic Board since 2004. Dr. Perrewé also served on the Board of Scientific Counselors of the National Institute for Occupational Safety and Health (NIOSH) from 2004-2007.

She is married to Dr. Gerald R. Ferris and together they have six children; Erin, Jennifer, Emily, Ellie, Stephen and Matthew.

ATHLETIC ADMINISTRATION

MONK BONASORTE

- Senior Associate Athletics Director
- · Football Oversight

Monk Bonasorte is in his fourth year as Senior Associate Director of Athletics at Florida State. He is responsible for internal operations within the department.

In his role, he also has direct oversight of football and assists with the daily workings of FSU's Olympic sports. Bonasorte also has administration oversight of student services, athletic training, olympic strength and conditioning and the equipment staff.

A member of Florida State's All-Time football team as named by Athlon Magazine, Bonasorte earned four varsity letters (1977-80), played in the 1977 Tangerine Bowl and two Orange Bowls (1980 and 1981) and was inducted into the FSU Athletics Hall of Fame in 1995 as one of the top defensive backs in school history. He ranks second in school history with 15 interceptions while his eight interceptions in 1979 ranks as the second highest single season total in school history. Bonasorte joined the Florida State athletics department executive staff in 2008 after a 13-year career as the president and executive director of the Florida State University Varsity Club - the organization that gives back to every Seminole letter winner and allows them to give back to the current letter winners. He helped build the FSU Varsity Club into one of the top organizations of its kind across the nation.

As a player, Bonasorte earned All-America Third Team honors in 1979 by the Associated Press and All-America Second Team honors from Football News in 1980 starring on one of the toughest defensive units in Florida State history in 1979. He led the nation in interceptions for the majority of the 1979 season and finished with eight to rank fourth nationally and set a Seminole record for interceptions in a season. The Seminoles ranked sixth nationally and fifth nationally during his junior and senior seasons, respectively.

Bonasorte spent seven years working with the Elmont Sports Group - a leader in the building and marketing of professional sports teams. He served as the marketing director for two seasons for the Tallahassee Scorpions of indoor professional league. He served as the director of marketing for the East Coast Hockey league Tallahassee Tiger Sharks (1997-99) and served as the Vice President and General Manager for the Tallahassee Thunder of the Arena2 Football league (1999-2003).

Bonasorte and his wife, Beverly, have two sons, T.J. and Rocky.

DR. ALLISON

Senior Associate Athletics Director/SWA

Dr. Allison Rich is in her second year as the Senior Associate Athletics Director/Senior Woman Administrator. She oversees external operations of the FSU Athletic Department including marketing, tickets, media, communications and more. As the Senior Woman Administrator, she also plays an active role in monitoring and maintaining equitable treatment of all student-athletes, programs, coaches and staff.

Rich came to Florida State in May of 2010. She has vast intercollegiate athletics experience having worked as a Membership Services Representative at the NCAA and in athletic administration at both the University of Pacific and Cal State Fullerton.

Rich began her duties as Senior Associate Athletics Director and Senior Woman Administrator at Cal State Fullerton in January 2005 and was later elevated to Deputy Director of Athletics/SWA. In her role with the department, Rich supervised and coordinated the daily administrative operations of the Titan athletics department. Some of her other responsibilities included the department's budget, policies, strategic planning, legal issues, judicial affairs, hiring and personnel development.

Rich chaired the Athletics Equity Committee at Fullerton and maintained oversight of the athletic program's business affairs, personnel, compliance, facilities, tickets, equipment, sports medicine and strength and conditioning. Active across each campus she has worked on, Rich served on several committees including the Student Affairs Executive Committee, University Risk Management and the NCAA Certification Steering Committee. She also had a national presence, serving on the Executive Committee of the NCAA Division I Committee on Athletics Certification

From 1998 to 2005, Rich was the Associate Director of Athletics for Internal Affairs at the University of the Pacific. At Pacific she was responsible for department policies and procedures, served as the athletics legal resource, was involved with the creation of an umbrella booster club structure and maintained oversight of individual sport support groups, and supervised various sports and programs. Prior to that, she spent two years as a Membership Services Representative for the NCAA where she drafted legislation, worked on several NCAA publications, worked with committees such as satisfactory progress and financial aid and spoke to groups around the country including various sport conferences and national associations.

Rich serves on the Board of Directors for the Sports Lawyers Association. She is a member of the National Association of Collegiate Directors of Athletics (NACDA), the National Association of Collegiate Women Athletics Administrators (NACWAA), the Illinois State Bar Association, the Chicago Bar Association and Phi Kappa Phi National Honor Society. Rich completed the Sports Management Institute (SMI) Executive Program in 2009.

Rich, from Chicago, Illinois, earned her bachelor's degree at Princeton University, her J.D. at Chicago-Kent College of Law and her Doctorate in Educational Administration at the University of the Pacific

KEVIN TERRY

Senior Associate Athletics Director/CFO

Kevin Terry is in his seventh year with the Florida State Athletics Department. After serving as Assistant Athletics Director of Business Operations and Finance, Terry was elevated to the position of Senior Associate Athletics Director and CFO in July of 2010.

Terry joined the Florida State University Athletics Department in 2004, served as Assistant Business Manager from 2004-2007 and was promoted to Business Manager in 2007 in charge of all business operations for Seminole Athletics. Terry was later promoted to Assistant Athletics Director of Business Operations and Finance in 2009.

In his role as chief financial officer of the department, Terry directs the development and administration of the program's \$68 million budget and coordinates the financial planning, business operations and accounting functions.

Currently, Terry is responsible for administrative oversight of the following departments: Business Operations, Ticket Operations, Facilities, Information Technology and Human Resources / Payroll. Before coming to Florida State University, Terry worked for five years with the Georgia Institute of Technology Athletic Association in a number of roles. While at Georgia Tech, Terry had multiple responsibilities within both Business Operations and Ticket Operations for the Yellow Jackets.

Terry received both his bachelor's degree in Business Administration and Finance and a master's degree in Sport Administration from Georgia State University in Atlanta.

NCAR COMPLIANCE

FLORIDA STATE

COMPLIANCE

WHAT IS NOAA COMPLIANCE?

Florida State University is committed and obligated to the principle of institutional control in operating its athletics program in a manner that is consistent with the letter and the spirit of the NCAA, ACC and University rules and regulations. The maintaining of institutional control is imperative to the continued growth and success of Seminole Athletics. Proper rules compliance is the concern of everyone associated with Florida State University, and everyone plays a role. Keeping our student-athletes, administrators, coaching staffs and alumni/boosters abreast of NCAA and ACC rules is the key to ensuring proper rules compliance.

The FSU Compliance Team coordinates, monitors and verifies compliance with all NCAA requirements and educates the various constituencies of the University and the community regarding NCAA/ACC regulations. Our office is dedicated to providing educational programs and interpretive support to ensure that all individuals involved with the athletics program understand and adhere to the University's compliance expectations. It is the goal of the compliance program to place the University in a proactive position by educating, overseeing and monitoring the intercollegiate athletics program and maintaining a positive compliance environment. Some of the areas that the office is responsible for are Amateurism, Coaching Limits, Eligibility, Recruiting, Financial Aid, Awards and Benefits and Playing and Practice Seasons.

The Compliance Office is located on the Fourth Floor of the Moore Athletic Center and is staffed by the Associate Athletic Director for Compliance, two Assistant Athletic Directors, two Directors of Compliance and two Graduate Assistants. We welcome any questions or concerns that you may have

CONTACT THE COMPLIANCE TEAM

regarding the NCAA or ACC regulations in relation to FSU student-athletes or athletics programs.

PLEASE REMEMBER TO ASK BEFORE YOU ACT!

Florida State University wants to continue our winning ways, but it is important to win the right way – and that means adhering to the NCAA rules. Therefore, we encourage you to contact the Compliance Team should you have any questions about or knowledge of a potential rules violation. Providing information about any potential violations is the best way to protect FSU, current student-athletes and prospects. The Compliance Team can be contacted via phone at 850/644-4272 or email at ath-compliance@admin.fsu.edu. You can also follow us on Twitter: @FSUcompliance and Facebook: "FSU Compliance".

We greatly appreciate your continued support and assistance in our compliance efforts.

MISSION STATEMENT

The mission of Student-Athlete Academic Services (SAAS) at The Florida State University is to help student-athletes strive for excellence in all aspects of life. This is accomplished by creating an environment that supports academic, athletic and personal achievement, utilizing highly qualified and dedicated support staff and administrative personnel. A combined effort helps individuals become better students, athletes, and citizens, and prepares student-athletes to make transitions to the next level of participation academically and athletically.

More specifically, the drive towards excellence will focus on the advancement of learning, developing leadership skills, and fostering the personal growth of the student athlete, while offering a high quality athletics program. SAAS personnel will strive to provide programs that develop meaningful standards of scholarship, leadership, integrity and self-responsibility. This focus extends to all phases of academic and professional development, culminating with graduation and job placement or graduate

ACADEMIC ADVISING

The advisors in SAAS serve as a portion of the advising unit for all student- athletes. The staff advises students through the Liberal Studies curriculum, degree prerequisites and major requirements. Advisors work with the students in a number of areas related to the academic experience at Florida State University, with a primary emphasis in advising and monitoring the progress toward the selected degree program, taking into consideration all variables which would enhance or impede each student toward the goal of graduation. By partnering with on-campus major advisors, the SAAS staff provides comprehensive assistance in all areas of university advising.

SUPPORT SERVICES

In addition to Academic Advisors, student-athletes have the opportunity to benefit from working with the staff Learning Specialists. Designed to provide intensive, essential learning strategies, the SAAS Learning Specialists' target population are at-risk student-athletes who would like to refine their basic skills. By providing proactive, early, sustained, individualized support to enhance student success and develop independent learners, Learning Specialists are utilized by more than just the at-risk population. Additional responsibilities include administering an academic needs assessment for student-athletes with learning challenges, as well as consulting on referrals for further testing if desired.

TUTORING PROGRAM

The Athletic Department at Florida State University has made a commitment to providing our student athletes with one of the finest and most comprehensive tutorial programs in the nation. The tutorial program is just one of several key support services that are available to all student-athletes as they progress towards their goal of obtaining a college degree from FSU.

SAAS hires approximately 85 tutors a year, from a variety of academic departments, who are committed to providing proactive individualized assistance with course comprehension and study skills. The Strategic Tutoring program provides each student-athlete with the opportunity to have

individualized assistance in the areas of study skills, test preparation, organization and time management. Strategic Tutors tailor their efforts to meet the needs of each student, their learning style and their academic strengths. Tutorial assistance is a free service available to all student athletes in any of their academic coursework and may be obtained by filling out a tutorial request form at the beginning of the semester, and discussing needs with their advisor.

COMPUTER LAB

The Student Athlete Academic Services computer lab is located in the Moore Athletic Center on the second floor outside of the SAAS office. Florida State has 47 PC compatible computers and several laser printers available for use by the student-athletes. The computer lab is available to student-athletes with

a current FSU ID card. The entire department is also equipped with wireless internet which can easily be accessed using the standard FSU issued logon.

BRIDGE PROGRAM

Student-Athlete Academic Services, in conjunction with Athletic Student Services and the University, offers incoming student-athletes a "Summer Bridge Program" to aid in the transition from high school to college and highlights many different topics that are important for student-athlete success in academics and FSU. The program is a week-long intensive orientation that incorporates the standard FSU orientation with the athletics department orientation and continues throughout the six-week summer session. Seminars, designed to acclimate the students to the University community, are conducted weekly. Seminar topics include media training, health promotions, academic mapping requirements, the Academic Honor Policy and the Student Code of Conduct, as well as faculty communications and expectations.

ACADEMIC HONORS AND AWARDS PROGRAMS

Student-Athlete Academic Services is committed to recognizing the academic success of all student-athletes. The annual "Golden Torch Gala" is an academic awards banquet that occurs each fall and is the highlight of the year. At this event, the ACC Honor Roll student-athletes, and individuals with the highest GPA on their respective teams are recognized, as well as the men's and women's teams with the highest combined GPA.

Team meetings are held each year, during which time student-athletes are notified of potential honors and awards and are encouraged to apply. A combination of a strong grade point average, athletic accomplishments, community service activities and leadership experiences make for a student-athlete capable of obtaining unlimited academic honors, awards and postgraduate opportunities. Florida State student-athletes have achieved great satisfaction in obtaining recognition for academic achievements. Over the past two decades, more than \$470,000 in Postgraduate Scholarship monies have been granted to FSU student-athletes, as well as numerous other academic honors.

MATT SCHMAUCH ACADEMIC COMMITMENT AWARD

The Matt Schmauch Academic Commitment Award was established in honor and memory of former Academic Support Assistant Director Matt Schmauch, who passed away in June of 2003, and is given annually to a deserving football student athlete. The award does not necessarily go to the football player with the highest GPA. Rather, it goes to the player who is dedicated to getting a degree, is accountable and responsible in the classroom and works everyday to be a better student.

ABOUT STUDENT SERVICES

The Office of Student Services strives to establish a commitment to the total growth and development of each student-athlete. Through the N.O.L.E.S. program (New Opportunities for Leadership, Education & Service), an administrative commitment to academics and athletic excellence, as well as to personal development, these efforts are supported with programs and services in personal, career, and leadership development.

PERSONAL DEVELOPMENT

Fostering the development of personal growth is a fundamental component of the N.O.L.E.S. program. This support program ensures that the student-athletes will be provided with opportunities to focus on personal growth areas such as values clarification, goal setting, fiscal planning, decision-making and personal responsibility. Programming focuses on helping the student-athletes develop a healthy lifestyle while they are at Florida State University and habits that will benefit them throughout their lives

CAREER DEVELOPMENT

Preparing for life after college is a major focus of the N.O.L.E.S. program. The program is designed to work in cooperation with Florida State's Career Center to acquaint students with the job search process, provide networking opportunities and ultimately assist with job placement. The program places a priority on the development of the total person, with the goal of developing individuals who will have rewarding and productive lifestyles after they leave Florida State University.

COMMUNITY SERVICE

Serving the community is the focus of the Seminole Spirit program. Student-athletes are challenged to give service to our community and individuals who are in need. With a clearly defined program of service, student-athletes are given the opportunity to develop a lifelong commitment to volunteerism. Over the years, our commitment to community service has grown leaps and bounds. During the 2006-2007, 2007-2008 and 2009-10 academic school years. The Florida State University department of athletics was recognized by the National Consortium for Academics and Sports for having one of the most successful outreach and community service programs in the nation, in which Seminole Student-Athletes impacted the lives of over 150,000 youth. During the 2010-11 academic year, Florida State's student-athletes performed almost 6,000 hours of community service as a group.

LEADERSHIP DEVELOPMENT

The Florida State University Department of Athletics is committed to developing programs of excellence that foster leadership development. Currently, the Office of Student Services offers three leadership programs to our student-athletes. The Student-Athlete Advisory Council (SAAC) has been in place at Florida State for over fifteen years and is a fantastic group of motivated student-athletes. The SAAC is made up of 45 studentathletes, with at least two representing every sports team and the spirit groups. Regularly scheduled meetings occur bi-weekly which gives the members an opportunity to discuss issues confronting student-athletes, here at Florida State, as well as in the Atlantic Coast Conference (ACC) and across the nation. The SAAC at Florida State has many responsibilities. They take the lead on a variety of events, starting with New Student-Athlete Orientation, Peers Helping Athletes Transition (P.H.A.T.) Tuesdays, the Welcome Back Picnic and the Golden Nole Awards Banquet, where seniors from each team are recognized and student-athletes who have excelled in the area of community service are honored. SAAC officers for the 2011-2012 academic year are President James Ramsey from Baseball, Vice President Margo Zwerling from Track and Field and Secretary Jacob Brooks from Cross Country.

In addition to the leadership program and opportunities provided to the student-athletes on the SAAC, there are two additional leadership programs that are offered to all male and female student-athletes. WILD (Women in Leadership Development) Women, and REAL (Reliable Educated Accountable Leaders) Men provide an opportunity for a small group of male and female studentathletes to further develop their leadership skills. Materials used for these groups are adapted from Jeff Janssen's 'Captain's Leadership Manual', John Maxwell's 'Ultimate Leadership', and Dale Carnegie's 'Leadership Institute'. Topics addressed include: effective communication, values and ethics, conflict resolution, goal setting, time management, leaving a legacy, and writing a personal mission statement. Group members are chosen on a first come, first serve basis and the curriculum lasts throughout the academic year.

FSU STRENGTH AND CONDITIONING

FSU STRENGTH AND CONDITIONING MISSION STATEMENT AND PHILOSOPHY

It is the goal of the FSU Strength and Conditioning program to help each athlete reach their full athletic potential by providing them with training programs that are scientifically based and founded on modern methods of strength and conditioning.

Our motto as a strength and conditioning staff is simple: "Stay in the eye of the storm." The most fundamental and important aspect of the Florida State University strength and conditioning program is that our coaches will always be on the floor coaching their athletes. No athlete is left to train on his or her own. Every workout, every exercise, every set, and every rep will be monitored by a coach. The coach will teach, instruct, provide feedback, and motivate the athlete.

The objective of the Florida State strength and conditioning staff is not only to produce stronger, better conditioned athletes, but also to build discipline and mental toughness in each athlete through the implementation of a very structured and organized environment. Athletes are held accountable for the commitment and effort that they put into the program, and lifting and conditioning must be viewed as a vital element in the training program for athletes of any sport.

The Florida State strength and conditioning staff also plays a major role in the nutritional counseling and implementation of healthy diets for each of our athletes. Our staff is responsible for selecting NCAA approved supplements that we deem the most beneficial to our athletes. On a daily basis, our strength and conditioning coaches weigh-in athletes to help monitor changes in bodyweight that may be associated with dehydration, sickness, skipping meals, overeating or improper diet. This is all done in an effort to help our athletes reach their ideal playing bodyweights, keep energy levels high, and maintain sufficient hydration levels.

DON FAULS ATHLETIC TRAINING ROOM

The Don Fauls Athletic Training Room was completed in 2004 and serves as the centerpiece for the daily medical needs of Seminole Football athletes as well as the student-athletes for all 20 of FSU's intercollegiate teams. This 15,000 square foot facility provides FSU student-athletes with access to virtually any needed avenue of health care through the many amenities in place in the facility, as well as through the team and supporting physician network.

Jake Pfeil is in his eighth year as a member of the Florida State University staff, and his first as the Associate Director of Sports Medicine and head football athletic trainer. Pfeil oversees the daily medical care of the Seminole football team, including injury prevention and rehabilitation. Pfeil is certified by the National Athletic Trainers Association Board of Certification and is a licensed athletic trainer by the state of Florida. Pfeil is also an approved clinical instructor for the Florida State University Athletic Training Education Program. Pfeil came to Florida State in 2004 serving as the Insurance/Risk Coordinator. Since then he has served as the athletic trainer for Seminole baseball for the past six seasons. During that time Pfeil was part of the baseball programs' continued run of 34 consecutive post-season appearances, a 2010 ACC Championship, hosting four straight Super Regionals from 2008-11, and College World Series appearances in 2008 and 2010.

Immediately prior to joining the Florida State staff, Pfeil was employed by Tallahassee Orthopedic and Sports Physical Therapy, where his responsibility was serving as the head athletic trainer at Tallahassee Community College in 2003.

Pfeil earned a master's degree in sport administration from Mississippi State University in 2002, where he was a graduate assistant athletic trainer for the football team. He graduated from Florida State in 2000 with a bachelor's degree in sport management with an emphasis in athletic training, while also serving as a student athletic trainer with football and baseball. Pfeil was awarded summer internships with the NFL's Atlanta Falcons in 1999 and 2000, and was a seasonal assistant for the Falcons in 2002.

The Madison County, Florida native and his wife Cheryl, who is also an assistant athletic trainer at Florida State, welcomed their first son, Cole, in March of 2011.

OSCEOLA AND RENEGADE

Arguably the greatest spectacle in college football unfolds moments before kickoff at Doak Campbell Stadium when Osceola charges down the field atop Renegade, a beautiful Appaloosa, and plants a flaming spear at midfield prior to each home game.

The tradition was born on September 16, 1978, when a student led the football team from the tunnel, riding a horse as the Seminoles headed into battle against Oklahoma State. Jim Kidder and Reo were the original Osceola and Renegade. Since then, five different Renegades and 15 different riders have made the ride and planted the spear, which brings the game day crowd to its feet.

Bill Durham trained the riders and horses for 20 years before passing the honor and responsibility along to his son, Allen, who was a rider from 1992-1994. The clothing and rigging used by Osceola and Renegade are designed for authenticity and approved by the Seminole Indian Tribe of Florida.

THE SEMINOLE TRIBE OF FLORIDA

THE UNCONQUERED PEOPLE

By Barry Ray
FSU Office of News and Public Affairs

As a people, few have prevailed over more trying circumstances than the Seminole Indians of Florida. Over the course of almost two centuries, Florida's Seminoles endured three wars with the U.S. government, resisted numerous efforts to relocate them to federal reservations in the West, and ultimately made their home in one of the world's most inhospitable environments, the Florida Everglades. That they have not only survived, but thrived — all the while maintaining their fierce independence and rich culture — is a tribute to their courage and perseverance. This is their story.

Long before European explorers ever visited the area now known as Florida, native peoples had been living here for thousands of years. In fact, as many as 100,000 members of four Indian nations — the Apalachee, the Tequesta, the Timucua and the Calusa — were living in highly organized settlements throughout the peninsula when the Spanish first arrived in 1513.

The native peoples' lack of resistance to smallpox, yellow fever and other "European" diseases, as well as later slaving raids from the English colonies of Georgia and South Carolina, eventually decimated their numbers. By the mid-18th century, the Indian nations of Florida had ceased to exist.

In their place, groups of Indians from a confederation of tribes collectively referred to as the Lower Creeks began moving into Florida from Alabama and Georgia. They had been pushed out of their former homes by the encroachment of white settlers, as well as by conflicts with other tribes. It was around this time that the name "Seminoles" first appeared; there are several possible explanations as to its origins.

When the first English speakers began arriving in Florida in 1763, they found many Creeks living as yat'siminoli, or "free people," across the northern part of the Florida peninsula. ("Yat'siminoli" was a term used in the Mikisúki, or Miccosukee, language, which still is spoken today.) The settlers may have simply ignored the Indians' separate tribal affiliations and called them all Seminolies. or Seminoles.

Others believe that the Seminole name comes from the Spanish word cimarron, meaning "wild men" or "unconquered." The Indians may have been given this name because they had escaped from slavery in the English-controlled colonies to the north. With the end of the American Revolutionary War in 1784, English-speaking settlers began moving southward in ever greater numbers, buying or seizing land from the native inhabitants. By 1813, some of the Creek tribes in Alabama rose up against the white settlers and the Indian tribes that supported them. This conflict, known as the Creek War of 1813-14, proved disastrous to all of the tribes. U.S. troops led by Gen. Andrew Jackson crushed the uprising and forced a treaty on the Creeks that took more than 2 million acres of land from them. Several thousand Creek warriors and their families migrated south into Spanish Florida, where they and the Seminoles increased their resistance to white settlement.

In 1814, such conflicts escalated into the first of three Seminole wars. Over the next four years, Jackson illegally entered Spanish Florida numerous times to burn Seminole villages and kill resistance leaders.

With the end of the First Seminole War in 1818, many Indians moved further into Florida. By 1820, the year before Spanish Florida became a U.S. territory, there were at least 5,000 Seminoles, Creeks and Mikisúkî people living here. However, a series of federal treaties failed to protect their rights and, in 1835, war broke out again.

The Second Seminole War (1835-42) proved to be the longest, most costly, and the last of the U.S. wars of Indian removal fought east of the Mississippi River. It also would be the first guerilla-style war faced by U.S. troops. Led by the fierce warrior Osceola, the Seminoles were aided by runaway slaves, who received protection from their allies in return for a portion of the agricultural staples that they grew. These so-called "Black Seminoles" also had a reputation as fierce fighters, and were equally determined to preserve their freedom.

THE SYMBOL: SEMINOLES

Florida State would play two games in 1947 before students demanded the school acquire a symbol. While details conflict, most believe the account of a poll of the student body is accurate. The Florida Flambeau reported that Seminoles had won by 110 votes over Statesmen. The rest of the top contenders (in order) were Rebels, Tarpons, Fighting Warriors and Crackers.

In the 1950s, a pair of students dressed in Native American costumes and joined the cheerleaders on the field which eventually evolved into the majestic symbol of Osceola and Renegade that FSU now enjoys. Today, the Seminole Indian Tribe participates in many campus activities.

Florida State University is proud of its longstanding cooperative relationship with the Seminole Tribe of Florida. The Seminole people have suffered many hardships and injustices, but they have remained brave, dignified and proud. The Seminoles are unconquered. They symbolize what we hope will be the traits of all of our graduates, including our student-athletes.

The fighting ended in a stalemate in 1842, and an uneasy peace lasted for 14 years. In 1856, however, Seminole leader Billy Bowlegs and his followers were provoked by U.S. soldiers. They retaliated, and the ensuing series of skirmishes became known as the Third Seminole War (1856-58).

When U.S. troops once more withdrew — again with no treaty or victory — the Seminole Wars finally ended. All told, more than 3,000 Seminoles had been forcibly removed from Florida to the Western territories of Arkansas and Oklahoma. As few as 300 remained in Florida, and they took refuge within the dense swamps of the Everglades. However, their place in history was assured as the only American Indian tribe never to have signed a peace treaty with the U.S. government.

From the 1920s onward, as the development boom exploded in South Florida, the Seminoles lost more and more of their hunting lands to tourists and settlers. They became agricultural workers in the vegetable fields of South Florida, and also ran tourist attractions, wearing their colorful patchwork clothing, producing souvenirs and wrestling alligators.

On Aug. 21, 1957, the Seminole Tribe of Florida was established through a majority vote of Florida's Seminole Indians. This vote gave the Seminoles federal recognition as a self-governing tribe with a constitutional form of government. The Seminole Tribe of Florida now has almost 3,000 members living on five reservations across the peninsula at Hollywood, Big Cypress, Brighton, Immokalee and Tampa.

The Seminoles work hard to be economically independent. Tourism and gaming profits pay for infrastructure and schools on their reservations, while citrus groves, cattle agriculture, aircraft production, tobacco sales, land leases and aquaculture are other significant sources of revenue.

Having persevered through two centuries of adversity, the Seminole Indians of Florida have earned the right to call themselves "the unconquered people." Their indomitable spirit is one that Florida State University proudly seeks to emulate in all of its endeavors.

^{*} denotes national television

NATIONAL MEDIA EXPOSURE

- Excluding the 2011 BCS bowl games, Florida State
 has participated in two of the top five most viewed
 ESPN bowl games in the history of the sports cable
 network with the 2008 Champs Sports Bowl ranking
 fourth on the list and the 2010 Chick-fil-A Bowl ranking
- Two of the top three most-watched games in the history of the BCS featured the Seminoles (2000 Sugar Bowl and 2001 Orange Bowl).
- Florida State has played on national television 193 times since 1995, including 13 appearances in 2009.
- Florida State appeared in two of the top 10 most-viewed college football games during the 2009 season.
 The Seminoles' season-opener at home against Miami (ESPN) ranked 7th across all networks and drew a 5.07 rating and was seen in more than 5.8 million homes. FSU's regular-season finale at Florida (CBS) ranked 10th with a 4.70 rating and reached nearly 5.4 million homes and was that network's fourth highest rated game of the year.
- The Jan. 1, 2010 Gator Bowl game between FSU and West Virginia – Bobby Bowden's final game as coach – reached 4.5 million homes. The rating was the secondhighest for the Gator Bowl dating back to 2003.

MOST TV APPEARANCES ON A MAJOR NETWORK SINCE 1995

1.	Florida State	193
1.	Michigan	193
<u>3.</u>	Penn State	161

- For the fifth time in seven years, Florida State helped set an attendance record at a bowl game. A crowd of 84,219 turned out at Jacksonville Municipal Stadium for the 2010 Gator Bowl, establishing a new bowl record.
- FSU's two previous bowl appearances the 2008
 Champs Sports Bowl (vs. Wisconsin) and 2007 Music City Bowl (vs. Kentucky) also earned high marks
 from the networks. Not only did the 'Noles help set
 a new Champs Bowl attendance mark, but the 5.20
 rating ranked fourth all-time among bowls broadcast
 by ESPN. FSU's Music City bowl appearance against
 Kentucky boosted ratings for that game by 80 percent
 over the previous year.

SEMINOLE IMG SPORTS NETWORK

IMG College is the leading multimedia, marketing and licensing/brand management company in America representing more than 200 of the nation's top collegiate properties including the NCAA and its 89 championships, NCAA Football, leading conferences, and many of the most prestigious colleges and universities in the country. Headquartered in Winston Salem, N.C., IMG College employs 700 people in nearly 100 offices throughout the U.S. with annual sales of nearly \$450 million.

IMG College is the leader in capturing consumer devotion to college sports through partnership opportunities in multimedia rights, licensing, events and hospitality, marketing, stadium and arena development, stadium seating solutions, ticketing, sales, and consulting. IMG College produces nearly 30,000 hours of radio programming on the largest sports network in the country, manages nearly 5,000 hours of local television programming, is the leading publisher of college sports publications, and is the largest manager of university athletic websites. IMG College is a division of IMG Worldwide, a global sports, fashion and media business. For more information, please visit www.imgworld.com. Seminole IMG Sports Marketing is headed up by General Manager, Paul Phipps.

Florida State's broadcast crew is known as one of the nation's best, as it provides insight and entertainment, as well as detailed and expert play-by-play. The broadcast features award-winning play-by-play announcer Gene Deckerhoff, a 32-year veteran of the Seminole broadcasts. Deckerhoff is nationally known as one of the finest announcers in the South. The "Voice of the Seminoles" for the past 32 years, he is a 12-time winner of the NSSA Florida Sportscaster of the Year Award and has been inducted into the Florida Sports Hall of Fame. A native of Jacksonville, Fla., Deckerhoff has been the play-by-play announcer for the Tampa Bay Buccaneers of the NFL for the past 22 years, making for some very busy fall weekends. He runs Gene Deckerhoff Productions, a firm specializing in sports broadcasting and the production of radio and television commercials.

National Champion and Super Bowl winner William Floyd joins Deckerhoff in the booth as the color analyst. Floyd is now his fourth season broadcasting FSU football games after joining the team in 2008. The former Florida State great is very familiar with the broadcasting world as he has hosted his own radio show in the Bay Area and worked as a reporter and studio analyst for SUN Sports. During the pregame show, sportscaster Tom Block and Senior Associate Athletic Director Monk Bonasorte

join Floyd in providing in-depth analysis of the upcoming game. Florida State's game-day broadcasts begin two hours prior to every kickoff.

THE JIMBO FISHER SHOW

"The Jimbo Fisher Show," televised throughout the entire state of Florida, features the head football coach of the Florida State Seminoles. Every Monday afternoon during football season, Tom Block reviews the action packed highlights of the previous weekend's game.

JIMBO FISHER WEDNESDAY CALL-IN SHOW

On Wednesday evenings, Seminole fans know that the Seminole IMG College Sports Network is THE source for information on Seminole Athletics. Coach Fisher's call-in show is an hour-long broadcast beginning at 7:00 PM. The show will feature Jimbo Fisher and Gene Deckerhoff talking directly with fans from across the country, touching on game insights, trivia, and random Seminole banter.

SEMINOLE PRODUCTIONS

Anyone who has visited the second floor broadcast facilities in the Moore Athletics Center has seen them - the two very large, yet overcrowded trophy cases in the Seminole Productions area. That's because each and every year Florida State's Seminole Productions is recognized for excellence. With an experienced, award-winning staff and creative and talented students, Seminole Productions is viewed as a leader in sports production, graphics and corporate video. Creating the perfect blend of high tech wizardry with outstanding Seminole sports action is a big part of what Seminole Productions is all about.

Established in 1987, Seminole Productions handles virtually every video production need for Florida State Athletics. It produces the Jimbo Fisher, Leonard Hamilton and Mike Martin TV shows, as well as Seminole Sports Magazine and contracted shows for Sun Sports/ Fox Sports Florida. Seminole Productions also provides all of the production elements for Seminole Vision, the in-game entertainment productions for all Florida State football, basketball and baseball home contests, in addition to providing visual communication support for the government and other agencies throughout the State of Florida.

Over the years, Seminole Productions has won over 60 national and international awards in a variety of production and graphics categories. It was recognized for its work with Florida State athletics on both TV programs and for content running on FSU's Big Screen displays. In 2011 producer D.D. Garbarino was nominated for an Emmy Award for Seminole Gametime: Women's Basketball. The program featured outstanding behind-the-scenes footage of the FSU women's team as they participated in the NCAA postseason.

Seminole Productions also established itself as a leader in stereo 3D (S3D) video production while producing Florid State football's highlight video in S3D. FSU is the only school in the nation to have their football highlights in S3D. Executive Director Mark Rodin continues to test the boundaries of S3D with experimentation in other sports and various programming. Seminole Productions has partnered with several industry leaders in broadcast production to test and evaluate S3D equipment, while seeking new techniques and applications.

While staying ahead of the industry curve, expect continued programming excellence from Seminole Productions during the 2011-12 school year with more behind-the-scenes programs, weekly shows and specialty programming which will showcase all of the outstanding Florida State athletics teams, featuring the student-athletes and coaches that set the program apart.

For additional information on Seminole Productions, contact Mark Rodin at marodin@ fsu.edu.

THIS IS FSU

One of the nation's elite research universities, Florida State University — with the Carnegie Foundation's highest designation, Doctoral/Research University-Extensive — offers a distinctive academic environment built on its cherished values and unique heritage, welcoming campus on the oldest continuous site of higher education in Florida, championship athletics, and prime location in the heart of the state capital.

Combining traditional strength in the arts and humanities with recognized leadership in the sciences, Florida State University provides unmatched opportunities for students and faculty through challenging academics, cultural discovery and community interaction. Underlying and supporting the educational experience at Florida State University is the development of new generations of citizen leaders, based on the concepts inscribed in our seal: Vires, Artes, Mores — Strength, Skill and Character.

Epitomized by recently named Rhodes Scholars Garrett Johnson and Myron Rolle — elite athletes and scholars committed to public service — and Joseph O'Shea — a campus and community leader as well as a top scholar — Florida State's 40,000 students are dedicated to academic excellence and providing leadership in our complex world.

Florida State University's 16 colleges offer more than 275 undergraduate, graduate, doctoral, professional and specialist degree programs, including medicine and law, covering a broad array of disciplines critical to society today. Each year the University awards over 2,000 graduate and professional degrees.

With its impressive breadth of leading graduate, professional and undergraduate programs, Florida State University is a demanding, intellectually stimulating, yet warm and caring environment for students and faculty. Recognized nationally for its commitment to diversity, Florida State University is a national leader in the number of doctorates awarded to African-American students and in the graduation rate of African-American undergraduates. Its College of Medicine and College of Law are ranked in the nation's Top 10 for Hispanic students.

Florida State University's arts programs — dance, film, music and theatre — rank among the finest in the world, offering an arts education comparable to leading conservatories. Its creative writing program is ranked among the nation's best and is home to the most consistently honored and published student body in the United States. Florida State is responsible for governance of the John and Mable Ringling Museum of Art and associated arts programs, one of the largest museum/university complexes in the nation.

Other programs consistently included in the top public university list include physics, chemistry, political science, psychology, criminology, public administration, library science, information, human sciences, business and law.

At the Ph.D. level, interdisciplinary programs draw on notable research faculty strengths that transcend the traditional disciplines, including neuroscience, molecular biophysics, computational science, materials science and research at the National High Magnetic Field Laboratory—home to the world's most powerful magnets.

COVERING THE SEMINOLES

PROCEDURES

All media who wish to cover FSU athletics will be expected to comply with all the procedures of the University, ACC and Sports Information office in order to be credentialed. Procedures will be provided in detail at the start of the 2011-12 athletic year.

CREDENTIAL REQUESTS

All requests for working press, radio, television, photography or scouting credentials should be directed to our on-line credentialing site located at http://www.seminoles.com/multimedia/mediarelations.html no later than four days prior to the game. PHOTOS WILL BE REQUIRED THIS SEASON AND MUST BE UPLOADED AT THE TIME YOU REQUEST CREDENTIALS. Requests for season credentials should be made at least two weeks prior to the first game. Space for the working press, radio and television is allocated by the FSU Sports Information Office. Any credential questions can be answered by Assistant A.D./SID Elliott Finebloom.

PRESS PARKING

Once again, parking is limited in 2011 and passes will be issued on a priority basis within the same guidelines as working credentials. Press parking is approximately 600 yards from the press box, located in the parking garage just north of the Seminole soccer field on Spirit Way.

FOOTBALL GAMEDAY

All media, with the exception of the live network telecast crew, will work from the 9th level of the press box. Media can access the press box only through the designated elevator in the northwest tower of the University Center. After parking, media should proceed down Stadium Drive and move towards Gate B in the northwest corner of the end zone. To enter the press box, do not enter the stadium but proceed to the right and enter through the external doors marked "Press Entrance."

RADIO-TV

Florida State will host both home and visiting radio booths in the press box. Network television (or the network broadcasting live) will be working from a mid-field booth on the 8th Level (one below working press). Both home and visiting radio will broadcast from booths at the south end of the 9th level.

PHOTOGRAPHERS

Florida State reserves the right to admit only those photographers deemed to be on the premises for legitimate media purposes. All photographers working FSU games should be prepared to show a media ID card and equipment designed to photograph major college football. Florida State uses a double photo line system on its sidelines. Only those photographers actually shooting the game will be allowed on the "front" line. These shooters will be given photo armbands upon check-in to allow them front line access. All other photo personnel will be required to stay behind a second line as not to obstruct the view of the shooters. This would include grips, runners and sideline reporters. No media personnel are allowed in the team area of the sidelines at any time during a game. Sideline passes for local television will be severely curtailed for televised games and each station will be restricted to two passes. Still photographers may have access to the sidelines only. Those holding a photography credential should report to the Press Box where they will be issued an armband, rosters and a pre-game meal. The only access to the field is through the gate at the northwest corner of the stadium near Gate A. ANY SECONDARY OR COMMERCIAL USE OF ANY PICTURE TAKEN BY THE ACCREDITED ORGANIZATION OR INDIVIDUAL TO WHOM A CREDENTIAL HAS BEEN ISSUED (INCLUDING, BUT NOT LIMITED TO USE IN DELAYED EDITORIAL, ADVERTISING, SALES PROMOTION OR MERCHANDISING) IS PROHIBITED WITHOUT PRIOR, SPECIFIC, WRITTEN APPROVAL OF FLORIDA STATE UNIVERSITY.

VIDEO SERVICES

Florida State's Sports Information Office has the ability to assist networks and television stations by providing video services through Seminole Productions, Inc. (SPI). Please call general manager Mark Rodin at (850) 644-6275 to arrange for these services.

TELEPHONES

Telephone service should be secured directly through the Florida State University Office of Telecommunications at (850) 644-4357. The Telecommunications Office can provide both lines and phones. Orders can also be placed on-line at www. otc.fsu.edu. Please make sure to request phone lines at least three days prior to the game.

INTERVIEWS

Media interviews with all FSU players and coaches MUST be arranged through the Sports Information Office. Contact Kerwin Lonzo, Football SID at (850) 644-5656 to arrange interviews with head coach Jimbo Fisher and Seminole players. Please give at least one day advance notice when requesting players for midweek interviews. Player's phone numbers will not be given to the media and players should not be called directly or contacted through social media sites to arrange interviews or ask questions.

FISHER PRESS CONFERENCE

Head Coach Jimbo Fisher will meet with the media on Monday's during the season and will be followed by the starting quarterback. Contact the Sports Information Office or refer to the weekly release for exact times and location for the press conferences which will begin during the week of the first game and run throughout the season.

SOCIAL MEDIA

Florida State Sports Information is making a continued effort in 2011-12 to utilize social media outlets as another way of passing information to our fans and those who cover our programs. Media can receive updated information from the SID office via Twitter by following @FSUSID. Fan feeds for the athletic department (@Seminoles_com) and the football program (@FSU_Football) are available as well. Our Facebook home is located at http://www.facebook.com/FSUSeminoles.
