

mal habitat and 1880s farm of the Tallahassee Museum of History and Natural Science, which provide the rare chance to walk and talk with native Florida animals.

Tallahassee remains firmly linked with the past as evidenced by the unearthed 1539 winter encampment of Spanish Hernando de Soto, the site of the first Christmas celebration in America. Visitors travel back through time as they stand in the shadow of a giant 12,000-year-old American Mastodon at the Museum of Florida History or explore other historical spots including The Knott House that Rhymes, The Columns, San Luis Mission, Lake Jackson State Archaeological Site, Natural Bridge Battlefield, First Presbyterian Church, Brokaw-McDougall House, Goodwood Plantation and Adams Street Commons.

Nearby, alligators lazing in the sunshine and anhinga "snake birds" perched on twisted cypress branches are seen at Wakulla Springs, one of the world's deepest fresh water springs and site of many underwater scenes in the "Tarzan" movies with Johnny Weissmuller and Maureen O'Sullivan. Safaris aboard glass-bottomed and jungle cruise boats whisk visitors within arm's length of "The Other Florida."

Outdoor enthusiasts enjoy adventures including boating and fishing on area lakes, rivers, ponds and the Gulf — just 30 minutes away. Lakes Seminole, Jackson and Talquin are renowned in the bass fishing world for yielding the "big ones," and dense forests offer an abundance of prize-winning game. Local wildlife areas such as the Florida National Scenic Trail, St. Marks National Wildlife Refuge and Apalachicola National Forest are among many spots for camping, picnicking, swimming, biking and exploring.

Appealing to the strokes of different folks, Tallahassee also features 99 holes of golf on six courses and

a proliferation of tennis centers. Sideline athletes cheer the nationally-ranked Florida State Seminoles, Florida A&M

Rattlers and the Tallahassee Tiger Sharks, of the East Coast Hockey League. And always a sure bet are the nearby greyhound races.

A sport of sorts, shopping at two regional malls and many specialty centers offer many "playing options" — from popular chains to curiosity and antique shops.

Cultural interests are sparked by widely-acclaimed museums and galleries and elaborate entertainment at the 14,000-seat Tallahassee-Leon County Civic Center.

Tallahassee is a collaboration of power-play politics and classical character splashed with a twist of Southern beauty and charm. Tallahassee is Florida with a Southern accent.

we won!

TALLAHASSEE'S AN ALL-AMERICA CITY! On June 26, judges from the National Civic League named Tallahassee as one of 10 cities to win the prestigious All-America City (AAC) award from the 1999 All-America City conference in Philadelphia. The All-America City award is the most prestigious and coveted award a community can win. The annual award recognizes exemplary, grassroots and problem-solving efforts of communities that cooperatively tackle challenges and achieve measurable results. Judging is based on the overall level of community involvement in solving critical local problems, including public-private partnerships.

"This is clearly one of the most exciting things to ever happen to Tallahassee," said a jubilant Mayor Scott Maddox. *"For those of us who call Tallahassee home, the All-America City award verifies what we've known for so long — that we have one of the greatest cities in all of America!"*

this is florida state university

Florida State University, recently celebrating its golden anniversary as a coeducational graduate research institution in 1997, has joined the nation's elite in both academics and athletics.

Located on the oldest continuous site of higher education in Florida and building rapidly on the framework of a highly regarded liberal arts college for women, the University has emerged over the past 50 years as an institution of national and international esteem. Its stature is evidenced by a number of additions to its record of excellence in the 1990s:

- In 1994, Florida State was classified a "**Research University I**" by the Carnegie Foundation, placing it among the nation's top research universities.
- In 1994, the college referral service, "Who's Who Among American High School Students," placed FSU among its top 10 — with such universities as Harvard, Duke, Stanford, North Carolina-Chapel Hill, Michigan-Ann Arbor and Yale — of most frequent choices of more than 100,000 of the nation's best and brightest high school students who asked that a specific college be notified of their recognition in "Who's Who."
- Vice President of the United States Al Gore spoke at the dedication of the **National High Magnetic**

Field Laboratory at Florida State in 1994. The National Science Foundation established the \$100 million magnet lab in 1990 at FSU, which is partnered in research with the Los Alamos National Laboratory and the University of

Florida. A Nobel laureate in physics and a top Russian physicist were among the first scholars drawn to the faculty. The **world's largest magnet** — two stories high and capable of generating 45 tesla or 1 million times the Earth's magnetic field — was installed in 1995 at the NHMFL, located in the **off-campus research complex**, Innovation Park. In 1996, the NSF renewed and increased by 50 percent the NHMFL's funding for another five years.

- FSU created the first multipurpose student identification/banking card. The **Card Application**

Technology Center is a national leader in "smart card" systems.

- At the forefront of supercomputing since obtaining its first high-speed computer in 1985, FSU took yet another step in ultrafast and parallel computing in 1990 when it acquired **two supercomputers**, the Thinking Machine Corp. Connection Machine and the Cray Y-MP.

• In fall 1994, the first tenants moved into the east side of the \$100 million **University Center**, a classroom-and-office facility at Doak Campbell Stadium; the stadium's south end zone also was enclosed and the adjacent Moore Athletic Center expanded. With the completion of the west side in 1996, University Center now provides 550,000 square feet of much needed academic space and a centralized location for student services.

• In 1990, Florida State **ranked second in popularity nationwide** among high school seniors, based on the number of students who request that their Scholastic Aptitude Test (SAT) scores be sent to an institution. FSU was the only institution listed among the top 10 choices of both black and white college-bound students.

• FSU's high-tech program in **structural biology** in 1991 received the University's largest single foundation grant, \$4 million.

• Capping more than a decade of national prominence in intercollegiate athletics, Florida State's athletic teams, nicknamed "**Seminoles**," joined the **Atlantic Coast Conference** as its ninth member in 1990. The FSU football team won the **1993 National Championship** and its quarterback, Charlie Ward, won the University's first **Heisman Trophy**.

• The **Dr. Bobby E. Leach Center**, a state-of-the-art student recreation facility, with a pool, saunas, basketball and racquet-sport courts, was completed in 1991.

• **FSU ranked 20th in the nation for 1990-91 in the number of black Ph.D. students it graduates.**

Over the five years, 1986 to 1990, FSU ranked eighth nationally by granting doctorates to 70 African Americans.

As this list of highlights attests, Florida State is excelling in the 1990s with exceptional strength, energy and vision for the future. Under the leadership of the University's 12th president, **Talbot "Sandy" D'Alemberte**, who took office in January 1994, FSU will continue to build on the foundation of its history of excellence in scholarship, research and service.

A senior member of the 10-member **State University System**, FSU was founded as an institution of higher learning in 1851 by legislative act and began in Tallahassee with its first students in 1857.

Today, FSU's operating budget is **\$474.3 million**. Faculty and administrators generate more than **\$102 million** annually in external funding to supplement state-sponsored research. Three direct support organizations serve to bolster the University: **FSU Foundation**, which raises millions in private gifts to support academics, **Seminole Boosters** and **FSU Alumni Association**.

The main campus is spread over **451.6 acres in Tallahassee**; FSU, which has one of the smallest campuses in the SUS, has been actively acquiring land in the 1990s after years of being landlocked at 347 acres. FSU owns 1,281 acres in Leon, Bay, Franklin and Sarasota counties.

Within the state, the University maintains facilities at its **25-acre campus in Panama City**, its **Marine Laboratory** on the Gulf of Mexico, the Appleton Museum in Ocala and the Asolo Performing Arts Center in Sarasota. The **Center for Professional Development and Public Service**, housed in the **Augustus B. Turnbull III Florida State Conference Center** on the edge of the campus, provides extensive credit and non-credit continuing education programs statewide.

Florida State offers **286 graduate and undergraduate degree programs** through its **eight colleges** — Arts and Sciences; Business; Commu-

nication; Education; Engineering (operated jointly with Florida A&M University, a historically black institution); Human Sciences; Law; and Social Sciences (which also incorporates the Reubin Askew School of Public Administration and Policy) — and **eight schools** — Criminology and Criminal Justice; Information Studies; Motion Picture, Television and Recording Arts; Music; Nursing; Social Work; Theatre; and Visual Arts and Dance.

With 1,655 members, the FSU faculty has included **nine National Academy of Sciences elected members, nine American Academy of Arts and Sciences fellows** and **five Nobel laureates**. It is backed by 2,887 administrative/professional and support staff.

Library holdings at Florida State include **2.1 million book titles, 16,384 serials and 4.5 million micro-forms**. The main library facility, the **Robert M. Strozier Library**, is linked by computer to other state university and national research libraries. The **Paul A.M. Dirac Science Center Library** is located at the heart of the University's science research complex. FSU also maintains extensive music, library science and law libraries.

Graduate students, who number more than 5,929, pursue advanced degrees in fields as diverse as business administration and theoretical particle physics. A majority of research done at FSU is the direct result of student effort, culminating in numerous books, monographs and journal articles relating to the whole spectrum of intellectual interests and the practical needs of society.

FSU, a residential campus, places a high priority on its **30,519 students** and their needs and interests (of the student population: 45 percent are male; 55 percent are female; 20.1 percent are minorities; and 2.5 percent are foreign students). The **University Honors Program, Disabled Student Services, International Student Center, Student Government, Flying High Circus** and intramural sports are among more than 200 organizations and activities in which students may participate.

In all areas of its mission — excellence in teaching, research and public service — **Florida State University** is advancing boldly toward the 21st century.

fsu support services

academic support

Academic, personal and professional support are essential to college success. At Florida State University, we have developed an outstanding support program which enables student-athletes to reach their full potential.

FSU's academic support philosophy is "to offer an academic support program integrated with the total university that will assess all student-athletes with the transition into college and provide continued support in all phases of academic and professional development culminating with graduation, job placement or graduate school."

To accomplish this goal, FSU has developed an academic environment which facilitates the academic success of student-athletes. Student success is encouraged through competent academic counseling, career exploration, planning and placement and academic assistance through tutorial programs.

The program operates on a "proactive" rather "reactive" approach. At Florida State, the academic staff does not wait for an academic crisis to occur. They gather important background information and build an academic profile on all student-athletes to assess their needs in advance. Coaches also stay informed on the daily progress of each student athlete.

matt schmauch
Academics

The academic support services are located in the state-of-the-art University Center and are on the sixth floor of the \$126 million facility. It includes private study carrels, a tutorial study area and a computer lab outfitted with 16 new IBM computers and laser printers. In addition, athletic sky boxes are utilized for group and individual tutorial instruction.

FSU offers 16 Schools and Colleges with 99 undergraduate degrees and 75 post-baccalaureate degrees.

strength and conditioning

Strength training, conditioning, medical care and treatment are a vital aspect of an athlete's performance on the field. At Florida State, a specially designed program is developed for women's soccer, emphasizing the objectives of strengthening and conditioning the athletes along with the proper medical attention.

Strength and Conditioning coach Ron Miller, assistant Sterling Brown and staff individually customize programs for each of the athletes, beginning with pre-conditioning, before the season even gets underway. Assistant Athletic Trainer Angela Sehgal, A.T.C., will handle the athletic training duties for the women's soccer team.

ron miller
Strength Coach

This season, Miller will be working with Manuel Coya, III in customizing a sound workout for the soccer team. The workout is instrumental in improving muscular endurance, strength and cardiovascular conditioning on the field. The coaches believe so strongly in the program that they even participate themselves. FSU takes pride in customizing the programs to help student athletes reach their maximum potential.

Miller, who holds professional memberships in the National Strength and Conditioning Association and Aerobics and Fitness Association, works with the players in sport specific training which includes strengthening the major muscle groups used in swimming and diving.

manuel coya iii
Strength Coach

Manuel Coya, III, came to Florida State from Ft. Lauderdale, FL and graduated in 1998 with a degree in nutrition and fitness. Coya is a Certified Strength and Conditioning Specialist and will

work with women's swimming and diving squads this year.

Athletes at Florida State University receive the best care and treatment possible. All of the student athletes undergo a preseason examination in order to prevent and detect any potential injuries that an athlete may incur. If a problem is detected, the athlete is placed on a prevention care program which may include any kind of treatment from icing to exercising.

weight room

The Tully Gymnasium weight room recently took on a whole new look following a complete renovation in the summer of 1996. The facility, which was expanded by 2,000 square feet, is now 3,500 square feet in size with a new stereo system, drop ceiling, lighting and mondo rubber flooring.

Over \$140,000 worth of new exercise equipment was added to the Lady Seminole weight room, including 16 cardiovascular pieces such as Life Fitness, Stairmaster and Textrix. All Florida State women athletes train in the state-of-the-art facility.

medical care and treatment

An athlete can expect to receive the best care and treatment possible with the athletic training

team at Florida State University. Prior to competition, all FSU student-athletes undergo screening in order to detect any potential injuries. If a problem is detected, the athlete may be placed on a prevention care system which may include any kind of treatment from icing to exercising. Head women's trainer Robin Gibson oversees the athletic training duties for swimming and diving.

robin gibson
ATC, LAT

Though the prevention of injuries is the main objective, some injuries are unavoidable. Rehabilitation is another component of the Florida State training room. The FSU athletic training staff will work with the athlete and provide an intense rehabilitation schedule that will allow the athlete to successfully rehabilitate after an injury. Some injuries and illnesses may be referred to the Seminole team physicians at the Tallahassee Orthopedic Center, who, for many years, have worked in conjunction with the FSU athletic train-

ing staff in successfully rehabilitating athletes after an injury.

Nutrition counseling and drug testing are also responsibilities of the athletic training team which is dedicated to providing the best care possible for all FSU student-athletes.

the n.o.l.e.s. program

**New
Opportunities for
Leadership,
Education and
Service**

Developed by the Florida State University Department of Athletics, the NOLES program represents a commitment to the total growth and development of the student-athlete. This program establishes an administrative commitment to academic and athletic excellence. Those efforts will be supported with programs and services in personal development, career development and community service.

personal development

Fostering the development of personal growth is a fundamental component of the NOLES program. These support programs ensure that the student-athlete will be provided opportunities to focus on personal growth issues such as values clarification, goal setting, fiscal planning, decision making and personal responsibility. Programming focuses on helping student-athletes develop a healthy lifestyle while they are at Florida State and habits that will benefit them for life.

career development

Preparing for life after college sports is a major focus of the NOLES Career Development program. The program is designed to work cooperatively with the University's Career Services to acquaint students with the job search process, provide networking opportunities and ultimately assist with job placement. This program places a priority on the development of the total person, with the goal of developing individuals who will have rewarding careers and productive lifestyles after they leave Florida State.

community service

Serving the community is the focus of our Seminole Spirit program. Student-athletes are challenged to give service to our community and individuals who

are in need. With a clearly defined program of service, student-athletes are given the opportunity to develop the foundation for a lifelong commitment to volunteerism. The Seminole Spirit Student-Athlete Speakers' Bureau enables student-athletes to improve their speaking skills, develop effective communication and impact the lives of others through their service as role models in our community.

leadership development

The Florida State University Department of Athletics is committed to developing programs of excellence that foster leadership development. The foundation of the leadership development program are the Seminole Leadership Institutes that are held four times a year. These Institutes offer student-athletes the opportunity to learn skills that will benefit them as students, as athletes, and as they pursue their goals after leaving Florida State. The Institutes are based on building communication skills. Students have the opportunity to use the values and work ethic taught by athletic participation as the framework for their leadership development. The Institutes attract outstanding guest speakers who challenge Seminole student-athletes to achieve their greatest potential and use their leadership skills to positively influence others.

The Student-Athlete Advisory Council (SAAC) serves as the advisory board to the NOLES program and the athletics administration. The prestigious board, comprised of two representatives of each athletic team at FSU, also recommends programming and serves as a liaison between student-athletes and the athletics administration. The Advisory Council plans and

implements various events for student-athletes and serves as the department's most visible ambassadors. The SAAC hosts the annual Golden Nole banquet and plans such events as orientation for incoming student-athletes and the back-to-school picnic.

ncaa information

The following information is provided by the Florida State Office of Compliance for prospective student athletes. It is intended as a guideline to introduce some of the rules governing NCAA athletic involvement.

who is permitted to recruit for FSU?

Only Florida State University coaches who have successfully completed the NCAA Recruiting Rules Examination on an annual basis may be involved in the recruitment process. Representatives of our athletics interests **may not** make any recruiting contacts. This includes letters, telephone calls or face-to-face contact on or off campus with a prospect or the prospect's parents.

key terms you should know

You become a **prospective student-athlete** if you have started classes for the ninth grade. Before the ninth grade, you become a prospective student-athlete if the college provides you (or your relatives or friends) any financial aid or other benefits that the college does not provide to prospective students generally.

A **contact** is any face-to-face encounter between a prospect or the prospect's legal guardian and an institutional staff member or athletic representative during which any dialogue occurs in excess of an exchange of greeting. **NOTE:** At the Division I level, athletic representatives (boosters) may not contact you for the purpose of recruiting. A college coach may contact you in person off the college campus beginning July 1 after completion of your junior year in high school.

An **evaluation** is any off-campus activity designed to assess your academic qualifications or athletic ability, including any visit to your high school (during which no contact occurs) or the observation of any practice or competition in which you participate.

During your senior year, you can have one expense-paid **official visit** to a particular campus. You may receive no more than five visits. During your official visit, which may not exceed 48 hours, you may receive round-trip transportation between your home and the campus, and you (and your parents) may receive meals, lodging and complimentary admission to campus athletics events.

phone calls and letters

Phone calls from faculty members and coaches (but not boosters) are permitted beginning July 1 after completion of your junior year. A college coach or faculty member is limited to **one telephone call per week** except when it is:

- During the five days immediately before your official visit to the university
- On the day of a coach's off-campus contact with you
- During the time beginning with the initial National Letter of Intent signing date in your sport through the two days after signing date

Letters from coaches and faculty members (but not boosters) are not permitted until September 1 at the beginning of your junior year in high school. A Division I university may provide you with the following printed materials:

- General correspondence, including letters, U.S. Postal Service postcards and institutional note cards
- Game programs which may not include posters and one Student Athlete Handbook can be provided only during official or unofficial visits to the university's campus
- NCAA educational information

- Pre-enrollment information subsequent to signing a National Letter of Intent with the university
- One athletic publication which may include only one color of printing inside the covers
- Official academic, admissions and student services publications published or videotapes produced by the institution and available to all students
- Schedule cards
- Questionnaires which may be provided prior to your junior year
- Summer camp brochures which may be provided prior to your junior year.

alumni and boosters do's and don'ts

You may forward information about prospective student-athletes to the appropriate coaches.

You may have contact with a prospect regarding permissible pre-enrollment activities such as summer employment, provided the prospect has already signed a National Letter of Intent and the Compliance Office is aware that you are making these contacts in regard to employment.

You may have a telephone conversation with a prospect **only** if the prospect initiates the call. Such a call may not be prearranged by an institutional staff member and you are not permitted to have a recruiting conversation, but may exhibit normal civility. You must refer any questions about our athletics programs to an athletics department staff member/coach.

You may view a prospect's contest at your own initiative provided you do not contact the prospect or his/her parents. In addition, you may not contact a prospect's coach, principal, or counselor in an attempt to evaluate the prospect.

You may continue established family relationships with friends and neighbors. Contacts with sons and daughters of these families are permitted as long as they are not made for recruiting purposes or encouraged by Florida State University coaches.

You may not become involved in making arrangements to receive money or financial aid of any kind for a prospect or the prospect's family and friends.

You may not make contact with a prospective student-athlete and his/her parents when the prospect is on campus for an official or unofficial recruiting visit.

You may not transport, pay or arrange for payment of transportation costs for a prospect, and his/her relatives or friends to visit campus (or elsewhere).

You may not pay or arrange for payment of summer camp registration fees for a prospect.

You may not provide **anything** to a prospect, the prospect's family or friends without prior approval from the athletics' Compliance Office.

Assistant Director of Compliance

women's 1998 review

The women's swimming and diving team finished its 1998-99 season with a 4-4 record and went 1-1 in ACC competition. The women won 35 events in their eight meets and recorded two NCAA Consideration Times.

The Lady Seminoles started the season with a 2-1 record in a quad meet before heading west for a match-up with the Washington State Cougars, bringing home a 113-91 win. Six ladies won their respective events and the 400 Free Relay team of Tanya Gurr, Katie Wright, Karin Holmstedt and Amber Goodwin set a new WSU pool record with a time of 3:32.38. The Lady Seminoles took on their first ACC opponent NC State in Raleigh, N.C. After winning four events and scoring many top finishes, the women trailed 115-111 going into the 200 Free Relay. Gurr, Anne Blachford, Goodwin and Kristen Adams won the event and gave the Lady Seminoles their first ACC win of the season.

The Lady Seminoles hosted Florida in their first home meet of the season. FSU won four events and finished second in five events but fell to the Gators 152-91. The women's final competition of the fall season was the Notre Dame Invitational where they met up with # 8 Michigan, #22 Notre Dame, West Virginia, Michigan State, Ohio, Colorado State, Northern Michigan, University of Wisconsin-Milwaukee and Western

Kentucky. FSU finished fourth among these teams and had 15 individuals and five relays finish in the top eight.

The women's team started the spring season with a home meet against ACC rival Virginia. The Lady Seminoles fell 134.5-98.5 despite winning seven individual events and Gurr, Adams, Holmstedt and Blachford won the final event of the day, the 400 Free Relay. The final home meet and final dual meet of the season for the women was with the Tigers of LSU. The Lady Seminoles fell to 4-4 after the 143-99 loss but won five of the events. Gurr produced an NCAA consideration time in the 200 Free with her 1:50.64 winning time.

The Lady Seminoles headed to College Park, Md., in February for the 1999 Atlantic Coast Conference Championships. Despite a sixth place finish, the women's team brought back 14 top eight finishes. Gurr led the team, finishing 2nd in the 50 Free, 3rd in the 200 Free and 5th in the 100 Free. Junior Marya Sabesky took the second spot on the three-meter springboard and third spot on the one-meter springboard as Adams finished 6th in the 200 Free and 7th in the 500 Free. Blachford took 4th in the 400 IM and 100 Breast as White finished 5th in the 100 and 200 Breast. Blachford, White and Gurr joined Dedekind on the 3rd place 400 Medley Relay as Blachford, Holmstedt, Gurr and Goodwin took 4th in the 200 Free Relay.

men's 1998 review

The Florida State men's swimming and diving team had a successful season in 1998-99 as they finished the season 6-1 and undefeated in the ACC. The Seminoles were ranked 9th in the final CSCAA national poll and led the ACC with a .857 winning percentage.

The Seminoles started the season with a 3-0 sweep of Miami, Indian River Community College and FAU in a quad meet at Miami. The Seminoles then headed to Raleigh, N.C., to take on the NC State Wolfpack. After winning seven individual events, FSU trailed going into the final event of the meet but the 200 Free Relay team of Santos, Matt McVittie, Kevin Flanagan and Keam Ang won the event to clinch the victory for FSU, 123-120.

FSU hosted the Florida Gators in late November for its last home meet of 1998. The Seminoles won three events and had many top three finishes but dropped their first meet of the year, 150-92. FSU then headed to the Notre Dame Invitational for the final competition of 1998. The men finished 2nd behind the host team as four Seminoles won five events and set two meet records.

The Seminoles started the 1999 season with 147-81 win over the Virginia before Parry, Dedekind, Main-Baillie, Nelson Mora, McVittie, Petersen, Santos and Ang competed in the swimming events with Burkman diving for the Seminoles at the Dallas Morning News Classic. The Seminoles won the Classic with Tennessee, Minnesota, Southern Methodist, Michigan and Texas rounding out the competition. FSU won eight events and Parry was named the Most Valuable Swimmer of the meet. The nine man squad returned to Tallahassee and joined their

team in the final dual meet of the season as FSU hosted LSU. The Seminoles won 11 of the 13 events on their way to a 155-85 win over the Tigers.

The Seminoles took on the ACC in the championship meet in February, finishing 2nd, only 6.5 points behind Virginia. FSU won 11 events in the meet, including all five relays. Dedekind made ACC history as he became the 12th swimmer to win a single event all four years with his win in the 50 Free, in which he set a new pool record. He also became only the second swimmer in league history to win double-digit events in a career as he ended his ACC career with 10 individual championships.

Dedekind shared Swimmer of the Meet honors with teammate Stephen Parry and the Seminoles

set Maryland pool records in 11 events and two ACC records. Florida State returned six 1998 All-Americans to the NCAA meet and had 18 swims, the most in FSU history. Despite a 12th-place finish, the Seminoles

brought home another NCAA individual title as Dedekind won the 100 Breast and repeated as a three-event All-American. The eight men produced five All-America and six honorable mention All-America honors. The Seminoles had the best finish in the state of Florida and in the ACC.

Nine members of the men's team were named to the All-ACC team after the 2nd place finish at the ACC Championships and a #9 ranking overall. Dedekind led the squad as he was named the ACC Swimmer of the Year for the third year in a row. Ang, Flanagan, McVittie, Mora, Petersen, Santos and Main-Baillie also garnered the All-ACC honors.

the tradition

Consistency. It's the mark of true excellence in any endeavor.

However, in today's intercollegiate athletics, competition has become so balanced and so competitive that it is virtually impossible to maintain a high level of consistency.

Yet the Atlantic Coast Conference has defied the odds. Now in its 46th year of competition, the ACC has long enjoyed the reputation as one of the strongest and most competitive intercollegiate conferences in the nation. And that is not mere conjecture, the numbers support it.

Since the league's inception in 1953, ACC schools have captured 72 national championships, including 37 in men's competition and 35 in women's. In addition, 108 men and 26 women have earned the coveted title of NCAA champion.

1998-99 in review

The 1998-99 academic year concluded with the league pocketing three more national team titles and seven individual NCAA crowns. In all, the ACC has won 32 national team titles in the last nine years. The past year, the ACC was the only Division 1-A conference to have a team play in the national championship game in men's and women's basketball and football.

The ACC's 1998-99 national champions were Maryland in women's lacrosse, Virginia in men's lacrosse and Duke in women's golf. In addition, the ACC had six other teams participate in national title games — Florida State in football and baseball, Virginia in women's lacrosse, Duke in men's and women's basketball and North Carolina in women's soccer. Overall, ACC teams posted a 66-45-1 (.595) mark in NCAA Tournament play.

The ACC placed at least one team in the Top 10 nationally in 15 of the 24 sports sponsored by the league. Other records of note during the 1998-99 season include 76 teams competing at NCAA Championships, five bowl teams and 28 Top 10 showings.

Seven ACC teams, in seven different sports representing six of the nine member institutions, earned a No. 1 ranking during the course of the past academic year.

The ACC Academic Honor Roll record was broken for the 12th-straight year in 1998-99 as 1,552 stu-

dent-athletes were recognized for their work in the classroom.

the championships

The conference will conduct championship competition in 25 sports during the 1999-2000 academic year — 12 for men and 13 for women.

The first ACC championship was held in swimming on February 25, 1954. The conference did not conduct championships in cross country, wrestling or tennis during the first year.

The 12 sports for men include football, cross country, soccer, basketball, swimming, indoor and outdoor track, wrestling, baseball, tennis, golf and lacrosse. Fencing, which was started in 1971, was discontinued in 1981.

Women's sports were initiated in 1977 with the first championship meet being held in tennis at Wake Forest University, October 6-8. Conference championships for women are currently conducted in cross country, volleyball, field hockey, soccer, basketball, swimming, indoor and outdoor track, tennis, golf, lacrosse, softball and rowing.

the history

The Atlantic Coast Conference was founded on May 8, 1953, at the Sedgefield Inn near Greensboro, N.C., with seven charter members -- Clemson, Duke, Maryland, North Carolina, North Carolina State, South Carolina and Wake Forest -- drawing up the conference bylaws.

The withdrawal of seven schools from the Southern Conference came early on the morning of May 8, 1953, during the Southern Conference's annual spring meeting. On June 14, 1953, the seven members met in Raleigh, N.C., where a set of bylaws was adopted and the name officially became the Atlantic Coast Conference.

On December 4, 1953, conference officials met again at Sedgefield and officially admitted the University of Virginia. The first, and only, withdrawal of a school from the ACC came on June 30, 1971 when the University of South Carolina tendered its resignation.

The conference operated with seven members until April 3, 1978, when Georgia Tech was admitted. The Atlanta school withdrew from the Southeastern Conference in January of 1964. The ACC expanded to nine members on July 1, 1991, with the addition of Florida State.

fsu national swimming champs

In 1961, Seminole diver Curt Genders won Florida State's first national championship for the swimming and diving program. Ten years later, Phil Boggs did the same. But it wasn't until 1990s that the Florida State program saw its first swimming title in Stephen Parry's 1997 200 Fly title. The next year, Brendon Dedekind took the 50 Free title at the NCAA's and ended his career in 1999 with the 100 Breast title. The following is only a small piece of what these two swimmers have accomplished as Seminoles:

brendon dedekind

FROM RAGS TO RICHES

Swimming in a lane with six or seven people is not the ideal training conditions for an Olympic swimmer. But for Brendon Dedekind, it was the starting point for what would soon become much success internationally and in collegiate competition.

"Swimmers from South Africa who would go to the US to train always came back swimming much faster times" Dedekind said. "Even at a young age, I wanted to train in the US. It was a dream for me."

After the 1992 South African Nationals, he began to pursue that dream. Dedekind sent out 32 applications to United States universities and received many prospect questionnaires, but no scholarships materialized. So in 1993 he enrolled in engineering classes in South Africa and gave up on the dream.

"You have to be on a good scholarship to get to a school abroad," Dedekind said. "Without that money, the exchange rate is too high for athletes to attend school in the US. Many foreign athletes would do anything for some of the facilities you have here."

But in 1993, the tables began to turn for Dedekind and he started to see the dream becoming a reality. Then FSU assistant coach Neil Harper received a phone call from former LSU teammate, Darryl Cronje, a fellow South African swimmer, telling him about a South African swimmer who could be an asset to the team. Not too long after, Dedekind received a call from Head Coach Don Gibb offering him a scholarship.

"I really liked the ideas Don put forward over the phone, the way he wanted to train sprinters, so I signed...and the rest is history," Dedekind laughed.

History is exactly where Dedekind has placed himself. He started at Florida State in January of 1995 and immediately saw the differences in training.

"The biggest difference to me was the facilities, the pool and weight room, and the support structure. There was such a positive atmosphere on the pool deck and away from the pool which made it easier to train and take my swimming to the highest level of competition."

When he first came to Florida State, Dedekind had no in-

ternational swimming experience behind him. Dedekind envisioned swimming at a university for four years and contributing as a team player while training for the 2000 Olympics. He never even thought about the 1996 Olympics in Atlanta let alone the NCAA title. When he realized he might have a shot at the 1996 Olympics, he returned home and qualified for a spot on the South African Olympic team. At the Olympics, Dedekind surprised his country and fellow swimmers as he qualified for the finals in the 50 Free and finished 5th. But 1996 was just the beginning.

"Making the finals in the Olympics was just a stepping stone for the 2000 Olympics, Dedekind said. "I hope to medal in Australia."

The stepping stones also began on the collegiate level for Dedekind in 1994. As a freshman, he qualified for the NCAA Championships at the University of Texas. He had seen pictures of the pool and swimming at such a major university was overwhelming. Although he made the consolation finals in the 50 Free and won the heat finishing 9th, he was still overcome by the facility and the stronger, faster swimmers. This gave him more incentive to train and work harder and it all paid off.

The following March, Dedekind started to make his mark in FSU swimming history. The 1997 NCAA Championships were held at the University of Minnesota and with one NCAA meet under his belt, Dedekind felt more relaxed and less overwhelmed by the enormity of the competition. He qualified in the 50 and 100 Free and the 100 Breast and made it his goal not only to make the finals but to win the events that night. became the first swimmer in FSU history to garner All-American honors in three events in the same year with his top 5 finishes in the three events. Dedekind also swam in the fastest heat of the 50 Free in NCAA history. That same year, teammate Stephen Parry won the 200 Fly event at the NCAA's, becoming the first FSU swimmer to win an individual title.

"After swimming in that fast of a heat and with Steve winning the 200 Fly, I knew I had to train harder," Dedekind said. "Steve winning made me want to push myself harder. He and I are very competitive and push each other, but we are still the best of friends."

In the 1998 NCAA meet at Auburn, Dedekind's goal was make the finals. His 19.17 qualifying time in the 50 Free set a new pool record and gave him the top seed going into the evening competition.

"I took the races as just another race," Dedekind said. "It was really exciting to win the 50 Free but I was still not satisfied with my time. I think I could have swam faster that night."

With an NCAA individual title under his belt and a summer of international competition behind him, Dedekind

has set his sights on defending his title. He also will strive to win the 50 and 100 Free and 100 Breast at NCAA meet in March. Beyond this is his hope for Florida State as a team.

"We have the potential to do the best FSU has ever done at the NCAA meet but we'll have to come together at the right time," Dedekind said. "We could have two national champions this year and all our relays could all final. We've got a lot of seniors leaving this year and it would be nice to see such a good group of guys go out with a bang!"

stephen parry

A NATIONAL CHAMPION

Since its inception in 1949, the Florida State men's swimming and diving program has had 19 men and 8 relay teams earn the distinction of All-American. In 1961, Curt Genders won FSU's first diving NCAA title on the one and three meter springboards. And now, 36 years later, Seminole swimmer Stephen Parry has again made history for the program, bringing home FSU's first individual swimming NCAA championship.

Parry, now a junior, trained in crowded pools and limited facilities in Liverpool, Great Britain, but from that setting came great accomplishments. He was the 1994 Junior European Champion and the 1995 England National Champion in the 200 Fly. When Parry came to FSU, he brought with him his greatest ambition — to make the Olympic finals. Parry chased that dream competing to qualify for the 1996 Summer Olympic Games in Atlanta. He finished second at the British Olympic Trials but did not reach Great Britain qualifying times.

"I was disappointed," Parry said. "The Olympics has been a goal for me for a long time. I just didn't swim as well as I could have."

"Stephen supported Rob (Braknis) and Brendon (Dedekind) at the Olympics but I think watching his teammates swim in Atlanta really hit home for him," Head Coach Don Gibb said. "He knew he should be at the Olympics and realized he had to work that much harder to make it. Juggling school, swimming and a personal life was a challenge and he realized he would have to prioritize."

Parry found his first year at FSU to be a challenge, having to adjust to a new training program, a new school, and new country all together. But it was after the British Trials that he knew he had to change something. He returned to FSU with a new ambition — a team victory at the Atlantic Coast Conference Championships and a top five finish in the NCAA. He took advantage of the training facilities and started working harder and longer.

"Coming from Liverpool, the training facilities were completely different," Parry said. "It took the summer of '96 for me to realize what I had available to me."

All his hard work and dedication paid off for Parry. He improved his times throughout the season, but saw the biggest improvements at the ACC Championships. Going into the championships, Parry was ranked first in the 200 Fly and he did not disappoint. Not only did he win the event, but he set an ACC record in the process. He went on to win the 200 Free and was on the 200 and 400 Medley Relay Champion teams, leading to Co-Swimmer of the Year honors in the Atlantic Coast Conference.

At the NCAA championship meet in Minneapolis, Minnesota, Parry and his teammates achieved several honors. Dedekind became the first FSU swimmer to achieve three All-America finishes and all five Seminole relay teams scored for the Seminoles. But perhaps the greatest accomplishment came on the night of March 29th when Parry, who was seeded first in the 200 Fly going into the finals, won the first national championship for swimming in FSU history. His pool record time of 1:44.28 won him the title and helped him restore some confidence.

"I wasn't really thinking about it (the championship) at the time," Parry said. "Going into the race seeded first, there was some pressure but I wasn't expecting to win. It was more of a shock than anything else. I just swam the race the way coach planned it out. It really didn't hit me until I got back to Tallahassee that I had won a national championship. And it wasn't even until this summer that I realized I'm as good as the best swimmers in the nation."

Parry continued to compete internationally this summer, representing England in the European Championships and winning a Bronze Medal in the 200 Fly. He next competed in the World University Games in the 200 Fly and finished fifth overall.

"The Europeans were exciting," Parry said. "I was representing my country and was pleased with finishing third. I was just excited to be there. As for the World University Games, it wasn't my best swim but swimming against the best swimmers in the world made me realize I am among the best."

Parry's competed this summer in the Commonwealth Games in Malaysia where he finished 3rd in the 200 Fly. After a summer of international competition, he has set his sights on training for another year of collegiate swimming, but the Olympic experience still sits in the back of his mind.

"Stephen Parry has just scratched the surface," Gibb said. "The national championships and this summer have proved to him he is on of the best in the country and the world. He learned how to prioritize this summer realizing he's one of the best because of his dedication and hard work. The 2000 Olympics are a realistic goal for him."

* Pictured from L to R

The success of the Florida State swimming program goes well beyond Atlantic Coast Conference and NCAA competition. In fact, Seminole swimming has expanded its competition worldwide! In recent years, seven Seminole swimmers have competed in numerous world competitions, representing five continents and six countries in international competition.

Branknis and Dedekind at 1996 Summer Olympics

brendon dedekind

- represents South Africa in many major competitions around the world
