salutes

The University of Florida proudly salutes some of the outstanding cities and areas in the state of Florida and the thousands of alumni who live in these communities.

J. WAYNE REITZ
PRESIDENT

TALLAHASSEE

Tallahassee is one of the most progressive cities in the South and is properly called the "fabulous" capital city of the state of Florida.

This fast growing metropolis serves as the hub of state governmental activity.

It claims a population of 45,000 and constant growth.

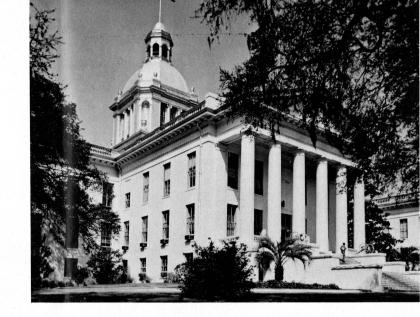

Tallahassee is small enough to be friendly, yet large enough to provide excellent schools, two well-equipped state universities, civic, cultural, agricultural and recreational facilities. Thousands of people visit the city each ye to take advantage of these opportunities offered.

The picture above is a view of the downtow area of Tallahassee. This is the Capitol Center the area which houses the various departments the progressive state government, plus many first retail stores in the area.

The presence of the state government plays major role in the economy and activity of the bustling northwest Florida city.

From a log cabin in 1824, Florida's Capitol has grown into the imposing structure of today (right).

The Tallahassee area produces more tung oil (a paint base oil) than any other area within the United States. A scene is pictured below. Killearn Gardens, state park, emphasizes the beauty of the city here showing both natural and feminine charm.

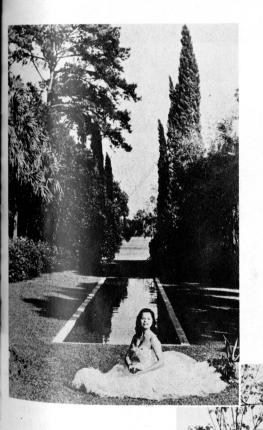

Southern Charm

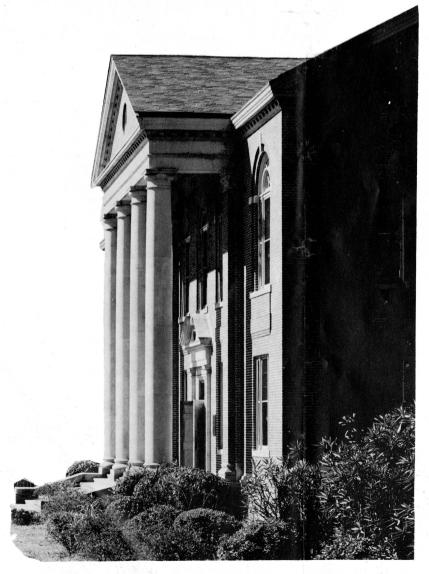

Much of the grace and charm of Old South living is present today in Tallahassee.

Tallahassee's way of life is mirrored in these pictures of the city's interesting architecture, the agriculture of the community and the pleasant surroundings in parks and gardens.

As we attend this renewal of the UF-FSU gridiron classic, the vitality of our capital city provides a fitting background for this spirited rivalry.

Accent on Learni

Over 12,000 students annuenroll in the two state institions of higher learning in Tahassee, Florida State Universand Florida Agricultural Mechanical University.

FSU was founded in 1851 now has 16 schools and colleserving its student body. It came coeducational in 1947

An expansion program added many fine new builds to the thriving FSU campus example is the new music buing above.

Florida A & M University one of the leading Negro institions in the nation. It is faccredited with a proud tration of outstanding scholar accomplishment.

A columned-structure on campus is pictured at left.

Florida A & M has recent national acclaim for its ship marching band and many the winning of the National (legiate Negro Football Chapionship.

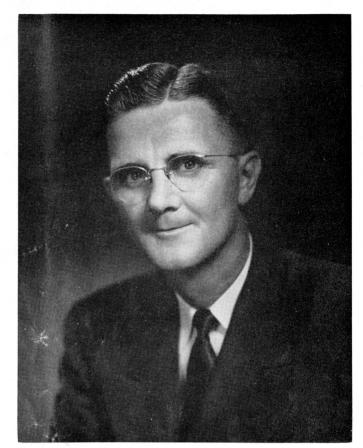

Tallahassee is indeed a lege town."

PRESIDENT J. WAYNE REITZ

Dr. Reitz, a native of Olathe, Kansas, began is work with the University of Florida in 1934. ince that time he has served continuously on e campus with the exception of five years when e was agricultural economics counsel to the nited Growers and Shippers Association of Orndo and chief of the citrus fruit division of the roduction and marketing administration of the J. S. Department of Agriculture.

He did his undergraduate work at Colorado & M where he was student body president. r. Reitz received his Master of Science from he University of Illinois and his Doctor of hilsophy from the University of Wisconsin.

Dr. Reitz is an authority in the field of agriultural economics and has served as Extension conomist at Colorado A & M; Assistant Extension Economist at the University of Illinois; unior Economist, Farm Credit Administration; assistant Professor of Agriculture Economics, Iniversity of Florida; Provost of Agriculture, University of Florida; and President, University of Florida from 1955.

PRESIDENT J. WAYNE REITZ

COACH BOB WOODRUFF

GEORGE R. (BOB) WOODRUFF

Since coming to Florida 10 years ago as head football coach and Athletic Director, Bob Woodruff, has brought the Gators from the Southeastern Conference "patsy" to a tough title contender. Woodruff's won-loss record as a head coach ranks him in the top 25 among active major college coaches.

As a player, Woodruff was a standout tackle for Tennessee in the years 1936-37-38. He was assistant coach with the Vols for two years after his graduation and from there he coached at West Point where he helped produce national championship teams in 1944 and 1945. After a year as assistant coach at Georgia Tech, he became head coach at Baylor. At Baylor he brought the Bears into national prominence in three years, his 1949 team winning eight games while losing only two.

In 1950 he accepted his present position at the U. of F. Since that time he has guided the Gators into two bowl games—the first ever in nearly 50 years of football. The Gators wonloss record in the SEC for the past three years leaves them in fourth place among the rugged 12-team conference.

CAPTAIN DAVE HUDSON

Dave Hudson, 225-pound end and prime All-America candidate, is Florida's 1959 captain. Surely, the Gators have never presented a more formidable physical specimen for the honor.

Carrying his poundage on a square six-foot frame, the Pensacola senior is rated one of the strongest ends ever to wear the raiment of the Gators. Hudson made the All-SEC third team last year, but his crashing play on national television in the Gator Bowl game against Ole Miss last New Year's Day stamped him as a strong All-American contender.

STADIUM INFORMATION

REST ROOMS

WOMEN—Under west stands opposite Sections 8 and 9, and at northwest corner.

Also near Florida student entrance.

MEN—Under west stands opposite Sections 12 and 13, and at northeast corner. Also near Florida student entrance.

LOST AND FOUND

Lost and found articles should be reported or turned in to the INFORMATION WINDOW by gate 3 on the west side of the Stadium.

DRINKING

The use of alcoholic beverages is prohibited on University of Florida property. This includes the Stadium as well as all other athletic contest areas on the campus.

TELEPHONES

There are public telephones located under the west stands between gates 3 and 4.

FIRST AID

Ambulances will be parked by Gate 3 and at the south end of the football field. The attendants are available to render first aid.

About Today's Game

Gator-Hunting Seminoles, Led by Perry Moss, Meet Florida for Second Time in History

By NORRIS ANDERSON

Director of Sports Publicity, University of Florida

That nonpareil optimist, Perry Moss, old Mr. Controversy Personified, wheels his Florida State team into Florida Field today.

Moss, never lacking in bravura, is expected to shoot the works, go for the inside straight, the royal flush.

Anderson

The old Illinois quarterback, unabashedly enamored of one Perry Moss, is forever one to exude controlled confidence.

Back when he was an assistant at U-Miami, I used to golf with this fiercely-competitive young coach.

We used to blast around Biltmore in the Gables, a course made miserable for wild home run sluggers like Moss and myself because of numerous water holes.

Some fiend designed one hole

so that a wide stream crosses the fairway some 210 yards from the tee. It takes a 265-yard drive to get

Any conservative would play it safe, easing a shot to the tee-side of the water, then coasting into the green from there. Not Moss.

He would go-for-broke, aiming for that nigh-impossible green-side of the water—and, usually, his shot would plunk in the drink. One successful carry over the water, however, would assuage the pain for Moss of all of those lost in the water.

That is the way he plays the game, any game, including the one on Florida Field today.

They say Perry is on his way to coach Montreal after the Seminoles close against Oklahoma State next Saturday.

Mrs. Moss, a pretty dark-eyed patient soul named Jane, thus will be moving into her 10th house (or is it the 12th) since her restless husband got in this coaching business.

The way station: U-Illinois, 1949, assistant to Ray Eliot; 1950-51, backfield coach at Washington; 1952-53, aide at LSU; 1954-56, aide at U-Miami; 1955, summer assistant for Hamilton of Canadian league; 1957-58, backfield coach at Wisconsin; then Florida State.

Meanwhile, Coach Bob Woodruff, has stayed on 10 years at U-Florida, quietly building the Gators from nowhere into a feared Southeastern Conference power.

As athletic director, Woodruff has doubled the capacity of Florida Field, given U-Florida one of the best all-around programs in the SEC and contributed immeasurably to developing the physical facilities of the Gator athletic department.

Woodruff's 18-8-3 record the past three years ranks with the top four in the rugged 12-team SEC.

So what happens today when wild-swinging young Perry Moss tangles with the bulldog determination of solid Bob Woodruff?

It's anyone's guess. Have one-on the house.

SERIES SCORES

Fla. State

Ed Pope, Miami Herald pundit, called Tom Nugent's Seminole attack "the science fiction" offense as the men from Tallahassee boomed into a 7-0 lead in the first three minutes last year.

In the first match between the two schools. Seminole Bobby Renn shocked a SRO crowd with a 78-yard return of the opening kickoff.

The Gator Bowl-bound Gators then went to work. End Dave Hudson blocked a punt, picked up the loose ball and tossed his 225 pounds into the end zone for a touchdown. Jimmy Dunn crossed the goal on runs of 9 and 11 yards.

Nugent's science fiction attack (I formation, typewriter huddle and about everything else in the books) will be supplanted today by Moss' wide-open-at-thethrottle attack.

A SPORTSMAN'S PARADISE

Tallahassee is full of lakes and streams making the city and surrounding areas a sportsman's paradise.

The salt water marshes, such as that in the picture below, provide excellent seasonal hunting grounds for Canadian geese and ducks.

Governor LeRoy Collins displays a string of black bass caught one morning in a lake near Tallahassee.

The lakes are also full of finny fighters, and are only a few minutes away from the heart of the city.

Boats, motors and over-night accommodations are available.

This capital City is truly a haven for the wildlife fan.

Who Will Occupy These Offices

The business of state government of Florida is a continuing process. Progressive state leaders are always at work for the good of the Sunshine State.

Elections will be held next Fall for the governorship of Florida and for two of the six justices on Florida's State Supreme Court.

The Governor will reside in the spacious, columned Executive Mansion pictured above. The mansion is located eight blocks north of the Capitol.

The Supreme Court justices occupy the spacious, white-domed building pictured below.

MARIANNA

Marianna is the county seat, approximately 8,500 population, in Jackson County.

It is the largest city on the old Spanish Trail between Tallahassee and Pensacola.

This community is the home of Chipola Junior College, Florida Caverns, Florida School for Boys, and Graham Air Force Base, one of the important contract flying schools of the U. S. Air Force.

Marianna is the seat of government for thriving Jackson County.

The county is a bustling agricultural and business community of small cities and towns. Near

to, but apart from crowded playgrounds and tourist centers, Jackson County offers you gracious living . . . economic well-being . . . and recreational advantages brought together on a large and balanced scale.

Pictured above is the famous Jim Woodruff Dam completed on November 1, 1956.

The inset photo is illustrative of the excellent fishing for sportsmen available in the area of the Jim Woodruff Dam.

Construction of this 6,200 foot dam keynotes the growth and development of vigorous Marianna and Jackson County.

A PROGRESSIVE COMMUNITY

Educational facilities and agricultural development keynote the Marianna community.

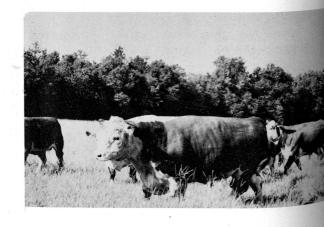

Only 12 years old, Chipola Junior College has a plant valued at \$1,100,000. It has an enrollment of 351 (1958-59) and 29 teachers.

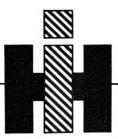

President of this progressive educational institution is K. G. Skaggs.

One of the modern buildings is viewed above.

The Jackson County area was designated by the New York Times in 1957 as "Industry's New Frontier." Yet the area has great vitality in its agricultural facilities.

The herefords pasturing in the photo at right are part of the great agricultural center in the county.

Salem's new cigarette paper discovery "air-softens" every puff

Now even the paper adds to Salem's Springtime Freshness

An important break-through in Salem's research laboratories now brings you an entirely new kind of cigarette paper — HIGH POROSITY paper — which breathes new freshness into the flavor.

Each puff on a Salem draws just enough fresh air in through the paper to make the smoke taste softer, fresher, more *flavorful* than ever. If you've enjoyed Salem's springtime freshness before, you'll be even more pleased now. Smoke refreshed—smoke Salem!

Created by R. J. Reynolds Tobacco Company

Salem's amazing new HIGH POROSITY paper "air-softens" every puff.

Invisible porous openings
blend just the right amount of
air with each puff to give you a
softer, fresher, even more flavorful smoke.
