Florida State TENNIS

Lise Gregory & Lady Seminole Accomplishments

- ▶ Received five straight Golden Torch Awards (award given to the team with the highest GPA among FSU's athletic teams).
- ▶ The women's team has made six consecutive trips to the NCAA Tournament; with the last five under current head coach Lise Gregory.
- ▶ Eight members of the tennis team have been named to the All-ACC over the past five years.
- ▶ During the 1998-99 season the women's team received a ranking in the top 20 for the first time.
- ▶ Finished with their best record in 17 years in 1998-99 (21-7).
- ▶ Two singles players ranked in the top 80 during the 1998-99 season, and one ranked in the top 50.
- ▶ Two doubles teams ranked in the top 50 during the 1998-99 season.
- ▶ Two student-athletes nominated for Rookie of the Year in the ACC (1998-99).
- ▶ Lise Gregory received Coach of the Year honors in the ACC in the 1998-99 season.
- ▶ Two student-athletes re-wrote the record books with 30 win seasons and 15 match win streaks in 1998-99 (Kia Asberg and Marina Raic).
- ▶ Alida Gallovits was ranked in the top 50 and was selected to play in the NCAA singles tournament (1999-00).
- ▶ Kia Asberg led the team in wins with 29 (3rd most in school history) and had a 13 match win streak (1999-00).
- ▶ Kia Asberg won the Cissie Leary National Sportsmanship award (1999-00).
- ▶ Kia Asberg, Nanette Duxin and Ali Weber named All-American Academic (1999-00).
- ▶ Kia Asberg is awarded the Weaver-James-Corrigan Post-Graduate scholarship (1999-00).
- ▶ The women's team held a season high ranking of 21 in 1999-00.
- ▶ Alida Gallovits reached her highest ranking in February of 2000, holding 38th place.
- ▶ At one point the Seminoles had three players ranked in singles by the ITA. Alida Gallovits, Christina Denry and Samantha Schoeffel. Also had one team ranked in doubles (1999-00).
- ▶ Lise Gregory is the second winningest coach in history of the Florida State women's tennis program. Gregory has led her team to 76 dual match victories in five seasons at FSU and is only 13 wins shy of becoming the all-time winningest coach.
- ▶ Five members of the tennis squad were named ITA scholar-athlete All-American in 2001: Marina Raic, Alida Gallovits, Nanette Duxin, Christy Travis and Natalie Carratala.
- ▶ Nanette Duxin was named ITA and Tennis Magazine's Arthur Ashe Leadership and Sportsmanship award winner for the South Region.
- ▶ 24 members of the team have been named to the ACC Academic Honor Roll.

A Note to the Media, Fans and Opponents

Florida State tennis contact Jennifer Dowling of the Sports Information Office is ready to assist you with any questions or requests you may have about the 2001-2002 Seminole Tennis program, media guide, coaches and student-athletes. Please do not hesitate to phone, fax or write a letter to the sports information office at P.O. Box 2195, Tallahassee, Florida 32316; (850) 644-1403 phone; (850) 644-3820 fax, if we can further assist you.

How to cover the Seminoles

Members of the media are supplied with weekly press releases, including updated individual tournament and career statistics, as well as conference and national rankings and information on upcoming matches or events. Results and statistics may be obtained in the sports information office or off the seminoles website at www.seminoles.com. Pertinent team and player information will also be available at the Scott Speicher Tennis Center for all home matches. If you would like to schedule personal interviews with the coaches or players contact Dowling in the FSU Sports Information office at least 24 hours in advance. Head Coach Lise Gregory is generally available in her office during weekday mornings.

Where the home matches will be...

All 2001-2002 Seminole Tennis home matches take place at the Scott Speicher Tennis Center (capacity 1000). The courts are located off of Chieftain Way directly behind the Bobby E. Leach Center. Parking for the facility is located to the west of the site. Media members will be provided parking passes and will be seated in a designated area. Please notify the sports information office prior to home matches for credentials to be assigned. Any accredited photographer wishing to shoot the matches must check in with Dowling prior to game day so proper credentials can be assigned.

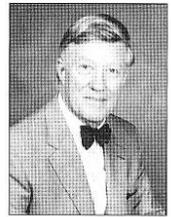

FSU on the web

Check out the Florida State tennis program on the web. Go to your internet site and type in www.seminoles.com. Once you are in the site follow the directions to the home of the Seminoles web page.

Outlook 2001-2002

Five years ago, a former All-American from the University of Miami stepped onto the campus of Florida State University and began to turn its women's tennis program into one of the nation's elite. During her five year tenure at FSU, Head Coach Lise Gregory has led her Lady Seminoles to five-consecutive NCAA appearances as well their fifth straight Golden Torch Award, an honor which is given to the team with the highest grade point average among FSU's athletic teams.

Florida State returns two seniors, one junior and a sophomore, while welcoming seven newcomers to the program this season. With four returning players and an amazing pool of incoming talent, the 2001-02 season looks to be one filled with excitement for the Lady Seminole tennis team.

"I am really excited about the upcoming season," said Gregory. "We have seven new players and only four returning so the whole personality of the team will change. The student-athletes we have coming in are extremely solid and will really push our upper classmen for their positions in the line up. I think competition within the team will help us improve both individually and as a whole. We have the

ability to be a top 20 team this year and our goal is to improve on our highest ranking (No. 18) since I have been at Florida State."

With so many newcomers, and the loss of four key players to graduation, many believe this to be a rebuilding year, yet the coaching staff sees it differently.

"I guess you could say it is a rebuilding year because we have so many new faces, but I do not think we will take a step back at all," said Gregory. "The new players joining this team have too much ability for us to take a step back.

"One of our strengths this year is the same thing that could be one of our weaknesses which is our youth," said Gregory. "By that, I mean that we have a lot of work ahead of us with the freshmen and they don't have the experience yet, but

their enthusiasm is going to be a big plus. They are a very talented group and they have been playing tournaments during the summer so they will push the old guard. I think a pecking order is a dangerous thing because people stop pushing themselves. With the new group there will be no pecking order. They will come in and try to beat up on the upper classmen and that is a good thing. I want our practices to be competitive and for us to be pushing each other each and every day. That will make us a better team."

Returning seniors Alida Gallovits and Jessica Balbuena are both looking forward to a dynamic senior campaign. Gallovits, who was named to the ALL-ACC team for the third consecutive year, also made her second appearance in the NCAA Individual Championships advancing to the second round of tournament play in 2000. She finished the season with a record of 25-15.

"Alida is an ideal student-athlete and I am fortunate to have had the opportunity to coach her," said Gregory. "Her game has gone from strength to strength and she really leads by her actions on and off the court."

Teammate Balbuena also had a standout season, including a six-match winning streak in the spring. She also earned a doubles ranking of No. 38 during the month of March.

"Jess is probably the most physically talented player I have ever coached," said Gregory. "When she is focused she is capable of beating anybody in the country."

Christina Denny will return for her sophomore season after making her mark early in fall play during the 2000 season. Denny not only brings a competitive energy to the team, but is also one of the most relaxed members of the squad.

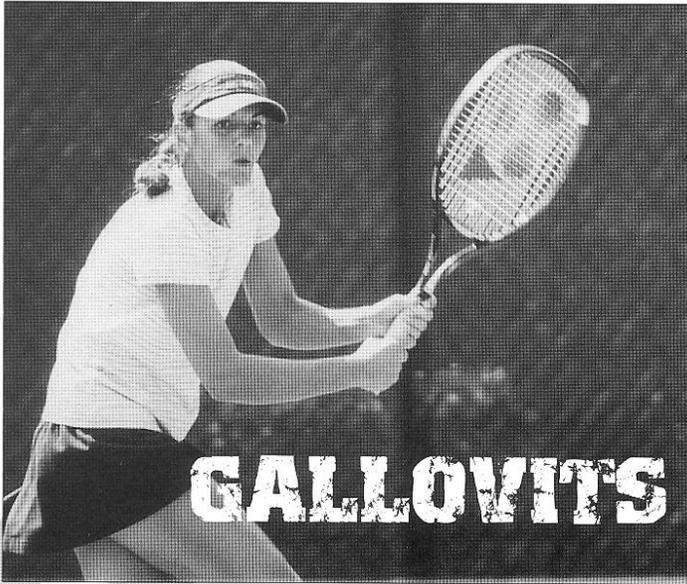

In doubles action, the team is likely to see some changes. After losing Nanette Duxin to graduation, the tandem of Gallovits and Duxin will no longer be seen as with the tandem of Balbuena and Samantha Schoeffel who finished the doubles season with a record of 14-5.

"We lost one of our best doubles players, Nanette Duxin, to graduation and she is going to be hard to replace," said Gregory. "She had such a good doubles sense and brought a lot of intensity to the pairing with Alida. Alida, Jess and Christina, our returning starters, are all very good doubles players. We are going to spend a lot of time with the freshmen working on doubles fundamentals, so I feel like we can pick up where we left off last year."

With five members of last year's squad named ITA Scholar Athlete All-Americans, seven named to the ACC Honor roll and five consecutive years of earning the Golden Torch

FSU

Outlook 2001-2002

Award, the women's tennis team has been recognized not only for their athleticism but for their academic success as well.

"I am amazed at what this team has accomplished academically," said Gregory. "Their GPA has been at such a consistently-high level for the past three years, in particular, that no other team in the country has been able to duplicate their achievements. This year we had five ITA Scholar-Athlete All-Americans, more than any other team in the country. At the same time, they have been extremely successful on the court and have also received national sportsmanship and leadership awards. That balance is a great source of pride for me and for the University."

At the start of preseason practice, much will be on the minds of the Lady Seminoles. Seeing some of their first action of the fall season at home, as host of the annual Lady Seminole Classic, should bring some excitement to the players. The women's team could enter four fall tournaments, including the Lady Seminole Classic, the Gator Invitational, Regionals and the Individual Indoor Nationals, before spring play begins, giving them a chance to build up experience before the dual match season gets underway.

"Having such a young team makes the fall tournaments even more important than usual," said Gregory. "We use the fall tournaments to teach and develop our players, but we also look at those results in determining our spring line up. It is an opportunity for everyone to get in a lot of matches against really tough competition. For the coaching staff, it is an opportunity to get to know the new players during match situations."

Spring action will keep the Lady 'Noles close to their home ground as they will play 16 matches at the Scott Speicher Tennis Center while only competing on the road seven times. The first road match will send the women's team to face rival Florida on Feb. 20th, while the first ACC match of the season will also be on the road against Maryland on March 16th. The Lady Seminoles lead the Maryland Terrapins 8-1 in the all-time series record. The team will finish the season facing four ACC opponents at home before traveling to Raleigh, N.C., for the ACC Tournament.

"Our schedule always includes four or five non-conference teams that are in the top 10," said Gregory. "Add this to a conference schedule that is comparable to that of the SEC and the PAC 10 and we have a battle on our hands day in and day out. The great thing about this year is that we have 16 home matches and only seven away, so we are going to do everything we can to pack the stands at Speicher!"

When the 36th ranked Lady Seminoles take the courts this year and begin a schedule that will include four teams ranked in the top 15, they will likely realize that they can compete against the nation's best. After an off-season of intense training, just competing won't be their goal. The potential for a return trip to the NCAA Tournament for the sixth consecutive year is well within reach.

"Making the NCAA's so consistently is nice but it is not our goal," said Gregory. "Making the NCAA's should be a given and I would be extremely disappointed if we did not make the tournament. I feel like it is time for us to make it to the final site, or the "Sweet Sixteen" as they say in basketball. We are capable of doing that and now it needs to happen."

Head Coach

Lise Gregory

**Head Coach
University of Miami. '87
6th Season at FSU**

Head Coach Lise Gregory has made tremendous strides in her first five years at the helm of the Florida State women's tennis program. While striving to reach new heights, Gregory has instilled a spirit of consistency and class both on the court and in the classroom.

In each of her first five years at FSU, the Lady Seminoles have made trips to the NCAA Tournament and have earned the Golden Torch Award, which is given to the FSU team with the highest GPA. Gregory's success has not gone unnoticed as she was honored as the Atlantic Coast Conference's Coach of the Year in 1999. When Gregory took over the program, she insisted that Florida State would become one of the best programs in the nation. Her sixth squad appears ready to build on the success of those before it and has the potential to become one of the nation's top 10 teams.

Gregory's 2000-01 team finished with a 14-11 record, and gained its sixth consecutive berth into the NCAA Regionals. The Lady Seminoles spent most of the season ranked in the Top 50 before finishing the year 36th. Coach Gregory has the highest winning percentage in FSU Women's Tennis Coaching history, with a career record of 76-50 for a .603 winning percentage. Gregory is now ranked second in all-time wins at FSU just 10 wins behind Anee Rizza. Glancing at the 2001-2002 schedule, it looks as though Coach Gregory has provided her team with a chance to gain even more experience against top-notch programs as the schedule consists of three teams in the Top 10 and 12 in the Top 50.

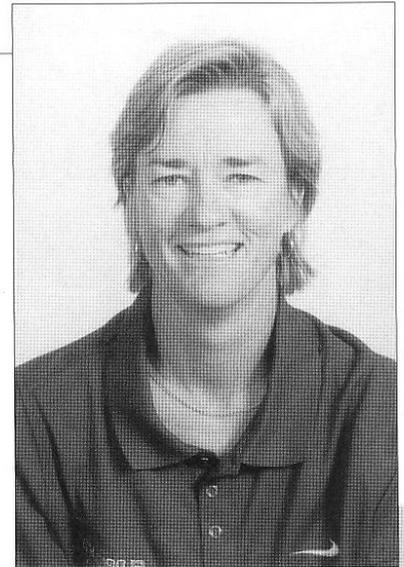

While the program's emergence on the court is apparent, its commitment and performance in the classroom is equally impressive. In winning its fifth straight Golden Torch Award, the women's tennis team achieved a team GPA of 3.6 in 2001. Seven team members were honored on the All-ACC Academic Honor Roll and six made the Dean's List. In addition to the on-court and classroom guidance Gregory has brought to the program, she has also created the "Golden Spear Club". The Golden Spears are a group of Tallahassee community members who provide support to the FSU tennis program.

Gregory, a former seven-time All-American and NCAA champion at the University of Miami, served as the assistant women's tennis coach at Vanderbilt University in 1996 before arriving at FSU. At Vanderbilt, she assisted Commodore Head Coach Geoff MacDonald in guiding the program to its second consecutive NCAA Championship appearance and a Top 10 ranking. She also has additional coaching experience on the private level, as a USTA Area Training Center coach and as a USTA inter-sectional and Zonal coach.

As a player for the Hurricanes, Gregory earned an amazing seven NCAA All-America honors for her singles and doubles play as well as NCAA doubles championship in 1986 with teammate Ronni Reis. Together, the duo compiled an impressive 84-10 record over four years, while Miami was consistently ranked among the nation's Top Five. Gregory was named to Tennis Magazine's All-Star team in both 1986 and 1987.

As a professional, Gregory won nine tournament titles in 16 finals appearances, including seven Virginia Slims doubles championships on the way to a career-high No. 18 world doubles ranking in 1990. She also won the singles at the \$25,000 Challenger in Philadelphia in 1987. Perhaps the highlight of her professional career was a No. 18 world doubles ranking in 1990 when Gregory and partner Gretchen Magers were the fourth-ranked team in the world. In 1991, Gregory was a doubles quarterfinalist at the Australian Open, a Grand Slam event, as well as one of the top eight teams in the world that participated in the year-ending Virginia Slims Championship.

"Playing the tour was a great experience and in many ways it has helped me be a better coach," said Gregory. "I know I can help the team no matter what the situation."

Assistant Coach

Brian Burdette

Assistant Coach

Auburn University; 1995, 1998

2nd Season at FSU

Assistant women's tennis coach Brian Burdette is entering his second season at Florida State and has already made a mark with the women's tennis program. He has brought with him dedication and a long list of accomplishments to the Lady Seminoles. Burdette's diverse tennis background has provided a new dimension to an already successful women's program.

Before joining the Florida State staff, Burdette was head coach at Central Alabama Community College for three years. In each year of Burdette's tenure at Central Alabama Community College, he produced a top 25 finish for both the men's and women's teams, with rankings as high as third and sixth, respectively. During the 1998 season, All-American Thato Kgosimore and Rian Greaves won the ITA Rolex Southeastern Regional Championships and Central Alabama Community College earned a fourth overall doubles finish at the National Small College Championships.

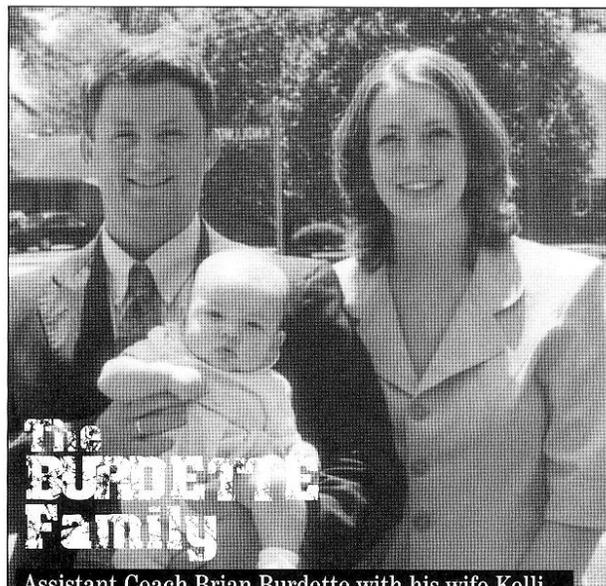

The 1999 season delivered another ITA Rolex Southeastern Regional Double Championship from Amanda Umphrey and Shannon Johnson and an eighth overall finish at the National Small College Championships. In addition, Burdette's coaching produced four players ranked in the Top 25 nationally.

"Brian loves the sport and he loves to teach," raved head coach Lise Gregory. "His enthusiasm is contagious and the team responds to him in a very positive way. I look forward to working with him for a long time, and to making this one of the premier programs in the country."

Burdette also spent time as an assistant coach for an Auburn University women's team that posted back-to-back top 25 finishes. The 1995-96 season produced an NCAA National Championship appearance. Burdette has also been an instructor for several years at the Florida Gator, Clemson Tiger, and Auburn Tiger Tennis Camps.

Burdette also served as Auburn's Strength and Conditioning Coach for Olympic Sports and Tennis Director of PARD for the Anniston Parks and Recreation Department. During his tenure at CACC, Burdette was a member of the NJCCA Southeast Regional Ranking Committee.

Burdette received his Bachelor of Science degree in Mathematics and History from Auburn University in 1995, graduating magna cum laude. He continued his education at Auburn and received his Master's Degree in 1998 in Mathematics Education. Burdette and wife Kelli have a newborn baby boy, Austin.

2000-2001 Review

"The Road To Arizona"

By: Nanette Duxin

The 2000-01 season was not the greatest season in terms of results for a team that had been in the top 20 the previous two years, but when you consider the difficulties encountered throughout the year it was without a doubt a season the Lady Seminoles could be proud of.

Five out of the top seven players returning has been out of the game for almost eight months and had been unable to practice or compete for the entire fall as a result of either surgery or injury. At the end of the fall it looked doubtful that FSU would be able to field a full line-up at the start of the dual match competitions to begin in January.

The beginning of the season was disastrous for the Lady 'Noles as they lost in 4-3 matches to Alabama, LSU and their biggest rival Miami in a match that would become extremely intense as the Noles could not have been closer to winning. It would seem more a matter of unfortunate circumstances than a lack of team cohesion or preparation. These losses were hard for Florida State to digest and even tougher on the moral of the players. With a record of 3-5 FSU traveled to Tampa to play a tough South Florida team and finally come away with a 4-3 win. Little by little things began to improve for the squad as the players became stronger and received more match play under their belts, as wins against Michigan State and Marquette were to follow.

The team flew to Calif. For spring break beating Loyola Marymount, No. 32 San Diego State and losing 4-3 to No. 11 Pepperdine. Even though FSU was able to compete well, four players in the line-up were not completely healthy and were forced to deal with their injuries match after match. Head coach Lise Gregory would be left with a difficult task ahead of her in deciding which players to put in the line-up. Possibilities were few and for every single encounter she had to face the need and desire of winning with the necessity of taking zero risk of future injuries became more and more evident. Gregory knew if the team were to suffer any more injuries the season for the Seminoles would surely be lost.

Returning from Spring Break, at this point of the year, the toughness of the schedule could be felt by all. Players were tiring with some of the most important matches still yet to come. Facing the squad was to be a slue of ACC matches. FSU began the ACC stretch facing NC State. The Lady Seminoles would easily take the win on their home court of the Scott Speicher Tennis Center 6-1. The win against the Wolfpack would be one to remember as the team would next face a three match losing streak against No. 22 Wake Forest, No. 14 North Carolina and No. 2 Duke.

Following the losses FSU would rebuild and would not see another loss during the regular season taking wins against Clemson, Georgia Tech, and Maryland. The final match would once again be against an ACC opponent in the University of Virginia. Florida State would not fall however winning the match 4-3 in another big battle as usual when playing the Cavaliers.

Coming off of a four match win streak the Lady Seminoles had regained some of their confidence as they would enter the ACC Tournament seeded in the No. 4 position. Florida State would face the Georgia Tech Yellow Jackets in the first round leading to one of the most exciting matches of the 2001 season and undoubtedly the best match of the ACC tourney overall.

Leading 3-2 the Lady 'Noles had two matches left to play to take the win. Freshman, Christina Denny, who was playing at the No. 5 position and Senior, Nanette Duxin who was at position No. 4 had both taken their matches to a third and decisive set. Battling for over three hours to the delight of a large and extremely vocal crowd Duxin would prevail 7-5 in the third-set tiebreaker to deliver the win for her team. In the semifinal round the next day top seeded Duke would end the Seminoles quest for an ACC title as the Blue Devils would take the win 4-0, on their way to another championship. Standout junior Alida Gallovits who had won five of her last six singles matches would later find out that she had been selected to the All-ACC team for the third consecutive year.

The team was next left with nothing to do but wait to hear from the NCAA selection committee, who would describe the team's further destiny. When the 64 teams that made the NCAA regional tournament was announced No. 36 Florida State was to be named as one of the 64. It would be the Seminoles sixth consecutive year in the tourney.

After a long and wearing season it definitely seemed as if the team was hitting its stride at just the right time. The road to Arizona was a bumpy one full of obstacles but the Tribe had survived and anything was possible.

Selected to play South Carolina in the first round, the Seminoles traveled to Tempe, Ariz., to take on the Game Cocks. The Florida State women's team fought with all they had to the end against No. 23 South Carolina, but the Game Cocks avoided the upset with a 4-2 win. The loss dropped FSU's overall record to 14-11, but the team knew they had proved much more throughout the season than just a winning record at the end.

Ansley Cargill, Duke

ACC COACH OF THE YEAR

Jamie Ashworth, Duke

This is the ACC

The Tradition

Consistency. It's the mark of true excellence in any endeavor.

However, in today's intercollegiate athletics, competition has become so balanced and so competitive that it is virtually impossible to maintain a high level of consistency.

Yet the Atlantic Coast Conference has defied the odds. Now in its 49th year of competition, the ACC has long enjoyed the reputation as one of the strongest and most competitive intercollegiate conferences in the nation. And that is not mere conjecture, the numbers support it.

Since the league's inception in 1953, ACC schools have captured 82 national championships, including 40 in men's competition and 42 in women's. In addition, 120 men and 31 women have earned the coveted title of NCAA champion.

The conference had an immediate impact on the national college football scene in the fall of 1953 when the University of Maryland captured the first of what would eventually be five national football titles for the ACC. Clemson laid claim to the league's second national title in 1981 while Georgia Tech followed suit in 1990. Florida State pocketed national titles No. 4 and 5 in 1994 and 1999.

The nine schools that take to the field this fall under the ACC banner have produced 373 first or second team gridiron All-Americans and 54 first-team academic All-Americans. ACC teams have had 1,485 players selected in the annual professional football draft, including 109 first round selections. A year ago, the nine ACC member institutions had 186 former players on NFL rosters during the regular season or playoffs.

If success is best measured in terms of wins and losses, then the ACC over the years has proved itself to be among the elite in Division I-A football. The ACC is the nation's second-winningest bowl conference as the nine current league teams are a combined 84-77-5 (.521) in post-season play. Since 1990, the ACC is one of only five conferences to have each of its schools play in a bowl game.

Georgia Tech and Florida State rank among the nation's winningest bowl teams. Among teams with 20-or-more bowl appearances, the Yellow Jackets are second with a 19-10 (.655) post-season record while the Seminoles are third at 17-10-2 (.621).

Over the past three years, ACC teams have posted a 17-14 mark against non-league AP-ranked opponents.

This past season the ACC had five consensus All-Americans and over the past four years has produced 22 consensus All-Americans. Since 1997, the ACC has had more first round draft picks (27) in the annual NFL draft than any other conference except the 12-team Southeastern Conference. The ACC also set two attendance marks during the 2000 season, drawing 2,653,816 fans over 54 home dates for a 49,145 per game mark.

2000-01 In Review

The 2000-01 academic year concluded with the league pocketing three more national team titles and four individual NCAA

crowns. In all, the ACC has won 39 national team titles over the last 11 years.

The ACC's 2000-01 national champions were North Carolina in women's soccer, Duke in men's basketball and Maryland in women's lacrosse. Overall, ACC teams posted a 73-56 (.566) mark in NCAA Tournament play.

The ACC placed at least one team in the Top 10 nationally in 15 of the 25 sports sponsored by the league. Other records of note during the 2000-01 season include 98 teams competing at NCAA Championships five bowl teams and 43 Top 10 showings.

The ACC Academic Honor Roll record was broken for the 14th-straight year in 1999-2000 as 1,664 student-athletes were recognized for their work in the classroom.

The Championships

The conference will conduct championship competition in 25 sports during the 2000-01 academic year — 12 for men and 13 for women.

The first ACC championship was held in swimming on February 25, 1954 at NC State. The conference did not conduct championships in cross country, wrestling or tennis during the first year.

The 12 sports for men include football, cross country, soccer, basketball, swimming, indoor and outdoor track, wrestling, baseball, tennis, golf and lacrosse. Fencing, which was started in 1971, was discontinued in 1981.

Women's sports were initiated in 1977 with the first championship meet being held in tennis at Wake Forest University. Championships for women are currently conducted in cross country, volleyball, field hockey, soccer, basketball, swimming, indoor and outdoor track, tennis, golf, lacrosse, softball and rowing.

A History

The Atlantic Coast Conference was founded on May 8, 1953, at the Sedgefield Inn near Greensboro, N.C., with seven charter members - Clemson, Duke, Maryland, North Carolina, North Carolina State, South Carolina and Wake Forest - drawing up the conference by-laws.

The withdrawal of seven schools from the Southern Conference came early on the morning of May 8, 1953, during the Southern Conference's annual spring meeting. On June 14, 1953, the seven members met in Raleigh, N.C., where a set of bylaws was adopted and the name became officially the Atlantic Coast Conference.

On December 4, 1953, conference officials met again at Sedgefield and officially admitted the University of Virginia. The first, and only, withdrawal of a school from the ACC came on June 30, 1971 when the University of South Carolina tendered its resignation.

The ACC operated with seven members until April 3, 1978, when Georgia Tech was admitted. The Atlanta school withdrew from the Southeastern Conference in January of 1964.

The ACC expanded to nine members on July 1, 1991, with the addition of Florida State.

NOTE NOTES

- ✓ Seven members of the 2000-01 squad attained All-ACC Academic Status.
- ✓ Alida Gallowits named to the All-ACC Team for the third consecutive year.
- ✓ Since 1995, six members of the Florida State tennis team have garnered All-ACC recognition.
- ✓ Four of FSU's top 10 all-time wingest season records happened in the 1998-99 season (Kia Asberg, Marina Raic, Jessica Balbuena and Nanette Duxin).
- ✓ Florida State has earned ACC honors in their singles flights six times since 1994.
- ✓ The last time three freshmen started for FSU the team posted 21 wins, the most in the Lise Gregory era and the most wins for the team since 1982.

FSU LADY SEMINOLES

2001-2002

Scott Speicher Tennis Center

storage rooms, a team lounge and a public address system. The growing pride Florida State has for its tennis program and it's premier tennis center was honored just after it's opening in 1994, when the United States Tennis Association (USTA) awarded the structure with it's "Top Notch" facility award.

The Speicher Tennis Center was named in honor of Lieutenant Commander Michael Scott Speicher, a graduate of Florida State University and the first American casualty during Operation Desert Storm. By Presidential directive, the facility bears the name the "Scott Speicher Tennis Center."

H. Donald Loucks was the program's first tennis coach and is aptly known as the pioneer of Florida State tennis. He began his coaching career in 1936 at the University School of Florida State College for Women where he coached all sports. This was the beginning of an association with Florida State which crossed six decades, 1936 - 1980, ending in his retirement as Professor Emeritus of Physical Education. In 1942, while serving as an officer in the Army, Loucks was stationed at West Point where he coached plebe basketball and tennis teams.

In 1947, Loucks became Florida State's first basketball coach and a year later was named the school's first tennis coach. His tennis team was the first athletic team to have a winning season. The varsity tennis courts were named for him in 1981. He served as Dean of Men from 1957 - 1967 and was known as a servant of leadership, service and devotion to many worthy causes.

The Speicher Tennis Center was designed by EMO/Architects, Inc., a Tallahassee-based architectural firm, in collaboration with Global Consult Group, Inc., an internationally recognized Tennis Facility Design Consultant. The complex was funded by private sources and supervised through the state university system of Florida.

Through its eight year existence, the Scott Speicher Tennis Center at the Donald Loucks Courts has served as the home courts for all Florida State men's and women's home dual matches, the annual Seminole Fall Classics, City of Tallahassee tennis championships, various USTA regional and zonal tournaments, the 1994 and 1995 Men's Intercollegiate tournament and the annual Children's Miracle Network Charity Invitational benefitting Shands Hospital in Gainesville.

With the first stage of construction completed in the Summer of 1993, the Scott Speicher Tennis Center at the Donald Loucks Courts opened its gates to the public for the first time at a Children's Miracle Network charity tournament. Since then, many successful tournaments including the 1996 NCAA Women's Championships, have graced the courts at one of Florida State University's premier athletic facilities.

Costing \$1.2 million to build and then another \$800,000 for recent additions, Florida State's Speicher Tennis Center has become an example of the increasing dedication and commitment the University has to all of its 17 varsity athletic programs.

The Speicher Tennis Center houses 12 lighted hard courts, over 1,000 court level seats, coaching offices, men's and women's locker rooms, equipment and

"The Ball is in Our Court..."

The Florida State women's tennis team has seen great success in the friendly confines of the Scott Speicher Tennis center. The Lady Seminoles have had the most success against Georgia Southern, tallying a 6-0 record against the Lady Eagles.

Florida State is 39-16 at Speicher with Lise Gregory at the head of the program.

Golden Spear Club

About the Golden Spear Club

The Golden Spear Club is designed to provide "grass roots" support for the men's and women's tennis programs at Florida State University. The objective of the club is to assist the athletic department in promoting FSU tennis in Leon County and throughout Florida and to assist in generating interest and enthusiasm for the program.

Membership in the Golden Spear Club helps support the club's activities and the Florida State University tennis program. Although Golden Spear Club memberships are not accompanied with Booster Club benefits, you can take pride in the fact that FSU tennis will remain nationally competitive because of the support. As the 2000-01 season gets underway, membership in the club has reached over 130 Seminole supporters.

Through the Golden Spear's commitment to FSU tennis, a junior team tennis league kicked off in the fall of 1999. With over 30 participants in the inaugural year of the league, players from both the FSU men's and women's teams volunteered to coach the six junior league teams. On three Sundays this past fall, participants, aged seven to 14, competed for various FSU prizes and giveaways. Due to the success of the junior team tennis league, Golden Spear founders and supporters have increased their efforts to bring the excitement of tennis to all that are interested. FSU Athletics welcomes you to become a part of the Golden Spear Club and join other tennis enthusiasts in the fun of supporting Florida State tennis. Go Noles!

Off the Court and in the Classroom

Head Coach Lise Gregory came to Florida State with a vision of making the Lady Seminole program one of the best in the nation. After five years and six straight trips to the NCAA Tournament, the Lady Seminoles are poised to solidify their 36th ranking when the dual match season gets underway in January. However, quite possibly an impressive component of the Lady Seminole women's tennis program is not just what they do on the court, but in the classroom.

In the fall, as the team trains and participates in tournaments, the focus is on getting a good start on the academic year. In each of Gregory's first five years at FSU, the women's team has won the Golden Torch Award, an award given to the team with the highest GPA among FSU's athletic teams. The commitment to academic excellence has been a goal of Gregory's since she was an All-American at the University of Miami.

Gregory's goal of providing her players with a well-balanced experience as an FSU student-athlete seems to be coming to fruition as she enters her sixth season. Under Gregory's leadership, FSU has claimed 35 spots on the ACC Academic Honor Roll, including seven members of the 2000-01 squad. Three members of the women's team were named All-American Academics with a 4.0 GPA, as five members were named ITA Scholar Athlete All-Americans. With four members returning to the team and with an incredible pool of talent coming in with the seven newcomers, the sky's the limit for the Lady Seminoles, both on and off the court.

How to become a Golden Spear Club member

Membership: \$25, Juniors; \$50, Adult; \$75, Family

Benefits of Club Membership:

- Seminole Tennis T-shirt (one per membership)
- 2 pro-ams with men's and women's teams and coaches
- Scheduled use of varsity courts
- Quarterly Newsletter
- Post-match recaps via email
- Complimentary parking during matches
- FSU Tennis Tag (for car).

For more information call: Brian Burdette, assistant women's tennis coach, at (850) 644-1099 or by fax (850) 644-3451.

THE N.O.L.E.S. PROGRAM

NEW
OPPORTUNITIES FOR
LEADERSHIP,
EDUICATION AND
SERVICE

JOHN LATA
Coordinator

Developed by the Florida State University Department of Athletics, the NOLES program represents a commitment to the total growth and development of the student-athlete. This program establishes an administrative commitment to academic and athletic excellence. Those efforts will be supported with programs and services in personal development, career development and community service.

AMY MAGNUSON
Sports Nutritionist

PERSONAL DEVELOPMENT

Fostering the development of personal growth is a fundamental component of the NOLES program. These support programs ensure that the student-athlete will be provided opportunities to focus on personal growth issues such as values clarification, goal setting, fiscal planning, deci-

sion making and personal responsibility. Programming focuses on helping student-athletes develop a healthy lifestyle while they are at Florida State and habits that will benefit them for life.

CAREER DEVELOPMENT

Preparing for life after college sports is a major focus of the NOLES Career Development program. The program is designed to work cooperatively with the University's Career Services to acquaint students with the job search process, provide networking opportunities and ultimately assist with job placement. This program places a priority on the development of the total person, with the goal of developing individuals who will have rewarding careers and productive lifestyles after they leave Florida State.

COMMUNITY SERVICE

Serving the community is the focus of our Seminole Spirit pro-

gram. Student-athletes are challenged to give service to our community and individuals who are in need. With a clearly defined program of service, student-athletes are given the opportunity to develop the foundation for a lifelong commitment to volunteerism. The Seminole Spirit Student-Athlete Speakers' Bureau enables student-athletes to improve their speaking skills, develop effective communication and impact the lives of others through their service as role models in our community.

LEADERSHIP DEVELOPMENT

The Florida State University Department of Athletics is committed to developing programs of excellence that foster leadership development. The foundation of the leadership development program are the Seminole Leadership Institutes that are held four times a year. These Institutes offer student-athletes the opportunity to learn skills that will benefit them as students, as athletes, and as they pursue their goals after leaving Florida State. The Institutes are based on building communication skills. Students have the opportunity to use the values and work ethic taught by athletic participation as the framework for their leadership development. The Institutes attract outstanding guest speakers who challenge Seminole student-athletes to achieve their greatest potential and use their leadership skills to positively influence others.

The Student-Athlete Advisory Council (SAAC) serves as the advisory board to the NOLES program and the athletics administration.

The prestigious board, comprised of two representatives of each athletic team at FSU, also recommends programming and serves as a liaison

between student-athletes and the athletics administration. The Advisory Council plans and implements various events for student-athletes and serves as the department's most visible ambassadors. The SAAC hosts the annual Golden Nole banquet and plans such events as orientation for incoming student-athletes and the back-to-school picnic.

Associate Athletics Director For Student Services Pam Overton was presented with the first annual Dr. Gene Hooks Award for the outstanding CHAMPS program coordinator as chosen by the Division I-A Athletics Directors.

Student Development

The following information is provided by the Florida State Office of Compliance for prospective student athletes. It is intended as a guideline to introduce some of the rules governing NCAA athletic involvement.

Who is permitted to recruit for FSU?

Only Florida State University coaches who have successfully completed the NCAA Recruiting Rules Examination on an annual basis may be involved in the recruitment process. Representatives of our athletics interests may not make any recruiting contacts. This includes letters, telephone calls or face-to-face contact on or off campus with a prospect or the prospect's parents.

Key Terms You Should Know

You become a prospective student-athlete if you have started classes for the ninth grade. Before the ninth grade, you become a prospective student-athlete if the college provides you (or your relatives or friends) any financial aid or other benefits that the college does not provide to prospective students generally.

A contact is any face-to-face encounter between a prospect or the prospect's legal guardian and an institutional staff member or athletic representative during which any dialogue occurs in excess of an exchange of greeting. NOTE: At the Division I level, athletic representatives (boosters) may not contact you for the purpose of recruiting. A college coach may contact you in person off the college campus beginning July 1 after completion of your junior year in high school.

An evaluation is any off-campus activity designed to assess your academic qualifications or athletic ability, including any visit to your high school (during which no contact occurs) or the observation of any practice or competition in which you participate.

During your senior year, you can have one expense-paid official visit to a particular campus. You may receive no more than five visits. During your official visit, which may not exceed 48 hours, you may receive round-trip transportation between your home and the campus, and you (and your parents) may receive meals, lodging and complimentary admission to campus athletics events.

Phone Calls & Letters

Phone calls from faculty members and coaches (but not boosters) are permitted beginning July 1 after completion of your junior year. A college coach or faculty member is limited to one telephone call per week except when it is:

- During the five days immediately before your official visit to the university.
- On the day of a coach's off-campus contact with you.
- During the time beginning with the initial National Letter of Intent signing date in your sport through the two days after signing date.

Letters from coaches and faculty members (but not boosters) are not permitted until September 1 at the beginning of your junior year in high school. A Division I university may provide you with the following printed materials:

- General correspondence, including letters, U.S. Postal Service postcards and institutional note cards.
- Game programs which may not include posters and one Student Athlete Handbook can be provided only during official or unofficial visits to the university's campus.
- NCAA educational information.

- Pre-enrollment information subsequent to signing a National Letter of Intent with the university.
- One athletic publication which may include only one color of printing inside the covers.
- Official academic, admissions and student services publications published or videotapes produced by the institution and available to all students.
- Schedule cards.
- Questionnaires which may be provided prior to your junior year.
- Summer camp brochures which may be provided prior to your junior year.

Alumni & Boosters Do's & Don'ts

You **may** forward information about prospective student-athletes to the appropriate coaches.

You **may** have contact with a prospect regarding permissible pre-enrollment activities such as summer employment, provided the prospect has already signed a National Letter of Intent and the Compliance Office is aware that you are making these contacts in regard to employment.

You **may** have a telephone conversation with a prospect only if the prospect initiates the call. Such a call may not be prearranged by an institutional staff member and you are not permitted to have a recruiting conversation, but may exhibit normal civility. You must refer any questions about our athletics programs to an athletics department staff member/coach.

You **may** view a prospect's contest at your own initiative provided you do not contact the prospect or his/her parents. In addition, you may not contact a prospect's coach, principal, or counselor in an attempt to evaluate the prospect.

You **may** continue established family relationships with friends and neighbors. Contacts with sons and daughters of these families are permitted as long as they are not made for recruiting purposes or encouraged by Florida State University coaches.

You **may not** become involved in making arrangements to receive money or financial aid of any kind for a prospect or the prospect's family and friends.

You **may not** make contact with a prospective student-athlete and his/her parents when the prospect is on campus for an official or unofficial recruiting visit.

You **may not** transport, pay or arrange for payment of transportation costs for a prospect, and his/her relatives or friends to visit campus (or elsewhere).

You **may not** pay or arrange for payment of summer camp registration fees for a prospect.

You **may not** provide anything to a prospect, the prospect's family or friends without prior approval from the athletics' Compliance Office.

Support Services

Academic, personal and professional support are essential to college success. At the Florida State University, we have developed an outstanding support program which enables student-athletes to reach their full potential. Our philosophy is "to offer an academic support program integrated with the total university that will assist all student-athletes with the transition into college and provide continued support in all phases of academic and professional development culminating with graduation, job placement or graduate school."

To accomplish this goal we have developed an academic environment which facilitates the academic success of student-athletes. Student success is encouraged through competent academic counseling, career exploration, planning and placement and academic assistance through tutorial programs.

Academic Success

- ✓ Since 1998, 32 members of the FSU team have attained All-ACC Academic status.
- ✓ Five members of the 2000-2001 squad were named ITA Scholar Athlete All-Americans.
- ✓ Seven members of the 2000-2001 squad attained All-ACC academic status.

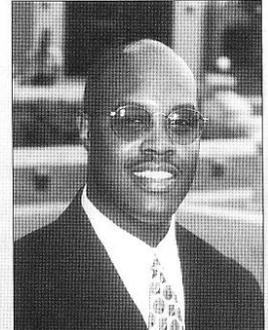

Our program operates on a "proactive" rather than "reactive" approach. At Florida State, our academic staff does not wait for academic crises to occur. We gather important background information and build an academic profile on all student-athletes to assess their needs in advance. We also stay informed on the daily progress of each student-athlete.

The academic support services are located in the state-of-the-art University Center and are on the sixth floor of the \$126 million facility. It includes private study desks, a tutorial study area and a computer lab outfitted with 16 new IBM computers and laser printers. In addition, athletic sky boxes are utilized for group and individual tutorial instruction.

FSU offers 16 Schools and Colleges with 99 undergraduate degrees and 75 post-baccalaureate degrees.

Kevin White is in his fifth year as a member of Florida State's academic support staff and serves as the tennis program's academic counselor. White is responsible for coordinating and monitoring completion of degree requirements as well as overseeing study hall and tutorial services while watching over academic progress of the Seminole student-athletes. In addition, he assists the department in the recruitment of prospective student-athletes when they come to campus.

A native of Seat Pleasant, Md., White attended James Madison University on a football scholarship. He was a three-year letterwinner for the Dukes and received his bachelor's degree in sociology in communication in May of 1991.

WHITE ON THE LADY SEMINOLES...

"A professional is someone who can do his best when he doesn't feel like it."
(Cooke)
I feel this quote epitomizes the performance of our recent women's tennis teams. They are a very hard working group of young ladies who do well academically and at times have a tendency to overachieve.

Mark Meloney
Director, Athletic
Academic Support
Programs

Mark Meloney became Florida State's Director of Athletic Support Programs in 1997 and brings 14 years of advising experience to the position. Over the past seven years, Meloney has played an integral role in development of a comprehensive program of student athlete support, which in 1996 won the "Program of Excellence" award from Athletic Management Magazine.

A native of Iowa, Meloney began his college education at Buena Vista College, where he earned varsity letters in football and baseball. Upon transferring to Florida State, he earned Bachelor's degree's in Management and Finance in 1986 and received a Masters in Athletic Administration from FSU in 1997. He is currently pursuing his Ph.D. in Athletic Administration.

Meloney oversees an academic staff comprised of five academic counselors, and administrative assistant, several graduate assistants, individualized learning specialists and a cadre of about 70 tutors and mentors.

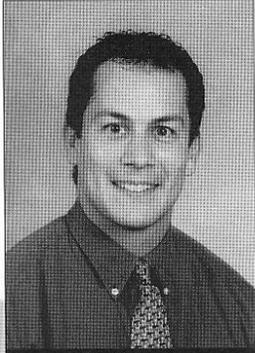

Meloney and his wife Sarah are the parents of a seven year old daughter, Montana Shea.

Strength and Conditioning

Strength/Conditioning

The Strong Shall Survive is the motto of the strength and conditioning staff at Florida State. It is also this philosophy that has made Seminole athletes in all sports among the strongest, fastest and fittest anywhere. At Florida State, the strong not only survive, they win too!

Dave Plettl
Strength Training Coach

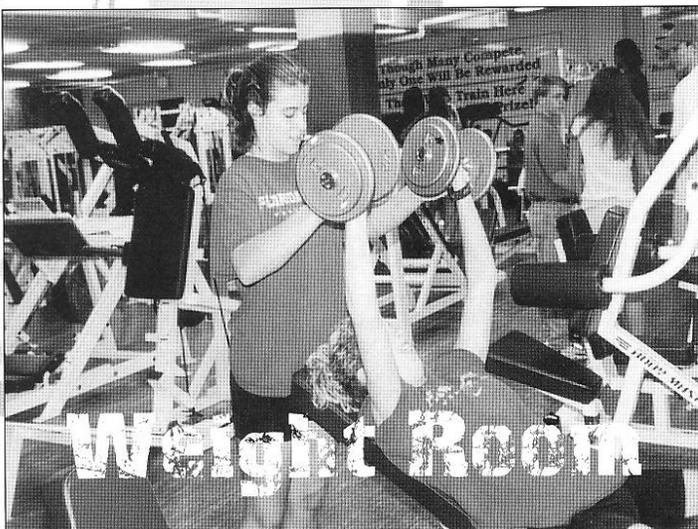

At Florida State, a supervised program has been developed for tennis, emphasizing the objectives of not only building bodies, but strengthening and conditioning them. Strength coach Dave Plettl, who is in his second year on the Florida State strength and conditioning staff, individually customizes programs for each of the athletes beginning with pre-conditioning before the season gets underway.

Plettl, a native of Bailey, Colo., is a 1991 graduate of the University of Colorado, where he earned a Bachelor's degree in political science and history. He comes to Florida State from the University of Texas where he served the past two years as an

assistant strength and conditioning coach with the football, men's tennis, women's golf and rowing programs.

While at Colorado, Plettl worked as a student assistant athletic trainer his first year and then moved to the strength and conditioning staff in 1987 where he spent the next 10 years. Plettl was a student assistant/graduate assistant from 1987-92, the interim coach from 1992-93 and associate strength and conditioning coach from 1993-97. He worked primarily with the football, men's basketball, volleyball and soccer programs at Colorado.

Plettl, who is a certified Level II specialist in sports conditioning, works with both the men's and women's basketball programs at Florida State University while adding women's tennis this season. He is married to the former Christa Miller. The couple had their first child, Lydia in April of 2001.

Weight Room

The Tully Gymnasium weight room took on a whole new look following a complete renovation in 1996 and additional improvements have been made to the facility every year since. The weight room went from 1,500 square feet to 3,500 square feet in size in 1996, fresh with a new stereo system, drop ceiling, lighting and mondo rubber flooring. Over \$140,000 worth of new exercise equipment was added to the Lady Seminole weight room, including 16 cardiovascular pieces such as Life Fitness, Stairmaster and Tatrix. The facility was expanded to 4,500 square feet this past summer with a new squat rack and platform.

Medical Care and Treatment

An athlete can expect to receive the best care and treatment possible from the athletic training staff at Florida State University. Prior to competition, all FSU student-athletes undergo screening in order to detect any potential injuries. If a problem is detected, the athlete may be placed on a prevention care system which may include any kind of treatment from icing to exercising.

Rhonda Kelly joined the Florida State staff in June and is in her first season handling the athletic training duties for the women's tennis team.

Kelly is a 1998 graduate of Valdosta State University where she received a Bachelor of Science degree in sports medicine. While at Valdosta State, Kelly served as a student athletic trainer for three years while working with the women's basketball, cheerleading and football programs.

Upon graduation, Kelly continued her education at Louisiana State University serving as a Graduate Assistant Athletic Trainer for two years while obtaining her master's degree in Sport Pedagogy and was then elevated for one year to Assistant Athletic Trainer. While at LSU, Kelly worked with the football, softball and men's tennis programs. Some of Kelly's responsibilities included designing, implementing and supervising the rehabilitation programs for the football team and serving as the medical coordinator for the NCAA softball and tennis regionals in Baton Rouge. As an Assistant Trainer, Kelly worked primarily with the football team while also assisting with the management of nine graduate assistants and 15 student athletic trainers.

In addition to her women's tennis training duties, Kelly also handles athletic training for the women's basketball program and coordinates the annual drug testing of all FSU female athletes.

A native of Kalamazoo, Michigan, Kelly is a certified member of the National Athletic Trainers Association and is also Red Cross CPR and First Aid certified.

Though the prevention of injuries is the main objective, some injuries are unavoidable. Rehabilitation is another component of the Florida State training room. The FSU athletic training staff will work with the athlete and provide an intense rehabilitation schedule that will allow the athlete to successfully rehabilitate after an injury. Some injuries and illnesses may be referred to the Seminole team physicians at the Tallahassee Orthopedic Center, who, for many years, have worked in conjunction with the FSU athletic training staff in successfully rehabilitating athletes after an injury.

"Winning Ways"

Coach **Lise Gregory** maintains the highest winning percentage in FSU Women's Tennis history. Gregory sports a .603 percentage, with a 76-50 career record at the helm of the FSU Lady 'Noles.

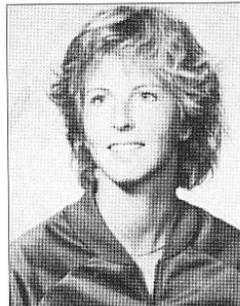

With her 21-win season in 1999, Gregory moved into fourth place in single season wins at Florida State.

The Lady Seminoles have won at least 12 matches every season since Gregory took over the program.

T H I S I S T

Among low, rolling hills, down moss-draped canopy roads, within picturesque historical districts, and across seas of flowering azaleas lies a magical part of the Sunshine State—Tallahassee, Florida's capital city. With its intriguing combination of power-play politics and classic character splashed with a twist of Southern beauty and charm, Tallahassee is a side of Florida few expect to find.

With the Gulf of Mexico just 25 miles south and the Georgia border only 14 miles north, Tallahassee rests between the foothills of the Appalachian Mountains and the juncture of Florida's panhandle and peninsula in an area known as "The Big Bend." Nearer in miles to Atlanta than to Miami, Tallahassee more closely resembles its Georgia neighbor than Florida in topography, climate and lifestyle.

Like the city itself, the story of how Tallahassee was chosen as the state capital is rich in history. In 1823, two explorers set out — one on horseback from St. Augustine and the other by boat from Pensacola — to establish a permanent, central location for the seat of government. The two met at a beautiful site that the Creek and Seminole Indians called "tallahassee" — derived from the words "talwa," meaning town, and "ahassee," meaning old. This

historic meeting place remains Florida's capital today.

Boasting more than 145 properties listed on the National Register of Historic Places, Tallahassee is a living showcase of Florida history and heritage. The crowning jewel of Florida's historic "Capitol Hill" is the Old Capitol, beautifully restored to its 1902 splendor complete with the red-and-white striped awnings, a dome adorned with stained glass, antique furnishings and political memorabilia. The 22nd-floor observatory of the New Capitol Building offers a breathtaking view of this surprising Southern city, awash in flowering azaleas, snowy dogwoods, towering pines, fragrant magnolias, and hundreds of lakes, springs, swamps, rivers and sink holes.

Charming downtown historic districts graced with lush linear parks lead visitors to the Knott House Museum, The Columns, First Presbyterian Church, John G. Riley House Museum and Old City Cemetery. Free walking tours and replica turn-of-the-century street cars carry passengers to antebellum mansions, picturesque churches and other downtown delights. Minutes from downtown lies the lush 52-acre natural habitat and 1880s farm of the Tallahassee Museum of History and Natural Science, home to the rare Florida panther and other furry "natives."

The area surrounding Tallahassee reveals numerous other historic and archaeological treasures, such as De

OUR HISTORY **Tallahassee, Florida**

In 1823, the first civilian governor, William Pope DuVal, desired a central location for the legislature to meet. He sent one explorer on horseback from St. Augustine and another by boat from Pensacola — their rendezvous point was declared Florida's capital. Nestled among the rolling foothills of the Appalachian Mountains and located in a region of the Gulf of Mexico known as the Big Bend, the Capital region is known for its Southern characteristics, gracious hospitality and lush topography.

Soto State Archaeological and Historical Site, Lake Jackson State Archaeological Site, Mission San Luis, Natural Bridge Battlefield and San Marcos de Apalache. Visitors can explore prehistoric Florida at the Museum of Florida History, where they are greeted by a giant 12,000-year-old mastodon pulled from nearby Wakulla Springs.

On the shores of Wakulla Springs, alligators still laze under the watchful eyes of “snake birds” perched on twisted cypress trees. The site of many underwater scenes in “Tarzan” movies, it’s one of the world’s deepest freshwater springs. Glass-bottomed boat tours across these mystical waters are available.

Other sightseeing favorites include the floral masterpiece of Alfred B. Maclay State Gardens; Bradley’s Country Store; FAMU Black Archives; and the Tallahassee Antique Car Museum. Nearby small towns offer fascinating excursions to places such as Pebble Hill Plantation, Florida Caverns State Park, Monticello Opera House and St. George Island.

Tallahassee is almost as rich in cultural treasures as it is in history. A widely-acclaimed collection of art, science and history museums and galleries, year-round festivals and non-stop entertainment at the 14,000-seat Tallahassee-Leon County Civic Center, feed a variety of cultural appetites.

Visitors with a hunger for the great outdoors will find Tallahassee ideal for all types of outdoor recreation—from canoeing down dark, cypress-lined rivers and biking up steep slopes to exploring back country wildernesses and hunting for bobwhite quail. Area lakes, rivers, ponds and the Gulf — just 30 minutes away — offer a paradise for boating and fishing. Lakes Jackson and Talquin are renowned in the bass fishing world for yielding the “big ones.” Local wildlife areas, such as the St. Marks National Wildlife Refuge and Apalachicola National Forest, are perfect spots for camping, picnicking, swimming, biking and exploring.

And while Tallahassee also features eight golf courses and plenty of places to raise a racquet, it’s a wild array of spectator sports that leave the crowds screaming for more. The Florida State Seminoles and Florida A&M Rattlers provide collegiate action while the Tallahassee Thunder is the city’s featured arena football team. And always a sure bet are the nearby greyhound races.

Population...

City	148,400
County	243,300

For another favorite “sport” — shopping — two large regional malls and many specialty centers offer an array of “playing options,” from popular chains to curiosity and antique shops. Unique shopping locales include downtown parks, lakeside cottages and small Southern towns. Tallahassee serves a scrumptious selection of tantalizing restaurants ranging from fast food to five-star. Local specialties include homemade country sausage, melt-in-your-mouth steaks, wild game and succulent seafood fresh from the Gulf.

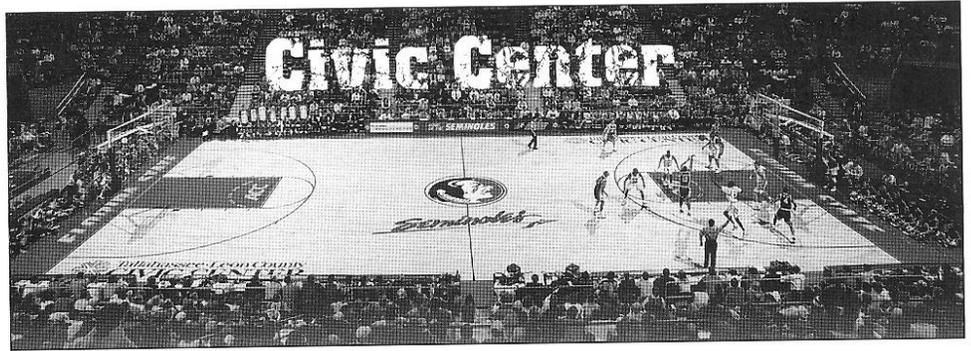

From luxury to economy, accommodations are plentiful and include restored bed and breakfasts, rustic “gentlemen” lodges, beachside escapes and comfortable chain hotels. For those who choose to follow in the footsteps of early travelers, Tallahassee also boasts 15 beautiful campsites. Continuous air service, Amtrak and four major highways make it easy for visitors to get to Tallahassee. But no matter how you arrive, the history and hospitality of Tallahassee make it difficult to ever leave for long.

T H I S I S T

Tallahassee - Leon County Civic Center

It is easy to understand why over one million people a year flock to the Tallahassee-Leon County Civic Center, what with the varied array of attractions it offers. Consider: a \$33.8 million versatile, contemporary complex with excellent facilities and a cooperative and efficient staff that knows its business. The Civic Center hosts a wide variety of concerts, family shows, Broadway shows, ice shows and sporting events. Some people come to the Civic Center to enjoy the sounds of rock, country, pop and urban concerts. Some come for the thrills of basketball, ice hockey, rodeos, arena football and three-ring spectaculars.

in a highly competitive competition. The museum features a 52-acre natural habitat zoo, nature trails, authentic 1880s farmstead, hands-on Discovery Center, birds of prey aviary, reptile exhibits, annual events and more!

Other points of interest include:

Mary Brogan Museum of Art & Science

Interactive hands-on science center and national traveling art and science exhibitions.

Mission San Luis

Site of Spanish/Indian village settled from 1656-1704. Ongoing excavations/ exhibits/reconstructions.

Museum of Florida History

Permanent exhibits include a nine-foot mastodon, Spanish galleon treasures, Civil War memorabilia, reconstructed steamboat and Prehistoric Florida plus traveling exhibits.

OLD CAPITOL MUSEUM

Restored to 1902 appearance featuring red candy-striped awnings, stained glass dome, House and Senate Chambers, Supreme Court and Governor's office.

MACLAY STATE GARDENS

Enchanting floral architecture surrounds 1930s home of NY financier Alfred B. Maclay. Impressive grounds feature 200+ floral varieties plus hiking, biking and nature trails, swimming, fishing and boating.

TALLAHASSEE ANTIQUE CAR MUSEUM

Impressive showroom features award winning Chevys, one-of-a-kind Ford Roadster, 1913 CarNation Tourer, 1931 Duesenberg, 1956 T-Bird, Delorean, Cadillacs, Corvettes and more. Plus two original Bat Mobiles.

Climate

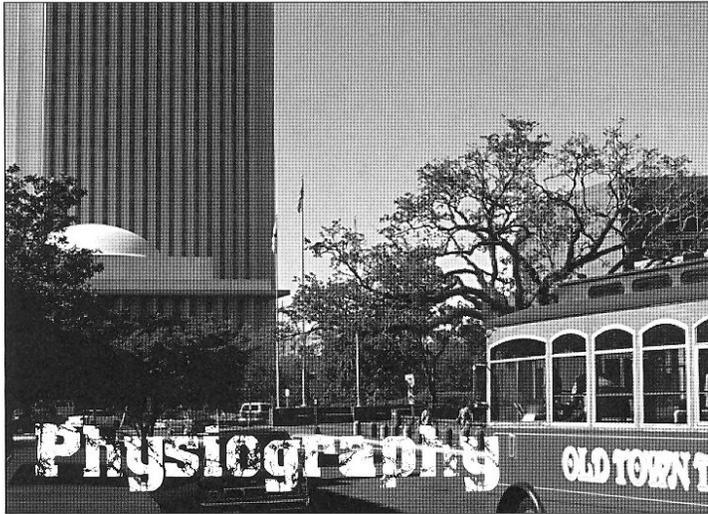

Tallahassee has the mild, moist climate characteristics of the Gulf States and experiences a subtropical summer similar to the rest of Florida. In contrast to the Florida peninsula, however, the panhandle, of which Tallahassee is a part, experiences four seasons.

Tallahassee Temps

Annual January temperature:	40-63° F
Annual July temperature:	72-91° F
Yearly average maximum temperature:	78.7° F
Yearly average minimum temperature:	55.7° F
Yearly average days above 90 degrees:	91.0
Yearly average days below 32 degrees:	35.7

Museums and Culture

The federal Institute of Museum and Library Services (IMLS) named the Tallahassee Museum of History and Natural Science as one of the nation's exemplary museums on September 19, 2000. The Tallahassee Museum, along with 176 other museums, was selected out of a field of 823 applications from museums throughout the nation

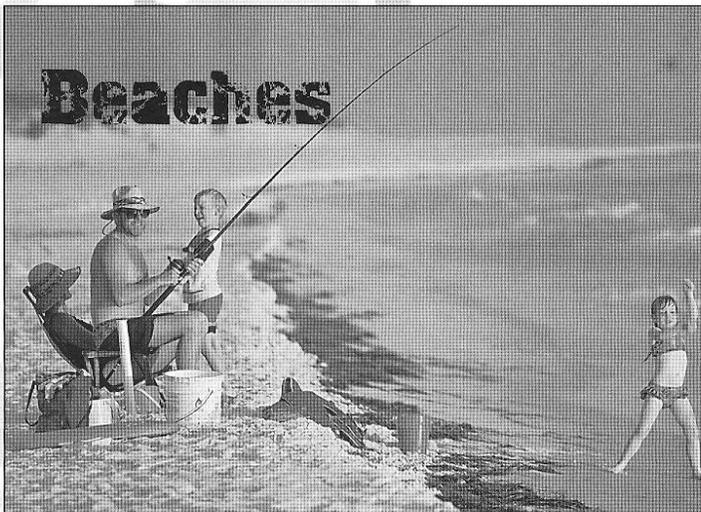

Tallahassee's rolling landscape, typical of regions further north, is unique among the major cities of Florida. Some areas of the county, including the downtown ridge encompassing the Capitol complex, City Hall and the County Courthouse, exceed elevations of 200 feet. The highest elevation in Leon County is 288 feet, found in the northern part of the county. To the south of the city, the hills yield to the flat terrain that is typical throughout the peninsula of Florida.

THE CAPITOL

One of 5 tower Capitols in the U.S. features panoramic view from 22-floor observatory/art gallery, House and Senate viewing galleries.

Where's The Beach?

Where sunny days are filled with the great outdoors...where time is measured by tides and life's rhythms move with the surf...beaches are just a short drive from Tallahassee.

ALLIGATOR POINT

Natural dune public beach, 45 miles south of Tallahassee

CARRABELLE

Coarse public beach, featuring swimming and shelling, 60 miles southwest of Tallahassee

DEKLE BEACH

Pristine sandy beach, clear water featuring boating, swimming, picnicking and more, 70 miles east of Tallahassee

MASHES SANDS BEACH

Public beach, shallow bay water featuring swimming and crabbing, 40 miles southwest of Tallahassee

ST. GEORGE ISLAND

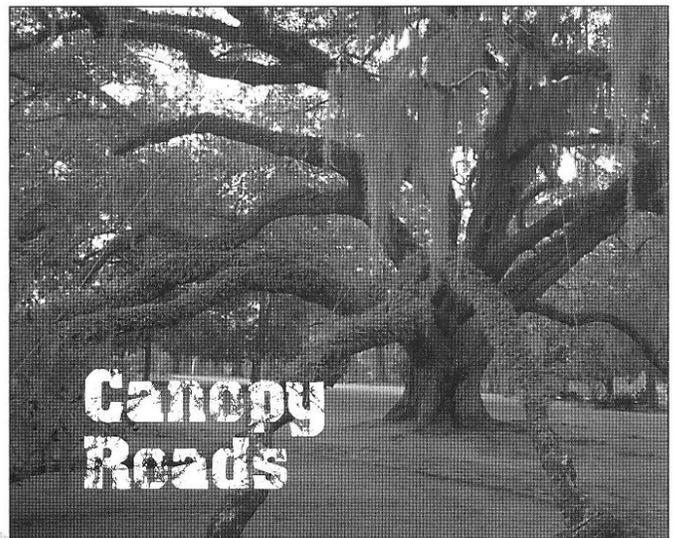

Pristine 29-mile barrier island beach, clear water, featuring swimming, shelling, boating, and fishing, 80 miles southwest of Tallahassee

SHELL POINT

Lovely, small peninsula surrounded by St. Marks Wildlife refuge. Secluded beach and clear water that is popular for sailing and windsurfing, 25 miles south of Tallahassee

Canopy Roads

The abundance of trees and timber is a resource uncommon to many other areas of the state. The beauty of the local trees is exemplified in Maclay Gardens State Park, which is the site of several of Florida's champion trees including the flowering Dogwood, the Hawthorn tree, the Horsesugar tree, the Sweetbay Magnolia and the Silverbell tree. These trees and others often extend their branches over the roadway to create a canopied effect, a feature that is held in high esteem by local residents and visitors.

T H I S I S

Florida State University, a graduate research institution, stands among the nation's elite in both academics and athletics, as it celebrates its sesquicentennial anniversary in 2001.

Located on the oldest continuous site of higher education in Florida, the university is situated in the heart of the state's capital city. The university's main campus blends Jacobean Revival and modern styles of architecture with the oaks, pines, dogwoods and azaleas of North Florida.

As the university has progressed and grown — from its pre-Civil War beginnings as the Seminary West of the Suwannee, to the Florida State College for Women and, finally, returning to coeducational status as a university in 1947 — it has developed into an acclaimed research institution, a top-ranked competitor in intercollegiate athletics and as a standard-setter in the basic sciences and the performing arts.

The university has entered the 21st century with excellence in all areas of its mission — teaching, research and public service, including such milestones as:

- In June 2001, NBC Nightly News anchor Tom Brokaw donated more than 5,000 collections of World War II memorabilia that had been sent to him as the result of his three-book series on "The Greatest Generation" to the FSU Insti-

tute on World War II and the Human Experience. FSU created the institute in 1998 to "save the memories of those who saved the world" by collecting letters, diaries, memoirs and photos from participants in the war effort, in order to preserve the materials for classroom teaching, scholarly research and public viewing.

- In May 2001, FSU welcomed the charter class of its College of Medicine. The allopathic medical school, the first to be established in the nation in more than 20 years, will focus on treating the elderly and people in underserved areas such as rural communities and inner cities.

- In March 2001, FSU opened the Center for the Advancement of Human Rights that will train undergraduate students from nine FSU colleges and schools to be human rights advocates and be placed with international human rights organizations.

- In the blackenterprise.com 2001 "Top Fifty Colleges for African Americans" rankings, FSU was rated 23rd in the nation, up from 26th in 1999.

- In the March-April 2001 issue of National Jurist that rated the nation's "most wired" law schools, the FSU College of Law was ranked 13th.

- The FSU School of Motion Picture, Television and Recording Arts was named among the nation's top 12 film schools in the fall 2000 "special showbiz issue" of Entertainment Weekly magazine.

- During the fall of 2000, FSU had 243 National Merit Scholars, 77 National Achievement Scholars and 28 Hispanic Scholars enrolled.

- In 2000, the Florida Legislature placed under FSU's control the Ringling Center for the Cultural Arts in Sarasota, which includes the John and Mable Ringling Museum of Art, the state art museum of Florida.

- In 2000, FSU bought the most powerful university-owned supercomputer in the world. The IBM RS/6000 Supercomputer can perform 2.5 trillion calculations per second. Located in the School of Computational Science and Information Technology, the supercomputer will be used by FSU researchers to predict hurricanes and compare DNA sequences as complex as those of the human genome.

- The Challenger Learning Center of Tallahassee, a project of the FAMU-FSU College of Engineering, is scheduled to open in March 2002. The center, to be built on Kleman Plaza in downtown Tallahassee, will feature a space mission simulator common to all of the centers, and a 300-seat IMAX theater and a domed planetarium laser theater. It will serve middle schools in a 66-county area of North Florida, Southeast Alabama and South Georgia.

- In 2000, the doctoral program in the College of Busi-

ness had the highest minority enrollment of any Ph.D. business program in the United States. In recent years, it has graduated more minority doctoral students than any other Ph.D. granting institution.

- In 2000, the National Geographic Society and FSU started the Florida Geographic Alliance to bolster geographic education among Florida school children by preparing and equipping Florida's K-12 teachers with better information and tools.

- In 1999, FSU was selected by the U.S. Department of Energy to become one of the research institutions to operate the Oak Ridge National Laboratory (ORNL), a multiprogram science and technology laboratory in Oak Ridge, Tenn., headed by the University of Tennessee-Battelle. The five-year management and operations contract is valued at about \$2.5 billion. FSU was invited to join ORNL because of its strong faculty research activities in material sciences, structural biology, computational sciences and magnet technologies.

- At more than \$287.4 million, FSU's endowment has been ranked 150th in the nation by the National Association of College and University Business Officers, the benchmark of higher education fundraising success, in 2000. Since 1994, FSU's endowment ranking has surpassed 156 other institutions.

- In December 1999, researchers at the National High Magnetic Field Laboratory used a hybrid magnet to conduct the lab's first research in continuous magnetic fields of 45 tesla, or one million times Earth's magnetic field. The \$100 million magnet lab, which was established in 1990 by the National Science Foundation is run by FSU in partnership with the University of Florida and the Los Alamos National

Laboratory.

- In 1994, Florida State was classified a "Research University I" by the Carnegie Foundation, placing it among the nation's top research universities. In 2000, the distinction was renamed "Doctoral/Research University-Extensive."

Under the leadership of the university's 12th president, Talbot "Sandy" D'Alemberte, who took office in January 1994, FSU continues to build on the foundation of its history of excellence in scholarship, research and service.

A senior member of the State University System, FSU was founded as an institution of higher learning in 1851 by legislative act. It began in Tallahassee with its first class of male students in 1857 and added women in 1858.

FSU's operating budget is \$656 million. Faculty and administrators generate more than \$116 million annually in external funding to supplement state-sponsored research. Three direct-support organizations serve to bolster the university: the FSU Foundation, which raised \$301 million in private gifts during the university's first capital campaign, Seminole Boosters and the FSU Alumni Association.

The main campus is spread over 463.4 acres in Tallahassee; FSU, which has one of the smallest campuses in the SUS, has been actively acquiring land in the 1990s. FSU encompasses 1,422.7 acres in Leon, Bay, Franklin, Gadsden and Sarasota counties.

Within the state, the university maintains facilities at its 25-acre campus in Panama City, its Marine Laboratory at Turkey Point on the Gulf of Mexico, the Appleton Museum in

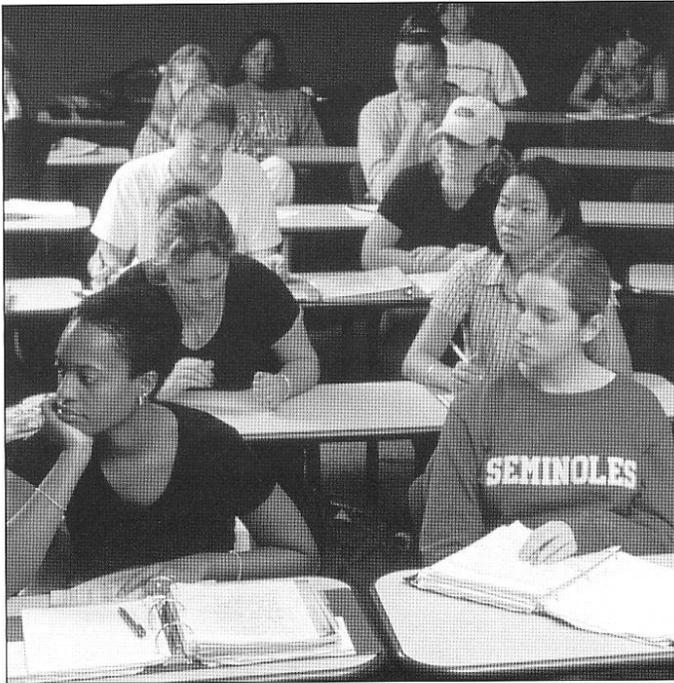

Ocala and the Asolo Performing Arts Center in Sarasota. The Center for Professional Development and Public Service, housed in the Augustus B. Turnbull III Florida Conference Center on the edge of the campus, provides

extensive credit and non-credit continuing education programs statewide.

For years, FSU has reached far beyond Florida through international programs in Switzerland, France, Panama, Costa Rica, Spain, Russia, Vietnam and the Caribbean. FSU's student centers in Florence, Italy, and London, England, are considered by many to be the nation's best in Europe.

This

Florida State offers 294 graduate and undergraduate degree programs through its nine colleges — Arts and Sciences; Business; Communication; Education; Engineering (operated jointly with Florida A&M University); Human Sciences; Law; Medicine; and Social Sciences (which also incorporates the Reubin O'D Askew School of Public Administration and Policy) — and eight

schools — Criminology and Criminal Justice; Information Studies; Motion Picture, Television and Recording Arts; Music; Nursing; Social Work; Theatre; and Visual Arts and Dance. With 1,897 members, the FSU faculty has included nine National Academy of Sciences elected members, 10 American Academy of Arts and Sciences fellows and five Nobel laureates. It is backed by 3,136 administrative/professional and support staff.

Library holdings at Florida State include 2.3 million book titles and 6.6 million microforms. The main library facility, the Robert M. Strozier Library, is linked by computer to other state university and national research libraries. The Paul A.M. Dirac Science Library is located at the heart of the university's science research complex. FSU also maintains music, library science and law libraries, and the Mildred and Claude Pepper Library.

FSU's 6,367 graduate students pursue advanced degrees in fields as diverse as business administration and theoretical particle physics. A majority of research done at FSU is the direct result of student effort, culminating in numerous books, monographs and journal articles relating to the whole spectrum of intellectual interests and the practical needs of society.

Of FSU's 34,477-student population, 43.8 percent are male; 56.2 percent are female; 22.3 percent are minorities; and 3.7 percent are foreign students.

Mission Statement Florida State Athletics Department

The Mission of the Department of Intercollegiate Athletics at Florida State University shall be to produce National Collegiate Athletics Association (NCAA) Division I programs for men and women equally characterized by excellence. It is the philosophy of the Department of Athletics, first and foremost, that our staff and program develop and hold the concept of the student-athlete at the highest level of importance. This important principle will never be compromised. In fact, it must be encouraged and supported. Our student-athletes will be at the core of departmental priorities and decisions. Our student-athletes will be viewed as individuals first, students second, and only then as athletes. The department will focus on producing graduates who are successful, well rounded people ready to make a positive contribution to society.

The Department shall strive at the same time to be a leader in areas of ethics, non-discrimination, diversity and unquestioned fiscal integrity throughout the campus, the state and the country. A consistent priority is the fulfillment of the student-athletes undergraduate degree. At the same time, student-athletes must be given the best opportunity possible to strive for the highest athletic standards through the best preparation, motivation and support.

Excellence in intercollegiate athletics programs is determined by academic achievement in the classroom, as well as the development of character, maturity and a sense of fair play in athletic competition. Such excellence engenders support for the University among its constituent groups including students, faculty, alumni, and friends at all levels of interest. The Department shall subscribe fully to the philosophy and regulations set forth by the National Collegiate Athletic Association and operate within the fiscal regulations and non-discriminatory procedures established by the Florida Board of Regents and the Florida legislature.
