WELCOIVE TO FLORIDA STATE

THE 21st CENTURY'S GOALPOST: FLORIDA STATE

Florida State's position on the 30-yard-line of the 21st Century, in terms of academic research and instruction, places the University within field-goal distance of international distinction in 1970.

Already nationally recognized as a center of excellence in vital areas of scientific and technological progress, Florida State enters the decade of the 1970's with a momentum gained in more than a century of service to the state and nation. Founded in 1857 as the Seminary West of the Suwannee, and elevated to coeducational university status in 1947, the University has a current enrollment approaching 18,000 students in its 10 schools and colleges.

Its \$100 million physical plant creates a skyline of research towers on the western quadrangle of the campus —visible from the west stands of Campbell Stadium —and reaches eastward to a stone's-throw of the State Supreme Court, where the new College of Law Building is under construction. Now graduating some 5,000 students each year, Florida State is one of only two dozen universities in the country annually producing more than 100 doctorates.

The University's role as a senior leader among the State's nine-institution University System is one in which it takes great pride. More than 100 specialized fields of study are represented in the University's schools and colleges of arts and sciences, business, education, engineering science, home economics, law, library science, music, nursing and social welfare.

A SALUTE TO THE FRIENDS OF THE SEMINOLES

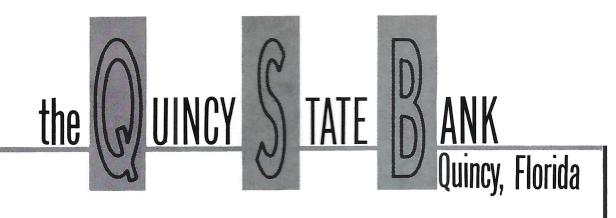

There are many reasons for the outstanding record of growth and achievement of the Florida State University in intercollegiate athletics during the past 23 years. Paramont among these are the loyal Seminole fans who fill the stands of Campbell Stadium for our home football games. The University is deeply grateful for the strong support our athletic programs have enjoyed through the years.

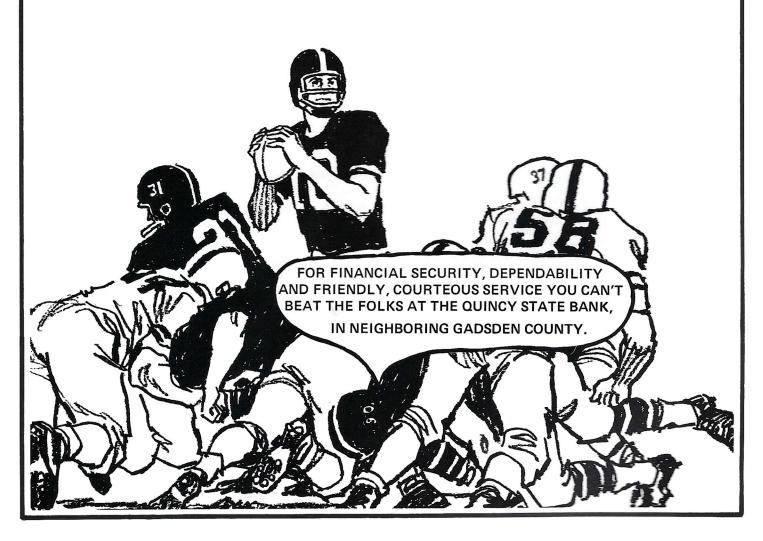

Seminole fans have responded magnificently to the University's need for additional financial support during this period of increased athletic costs. On behalf of the football team and our outstanding coaching staff—indeed of the entire University—I thank all of those in Campbell Stadium today. In particular, the contributors to the Athletic Scholarship Fund who are seated between the 40-yard lines in the west stand are deserving of special recognition; in addition, I want to recognize the many faculty and staff who have purchased season tickets and the uncounted number of students, alumni, and Seminole Boosters whose steadfast support means so much to the football team and the coaches.

This evidence of continued support of an athletic program geared to match dynamic programs in the academic areas is what keeps Florida State in the winners' circle on both counts. Such success comes only with teamwork; and it is this teamwork, on and off the playing field, that assures Florida State's continuing excellence.

—Stanley Marshall President Florida State University

EXCITING, INSTRUCTIVE BASEBALL AND BASKETBALL FILMS

AVAILABLE FREE See famous professional athletes show you how they do it.

Each film is in color, 16 mm. and runs about 28 minutes. A terrific program for your youth group, civic club or phys ed class. With each film you get valuable instruction booklets, 36 pages of inside information and expert advice on how to stay in peak physical shape.

It's part of Prudential's contribution to the President's Council on Physical Fitness.

For information about a free loan of the films, contact your local Prudential office. Or write Public Relations Dept., The Prudential Insurance Company of America, P. O. Box 4579, Jacksonville, Fla. 32201.

TODAY'S GAME

By Lonnie Burt

Sports Information Director

It's THE GAME in Florida! When you get Florida and Florida State together on the gridron, expect the unexpected.

Florida comes into this contest with a 3-1 record following its 14-6 victory over North Carolina State last Saturday, while the Seminoles were taking the day off.

The Gators registered triumphs over Duke and Mississippi State before bowing the Alabama two Saturdays ago. To its credit, Florida State has defeated Louisville and Wake Forest. The Seminoles dropped a regionally televised game to Georgia Tech three weeks ago.

In quarterback John Reaves, Florida has one of the nation's best passers. As a sophomore last season, he teamed with All-America receiver Carlos Alvarez for a 21-6 decision over the Seminoles at Florida Field. In that one, Reaves had touchdown passes of 10 and 30 yards to the Cuban Comet.

This season, sophomore Willie Jackson has added still another receiving threat to the Gator offense. And with junior Andy Cheney healthy, Florida has even more pass catching ability.

Tommy Durrance and Mike Rich return from a 1969 Florida rushing game which out-gained the Seminoles 153 yards to minus 18.

Against N.C. State last week, Florida showed it can play pass defense and turned in seven interceptions.

Florida State has had two weeks to try and get its offensive ducks in order. Junior quarterback Frank Whigham, who took over for senior Tommy Warren in the second quarter of the Tech loss, has been working on his timing and hopefully this additional work will sharpen an aerial game which hasn't been as potent as in the past.

This will be the 13th meeting between Florida and Florida State but only the fourth played in Campbell Stadium. The Gators own a 9-2-1 edge with the Seminoles' lone victories coming in 1964 and '67.

Educating Students---

"IN THE SPIRIT OF THE TIMES"

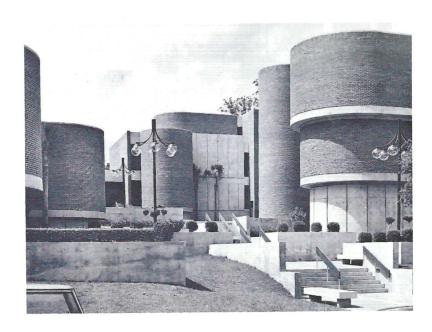

AT FLORIDA

STATE

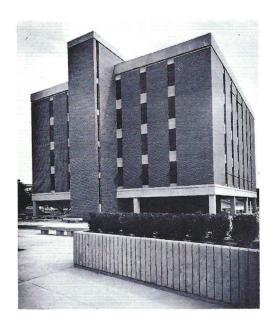

THE COLLEGE OF ARTS AND SCIENCES IS the largest of 10 colleges and schools at Florida State University, whose combined programs of study

lead to 58 doctoral degrees, 87 different types of master's degrees and 96 kinds of bachelor's degrees. In this College alone, more than 25 departments - ranging from aerospace studies, anthropology and art to oceanography, theatre, urban and regional planning - are educating some 5,000 undergraduate students and nearly 2,000 graduate students for 21st Century professions. Recognition of social, economic and environmental problems, and reseach toward their solutions, is moving a number of departments in new directions. The Institute of Social Research, for example, has regrouped social scientists and government analysts for specializations in the study of mental health, education, policy analysis, survey data, urban research, and minority affairs. Coming next year is a biomedical sciences program designed to increase the state's number of physicians by letting future M.D.'s begin their medical education at Florida State. The cooperative program involves Florida A & M and the University of Florida's College of Medicine. A new overseas study center will open next year in London, patterned after the successful Florence program in Italy, and confirming the University's interest in trans-continental, rather than provincial, educational interests.

THE SCHOOL OF HOME ECONOMICS bears no resemblance to the stereotyped "cooking and sewing" image of old. Implications of the population explosion on members of the family and society at large are very much in the forefront of this school's educational programs — nutrition and health, food consumption and preservation practices, inflationary economics, and the problems of housing and clothing the world.

THE SCHOOL OF ENGINEERING SCIENCE represents still another departure from traditional engineering educational concepts in its efforts to train students for the nation's continuing ventures into new technology. Hence, its graduates are given backgrounds flexible enough to transcend any obsolescence in astronautics, electronics, materials science and systems science.

THE SCHOOL OF BUSINESS, which now offers graduate programs for administrator scientists at Cape Kennedy, is as concerned with training hotel and restaurant managers for Florida's tourist industries as it is with giving its students a multinational perspective of business operations. The world of computers is no mystery to this school's future specialists in accounting, marketing, management, insurance, advertising, finance, business law and education.

THE SCHOOL OF LIBARY SCIENCE takes the nation's knowedge revolution seriously, training its graduates to cope with concepts of computerized libraries and information retrieval systems in an age when facts and discoveries are multiplying more quickly than they can be stored, filed and used as reference and research resources.

THE COLLEGE OF EDUCATION produces some 1,000 teachers per year whose specializations range from pre-school education to the complex problems of administration in universities. Concepts and methodology for education in the year 2,000 are subjects of the College's several-million-dollar research programs in curriculum development, human development and computer-assisted instruction.

listen to the sounds of an out dated Tallahassee business.

Sound familiar? In today's fast-paced world, a busy line could signal a loss of business. When a modern system from Southeastern Telephone could automatically transfer incoming calls to other lines, should the main line be in use.

Installation is really a simple procedure, and a new system costs just pennies a day. Far less than lost business or an irate customer. Call us, and keep your lines busy. As well as your help.

southeastern telephone company

A Tradition of Sound Service

College of Law

Florida State's College of Law, which came of age with full accreditation this year, seeks to prepare its graduates for the changing nature of legalities in the complex social and economic affairs of business, government and society in the 1970's Completion of the college's new quarters, a stone's throw from the State Supreme Court, will soon be another milestone in its four-year history.

School of Music

From the modern notes of a "moog synthesizer" to the use of music as therapy for the mentally ill, this School keeps abreast with the currents of the times and the classics of the past. As one of the half-dozen major schools of its kind in the country, Florida State's School of Music enriches the nation's supply of professional performers, teachers and scholars.

School of Nursing

Best news of the year for the School of Nursing is the planned renovation next Spring of DeGraff Hall, which will be the long-awaited new home-of-its-own for this 20-year old program, which has sharpened its training techniques to televised perfection for use in other schools and colleges.

School of Social Welfare

Criminology and social work have their vital roles cut out for them by the very nature of the country's increasing concerns with the social welfare and safety of its citizens. The School of Social Welfare is the home of a regional research center in criminology, and a major contributor to the supply of trained personnel needed to make the nation's law enforcement systems, health and poverty programs effective.

DAY AT HALFT

The School of Music — Dean Wiley L. Housewright — presents . . .

THE MARCHING CHIEFS

MEET THE COACHES

BOB HARBISON

BILL CRUTCHFIELD

BILL CRUTCHFIELD Administrative Assistant

This is Crutchfield's second tour of duty at Florida State. He served as an offensive assistant for the Seminoles from 1964-66.

The Orangeburg, S. C., native is a North Carolina graduate, having also gained a Masters at his Alma Mater in 1949.

"Crutch" served under Coach Peterson at Mansfield, Ohio, High School. He has been head coach at Atlantic Christian and Presbyterian Colleges and been assistant at Furman, Wake Forest, Miami and Georgia Tech, plus being on the Atlanta Falcons' staff for one season.

He returns to Florida State after two years at Tech.

Crutchfield and wife Rachel have four children.

BOB HARBISON Defensive Chief

This is the former University of Indiana guard's 22nd year as an assistant on the Florida State staff. He has worked under four Seminole head coaches — Don Veller, Tom Nugent, Perry Moss and Bill Peterson.

Although he now heads up the Tribe's defense, "Harby" has also coached offense at Florida State.

A native of Evansville, Ind., Harbison has been an outstanding recruiter. He's also considered one of the staff's better scouts although he spends less time scouting now than in former years.

Harbison played his college ball under the late Bob McMillin and following his senior season he performed in the Blue-Gray All-Star Game in Montgomery, Ala.

He and wife Jayne have four children.

THINK

Think

Very simple advice—yet incredibly important.

Because those who do, make it.

Those who don't, don't.

Think about it.

Bill Owens

SEMINOLE **FOOTBALL** NETWORK

Florida State's football games, whether played at home or away, will be heard throughout "Seminole Territory" on the Seminole Football Network.

With Tallahassee's WTNT acting as the originating station, 30 stations will carry every play to Seminole fans in Florida, South Georgia and South Alabama. In addition, several Florida State games will be heard from time to time as "Pick of Dixie" games.

Heading up the Seminole Network broadcast team once again will be Bo Mitchell. A veteran of more than 20 years broadcasting, Mitchell will be in his eighth season as the Seminoles play-by-play man. In addition to Seminole games Mitchell has also done play-by-play for the AFL All Star game, Senior Bowl and Tangerine Bowl games.

Joining the former Florida Sportscaster of the Year and station manager of WKIS in Orlando will be Bill Owens of Tallahassee. A Florida State graduate, Owens has handled the play-by-play for the Seminole basketball and baseball broadcasts the last two years, but this is his first season at the football mike.

FOOTBALL'S AMAZING MAJORS FAMILY

by TOM SILER, Sports Editor, Knoxville News-Sentinel

The Majors football story began 30 years ago. It still goes on and on, chapter after chapter, sequel added to sequel.

Father Shirley Majors started it all in 1941. And he still coaches, turning out distinguished teams at the University of the South (Sewanee).

John, eldest of five sons and now head coach at Iowa State, was a great All-America runner at Tennessee in 1956. Bobby, the youngest son, now a junior at Tennessee, also is a dazzling runner, safetyman and punter.

It all began because the father, Shirley, married to the former Elizabeth Bobo, detested farming.

He had a "piece of ground," as he puts it, in Middle Tennessee, not far from Nashville, but he hated to farm. He loved football. Shirley, a taciturn fellow who likes to hunt quail and rabbits and chew tobacco, didn't even have a college degree, but he got a chance to coach in 1941. He grabbed it.

Just One Loss

He coached at Franklin County High and at Lynchburg. Huntland (population 258) lured him away in 1949, by which time Johnny was ready to ramble with a football. Johnny scored an incredible 564 points while he played for his father, going on to the University of Tennessee in 1953. Huntland went on winning, losing one game in six years.

There was always a Majors in the lineup. Joe played next for his father, then Bill. Just to break the "monotony" there was a daughter, too — pretty Shirley Ann, and, as you might guess, she was a cheer leader and later married a football player. Larry starred for his father, too, but Bobby, the one now at Ten-

nessee, did not. He came along too late.

In 1957, Sewanee hired Shirley Majors. Sewanee gives no athletic aid, has lofty academic levels, and stresses classical studies as a sort of prep for the Episcopalian ministry. But Shirley cracked the whip and won with the players available. He had an undefeated team his second year there, now has a 13-year record of 66-34-5.

John led Tennessee to an undefeated season in 1956 and the No. 2 ranking in the nation. He finished second in the Heisman Trophy voting and ranks as one of the brilliant single wing tailbacks of all time.

Brother Joe shunned Tennessee, figuring he was too slow for the single wing. He tried Alabama, then transferred to Florida State. His greatest thrill there was in quarter-backing his team to a 10-0 victory over Tennessee in 1958. He's now a lawyer in Tullahoma, Tenn.

Bill Vs. Joe

Bill enrolled at Tennessee in 1957, playing against Brother Joe in that big upset a year later. Bill was a great defensive player and singlewing tailback, finishing in 1960. UT hired him as a coach. He lost his life along with two other coaches in 1965 when their car was hit by a train at a grade crossing in suburban Knoxville.

Larry, considerably smaller than John, Joe or Bill, played for his father at Sewanee, helping to defeat Washington and Lee, Hampden-Sydney, Millsaps and such. He went into coaching, too, and has produced fine teams for high schools in East Tennessee.

Bobby, the baby of the family and the largest as a college player, rolled up fantastic feats in high school in football, basketball, baseball and

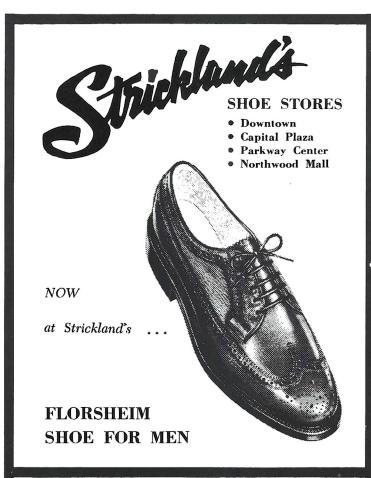

SHIRLEY MAJORS

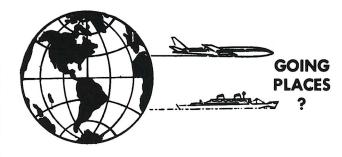

golf. He finished up at Castle Heights Military Academy in 1967, and followed John and Bill to Tennessee the next fall.

As a 195-pound sophomore, Bobby was used as a flanker back and punt returner. He is not particularly fast but he has a deceptive gait that leaves tacklers reaching. This fall he'll return punts again, do the punting and play the all-important safety position on defense.

Saturday is always an exciting day to the Majors family. No one can rest until he gets the news on Shirley's Sewanee team, on how Bobby and the Tennessee Vols did and how Johnny's Iowa State team came out.

The Majors thrill to every victory and suffer in every defeat, and it'll be that way until their unique story ends—which is likely to be a long way off.

The University of Florida is one of the largest land-grant institutions in the South with nearly 1,500 faculty members and a student body of more than 19,500. Extensive building and modernization in the last 15 years has resulted in a physical plant valued at approximately \$140 million.

In addition to numerous special research projects in the various colleges, schools and divisions, the University has established a number of independent laboratories. These agencies carry on continuous basic research in the fields of engineering, science, agriculture, forestry, business, economics, public administration, communications and statistics, making significant contributions to private industry and government

A broad program in medical education, research, and patient care is being carried out in the University's J. Hillis Miller Health Center. Encompassing the Colleges of Dentistry, Health Related Professions, Medicine, Nursing and Pharmacy, the Health Center is housed in a \$26 million facility.

"YOU CAN'T RUN IN PRO FOOTBALL"

Thats what "the experts" were saying a decade ago, but then came a quy named Lombardi with a team called the Packers and laid to rest a myth. But what about some of that "expert analysis"? How does it stand up to "the facts"?

by Beano Cook

(Editor's Note: Beano Cook is the American Broadcasting Company's head of press information for the NCAA College Football broadcasts. His myrid duties have brought him to discover some interesting statistical comparisons, which he reports here.)

Spiro Agnew, the household name who became Vice President, caused more than a few Americans to wonder if everything they read in the paper or see and hear on television and radio is true.

Well, if we've been slow to question the words of editorial writers and news commentators, we've been downright immobile when it comes to sports writers and broadcasters. These "experts," plus a few hidden persuaders, have convinced many people that profootball is superior to anything — except sex and peanut butter.

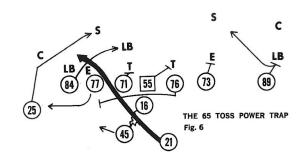

How much do sports writers know?

About ten years ago they told us that it was impossible to run in pro football. Vince Lombardi and a bunch of guys called the Packers laid that myth to rest.

Another great line is: Scrambling quarterbacks can't win in pro football. Len Dawson of Kansas City and Joe Kapp of Minnesota opposed each other in the 1970 Super Bowl and anybody who dares call them classic, drop-back quarterbacks better turn in his pass to the press lounge.

The media, especially in the East, favors pro football over the collegiate brand and delights in pointing out the All-America players who are out by the pros. "Joe Blotz, everybody's All-America and the Heisman Trophy winner, was released by . . ." they report with glee. Two questions, please. Who picks the All-America teams? Who picks the Heisman Trophy winner?

Maybe you like pre-game forecast stories better. On the college side, Team A kills Team B which in turn murders Team C; then Team A should

have no trouble with Team C. At least that's the way the writers tell it, even though the two teams in question are meeting for the one and only time of the season.

The pro stories are a little different. Last year the Minnesota Vikings ripped the Cleveland Browns, 51-3, in a regular season game. The week before the NFL championship, however, we were all being told what a great game we were going to see between Minnesota and Cleveland. Final score: Minnesota 27, Cleveland 7.

The media would also like us to believe that a man has to be a great tactician, organizer, and leader of men to coach in the pros. Sure, the pros have had Lombardi, Paul Brown, Hank Stram and a few others. But if you had the money to buy a pro franchise, how many pro coaches would you prefer over Bear Bryant of Alabama, Frank Broyles of Arkansas, Woody Hayes of Ohio State, Joe Paterno of Penn State, Darrell Royal of Texas, Tommy Prothro of UCLA, or John McKay of Southern California? Just asking.

No story about football would be complete without a few statistics. Every sports writer and broadcaster — especially broadcasters! — loves statistics. Close your eyes and recall the announcer saying, "The pros sure get off a lot of plays in these last two minutes." Or, "The pros don't make many mistakes."

Well, we heard so many announcers say these things for so long that we believed them until we did some research.

In the seven major bowl games last year there were an average of 149.8 plays per game and 37.9 points per game. There were 25 fumbles and 24 interceptions. In the seven pro playoff games — including the Super Bowl — there were an average of 123

plays per game and 37.9 points per game. There were 25 fumbles and 24 interceptions!

"A fluke," the pro booster cries. Maybe. Let's try out a few more "stats" comparing the pro and college games.

During the 1969 season, Ohio State ran an average of 92.1 plays per game. The highest average for any pro team was 68.9 by the Houston Oilers. Ranking below the Buckeyes but well ahead of the Oilers were Louisiana State, Missouri, Arkansas, Michigan, Texas, USC and Penn State. The "offense-minded" Los Angles Rams ran a paltry 58.2 plays per game.

Let's take a look at fumbles. In 1969 Ohio State fumbled just once in every 35 rushing plays. Then came Arkansas, Minnesota (Vikings), Michigan and Penn State. Kansas City, champions of the pro world, finished 16th (last) in our study with a fumble rate of one for every 16 running plays.

A dishonest reporter might leave out the figures on interceptions, but we're for truth, justice and the American way, so here they are.

In 1969 the LA Rams had only one pass intercepted in every 59 attempts, that's far and away the best record of the teams we studied. Guess who was second. Arkansas. Third place went to Michigan and fourth to LSU. The team with the worst record in this department was Texas which had a pass picked off one out of every 11 times. How's that for honesty, sports fans?

Don't get us wrong. We love pro football (beats raking leaves on Sunday), and sports writers (history's most successful freeloaders), and a lot of other people in this country. Just watch out for the myth-makers and remember the words of Casey Stengel: "You could look it up."

Best Wishes for a successful season, and we are proud to have had a part in furnishing the football equipment for the Seminoles

YESTERDAY

TAKE TEN TO WIN

Back in 1958 as the football season grew near, Florida State Head Coach Tom Nugent summized, "We've been seeking a big time schedule since football began here and certainly we have it now."

Most fans were quick to agree with the "experts" that the aggressive Seminoles had overstepped their bounds somewhat and in 1958, at least, were "outclassed by the likes of Tennessee, Georgia Tech, Miami, Georgia and Florida.

Although the Seminoles lost the first two "biggies" (Georgia Tech and Georgia), they carried a 4-2 record into the third "big one" against Tennessee in Knoxville.

The Vols, champions of the Gator Bowl the year before, were 2-2, but were favored. The Big Orange was led by Bill Majors who directed Tennessee's famed single wing offense.

The Seminoles, with Bill's younger brother Joe at quarterback, were a natural for pregame publicity about a battle within one of football's most famous families. The game was the Tribe's tenth against an SEC team and Florida State was still looking for its first win.

The Vols drove inside the Seminole 30 twice in the first period, but each time the Florida State defense rose to the occassion. Field position switched in the second quarter as Bobby Renn's punts kept Tennessee backed up against its goal line.

The third period was all Florida State. The Seminoles took the second half kickoff and drove to a score. Fred Pickard, who totaled 133-yards for the afternoon, picked up 51 to the Vol's 30. Renn and Pickard then moved the ball to the Tennessee nine in four plays and John Sheppard booted a 26-yard field goal for a 3-0 lead.

Three plays after the kickoff the Seminoles were threatening again. Al Ulmer picked off a Bill Majors pass. Vic Prinzi passed 27-yards to Tony Romeo for a firstdown on the one. Renn bucked in for the touchdown and it was 10-0 Florida State.

Then the Seminole defense took over. Tennessee punted on third down following the kickoff, but a Joe Major's pass was intercepted at the UT six. This time the Vols quick kicked on first down. After the Seminoles punted back, Tennessee ran on play, their sixth of the quarter and kicked. Florida State controled the ball to the end of the period.

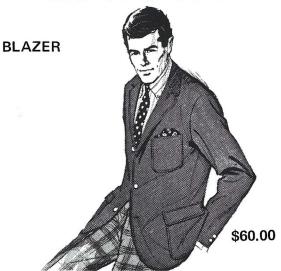

The Vols made one last ditch drive, moving from their own 24 to the Seminoles 15 with time running out. But Prinzi intercepted a pass at the two and four plays later the gun sounded.

Tennessee's proud offense was stunned. UT gained only 29-yards rushing and just 82 passing, winding up 21 short of Pickard's individual total. The Seminoles meanwhile had a total net gain of 309 yards.

Back in Tallahassee, Seminole fans swarmed to the airport where a huge throng awaited their arrival. As the charter plane taxied up to the terminal one fan very innocently summed up the big day when he said, "The Seminoles have arrived."

Southern is scoring in the big-time now!

Just two, short years ago, Southern played in the confines of its own backyard . . . an eight-state region in the mid-South. But that's all changed now. Today, Southern is showing its winning ways in New York, Newark, Washington, St. Louis, Miami, Orlando, Tallahassee and Chicago.

Next trip, check Southern's fly pattern to any of the 66 cities it serves. See if Southern's own brand of service doesn't score points with you, too.

SPOTLIGHT

- TRACK -

For the last 16 seasons, Florida State's Mike Long has built one of the finest track and field programs in the South. The Seminoles' track record under his guidance is one of the best in the nation.

Overall Mike Long coached Seminole teams have won 62 of 76 meets. In 12 of his 16 seasons, the Seminoles have lost no more than one meet and six times they have been undefeated in dual competition. In 1964 and '65, the Seminoles went through a total of 10 dual meets without a loss.

Coach Long is considered one of the nation's finest "on the field" coaches in the country by his contemporaries. He has a knack that brings out the very best that a young prospect has to offer. Also, he has been able to develop a spirit of camaraderie that makes the Seminoles an even stronger dual meet team.

Long came to Florida State in 1953 as an assistant coach in track, football and basketball. He brought with him 16 years coaching experience, 10 in Florida and 6 in Minnesota high schools. After one year here he assumed full responsibility of the Seminole Track program.

The personable, well liked track mentor was given a special honor in 1968 when the former members of his track teams contributed to a fund to provide Mike and his wife an all expense paid trip to the Olympic Games in Mexico City.

BASKETBALL AT ITS BEST

FLORIDA STATE UNIVERSITY BASKETBALL AT ITS BEST

EXCITING is the description for Florida State's Basketball team. High-scoring, run-and-shoot, offense; tenacious, pressing defense is the Seminole brand of basketball. Last year the Seminoles streaked to a 23-3 record with one of the nation's finest offensive teams. This year, despite the loss of big Dave Cowens and several other outstanding seniors, Coach Hugh Durham expects to have another high-scoring, banner year. Skip Young will be back to lead the attack along with Vernell Ellzy, Rowland Garrett and Ron Harris. Also the Seminoles will have the graduates of perhaps their finest freshman team ever. Sensational Ron King, Reggie Royals, Larry Gay and little Otto Petty, the 5-8 guard, who plays like he is a foot taller, will join the varsity. The schedule includes the likes of Texas, Miami of Ohio, Southern California, Miami (Fla.), Jacksonville, Georgia Tech and North Carolina. To order your season tickets stop by the Athletic Ticket Office in Tully Gym or mail the coupon.

ORDER SEASON TICKETS NOW!

REST ROOMS are located on concourse and ground levels of both the east and west stands.

FIRST AID station is located at the southwest corner of the stadium opposite gate five. A registered nurse is on duty at all times. Ambulance Service courtesy of Bevis Funeral Homes.

PUBLIC TELEPHONES are located on the ground levels of the east and west stands.

PUBLIC ADDRESS will make special announcements in cases of emergency only.

DOCTORS receiving calls will be paged by number.

LOST AND FOUND items may be turned in and claimed at the ticketbooth at gate three under the west stands by the press box elevator

ALCOHOLIC BEVERAGES are prohibited by state law. Your cooperation in enforcing this law is appreciated.

FIELD REGULATIONS prohibit unauthorized persons on the field during or after the game. Please leave the Stadium by the ramp and section exits.

STUDENTS, SPECTATORS!

Make **Sportsmanship** a Part of Your Game Equipment

NOISE is a serious problem at many intercollegiate football games, and on some occasions in the past has prevented the Quarterback's signals from being heard. Such a situation may be interpreted as "interference" with the conduct of the game, and penalized. We seek your assistance in preventing excessive noise, which could cause a penalty against your team. Should unusual noise develop, the referee will call "Time-Out" and instruct the Defensive Captain to request QUIET, which he will do by moving toward the noise area with both arms and hands raised. If necessary, the Offensive Captain will make the same request on the opposite side of the field. We shall appreciate your respect for Sportsmanship in remaining quiet at this time.

In all games the Referee is authorized to inflict a penalty based on noise developments. Please cooperate. Don't help to draw a penalty against your team.

CHEER TO HELP. NOT TO HURT

REFRESHMENTS are available in the stands and at locations on the concourse and ground levels of the east and west stands.
