Seated around the silver cup are, (first row) Weldon Mullen, C.W. Peters, Dan Williams, F.W. Bucholz, J.K. Johnston, (second row) Ed Watson, David Cook, Fred McMullen, Moses Liddell, Vincent Green, (third row standing) Frank Gammon, Manager, Charles Puleston, Church Whitner, Guyte McCord, and H.H. Wells

# "...the finest article of football ever seen on the local gridiron."

That's what the Lake City Florida Index newspaper had to say about the 1904 State Intercollegiate Champions, Florida State College. FSC won all four of their games to sweep the competition.

The Index writes, during the game between the University of Florida and Florida State College on October 28, 1904:

"On the part of the State College team, we can say, aside from fumbling, which they did on many occasions, and their off-side plays, they put up the finest article of football ever seen on the local gridiron."

The final score was FSC 23, UF 0, in an uncompleted game. "Owing to darkness, the game was called with the ball in Florida's possession on her own 26 yard line," added the Index. In 1905, FSC became Florida State College for Women, thus terminating college football in Tallahassee, until 1947, when Florida State University fielded its first football team. In 1904, the Lewis State Bank was forty-eight years old, and had been offering professional financial guidance to friends in Tallahassee that long. The Lewis State Bank is your family bank. Use it. People have for over a century.

#### The Lewis State Bank

When you've been in the banking business for over a century, you learn a lot.

215 South Monroe Street

The Library And The Labs Are Busy Night And Day . . .

Florida State's vast complex of science and research buildings is quite a contrast to the scientific facilities used on the campus back in the 1850s. Back then, they boasted of a microscope that could magnify a drop of vinegar "to 20 feet in diameter."

The University's student enrollment has had an equally phenomenal growth since its early (1857) Seminary days of 130 pupils. Today, its 10 schools and colleges are filled with more than 17,000 students who live, study and learn in classrooms, laboratories, dormitories and campus facilities valued at \$100 million. Students may pursue careers ranging from drama to zoology in colleges of arts and sciences, law and education, as well as the schools of nursing, social welfare, business, engineering science, home economics, music and library science.

I am gratified that so many of Florida State's loyal supporters in athletics are with us in Campbell Stadium for this exciting Seminole football season. Speaking for the entire University, I extend a warm welcome to all of our fans in the stands today. We hope that your stay on our campus will be enjoyable.

We have every reason to be proud of our athletic teams which, year after year, have established outstanding records in intercollegiate athletics. Florida State University might be said to have just entered Phase Three of its program of development in intercollegiate athletics. Phase One extended from the University's birth as a full-fledged university in 1947, to about 1960. Those were the years in which the foundation was laid for a sound program of athletics all across the board, as Florida State's name was carried throughout the region as an institution that would make its mark in athletics as it was doing in the academic arena.

Phase Two extended from about 1960 to the present. It was a period when Florida State joined the major competition, the time when we ceased to be "a breather," even for the best, and a time, incidentally, when scheduling the good teams became more difficult.

Phase Three has begun. It began on the first of January, 1971, when Larry Jones accepted our offer to become the University's sixth head coach of football. Another giant step was taken in April when Clay Stapleton agreed to become our Director of Athletics. This is the period when membership in the big leagues will pay off... when our acceptance as a member in full standing with other major universities engaged in athletics will bring the University and the Tallahassee community added recognition and stature and support in countless ways that go beyond the playing field.

Our success in athletics is due as well to the remarkable response of Seminole fans, whose enthusiastic support has never failed to inspire our coaches and players to demonstrate the best in sportsmanship and skill on the playing field.

Let me say a further word about community support. Your presence here today indicates that we have it in significant measure, and for that we are deeply grateful. We shall continue to solicit the support of this community and, indeed, all of Florida and beyond, for it is an essential ingredient in the recruiting of athletes, in scheduling, and in the all-important area of financial support. You may be certain that those of us at the University will do everything we can to merit the continued support and loyalty of all.

# Southern's sporting proposition will save you money!

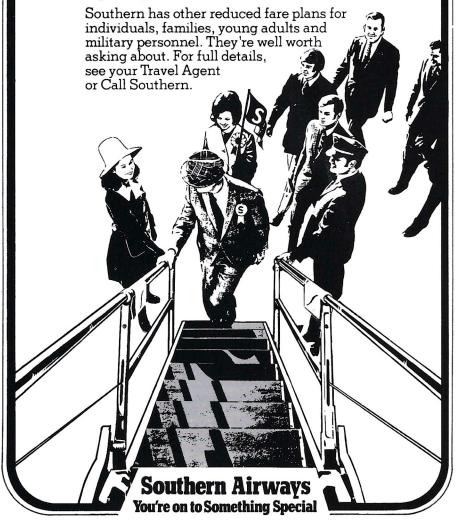

Southern has two special fare deals that are ideal for you avid sports fans. Either one lets you fly in style to those important "away" games anywhere on Southern's system and save 2/3 of your return air fare.

#### LONG WEEKEND FARE

If you can leave on Saturday and return on Monday, you'll save 2/3 on the return air fare. (This same savings is offered if you leave on Monday and return on Saturday.)

#### **GROUP 10 FARE**

Great for parties of ten or more people. Everyone saves 2/3 of their return air fare providing they all depart on the same flight. Coming back though, each member of your group may return separately. Group 10 Fares are good anytime.

#### **SPORTSMANSHIP**

STUDENTS, SPECTATORS!

Make **Sportsmanship** a Part of Your Game Equipment

**NOISE** is a serious problem at many intercollegiate football games, and on some occasions in the past has prevented the Quarterback's signals from being heard. Such a situation may be interpreted as "interference" with the conduct of the game, and penalized. We seek your assistance in preventing excessive noise, which could cause a penalty against your team. Should unusual noise develop, the referee will call "Time-Out" and instruct the Defensive Captain to request QUIET, which he will do by moving toward the noise area with both arms and hands raised. If necessary, the Offensive Captain will make the same request on the opposite side of the field. We shall appreciate your respect for Sportsmanship in remaining quiet at this time.

In all games the Referee is authorized to inflict a penalty based on noise developments. Please cooperate. Don't help to draw a penalty against your team.

CHEER TO HELP. NOT TO HURT

# TELEVISION'S Instant Replay

The most delightful innovation of televised sports is, without question, "instant replay"—that right now second look at what just happened.

From fall's first kickoff to the final gun at the Super Bowl, "instant replay" is again increasing the viewing enjoyment of the nation's armchair quarterbacks. It provides television fans with a bonus not even available to holders of 50-yard line tickets—an immediate closeup of significant action, in color and often in slow and stop motion.

Now entering its fifth football season, "instant replay" is probably the most appreciated and least understood feature of televised sports coverage.

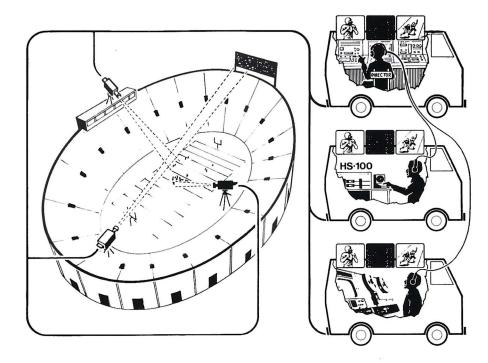

#### Developed in 1967

Special "instant replay" recorders were developed by Ampex Corporation in 1967 for immediate playback of sports action—in color and in slow motion, fast motion or reverse motion. These recorders use highly polished disks for recording surfaces instead of reels of tape used on conventional videotape recorders. The disks permit variable speed playback, plus stop motion, not easily possible with tape recorders. And access to recorded pictures can be accomplished much more quickly and accurately, as there is no rewind process as with tape.

Here is a brief description of the effort and equipment that go into bringing "instant replay" to the home screen.

In an important game, two or three cameras are assigned to feed action pictures to "instant replay" machines. The "iso" camera, located in the end zone, generally focuses on the wide receiver or split-end and follows his maneuvering against the defensive back. This often provides the most exciting "instant replay" action as the wide receiver is a frequent target for the quarterback's passes.

A second camera assigned to the offensive team, and a third to the defensive team, are also favorites for "instant replay" recording. In this way, fans are treated to a slow motion replay of key blocks by the interior linemen to spring a running back, or they watch again as the linebacker pours

At least three television cameras and several mobile television vans are used to provide television coverage of a football game. All decisions about what is to be aired are made by the director (top truck). He may route the pictures from one or several of the cameras to Ampex HS-100 recorders (center truck) for "instant replay" showing to TV fans. Game action complete with "instant replays" can be directly transmitted over the air, recorded for later broadcast (bottom truck), or both

#### through to sack the quarterback.

In addition to these cameras, as many as five other cameras are beaming live pictures into a bank of small television monitors in one of the television vans located outside the stadium. Recorders, transmission equipment and key television people are located in the vans. All decisions as to what is broadcast are made in the vans by people who never see a live play during the game.

From this wealth of material, the director of the telecast determines what goes on the air. He is able to communicate by intercom with all of the cameramen, the operators of the "instant replay" recorders, and the technical director manning the control board who presses the buttons that select the camera output to be shown on the air . . . and also what camera feeds "iso" recorders.

A special bank of television sets shows the director what is available for "instant replay." He may select the "iso" camera to repeat a sideline pattern by the flanker that resulted in a long gain. Or he may wish to show the tremendous pressure being put on the quarterback by the defensive line.

#### Replayed on the Air

A word to the "instant replay" operator and the technical director and the action is placed on the air—in slow motion if requested.

In addition to the "instant replay" recorders, a conventional videotape recorder may be used to record every

play of the game as it is broadcast. Routine plays are erased immediately, and the most exciting plays are retained for a "highlights" tape.

Even with all these camera choices and the seasoned guesswork of the director and his crew, occasionally a key play or a favorable angle is missed. The game continues to have its surprises. Because of this announcers are cautioned not to tell the audience that an "instant replay" will be forthcoming until they are certain that the play has been recorded.

"Instant replay" began as a keep-your-fingers crossed gimmick in the early 1960s using conventional video-tape recorders. Today it is a precise, easily controlled electronic recording function using Ampex magnetic disk recorders specifically designed for this purpose. First used by ABC Sports during the U. S. Skiing championship in March 1967, the "instant replay" machine is widely used today on most major network sportscasts, including such top features as the World Series, college and professional football and the Olympic Games.

For the more technically inclined, the HS-100 records up to 30 seconds of action on highly polished and plated metal disks. The operator can cue up any portion of the 30 second recording in just four seconds for immediate playback on the air. The recorded action can be played as many times as necessary, and can be played in variable slow motion down to stop action in both forward and reverse.

#### HEAD COACH LARRY JONES

Larry Jones is the sixth man to lead Florida State's modern football fortunes and has already shown himself to be the most energetic of all Tribe coaches.

The youthful Jones had no sooner accepted his appointment from President Stanley Marshall, than he was out firming up his first two signees. He has been on the go ever since.

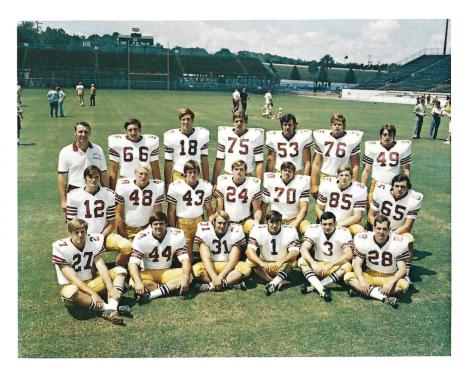

The first task was to set up a coaching staff and Coach Jones accomplished that with outstanding success. He has brought to Florida State some of the most talented young coaches in the country.

A native of Arkansas, Jones played his college ball at LSU. He joined Coach Paul Dietzel's coaching staff the day he graduated and went with him to Army and South Carolina. In 1970 he took a position with Bill Battle at Tennessee and developed the Sugar Bowl Champion's fine defense.

Larry and his wife, Judy, have three children, Bruce 9, Kevin 7, and Laura 5.

#### FLORIDA STATE SENIORS

Third Row: Head Coach Larry Jones, Joe Strickler, Kent Gaydos, Richard Amman, Jay Stokes, Bill Rimby, Guy Glisson. Not pictured: Rhett Dawson.

#### **FLORIDA STATE**

**STEVE SLOAN**First Assistant and Head of Offense

Considered one of the brightest young offensive coaches in the business, Steve came to Florida State after three years under Bear Bryant at his Alma Mater, Alabama. He is Coach Larry Jones, chief assistant and in charge of the offense. On the field, his duties have him working with the quarterbacks and running backs.

An All-America at Alabama, Sloan led the Crimson Tide to bowl games in 1963, '64 and '65. In the latter two seasons, the Tide was National Champion. After two seasons in the National Football

League (Atlanta), he returned to 'Bama to work with Bryant.

A native of Cleveland, Tenn., he is married to the former Brenda Fan, also of Cleveland. They have one son.

BILL CANTY Freshman Coach

Bill comes to the Seminoles after eight years as an assistant at his Alma Mater, Furman. The Pascagoula, Miss., native joined the Paladin staff after graduating in 1962.

At Florida State his primary responsibility will be to head the freshman unit. Unlike recent years, when the freshmen have been used mainly as a "scout squad" for the varsity, the frosh, this season, are on their own. Canty's big chore will be to familiarize the newcomers to the Seminoles' system and develop a winning spirit among them.

Bill is the older brother of Bob Canty, who captained the Seminole baseball team in 1968. Bill is married to the former Ann Lockridge of Delta City, Miss. They have two children.

JOHN DEVLIN
Defensive Ends and Tackles

Seminole fans are well acquainted with John's coaching abilities, even though this will be the Norristown, Pa., native's first season in Tallahassee. He comes to the Tribe from Virginia Tech where he helped mold the Gobbler defenses which caused the Seminoles so much trouble.

John will head up the Seminoles' defensive "front wall." It is actually the second time that the Former West Chester State College standout has worked with Coach Larry Jones. Both

were assistants under Paul Dietzel at the U.S. Military Academy in the mid-Sixties.

A former Army staff sargeant, John married Irma Kleeman of Regensburg, Germany.

They have four children.

BOB HARBISON Interior Offensive Line

Coach Larry Jones calls Harbie "Mr. Florida State." The former Indiana star has spent his entire coaching career at Florida State and that 23-year period includes all but the first season of the Seminoles' modern football history.

This year Bob switches from defense to offense where he will be in charge of the offensive line. But his value does not stop on the playing field. His general knowledge of the game and outstanding recruiting ability have been an invaluable asset to the

five head coaches he has worked under.

Bob and his wife, the former Jane McEntee of Washington, D.C., have four children.

#### **ASSISTANT COACHES**

#### **GENE HENDERSON**

Head of Defense, Defensive Backs

Like Steve Sloan, Gene learned to play football under Bear Bryant. After two seasons of junior college ball, the Sonora, Tex., native transferred to Texas A & M where he was a member of the 1954 squad which survived the infamous early fall workouts at Junction, Texas.

His collegiate coaching experience includes stints at Texas Tech and TCU. He headed the TCU defense last year, before coming to Florida State.

Gene and his wife, the former Sue Wyatt of Sonora, have four children.

#### PAT HODGSON Wide Receivers and Tight Ends

An All-SEC receiver at Georgia, Pat is perhaps best remembered for sparking the Bulldogs to an 18-17 win over defending National Champion Alabama on National TV in 1965. A key figure (he threw the pass) in the memorable "Flea-flicker" play which closed the gap to 17-16, Pat then caught the two-point conversion pass for the win.

After two years in the pros, he returned to Georgia as an assistant coach, heading up the freshman offense last year.

The Columbus,  $\tilde{\text{Ga.}}$ , native was All-SEC in 1964 and '65 and led the conference in receiving in 1963.

Pat is married to the former Nancy Williams of Athens, Ga. They have two children.

#### BILL PARCELLS Linebackers

This is Bill's second season with the Seminoles, as he is one of two holdovers from last year's staff (the other being Bob Harbison).

The Oradell, N.J., native came to the Tribe last year after four years at Army where he developed some of the Cadets' finest linebacking corps. He has also had coaching experience at his Alma Mater, Wichita State and Hastings College.

At Wichita, Bill was twice an All-Missouri Valley Conference selection, playing guard, tackle and linebacker. Following his graduation he was a fourth round pro-draft choice.

Bill is married to the former Judy Goss of Wichita. They have three children.

#### MIKE POPE Director of High School Relations

Mike's duties keep him off the field and "on-the-go," but his task is a crucial one as he heads up the Seminole recruiting operation.

The Monroe, N.C., native stepped into the position this year, after serving a season as a graduate assistant for the Tribe last year. Mike played his college ball at Lenior Rhyne, where he was a quarterback and fullback in the Bear's single wing backfield. He had several highly successful seasons as a high school coach before coming to Florida State in 1970.

Mike is married to the former Lee Lambie of Arlington, Va.

### TONIGHT'S GAME

#### By Lonnie Burt Sports Information Director

Florida State draws a tough assignment for its opening home game tonight when undefeated, unscored on Kansas comes to town.

Opponents haven't crossed the Jayhawks' goal line as they registered a 34-0 victory over Washington State and a 22-0 decision over Baylor.

The Seminoles are also 2-0, downing Southern Mississippi 24-9 and Miami 20-17.

Kansas' defense has been so tough that its two opponents have managed only 165 yards on the ground and 254 yards in the air. Last Saturday, Baylor had a first and goal at the three yard line and couldn't score.

Kansas' surprisingly tough defense is led by defensive tackle Phil Basler, a 6-2, 225-pound senior. This Independence, Mo., native played quarterback as a sophomore and linebacker last season. He was named the Big Eight Conference's Lineman of the Week following his team's victory over Washington State and has made 19 tackles in the first two games.

Defensive end Eddie Sheats, 6-3, 200, is another key defender. Against Baylor he forced one interception and one fumble and had three tackles behind the line of scrimmage. Linebacker Kenny Page has also had two fine games.

Offensively, the Jayhawks are directed by senior quarterback Dan Heck. Kansas has three outstanding running backs in Jerome Nelloms (140 yards), Delvin Williams (117 yards) and Steve Conley (98 yards). Nelloms and Williams alternate at tailback while Conley is a 220-pound fullback.

In Bobby Childs, Kansas has the biggest man on the field. The Atlanta, Ga., native stands 6-4 and weighs 260 pounds.

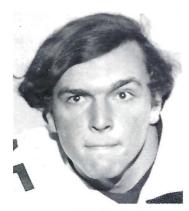

The Florida State University Athletic Department is proud to honor area newspaper carriers as its guests for tonight's game.

Carriers from the Tallahassee Democrat, Valdosta Times, Moultrie Observer and Thomasville Enterprise are seated in a special section and will be acknowledged at halftime.

# AGREAT RUNNER.

You expect a little car to be a good sprinter. Nimble, light on its feet, fine for short runs around town.

Vega is all that.

But what sets Vega apart is that it's one little car that's good on long runs too.

One reason is its relatively large 140cubic-inch overhead cam engine. It can cruise comfortably at turnpike speeds without straining, and with power to spare. Vega is built low to the ground, and wide, so it takes curves without a lot of lean and hangs onto a windy highway like it weighed a whole lot more.

The steering is easy. Yet firm and

reassuring on straight stretches.

What we're saying is, for an economy car, Vega sure feels a lot like a sports car.

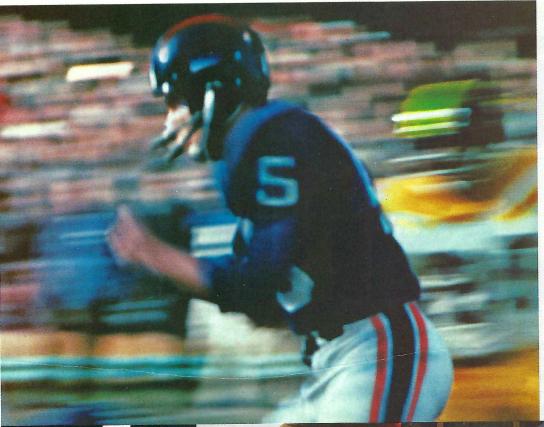

Get into one soon and see. It'll give you a good run for your money.

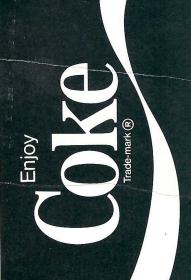

Great runner meets great runner. Former Heisman Trophy winner O.J. Simpson behind the wheel of a Vega Hatchback Coupe.

#### FOOTBALL GLOSSARY

- Audible A vocal signal by the quarterback changing the play called in the huddle. Also called Check Off.
- Blitz Commitment by defensive backs and/or linebackers to rush the passer.
- **Blocking** Legally hindering the progress of an opponent by contacting him with any part of the blocker's body.
- Bomb A long pass attempt for a touchdown.
- Buttonhook A pass pattern in which the receiver goes downfield and U-turns back sharply to receive the ball.
- Clipping Running or diving into the back of an opponent, or throwing the body across the back of the leg or legs of an opponent other than the ball carrier.
- **Dive-Tackle Play** A quick-handoff running play over tackle.
- Draw-Play Quarterback drops back as if to pass but instead hands ball to running back, after quarterback's teammates have assumed pass-blocking positions.
- Fair Catch The opportunity for a player of the receiving team to catch a kicked ball that has crossed the scrimmage line, without being tackled or blocked by an opponent, after signaling his intention by completely extending one arm above his head.
- Kickoff A free kick with which each half is opened, and which is employed also following each try-for-point or Field Goal. A kickoff must be either a Placekick or a Dropkick.
- Lateral Pass A live ball thrown toward or parallel with the passer's own goal line.
- Linebacker A defensive player operating immediately behind his line where he can either aid linemen in stopping a running play or cover an opponent's receiver if a pass develops.
- Look-In Pass Receiver runs straight pattern and looks for the ball immediately over his inside shoulder.
- Man-To-Man Coverage Pass defense plan wherein defensive backs cover receivers wherever they go, rather than field areas.
- Mike Middle linebacker, so designated because he usually lines up opposite middle of the offensive line.
- Monster A roving linebacker who may position himself on either side of his team's defensive formation.
- Neutral Zone The space between the scrimmage lines of the offense and defense, approximating 11 inches (the length of the football).
- Onside Kick A kickoff that travels 10 yards or more is anybody's ball. The so-called "onside kick" is an effort by the kicking team to kick the ball barely beyond 10 yards and recover it before the receiving team can do so.
- Pocket Area of protection for the passer, formed by blockers. Passer drops straight back from scrimmage behind the blocking shield into what resembles a "cup" or pocket.

- Post A pass pattern in which the receiver goes downfield to pre-determined depth then cuts at an angle toward the goalposts.
- Prevent Defense A strategem replacing linebackers with additional backfield pass defenders, sacrificing strength against short gainers in order to prevent a long pass completion. Most often employed by a team protecting a lead late in either half.
- Pulling Guard Guard who pulls out behind scrimmage line for a trap block or to lead sweep blocking for ball carrier.
- **Reverse Play** A running play with backfield action suggesting one direction while ball carrier goes in opposite direction.
- Roll-Out pass Quarterback runs laterally with blockers before throwing, instead of dropping straight back to pass.
- Sam Strong linebacker, so designated because he usually lines up opposite the "strong side" of the offensive line.
- Screen Pass Pass to a receiver behind a wall of blockers, who have permitted defenders to penetrate.
- Scrimmage Line The yard line (marked or unmarked) that passes through point of the ball nearest a team's own goal line.
- Slot Back Back stationed in slot between interior linemen and end. Must be one yard behind the line of scrimmage.
- Snap A quick, continuous motion by which the ball is handed or snapped back with the ball leaving the hands of the snapper on the motion. The snap normally is made by the center.
- Strong Side Overbalance of offensive or defensive linemen to either side of the Center.
- **Stunting** Defensive players changing positions as the ball is snapped, to confuse offensive strategy.
- Sweep End run with wave of blockers leading the ball carrier.
- Spearing Illegal use of the head and helmet to ram an opponent after his momentum has stopped.
- **Tackling** Grasping or encircling an opponent with hands or arms.
- Tight End Offensive end who lines up in close formation (as opposed to Split End's wide set) where he can either block for a ball carrier or be employed as a pass receiver.
- Widereceiver A lineman and/or a back who is set wide for pass receiving purposes. Also called Split End, Flanker or Wideout.
- Willie Weak linebacker, so designated because he usually lines up opposite the "Weak side" of the offensive line.
- Zone Coverage Plan of pass defense wherein areas are covered rather than individual receivers Opposite of Man-To-Man.

#### FLORIDA STATE UNIVERSITY

"In my opinion the importance of intercollegiate athletics to a university has not diminished one whit . . . I suspect we need a high quality, strong athletic program now more than ever"—President Stanley Marshall, June, 1971.

"Athletics at Florida State University is moving into a new era . . . an era in which the fans and friends of Florida State will play an unprecedented role with their support. The object of the National Seminole Club is to organize this support and direct it into one of the most meaningful and personally rewarding areas within the scope of our program . . ."

TOMMY WARREN

**BO MITCHELL** 

Florida State's football games, whether played at home or away, will be heard throughout "Seminole Territory" on the Seminole Football Network.

With Tallahassee's WTNT acting as the originating station, 30 stations will carry every play to Seminole fans in Florida, South Georgia and South Alabama. In addition, several Florida State games will be heard from time to time as "Pick of Dixie" games.

Heading up the Seminole Network broadcast team once again will be Bo Mitchell. A veteran of more than 20 years broadcasting, Mitchell will be in his ninth season as the Seminoles' play-by-play man. In addition to Seminole games, Mitchell has also done play-by-play for the AFL All Star game, Senior and Tangerine Bowl games.

Joining the former Florida Sportscaster of the Year and station manager of WTRL in Bradenton will be former Seminole quarterback Tommy Warren. The Miami native moves from the playing field to the broadcast booth after directing the Tribe to a 7-4 season last year. Now enrolled in Florida State's Law School, Warren will serve as color man.

# TV FOOTBALL... of Rules, Rain and Ratings

by BEANO COOK, ABC-TV Sports

ROONE ARLEDGE
President and Executive Producer
of ABC Sports

On the 28th floor of ABC Television's office in New York, there is a saying which goes, "If you think the network did a good job in picking this season's college football schedule for television, send all congratulatory mail to Chuck Howard, vice-president of program production, and Jim Spence, vice-president of program planning. If you don't like the schedule, blame Roone Arledge, President of ABC Sports."

See, my friend, it really boils down to one person, Arledge. He makes the final decision. Take the 1969 schedule. When he talked to Darrell Royal of Texas and Frank Broyles of Arkansas about playing the first Saturday in December instead of the middle of October, Royal asked, "Why?"

"It will be for the national championship," replied Arledge casually.

"What about Ohio State?" said Royal. In 1968, the Buckeyes swept to the national title and nearly every key player was returning.

"They will lose," said Arledge. "Don't worry about that. Your game will be for No. 1."

Everybody thought Arledge was nuts, including all the pre-season experts who saw no way Ohio State could lose. Well, as the season progressed, it seemed as if Arledge had been wrong and the game between

Texas and Arkansas would be just for No. 2 and for the Southwest Conference title. After Ohio State walloped Purdue on national television, only Michigan remained for the Buckeyes, who were called by some, "the greatest team ever." A reporter asked Arledge what he thought.

"Look, Ohio State plays at Michigan and 100,000 screaming fans will mean the difference."

As Arledge watched the Ohio State-Michigan game on television, he really didn't believe what he saw. "Look, I thought Ohio State would lose, but when it came down to just one game, I had my doubts."

Arledge, Spence and Howard picked the 1971 television schedule for ABC. The National Collegiate Athletic Association Television Committee only verifies that the schedule meets the criteria of the television plan as voted by the members of the NCAA.

In the early fifties, the NCAA wisely formed a Television Committee, which has closely watched the effect live television has on attendance. Many critics, especially sportswriters, criticize the NCAA for not allowing the network to pick any game. Yet, when television was not controlled, attendance declined. The press blames television for killing boxing, but also criticizes the NCAA when it tries to supervise the televising of college games so the live gate won't decline rapidly.

In recent years, the Television Committee has given ABC more flexibility, especially for late-season games. Sometimes Arledge feels frustrated. When he thinks he has the schedule completed, he notices that a team isn't eligible because of previous appearances on the schedule.

"I remember when we called California to request an earlier start for a certain game," recalled Arledge. "After the call, somebody noticed that California already was on the schedule the maximum number of times permitted. Anyway, we were saved when California called back and said it couldn't accommodate our request. I was quite happy over the refusal."

The general public becomes confused over the various rules, but as a guideline, here are some basic ones to remember. The rules start in the even

years. No team can now appear more than four times in two years, or more than three times in one year. No team can appear on national television more than two times in one year. There are no blackouts. There are a few remifications to these rules, such as a team can benefit just once in two years from the wildcard game.

Since this year's schedule came in the odd year, Arledge, Howard and Spence had to check the previous year's schedule to be positive that no team would exceed the limit of appearances for a two-year period. When this trio made the schedule, the national dates were completed first. (There are 12 national games and six regional weekends. Each station receives a total of 18 games.)

Then came the 24 games for the regional weekends. "You run into problems but none as rough as having universities move dates, although sometimes you can't blame an athletic director for not switching a date," said Arledge. "However, on some occasions, we are against the wall and must ask institutions to cooperate. In most cases, the athletic directors have been great."

Via the regional weekend games, ABC fulfilled many of the obligations of the contract, such as including at least 12 independent teams on the schedule, and ensuring the required appearances for each major conference for the two-year period.

"I would rate this year's schedule the most difficult one to make in six years because of the problems we faced late in the season," said Arledge. "Yet, I think we will do well ratings-wise, and will provide games of considerable interest and attractiveness regularly."

Under Arledge's brilliant leadership, viewership of NCAA football reached new peaks in 1970.

"If the large cities could have a snowstorm on two straight Saturdays in September, it would help. And if the national games are closer than they were last year, I think 1971 could be a super year. We are the only people who pray for rain for the entire country every Saturday, except at the site of the TV game.

"When it rains on Saturday, several million more fans watch college football on television, and that's good for ABC, the advertisers and college football."

# HAVE MORE FUN

BE NO.1

Add a new dimension to your enjoyment of the game with college football's MODERN RECORD BOOK. This 109-page goldmine of information and history is the <u>only</u> book with all of college football's national records.

Say your favorite player or team is having a really big day. Only the MODERN RECORD BOOK tells you how big nationally. Be the first to know.

At the same time, you can stump your friends and even become an expert, all for just \$2. For instance, did you know:

- What coach was one short of 200 victories entering 1971?
- What national records are held by Jim Plunkett, O.J. Simpson, Steve Owens and Don Meredith?
- What are the winningest teams over the last five regular seasons?
- What national titles were won by Terry Bradshaw and Ollie Matson?

For these answers--and thousands more--get the MODERN RECORD BOOK today. Included are 24 pages of game, season, and career records for both major-college and college-division players and teams, PLUS:

- Photos of 69 top players and coaches
- Annual player and team champions
- Heisman/Outland Trophy winners
- Consensus All-Americas
- Academic All-Americas
- Single-game highs

- Major bowl scores
- National poll champions
- Undefeated-Untied Teams
- All-Time winningest coaches
- Longest plays/streaks
- Statistics trends

Dec. 11	VALDOSTA STATE	Feb. 5	at HOUSTON
Dec. 8-22	at HAWAII	Dec. 18	at SOUTH ALABAMA
Dec. 27-30	FAR WEST CLASSIC	Feb. 12	TULANE
Jan. 3-4	SENIOR BOWL	Feb. 19	GEORGIA TECH
Jan. 8	EAST TENNESSEE	Feb. 23	at JACKSONVILLE
Jan. 11	MERCER	Feb. 26	at STETSON
Jan. 16	HOUSTON	Feb. 28	at BISCAYNE
Jan. 19	SOUTH ALABAMA	March 4	at CINCINNATI
Jan. 22	at GEORGIA TECH		

Florida State's 1971-72 Basketball Team promises to be one of the Seminoles' most exciting ever. Three of the top four scorers return, four starters are back, plus some top-notch sophomores coming up from the freshman ranks. Among those returning to COACH HUGH DURHAM'S club this season are RON KING, who broke the Seminole single game scoring record with a 46-point effort; also big REGGIE ROYALS, one of the nation's top rebounders, although only a sophomore last year. And don't forget other exciting players like 5-7 passing whiz OTTO PETTY, leaping ROWLAND GARRETT and slick GREG SAMUEL.

The Seminoles will play 12 big games at home and season tickets can now be ordered. Don't be left out - Tully Gym's limited capacity puts a premium on seats. Order your season ticket now by sending your order with a check for \$20, payable to Florida State University, to:

Athletic Ticket Office Room 100, Tully Gym Florida State University Tallahassee, Fla. 32306 or phone: AC 904 — 599-4625
