List **all** scoring plays; also non-scoring plays (including punts) gaining 50 yards or more, and all **missed field goal attempts**.

On pass play, give passer first, then receiver, and combined yardage of pass and run. Measure runbacks from goal line, if started in end zone. Measure field goal attempts from point of kick. All other plays are measured from line of scrimmage.

REMARKS				

(Originated by the N.C.A.A. Football Rules Committee's Sub-committee on Football Statistics)

SECTION 6—PUNTS.

(Note — "Ultimate advance" of the punt shall be construed to include also any distance which a receiver of the punt may retreat toward his own goal before attempting to return up field. This interpretation gives greatest benefit to both the punter and the receiver, since excellence of the punt normally is responsible for retreat by the receiver. Thus "minus yards" should NOT be recorded under "punt returns.")

Article 3: If a receiver muffs a punt and the ball **continues toward his goal line**, the punt is measured to the point of recovery or ultimate advance, as defined above. If a receiver muffs a punt and the ball bounds back **toward the kicker's goal**, the punt is measured to the point of the muff (the point of ultimate advance), and the receiver is credited with a punt return and with the yards from the point of the muff to the point of recovery, regardless of which team recovers.

If the ball travels toward the kicker's goal and is recovered by the *blocking* team, the yardage is treated as a punt return by the player who blocked the kick. If the ball travels toward the kicker's goal and is recovered by the *kicking* team, the yardage is treated as a punt return by the player who blocked the kick—and the blocking team is charged with a fumble lost, except on fourth down.

Article 1: Only the number of punts and kickoffs which the receiving team actually attempts to return are included under kick returns. (*Exception* — Blocked kicks which travel toward the kicker's goal. See Article 4 of Section 6.)

* See the OFFICIAL FOOTBALL STATISTICIANS' MANUAL for complete rulings and interpretations.

SECTION 8 — FREE KICKS.

SECTION 9—GOALS FROM THE FIELD.

The distance of such kicks is recorded on form 347 only under "principal individual plays". If kick is unsuccessful, show yard line from which kicked, in lieu of distance.

Article 1: A player attempting a try-for-point-after-touchdown by kicking is **not** charged with an attempt when a bad pass from center or a fumble by the ball holder, precludes an opportunity to kick. Such an unsuccessful attempt is charged to the "team," rather than to any individual player. However, if the ball is momentarily fumbled and then kicked, an attempt is charged to the individual kicker, regardless of the success or failure of the effort.

When a try-for-point-after-touchdown is by forward passing, the passer is charged (under SCORING) with the attempt. If successful, the receiver is credited under SCORING with the conversion and points scored, and the passer is credited with a conversion under FORWARD PASSING.

No individual credit is recorded for any player on either team when a safety is scored. The team benefitting from the score is credited.

On any play **terminated** by a fumble, the yards involved to the point of recovery are credited or charged to the player who fumbled, regardless of which team recovers the fumble.

(Approved Ruling — On rushing play, ball carrier of Team A fumbles at the line of scrimmage and the ball travels 5 yards toward Team B goal line, before it is recovered by Team B. Player of Team A who fumbled is credited with rushing gain of 5 yards and Team A is charged with a fumble lost.)
