PRINCIPAL INDIVIDUAL PLAYS

List all scoring plays; also non-scoring plays (including punts) gaining 50 yards or more, and all missed field goal attempts.

Under "type of play" indicate rush, pass, int. runback, punt runback, kickoff runback, punt or field goal. List tries-for-points as P.A.T. kick, P.A.T. rush or P.A.T. pass.

On pass play, give passer first, then receiver, and combined yardage of pass and run. Measure runbacks from goal line, if started in end zone. Measure field goal attempts from point of kick. All other plays are measured from line of scrimmage.

CONDENSED RULES FOR RECORDING FOOTBALL STATISTICS*

(Originated by the N.C.A.A. Football Rules Committee's Sub-committee on Football Statistics)

SECTION 1 — FIRST DOWNS.

A first down shall be recorded whenever the yardsticks are ordered forward by the officials, and when a touchdown is scored from scrimmage (by rushing or passing) within a series of downs starting 10 yards or more from the goal line. A first down is **not** recorded on a touchdown runback, regardless of the distance of the scoring run.

SECTION 2 — RUSHING.

Article 1: All offensive running plays are to be classified as rushing plays, **not** as "plays from scrimmage," since any play begun with a snapback from center actually is a play from scrimmage.

Article 2: Rushing yardage is measured from the line of scrimmage to the point where the ball is declared dead, or is recovered by opponents in the case of a fumble.

Article 3: The rushing total is a **net** figure. All rushing losses must be recorded so as to account for the net figure.

Article 4: All gains on lateral passes which originated or grew out of a rushing play are included in rushing yardage. (See Article 1 of Section 4.)

SECTION 3 — FORWARD PASSING.

Article 1: Forward passing gains or losses are measured from the scrimmage line to the point where the ball is declared dead (or is recovered by opponents in the case of a fumble), so as to include both length of pass and running advance after completion. All yards gained or lost on each completed pass play are credited to **both** the passer and the receiver.

Article 2: Loss from a completed forward pass which did not advance the ball to the scrimmage line is a yardage charge against passing gain.

Article 3: Any loss by a player apparently intending to pass, but thrown behind the line of scrimmage, is recorded as a **loss by rushing**. He is **not** a passer until he has thrown the ball, and he retains at all times the option of running.

Article 4: Interception returns are measured from the point of interception to the point where the ball is declared dead (or is recovered by opponents in the case of a fumble).

Article 5: There is **no** pass completed by penalty. A gain through interference on a passing play is a penalty against the defending team. The passer is **not** charged with a pass attempt, nor credited with a pass completed or yards gained; nor is the intended receiver (or the

player interfered with) credited with a pass caught. The passing team is credited only with a first down by penalty. The defensive (offending) team is charged with a penalty, and the distance from the line of scrimmage to the spot of the penalty under "yards penalized."

Article 6: The forward passer is charged with a forward pass attempt when a forward pass is ruled intentionally grounded.

SECTION 4 — LATERAL PASSING.

Article 1: A lateral pass is always a component of the ultimate play, whether it precedes or follows that play, since the lateral is merely an extension of the original or ultimate play, in effect.

(Approved Ruling — Player A receives a forward pass for a gain of 10 yards, then throws a lateral pass to Player B, who gains an additional 5 yards. Player A is credited with one pass caught and 10 yards under "receiving." Player B is credited with NO pass caught and with 5 yards under "receiving." Player who threw the forward pass is credited with 15 yards under "forward passing.")

(Approved Ruling — Player A catches punt and return 10 yards before throwing a lateral pass to Player B, who returns another 5 yards. Player A is credited with one return and 10 yards under "punt returns." Player B is credited with NO return and with 5 yards under "punt returns.")

Article 2: Incomplete lateral passes are scored as fumbles, and yards lost are charged against the player who, in the scorer's opinion, was responsible for the failure of the pass.

Article 3: Intercepted lateral passes are scored as fumbles, the offensive team being charged with a fumble lost.

Article 4: The official scorer rules on whether a completed pass to a flanker or man-in-motion is a forward or a lateral pass. If the latter, the play is recorded under "rushing." If the pass is incomplete, the subsequent action of the officials reveals whether the pass was a forward or a lateral.

SECTION 5 — TOTAL OFFENSE.

Article 1: Total offense is the combined result of rushing and forward passing **only**, since these two are the only methods by which legal advance can be initiated while retaining possession of the ball.

Article 2: Total offense yardage is the total of **net** gain by rushing and net gain by forward passing. "Receiving" yards gained are **not** included in total offense.

Wake Forest 0

QUOTES FROM COACH PETERSON:

~~XXXXXXXXXX~~

"We put them both together today, offense and defense. And we sure did need it. Wake ~~Forrest~~ Forrest brought a fine, inspired football team in here. I said earlier this week it would be up to the defense to win this ball game. And they ~~sure~~ certainly came up and did the job.

"There is no question that it was our best defensive effort of the year. Because Howell Montgomery and Bill Campbell were hurt, we had to bring John Crowe ~~and~~ Clint Burton up and they did ~~quite~~ good jobs.

"Thurston Taylor's punting was great. And our punt coverage was the best all year. We hadn't use Taylor earlier this year because ~~John~~ John Hosack was doing a good job until the last couple of games. Somebody changed something with his kicking and he hasn't been the same. Taylor had been doing some good punting in practice so we decided to give him a chance."

FROM GARY ~~XXXXXXXXXX~~ PAJCIC:

"That long pass to Sellers wasn't ~~for~~ intended to be to be a bomb. It was supposed to be a curl. But Ron got behind his man and went deep. I just let him have the ball. I guess we were both thinking about the same ~~thing~~ thing."

++++++

COACH BILL TATE: "The re's not a great deal to be said. They got a quick score just like they did a year ago, and right away we are playing 'catch-up'. We tried everything we could to get on the board -- even a couple of field goals.

"Poor field position hurt us in the first half. We were out of timeouts near the second of the half and there was nothing we could do. We had to throw.

"We had a couple of mistakes in the secondary, but FSU didn't do anything new. They attacked us pretty good on the front line, but we loosened them up some in the second half.

Pajcic kept his poise real~~l~~y well, I thought. No. 20 (Larry Green) also gave us a lot of trouble.

"Our tackli ng wasn't what it should have been. That fellows should have never ~~broken~~ broken those tackles to score.

"It's the end of a pretty rough season. Now we have got to get out and find players to put us in a position to compete.

"I have no comment on the punts which were marked down on the one-yard line. I was in no position to see them, but the players were pretty upset about them. Some thought both were in for touchbacks,
