## Tonight's Game

By **LONNIE BURT**

Florida State Sports Information Director

A rating service recently came up with the "toughest schedule" list and Mississippi State, Florida State's opponent tonight, ranks No. 1 in the nation.

Michigan State was said to play the second roughest slate and Florida State and Georgia Tech were tied for third.

The Bulldogs (remember when they were the Maroons?) have only one victory so far this season, but it was a shocker. Three weeks ago, Texas Tech was undefeated and fresh from their first triumph over Texas in 15 years. Mississippi State stunned the Red Raiders 7-3.

Mississippi State's problem has been a lack of depth and the fact that its defense is called upon to play too much. For instance, in the Bulldogs' opener against Georgia, Coach Vince Dooley's club scored 17 points in the final quarter against some tired Mississippians. At the end, it was Georgia 30, Bulldogs 0.

Next came Florida and State was on top 7-3 at halftime only to fall 24-7. A good Southern Mississippi claimed a 21-14 decision and last Saturday Houston won 43-6 with 19 points coming in the final 15 minutes. Cougar Don Bean scored three times on punt returns and set up a fourth.

Linebacker D. D. Lewis is called by many the best in the country. Houston Coach Bill Yeoman had this to say about Lewis:

"I'm not trying to make anyone mad, but Lewis is the finest linebacker I've seen play to date. His recovery and pursuit are excellent."

The Seminoles remember Lewis and his defensive buddies very well from last year. Florida State players still contend that the Bulldogs hit as hard as anyone they faced in 1966.

Coach Bill Peterson thinks his club became a good football team during last week's 28-12 victory over Texas Tech. "But Mississippi State will come to Tallahassee ready to belt somebody," said the Seminole grid boss. "If our kids haven't prepared themselves mentally, we will be in trouble."

Seminole All-America candidate Ron Sellers broke one of Fred Biletnikoff's receiving records last week against Tech. Sellers now has 103 receptions, bettering Biletnikoff's 100 and the Jacksonville junior still have another year to go.

Sellers is just 294 yards behind Biletnikoff's record and Ron should shatter that mark before the season is over.

Tonight's game should pit Florida State's outstanding passing attack against a tough but thin Bulldog defense.

The Seminoles will be going for their fourth straight victory, a trick which hasn't been turned at Florida State since the 1964 outfit did it.

## PRINCIPAL INDIVIDUAL PLAYS

List all scoring plays; also non-scoring plays (including punts) gaining 50 yards or more, and all missed field goal attempts.

Under "type of play" indicate rush, pass, int. runback, punt runback, kickoff runback, punt or field goal. List tries-for-points as P.A.T. kick, P.A.T. rush or P.A.T. pass.

On pass play, give passer first, then receiver, and combined yardage of pass and run. Measure runbacks from goal line, if started in end zone. Measure field goal attempts from point of kick. All other plays are measured from line of scrimmage.

## CONDENSED RULES FOR RECORDING FOOTBALL STATISTICS\*

(Originated by the N.C.A.A. Football Rules Committee's Sub-committee on Football Statistics)

### SECTION 1 — FIRST DOWNS.

A first down shall be recorded whenever the yardsticks are ordered forward by the officials, and when a touchdown is scored from scrimmage (by rushing or passing) within a series of downs starting 10 yards or more from the goal line. A first down is **not** recorded on a touchdown runback, regardless of the distance of the scoring run.

### SECTION 2 — RUSHING.

**Article 1:** All offensive running plays are to be classified as rushing plays, **not** as "plays from scrimmage," since any play begun with a snapback from center actually is a play from scrimmage.

**Article 2:** Rushing yardage is measured from the line of scrimmage to the point where the ball is declared dead, or is recovered by opponents in the case of a fumble.

**Article 3:** The rushing total is a **net** figure. All rushing losses must be recorded so as to account for the net figure.

**Article 4:** All gains on lateral passes which originated or grew out of a rushing play are included in rushing yardage. (See Article 1 of Section 4.)

### SECTION 3 — FORWARD PASSING.

**Article 1:** Forward passing gains or losses are measured from the scrimmage line to the point where the ball is declared dead (or is recovered by opponents in the case of a fumble), so as to include both length of pass and running advance after completion. All yards gained or lost on each completed pass play are credited to **both** the passer and the receiver.

**Article 2:** Loss from a completed forward pass which did not advance the ball to the scrimmage line is a yardage charge against passing gain.

**Article 3:** Any loss by a player apparently intending to pass, but thrown behind the line of scrimmage, is recorded as a **loss by rushing**. He is **not** a passer until he has thrown the ball, and he retains at all times the option of running.

**Article 4:** Interception returns are measured from the point of interception to the point where the ball is declared dead (or is recovered by opponents in the case of a fumble).

**Article 5:** There is **no** pass completed by penalty. A gain through interference on a passing play is a penalty against the defending team. The passer is **not** charged with a pass attempt, nor credited with a pass completed or yards gained; nor is the intended receiver (or the

player interfered with) credited with a pass caught. The passing team is credited only with a first down by penalty. The defensive (offending) team is charged with a penalty, and the distance from the line of scrimmage to the spot of the penalty under "yards penalized."

**Article 6:** The forward passer is charged with a forward pass attempt when a forward pass is ruled intentionally grounded.

### SECTION 4 — LATERAL PASSING.

**Article 1:** A lateral pass is always a component of the ultimate play, whether it precedes or follows that play, since the lateral is merely an extension of the original or ultimate play, in effect.

(Approved Ruling — Player A receives a forward pass for a gain of 10 yards, then throws a lateral pass to Player B, who gains an additional 5 yards. Player A is credited with one pass caught and 10 yards under "receiving." Player B is credited with NO pass caught and with 5 yards under "receiving." Player who threw the forward pass is credited with 15 yards under "forward passing.")

(Approved Ruling — Player A catches punt and return 10 yards before throwing a lateral pass to Player B, who returns another 5 yards. Player A is credited with one return and 10 yards under "punt returns." Player B is credited with NO return and with 5 yards under "punt returns.")

**Article 2:** Incomplete lateral passes are scored as fumbles, and yards lost are charged against the player who, in the scorer's opinion, was responsible for the failure of the pass.

**Article 3:** Intercepted lateral passes are scored as fumbles, the offensive team being charged with a fumble lost.

**Article 4:** The official scorer rules on whether a completed pass to a flanker or man-in-motion is a forward or a lateral pass. If the latter, the play is recorded under "rushing." If the pass is incomplete, the subsequent action of the officials reveals whether the pass was a forward or a lateral.

### SECTION 5 — TOTAL OFFENSE.

**Article 1:** Total offense is the combined result of rushing and forward passing **only**, since these two are the only methods by which legal advance can be initiated while retaining possession of the ball.

**Article 2:** Total offense yardage is the total of **net** gain by rushing and net gain by forward passing. "Receiving" yards gained are **not** included in total offense.

Quotes from Coach Peterson:

"We started slow and then we got momentum. But then we lost that Momentum and after that it was a dog fight. I thought Mississippi State ~~in~~ played better than they had the past two weeks.

"It was a hard hitting game. I give them credit for that. They didn't fumble and they didn't tthrow any bad passes. The last ~~game~~ couple of weeks they had done that sort of thing. But then again, we didn't force them to make mistakes.

"I think they are the same type team at Texas Tech. Maybe a little better with that Lewis in there. He was in our mustard all night. He really hurt us.

"He proved we could throw against them. But then we lost that momentum.

"It's tough to put a new quarterback in there with him cold. He gained big yardage with a run on the first play. I should have told him to stick to the ~~gm~~ ground until he got warmed up.

"We know we're going to use Pajcio. Last week he won the game for us. He have to play him for him to keep sharp.

"It was a good win for us. We're going to win some like this. When you play our schedule you have to.

"We had some great catches out there. Green, Glass, Sellers and Cox all made some big ones. We played just well enough to win."

QUOTES FROM COACH SHIRA:

"Ron Sellers is a great receiver. I wish we could get him to drop a ~~fx~~ few. Sellers also had a great one in Kim Hammond throwing to him.

"The three long passes were the turning point. We expected them to throw long more often ~~xxx~~ than they did. Tommy Pharr had to ~~xxx~~ leave the game because he bruised his right arm and ~~xxx~~ this ~~xx~~ kept him from throwing. Phil Thomas came in and did a good job in place of Pharr. Tommy Corbett (starting tailback) strained his leg but it doesn't appear serious."
