

COLLEGE FOOTBALL GAME OF THE WEEK (Regional)

FLORIDA STATE vs MEMPHIS STATE

Memorial Stadium (50,160), Memphis, Tenn.

SATURDAY, NOVEMBER 4

1:45 P.M., ESI, ABC-TV, In Color

COACHES & RECORDS

Florida State -- Bill Peterson (Ohio Northern, '46) 34-30-8 in seven years as head coach.

Memphis State -- Billy Murphy (Miss. State, '47) 60-25-1 in nine seasons as head coach.

TYPES OF ATTACK

Florida State -- Since Tensi and Biletnikoff, FSU has been pro-oriented with two wide-outs and the emphasis on passing off any number of set formations. Hitch and halfback passes, reverses, traps and delays are integral parts of the attack. Against South Carolina, FSU had two quarterbacks in the backfield on the first play and threw a halfback pass that set up a touchdown. The Seminoles will throw from anywhere particularly when single coverage is on the wideouts.

Memphis State -- Wing-T off power formations. State is more ball control with quarterback options and a concentrated running game keying on the fullback and short passes. The Tigers are explosive on punt and kickoff returns and favor double-team blocking inside. The longer they hold the ball, the better their chances are of winning.

BASIC DEFENSE

Florida State -- Basically a five-man front with variations depending on how much stunting the linebackers do and whether the ends drop off for weak-side pass coverage. The defense looked good blanking South Carolina 17-0. Usually handle straight rush well with good play from quick ends.

Memphis State -- The Tigers are another team emphasizing the monster man off a five-man front, with two linebackers and a three-deep secondary. The monster, Bill McRight, usually plays to the strong side; but with FSU's strong passing game, he may key on the tight end or running back. Pass defense is strongest suit, with lettermen backfield.

MAIN STRENGTHS

Florida State -- Explosiveness. Any offense that can score 37 points against Bear Bryant must be respected. Outstanding pass receivers, all with good, deep speed. Two smart passing quarterbacks who also can run the option. Aggressive hitters on defense. The consistency of placekicker Grant Guthrie. FSU thrives on being the underdog.

Memphis State -- Fundamentally sound. Good ball control team and ideal matchup for pass-oriented rival. Puts pressure on defenses with options and counters back inside. Excellent, seasoned secondary. Punt and kickoff return teams provide good field position for ball-control tactics; Nick Pappas, who stunned Ole Miss on kickoffs, is adept at breaking

	Mam. St	7	0	0	0	7

List **all** scoring plays; also non-scoring plays (including punts) gaining 50 yards or more, and all **missed field goal attempts**.

On pass play, give passer first, then receiver, and combined yardage of pass and run. Measure runbacks from goal line, if started in end zone. Measure field goal attempts from point of kick. All other plays are measured from line of scrimmage.

[illegible]

(Originated by the N.C.A.A. Football Rules Committee's Sub-committee on Football Statistics)

A first down shall be recorded whenever the yardsticks are ordered forward by the officials, and when a touchdown is scored from scrimmage (by rushing or passing) within a series of downs starting 10 yards or more from the goal line. A first down is **not** recorded on a touchdown runback, regardless of the distance of the scoring run.

**Article 1:** All offensive running plays are to be classified as rushing plays, **not** as "plays from scrimmage," since any play begun with a snapback from center actually is a play from scrimmage.

**Article 3:** The rushing total is a **net** figure. All rushing losses must be recorded so as to account for the net figure.

**Article 4:** All gains on lateral passes which originated or grew out of a rushing play are included in rushing yardage. (See Article 1 of Section 4.)

**Article 1:** Forward passing gains or losses are measured from the scrimmage line to the point where the ball is declared dead (or is recovered by opponents in the case of a fumble), so as to include both length of pass and running advance after completion. All yards gained or lost on each completed pass play are credited to **both** the passer and the receiver.

**Article 2:** Loss from a completed forward pass which did not advance the ball to the scrimmage line is a yardage charge against passing gain.

**Article 3:** Any loss by a player apparently intending to pass, but thrown behind the line of scrimmage, is recorded as a **loss by rushing**. He is **not** a passer until he has thrown the ball, and he retains at all times the option of running.

**Article 4:** Interception returns are measured from the point of interception to the point where the ball is declared dead (or is recovered by opponents in the case of a fumble).

**Article 5:** There is **no** pass completed by penalty. A gain through interference on a passing play is a penalty against the defending team. The passer is **not** charged with a pass attempt, nor credited with a pass completed or yards gained; nor is the intended receiver (or the

**Article 6:** The forward passer is charged with a forward pass attempt when a forward pass is ruled intentionally grounded.

**Article 1:** A lateral pass is always a component of the ultimate play, whether it precedes or follows that play, since the lateral is merely an extension of the original or ultimate play, in effect.

(Approved Ruling — Player A receives a forward pass for a gain of 10 yards, then throws a lateral pass to Player B, who gains an additional 5 yards. Player A is credited with one pass caught and 10 yards under "receiving." Player B is credited with NO pass caught and with 5 yards under "receiving." Player who threw the forward pass is credited with 15 yards under "forward passing.")

(Approved Ruling — Player A catches punt and return 10 yards before throwing a lateral pass to Player B, who returns another 5 yards. Player A is credited with one return and 10 yards under "punt returns." Player B is credited with NO return and with 5 yards under "punt returns.")

**Article 2:** Incomplete lateral passes are scored as fumbles, and yards lost are charged against the player who, in the scorer's opinion, was responsible for the failure of the pass.

**Article 3:** Intercepted lateral passes are scored as fumbles, the offensive team being charged with a fumble lost.

**Article 4:** The official scorer rules on whether a completed pass to a flanker or man-in-motion is a forward or a lateral pass. If the latter, the play is recorded under "rushing." If the pass is incomplete, the subsequent action of the officials reveals whether the pass was a forward or a lateral.

**Article 1:** Total offense is the combined result of rushing and forward passing **only**, since these two are the only methods by which legal advance can be initiated while retaining possession of the ball.

**Article 2:** Total offense yardage is the total of **net** gain by rushing and net gain by forward passing. "Receiving" yards gained are **not** included in total offense.

Coach Murphy of Memphis State --

"Florida State has a real fine football team. They took it right to us. Their defense was able to adjust to our offense but we never adjusted to theirs. That's a real good passing game they have. Hammond is a tremendous quarterback. Their offensive line was able to keep us off his back and he did a great job. I wish Florida state all the luck in the ~~next~~ world the rest of the way."

Coach Peterson of Florida State --

"I think this is the best game we've played so far this year. We had a lapse in the third quarter but we came back. Our defense wasn't doing the job in the first half but we adjusted at halftime. It's a credit to ~~my~~ my staff that our kids came back so strong in the final two quarters.

"They were ~~3~~ using a man in motion and we hadn't worked ~~much~~ much against it. They were double covering ~~our~~ our wide receivers and this ~~2~~ gave us the run. I thought Larry Green and Bill Moremen did excellent jobs running.

"And Kim ~~(Hammond)~~ (Hammond) had another fine day. Our offensive line gave him great protection. Our delay passes were open all day long. Their secondary was dropping back to guard against the long throws.

"I think our ability to control the ball ~~was~~ was the key to the victory. That McCullers (Linebacker Dale) must have played a great game.

"Memphis State has a fine football team. But I think we grew up a little today."
