COACHES QUOTES

KEY DEMPSEY
SOUTHERN ILLINOIS

"No, Florida State did not run up the score. Coach Bowden is not that type of a person. When you continue to turn the ball over you have to expect that the other team is going to try to score. Even if they had been trying to run up the score it wouldn't have bothered me. People will look at that score and say the defense played terrible. That was just not the case. Again, it's turnovers. When you turn it over and a team like Florida State gets on a roll, it's easy for them to score a lot of points. I think they're a great team."

BOBBY BOWDEN
FLORIDA STATE

"We just had too many people for them. The heat was in our favor tonight and everything went our way. Our goalline offense was very inefficient. If I had to pick ~~MM~~ out something we did poorly that would be it. When you get down there close you've got to come out with seven points. I don't want to take anything away from those guys because they came down here and fought their hearts out. We're just too much for them. We played well defensively and they didn't do very much at all against our first team defense. I think we got everybody that we could play into the game and that's good."

IMPORTANT: Most player categories are ranked on per-game average. Thus, it's vital that you consider every player (on both teams) with any statistics in any game this season (get season player statistics from both SIDs). Then list below the last name of players who have season figures but did NOT play in this game. All players with previous statistics will be charged with a game unless you indicate otherwise under DID NOT PLAY IN THIS GAME. A game played is one play—whether or not the player touches the ball. (For guidelines on a game played, refer to Official Football Statisticians' Manual .) If a player with first-time statistics has missed games, fill in below—after getting from the SID how many games missed.

SCORING SUMMARY

List all scoring plays in sequence. "Time left" means time remaining in the quarter at the conclusion of the scoring play. Under "play," to save you time, please use only: Rush, Pass, INT, PR, KOR, FUM, FG, or SAF (instead of writing out interception, punt, kickoff and fumble returns, field goal or safety).

On pass play, list passer first, then receiver and combined yardage of pass and

run. All plays are measured from the line of scrimmage except field-goal attempts—from the point of kick to the goal posts (goal line plus 10 yards).

After each touchdown, please continue on the same line and under "FOR EXTRA POINTS ONLY" check (✓) type of PAT (kick, pass or run) and whether good (G) or no good (NG).
