Track 1989

**Wednesday's Results (31 May) and
Heat Sheets for Thursday (1 June)**

BYU • Provo • Utah • 1989

Thursday

NCAA Division I Men's and Women's Championships
Brigham Young University
5/31/89 to 6/3/89

QUOTES AND REMARKS
Wednesday, May 31, 1989 - First Day Trials

Jolanda Jones, Houston, leader in first day heptathlon event:

"Well, I felt that I was within the range in each of my events today.

"I can't control what anyone does but myself. Now, if I score the marks I have set, I should win. I should finish strong tomorrow. The remaining events are my strong events."

(On plans to go to law school) "I would love to be a criminal attorney. I believe I have the personality for that."

Paul Ereng, Virginia, winner 1st heat 800m.

Q - "What time would you be satisfied with?"

A - "Anything, as long as I win the race - if I can win."

"The coach decided to move me up (to the 800m from the 400m) and he thought that I would be comfortable."

"I did not have a plan. I just wanted to run the race . . ."

Jackie Goodman, Oklahoma State, first winner (10,000m) of this year's NCAAAs.

"I'm pleased with the result."

"I used surges, under the coach's direction, to shake the others. I was worried after the last surge."

"It's a national meet and I expected it to be a tough race--and it was."

"My goal was to win the 10,000 and then see what happens at 5,000." (This was only her third ever 10,000.)

"I didn't really notice the altitude."

Quotes & Remarks: Christoph Kock, Northeast Louisiana:

"I worked very hard, especially after my knee surgery, to improve my skill this year, and I'm very happy to have won the championship. I set a goal for a personal best, and to win the NCAA meet. I fell short of the best, but fortunately I was still the winner. For me, the conditions were ideal for throwing today. Now I am anxious to return home and see my girl friend, and also compete in some of the games there (Germany). Also, I expect to return to Northeast Louisiana in January."

Men's Triple Jump first place finisher quotes:

Edrick Floreal, Arkansas

"I felt like I had a 57 or 58 (foot) in me today. I felt like I could have broken the record, but I made a few mistakes. I think I can be real competitive in the world now. I was really disappointed yesterday in the Long Jump. I had 5 fouls and wanted to get revenge and show the other guys what I could do. My next goal is to win both (the long jump and triple) at next year's national championship."

Team Scoring

Mike Stulce, Texas A & M

"My first throws felt weak. I decided to stay back and watch my technique. Technique-wise it was one of my worst throws. If I had used good technique, it would have been a good throw. This year I wanted to take it easy and relax. I wanted to get a good throw early and just relax after that."

David Wilson, UCLA, Second Place: "All week I didn't feel that well (ear infection). But when I got in the ring on my last throw, I thought I'm okay. I placed the shot on my neck and it felt good. It felt good to catch one on my last throw."

Quotes & Remarks:

Raymond Pierre, Baylor

"Tyrone Kemp runs a strong 300, and my coach said he would likely be ahead to that point. From what I saw yesterday, I knew he would do that. I wanted to save my strength and catch him the last 100 meters. When I came off the curve, I felt that I still had strength, and I was able to catch him. I wanted to pump my arms and lift my knees as hard as I could and catch him close to the tape. This is my last year and I really wanted to win. It seems like these freshmen are coming out of nowhere to push us. I also had a goal of getting under 45 seconds."

Tyrone Kemp, Florida, 2nd Place: "It was a good race. I did everything possible. My coach said to take it out and let him come get me. That's what happened. I'm upset that I didn't win, but it all I had. I knew Raymond (Pierre) would be my strongest competition since Lewis isn't here, and he just ran a better race today."

Hollis Conway, Southwestern LA

"It was raining when we came to Provo, and I wanted to go home. I always wanted the American record. I set goals for myself, and once I get them I move on. It felt great when I was on the mat, but then I started thinking about my next goal. I tried a lower height, but it's a big jump between 2.38 and 2.44, so you need another height in between. I try not to put a limit on how high I can jump. I try to go as high as I can. In high school, I went 7'2" but I was weak. I've gotten on the weights and I'm stronger now, but I have a long way to go. That's why I know I can go higher."

Charles Austin, Southwest Texas State, 2nd Place: "I feel great about placing second. Especially behind Hollis Conway, the Olympic champion. I feel great. My curve was off and I asked Hollis how to correct it. At 7'7" I was getting the height but I hit the bar under my arm. I was happy with my efforts, but it could have been better."

Quotes & Remarks:

Raymond Stewart, TCU

"I haven't lost yet in the 100 meters this year. I think it was a great race. I don't know if was wind-aided, but that doesn't matter because of the way I ran. The main objective was to end the college season with a win. This is something I can look back on 10 years from now. When I was warming up, Mitchell (the favorite who was disqualified in the preliminaries) said to me 'We'll in Zurich.'"

Augustine Olobia, Texas Southern, 2nd Place: "I'm very satisfied with second place. I had kind of an average start. This was my first complete 100 meters since the Texas relays. Luckily I did well. I figured to finish in the top six, but I didn't think I would take second."

Kip Cheruiyot, Mt. St. Marys

"I stayed behind early in the race. I didn't want to push because the wind would be too strong. I let the others break the wind. I started the move with about 500 meters to go. I really wanted to finish with Peter (Rono). It's no problem whether I win or he wins. Competition is like playing cards. Somebody wins today and somebody wins tomorrow."

Peter Rono, Mt. St. Marys, Second Place: "I expected the race to go a little faster. I knew it was a little slow and personally, I don't like slow races. If it were a fast race, Falcon would not have fallen. (Referring to the altitude) we both trained in Albuquerque. We wanted to win 1-2 so it doesn't matter to us as long as we finish that way. I felt sorry for Falcon."

Joe Falcon, Arkansas (who fell during race): "I was sitting on Peter's shoulder. Someone came up from behind and tripped me. I stumbled and then someone pushed me and I went down. He must have been very strong. I'm not hurt, just maybe my ego. It couldn't have been Peter because he was in front. I got back up to run, but my coach told me to stop. If they didn't throw a red flag, that's a crying shame. I'm disappointed. It's not how you want your career to end."

Quotes & Remarks:

Robert Reading, USC

"At the first hurdle, I noticed Cannon was ahead. I just chased and chased and chased him. He was still ahead at the tenth hurdle, so I just went all out to the tape. I don't know if I hit some hurdles. I saw him out of the corner of my eye, and gave it 100 plus percent. If I was tired, I didn't know it. I just wanted to win so bad. The time I ran was hard to grasp. I'm very excited."

Eric Cannon, Pittsburgh, 2nd Place: "Robert (Reading) is a strong runner. The race really began at the seventh hurdle. The taller hurdler won. We both wanted to give the other hurdlers in the country something to think about.. I thought if I could get over the last hurdle even with Robert, my foot speed could take him, but I lost my balance on the way down."

Marc Davis, Arizona

"I thought if I could just sit back, I knew I could get these guys. I knew I could do it if I dug down deep enough. I'm just running on adrenalin. It feels great at 19 years old and as a sophomore. I need this. I can't quit here. I didn't really know I could run as fast as I did this year. I thought coming into this 'I have a lot more championships to win.' I wanted to win, but second would have been okay. When tonight came around, going in I felt I could win. I just gave it a little more. I kept thinking if I had it open the last 100 meters, I'd still have to dig down deep. It was close, they knew I wanted to get it done, and I got it done."

John Nuttall, Iowa State, 2nd Place: "I thought this would be a tactical race because of the altitude. No one would want take it out. I thought it would come down to the last half mile and that's how it came out. I thought when I came around the last bend, I would make my move, but the other guy was stronger. "

Carla Garrett, Arizona

"That was very ironic. (By winning the discus, she become the second woman in the NCAA to do so; second only to her coach Meg Ritchie) Coming in I thought I could win, but not by this far. I'm very happy. I haven't the shot as much, mainly concentrating on the discus. It feels great. I can't even tell you. Usually if my discus is going well, my shot usually follows. (Talking about the time of day) It was a great time to throw, and this weather with hardly any wind, I love it. I'm pretty happy with the series. Today I was competing against myself. Subconsciously I probably thought about being second to Meg to win both because that probable won't ever happen again (a coach and an athletic) I had a little technical difficulty today, but everything ended up great."

Patty Purpur, Stanford, 2nd place. "My warmups felt really good. My first throw felt good, but after that I started pressing. Still I'm very happy I took second. This was a lot better than I threw at indoor nationals. I would have needed a big p.r. to win. I wanted to come out and have fun and I did."

Quotes & Remarks:

Natasha Kaiser, 2nd Place: "I felt pretty good about the race. I ran the first 200 a little slow, but then I came back in the second 200. I thought I was fourth or fifth, and then I said 'don't panic.' At that point, I knew I couldn't win, but I just wanted to finish strong. It's very easy to run the first 200 in this altitude. It's the last 200 that gets tough. I was trying to catch deeper breaths and then in the last 50 it got real tough."

Pauline Davis, Alabama

"I remember passing Natasha (Kaiser) just before the 200 meter mark. From then on, I couldn't see anyone and I tried to use my speed to push it down the straight away. I'm not used to running the 400 meters. I usually run the 100 or 200. I only ran the 400 once last year and this year once at the Drake relays."

Renita Robinson, Nebraska

"I had a terrific day. I had a personal record and probably the best series of my life. After my best jump, I didn't realize it was that far. I decided the markers were probably off a little bit and weren't giving us an accurate picture of the results. If I could have had a closer competition it would have helped me get into it. I was kind of sort after the trials, but finally got back into it in the finals."

Team Scoring

Kim Engel, Georgia

"I p.r.ed with a throw of 59.96. I knew it was good even before it hit the ground. The wind was a cross wind, which isn't really good. I throw to the right anyway, and it pushed my third throw out of bounds. I was in the first flight and was in first place. That was good because I was a little more relaxed. In the second flight, my coach told me to pass on all my throws unless someone passed me up because I have a sore shoulder. I was nervous because I didn't want to have to throw again and maybe hurt my shoulder."

Julia Solo, Virginia: (2nd Place, Javelin)

"I'm happy, but I'm a little disappointed, too. It was my last chance to win this meet, but she made a good throw to win. The wind didn't really upset me. I didn't feel as good as I did Thursday. My legs are a little tired and I was nervous. My throwing has gone very well during the last month, so I can't complain."

Quotes & Remarks:

Dawn Sowell, Louisiana State

"The race was technically all right, but I didn't feel explosive. I was trying for 10.6, but I knew I wasn't going to get it."

Esther Jones, 2nd Place. "I had a bad start. I don't know why I had such a bad start, but I accelerated well to the finish. It was a relaxing race, and it was nice for us to go one-two. Last year we were supposed to be top five and we won it. And sometimes favorites don't win. We just wanted to have good performances and personal bests, and let the rest take care of itself. We were looking forward to running well in the 4 x 100 and that kind of rolled over to today."

Suzanne Favor, Wisconsin

"My strategy was to go out and run a first lap at about 67 or 68 seconds. That went according to plan. Then I wanted to get away from the pack with about 600 meters to go and kick the rest of the way in. I could feel the pack behind me and that really helped. I didn't notice the altitude during the race, but I looked at the clock after and realized that it was a slower time even though I ran hard. This is a great way to end the season."

Rosalind Taylor, Maryland, 2nd Place. "My goal was to finish in the top two and I'm happy with that. I'm a little disappointed because after 800 I let the other two runners pull away. I was tentative and I should have gone with them. That's probably why I had so much left at the end. I stayed patient, and at three-quarters I just said I had to go as hard as I could."

Quotes & Remarks:

Tanajalyn Stanley, Louisiana State

"I knew we could wrap up the team championship if Cinnamon went 1-2. I had a very bad start and was left back in the blocks, but it made me work harder. Everyone has been saying that I run best in altitude. But I don't that is the reason. I'm confident of my own abilities. It didn't surprise me but Cinnamon jumped out in front. She has a really good start.

Cinnamon Sheffield, Louisiana State, 2nd Place: "The race was a real miracle. I knew it was good start. When the others came beside me after the fourth or fifth hurdle, I knew I had to keep up. The girl from Texas Southern came beside me and hit the hurdle. That made me relax a little. Tanajalyn and I talked about getting 1-2 because that would help the team. I also wanted to run under 13 seconds."

Valerie Mc Govern, Kentucky

"I felt confident the whole race. Going into the race, I didn't know the rest of the competition. It was like cat-and-mouse through the whole time. Even with 300 meters to go, I knew the kick was on. I put out all I had and could feel the UTEP girl behind me. When I was coming in, I looked to the side and saw a shadow. I knew it either hers or mine, but I couldn't tell so I decided I was going right then. Altitude had an effect on the time but it's really more psychological. I just get in and run my own race."

Tina Ljungberg, UTEP, 2nd Place: "It was a perfect race for me. I wanted to stay behind and go with the flow. You can't go out too fast because of the altitude. We train in altitude in El Paso, and our conference meet is usually held in altitudes. You can feel it when you breathe, but you just have to put it out of your mind. You always want to be first, and I tried to do my best when I ran, but she was just better."

Quotes & Remarks:

Dawn Sowell, Louisiana State

"The race was technically all right, but I didn't feel explosive. I was trying for 10.6, but I knew I wasn't going to get it."

Esther Jones, 2nd Place. "I had a bad start. I don't know why I had such a bad start, but I accelerated well to the finish. It was a relaxing race, and it was nice for us to go one-two. Last year we were supposed to be top five and we won it. And sometimes favorites don't win. We just wanted to have good performances and personal bests, and let the rest take care of itself. We were looking forward to running well in the 4 x 100 and that kind of rolled over to today."

Quotes & Remarks:

Dawn Sowell, Louisiana State

"It was a sloppy ending for me, but I ran better than usual around the turn. I had to run the turn hard. I wasn't paying attention to anyone around me. I was just concentrating on what I was doing. I wanted to run 21 seconds today, but that's okay; I'll take what I got."

2nd Place: Mary Onyali, Texas Southern: "I'm so happy with my time and my place. It's the second best besides the Olympics. I knew Dawn would make me run and I went with her. I had it in my mind to catch her but she was just stronger."

Quotes & Remarks:

Natasha Kaiser, 2nd Place: "I felt pretty good about the race. I ran the first 200 a little slow, but then I came back in the second 200. I thought I was fourth or fifth, and then I said 'don't panic.' At that point, I knew I couldn't win, but I just wanted to finish strong. It's very easy to run the first 200 in this altitude. It's the last 200 that gets tough. I was trying to catch deeper breaths and then in the last 50 it got real tough."

Pauline Davis, Alabama

"I remember passing Natasha (Kaiser) just before the 200 meter mark. From then on, I couldn't see anyone and I tried to use my speed to push it down the straight away. I'm not used to running the 400 meters. I usually run the 100 or 200. I only ran the 400 once last year and this year once at the Drake relays."

Suzanne Favor, Wisconsin

"My strategy was to go out and run a first lap at about 67 or 68 seconds. That went according to plan. Then I wanted to get away from the pack with about 600 meters to go and kick the rest of the way in. I could feel the pack behind me and that really helped. I didn't notice the altitude during the race, but I looked at the clock after and realized that it was a slower time even though I ran hard. This is a great way to end the season."

Rosalind Taylor, Maryland, 2nd Place. "My goal was to finish in the top two and I'm happy with that. I'm a little disappointed because after 800 I let the other two runners pull away. I was tentative and I should have gone with them. That's probably why I had so much left at the end. I stayed patient, and at three-quarters I just said I had to go as hard as I could."

Quotes & Remarks:

Vicki Huber, Villanova

"The last half mile was real hard. My legs felt like they didn't have anything in them. Then I heard the announcer say that the others had one lap to go and I felt safe. I kept telling myself 'the altitude is not a problem; the altitude is not a problem.' I was real nervous coming into this because this is my last NCAA meet. I went out in front after 600 meters because I felt the pace was too slow."

Valerie Mc Govern, Kentucky

"I felt confident the whole race. Going into the race, I didn't know the rest of the competition. It was like cat-and-mouse through the whole time. Even with 300 meters to go, I knew the kick was on. I put out all I had and could feel the UTEP girl behind me. When I was coming in, I looked to the side and saw a shadow. I knew it either hers or mine, but I couldn't tell so I decided I was going right then. Altitude had an effect on the time but it's really more psychological. I just get in and run my own race."

Tina Ljungberg, UTEP, 2nd Place: "It was a perfect race for me. I wanted to stay behind and go with the flow. You can't go out too fast because of the altitude. We train in altitude in El Paso, and our conference meet is usually held in altitudes. You can feel it when you breathe, but you just have to put it out of your mind. You always want to be first, and I tried to do my best when I ran, but she was just better."

Quotes & Remarks:

Tanjaly Stanley, Louisiana State

"I knew we could wrap up the team championship if Cinnamon went 1-2. I had a very bad start and was left back in the blocks, but it made me work harder. Everyone has been saying that I run best in altitude. But I don't that is the reason. I'm confident of my own abilities. It didn't surprise me but Cinnamon jumped out in front. She has a really good start.

Cinnamon Sheffield, Louisiana State, 2nd Place: "The race was a real miracle. I knew it was good start. When the others came beside me after the fourth or fifth hurdle, I knew I had to keep up. The girl from Texas Southern came beside me and hit the hurdle. That made me relax a little. Tanajalyn and I talked about getting 1-2 because that would help the team. I also wanted to run under 13 seconds."

Quotes & Remarks:

Janeene Vickers, UCLA

"I came off the blocks and knew the rest of the pack was flying. I wasn't sure what to do but I knew that if I didn't keep contact with them it would be over. But I didn't want to out too fast. I came off the curve and saw people still a stride and a half in front of me. I thought Linetta had the race won on the 10th hurdle but I saw her stutter-step. The key to this race is coming off the curve. It doesn't matter who is ahead at that point. The one who attacks the last hurdle is going to win."

Quotes & Remarks:

Melinda Clark, Texas A & M: "I was a little nervous on my third attempt at 1.85. I changed my approach on that jump and it worked. It was weird. I was weaving on my approach." Referring to her strategy of passing: "My foot hurt and I didn't want to jumptoo much. I have a soft tissue tear on my instep and I wanted to stay off it as much as possible." It was great coming back here and winning. My first effort at 1.88 was my best. I'm not disappointed at all especially considering my foot. I'd like to go to TAC but it all depends on my foot."

Connie Long, Wichita State, 2nd Place: "I liked the mountains in the background here. I look at them and then at the bar and it doesn't appear as significant a height." "I planned that at least 6'2" would win the competition. I had in my mind that if I could go 6'2" I could win it."

Renita Robinson, Nebraska

"I had a terrific day. I had a personal record and probably the best series of my life. After my best jump, I didn't realize it was that far. I decided the markers were probably off a little bit and weren't giving us an accurate picture of the results. If I could have had a closer competition it would have helped me get into it. I was kind of sort after the trials, but finally got back into it in the finals."

Carla Garrett, Arizona

"That was very ironic. (By winning the discus, she become the second woman in the NCAA to do so; second only to her coach Meg Ritchie) Coming in I thought I could win, but not by this far. I'm very happy. I haven't the shot as much, mainly concentrating on the discus. It feels great. I can't even tell you. Usually if my discus is going well, my shot usually follows. (Talking about the time of day) It was a great time to throw, and this weather with hardly any wind, I love it. I'm pretty happy with the series. Today I was competing against myself. Subconsciously I probably thought about being second to Meg to win both because that probable won't ever happen again (a coach and an athletic) I had a little technical difficulty today, but everything ended up great."

Patty Purpur, Stanford, 2nd place. "My warmups felt really good. My first throw felt good, but after that I started pressing. Still I'm very happy I took second. This was a lot better than I threw at indoor nationals. I would have needed a big p.r. to win. I wanted to come out and have fun and I did."

Quotes & Remarks:

Carla Garrett, Arizona

"I think it was good competition tonight, but it's hard throwing late at night because we have to sit around and let the anxiety build up in us. I was happy to win. I wanted to throw farther, but 190 is a good throw. So right now discus is my main event but I hope to win tomorrow also." (Also competing in the shotput)

Team Scoring

Kim Engel, Georgia

"I p.r.ed with a throw of 59.96. I knew it was good even before it hit the ground. The wind was a cross wind, which isn't really good. I throw to the right anyway, and it pushed my third throw out of bounds. I was in the first flight and was in first place. That was good because I was a little more relaxed. In the second flight, my coach told me to pass on all my throws unless someone passed me up because I have a sore shoulder. I was nervous because I didn't want to have to throw again and maybe hurt my shoulder."

Julia Solo, Virginia: (2nd Place, Javelin)

"I'm happy, but I'm a little disappointed, too. It was my last chance to win this meet, but she made a good throw to win. The wind didn't really upset me. I didn't feel as good as I did Thursday. My legs are a little tired and I was nervous. My throwing has gone very well during the last month, so I can't complain."

Quotes & Remarks:

Dawn Sowell, Louisiana State

"The race was technically all right, but I didn't feel explosive. I was trying for 10.6, but I knew I wasn't going to get it."

Esther Jones, 2nd Place. "I had a bad start. I don't know why I had such a bad start, but I accelerated well to the finish. It was a relaxing race, and it was nice for us to go one-two. Last year we were supposed to be top five and we won it. And sometimes favorites don't win. We just wanted to have good performances and personal bests, and let the rest take care of itself. We were looking forward to running well in the 4 x 100 and that kind of rolled over to today."

Quotes & Remarks:

Dawn Sowell, Louisiana State

"It was a sloppy ending for me, but I ran better than usual around the turn. I had to run the turn hard. I wasn't paying attention to anyone around me. I was just concentrating on what I was doing. I wanted to run 21 seconds today, but that's okay; I'll take what I got."

2nd Place: Mary Onyali, Texas Southern: "I'm so happy with my time and my place. It's the second best besides the Olympics. I knew Dawn would make me run and I went with her. I had it in my mind to catch her but she was just stronger."

Quotes & Remarks:

Natasha Kaiser, 2nd Place: "I felt pretty good about the race. I ran the first 200 a little slow, but then I came back in the second 200. I thought I was fourth or fifth, and then I said 'don't panic.' At that point, I knew I couldn't win, but I just wanted to finish strong. It's very easy to run the first 200 in this altitude. It's the last 200 that gets tough. I was trying to catch deeper breaths and then in the last 50 it got real tough."

Pauline Davis, Alabama

"I remember passing Natasha (Kaiser) just before the 200 meter mark. From then on, I couldn't see anyone and I tried to use my speed to push it down the straight away. I'm not used to running the 400 meters. I usually run the 100 or 200. I only ran the 400 once last year and this year once at the Drake relays."

Suzanne Favor, Wisconsin

"My strategy was to go out and run a first lap at about 67 or 68 seconds. That went according to plan. Then I wanted to get away from the pack with about 600 meters to go and kick the rest of the way in. I could feel the pack behind me and that really helped. I didn't notice the altitude during the race, but I looked at the clock after and realized that it was a slower time even though I ran hard. This is a great way to end the season."

Rosalind Taylor, Maryland, 2nd Place. "My goal was to finish in the top two and I'm happy with that. I'm a little disappointed because after 800 I let the other two runners pull away. I was tentative and I should have gone with them. That's probably why I had so much left at the end. I stayed patient, and at three-quarters I just said I had to go as hard as I could."

Quotes & Remarks:

Vicki Huber, Villanova

"The last half mile was real hard. My legs felt like they didn't have anything in them. Then I heard the announcer say that the others had one lap to go and I felt safe. I kept telling myself 'the altitude is not a problem; the altitude is not a problem.' I was real nervous coming into this because this is my last NCAA meet. I went out in front after 600 meters because I felt the pace was too slow."

Valerie Mc Govern, Kentucky

"I felt confident the whole race. Going into the race, I didn't know the rest of the competition. It was like cat-and-mouse through the whole time. Even with 300 meters to go, I knew the kick was on. I put out all I had and could feel the UTEP girl behind me. When I was coming in, I looked to the side and saw a shadow. I knew it either hers or mine, but I couldn't tell so I decided I was going right then. Altitude had an effect on the time but it's really more psychological. I just get in and run my own race."

Tina Ljungberg, UTEP, 2nd Place: "It was a perfect race for me. I wanted to stay behind and go with the flow. You can't go out too fast because of the altitude. We train in altitude in El Paso, and our conference meet is usually held in altitudes. You can feel it when you breathe, but you just have to put it out of your mind. You always want to be first, and I tried to do my best when I ran, but she was just better."

Quotes & Remarks:

Tanjalyln Stanley, Louisiana State

"I knew we could wrap up the team championship if Cinnamon went 1-2. I had a very bad start and was left back in the blocks, but it made me work harder. Everyone has been saying that I run best in altitude. But I don't that is the reason. I'm confident of my own abilities. It didn't surprise me but Cinnamon jumped out in front. She has a really good start.

Cinnamon Sheffield, Louisiana State, 2nd Place: "The race was a real miracle. I knew it was good start. When the others came beside me after the fourth or fifth hurdle, I knew I had to keep up. The girl from Texas Southern came beside me and hit the hurdle. That made me relax a little. Tanajalyn and I talked about getting 1-2 because that would help the team. I also wanted to run under 13 seconds."

Quotes & Remarks:

Janeene Vickers, UCLA

"I came off the blocks and knew the rest of the pack was flying. I wasn't sure what to do but I knew that if I didn't keep contact with them it would be over. But I didn't want to out too fast. I came off the curve and saw people still a stride and a half in front of me. I thought Linetta had the race won on the 10th hurdle but I saw her stutter-step. The key to this race is coming off the curve. It doesn't matter who is ahead at that point. The one who attacks the last hurdle is going to win."

Quotes & Remarks:

Kellie Roberts, representing Texas

"I think we all ran this race from our hearts. It was rough because we were coming off a tough three days of competition. But we knew we were the team to beat. All of us had had at least two or three races before tonight's race. Our handoffs were pretty smooth. We didn't have any problems."

Quotes & Remarks:

Melinda Clark, Texas A & M: "I was a little nervous on my third attempt at 1.85. I changed my approach on that jump and it worked. It was weird. I was weaving on my approach." Referring to her strategy of passing: "My foot hurt and I didn't want to jumptoo much. I have a soft tissue tear on my instep and I wanted to stay off it as much as possible." It was great coming back here and winning. My first effort at 1.88 was my best. I'm not disappointed at all especially considering my foot. I'd like to go to TAC but it all depends on my foot."

Connie Long, Wichita State, 2nd Pylace: "I liked the mountains in the background here. I look at them and then at the bar and it doesn't appear as significant a height." "I planned that at least 6'2" would win the competition. I had in my mind that if I could go 6'2" I could win it."

Team Scoring

Renita Robinson, Nebraska

"I had a terrific day. I had a personal record and probably the best series of my life. After my best jump, I didn't realize it was that far. I decided the markers were probably off a little bit and weren't giving us an accurate picture of the results. If I could have had a closer competition it would have helped me get into it. I was kind of sort after the trials, but finally got back into it in the finals."

Carla Garrett, Arizona

"That was very ironic. (By winning the discus, she became the second woman in the NCAA to do so; second only to her coach Meg Ritchie) Coming in I thought I could win, but not by this far. I'm very happy. I haven't the shot as much, mainly concentrating on the discus. It feels great. I can't even tell you. Usually if my discus is going well, my shot usually follows. (Talking about the time of day) It was a great time to throw, and this weather with hardly any wind, I love it. I'm pretty happy with the series. Today I was competing against myself. Subconsciously I probably thought about being second to Meg to win both because that probable won't ever happen again (a coach and an athletic) I had a little technical difficulty today, but everything ended up great."

Patty Purpur, Stanford, 2nd place. "My warmups felt really good. My first throw felt good, but after that I started pressing. Still I'm very happy I took second. This was a lot better than I threw at indoor nationals. I would have needed a big p.r. to win. I wanted to come out and have fun and I did."

Quotes & Remarks:

Carla Garrett, Arizona

"I think it was good competition tonight, but it's hard throwing late at night because we have to sit around and let the anxiety build up in us. I was happy to win. I wanted to throw farther, but 190 is a good throw. So right now discus is my main event but I hope to win tomorrow also." (Also competing in the shotput)

Kim Engel, Georgia

"I p.r.ed with a throw of 59.96. I knew it was good even before it hit the ground. The wind was a cross wind, which isn't really good. I throw to the right anyway, and it pushed my third throw out of bounds. I was in the first flight and was in first place. That was good because I was a little more relaxed. In the second flight, my coach told me to pass on all my throws unless someone passed me up because I have a sore shoulder. I was nervous because I didn't want to have to throw again and maybe hurt my shoulder."

Julia Solo, Virginia: (2nd Place, Javelin)

"I'm happy, but I'm a little disappointed, too. It was my last chance to win this meet, but she made a good throw to win. The wind didn't really upset me. I didn't feel as good as I did Thursday. My legs are a little tired and I was nervous. My throwing has gone very well during the last month, so I can't complain."

Quotes & Remarks:

Speaking for TCU, Horatio Porter

"All season long this is the one we've been waiting for. We worked on our handoffs yesterday, and it went really well. This is the smoothest our handoffs have gone all year."

Hollis Conway, Southwestern LA

"It was raining when we came to Provo, and I wanted to go home. I always wanted the American record. I set goals for myself, and once I get them I move on. It felt great when I was on the mat, but then I started thinking about my next goal. I tried a lower height, but it's a big jump between 2.38 and 2.44, so you need another height in between. I try not to put a limit on how high I can jump. I try to go as high as I can. In high school, I went 7'2" but I was weak. I've gotten on the weights and I'm stronger now, but I have a long way to go. That's why I know I can go higher."

Charles Austin, Southwest Texas State, 2nd Place: "I feel great about placing second. Especially behind Hollis Conway, the Olympic champion. I feel great. My curve was off and I asked Hollis how to correct it. At 7'7" I was getting the height but I hit the bar under my arm. I was happy with my efforts, but it could have been better."

Quotes & Remarks:

Tim Mc Michael, Oklahoma

"I used the same strategy that I used at other NCAA meets. I knew I had All-American when I cleared 17'10". After that it didn't matter whether I finished second or third. I had one miss at 17'6" and Pat (Manson) had none so I passed at 18'2" and made 18'6" on my first try. I was hurt at the airport (SLC) when I bent over to pick up my pole bag. My back locked up and I didn't know if I was even going to be able to qualify. But Ollie Julkenen (BYU trainer) fixed me up."

Joe Greene, Ohio State

"I have jumped over 26 feet 8 inches three times and it has always been windy. I don't know if Jesse Owens had a wind gauge back then (he broke Jesse Owen's school record for the long jump tonight but the wind was over the allowable 2.0 miles per hour). Everybody has 0. or 1. something but Joe Green has 2.04 in the wind. I could really hear the crowd. Usually when I jump the crowd does that."

Team Scoring

Mike Stulce, Texas A & M

"My first throws felt weak. I decided to stay back and watch my technique. Technique-wise it was one of my worst throws. If I had used good technique, it would have been a good throw. This year I wanted to take it easy and relax. I wanted to get a good throw early and just relax after that."

David Wilson, UCLA, Second Place: "All week I didn't feel that well (ear infection). But when I got in the ring on my last throw, I thought I'm okay. I placed the shot on my neck and it felt good. It felt good to catch one on my last throw."

Quotes & Remarks:

John Nicholas, Louisiana State

"I threw 60 meters. It was my last throw so I lucked out. The one before was only 193 feet so I decided to let it go all out and just try to stay in the ring. I was having trouble with my knee and just wanted to win really bad."

8	Houston	17

Quotes & Remarks: Christoph Kock, Northeast Louisiana:

"I worked very hard, especially after my knee surgery, to improve my skill this year, and I'm very happy to have won the championship. I set a goal for a personal best, and to win the NCAA meet. I fell short of the best, but fortunately I was still the winner. For me, the conditions were ideal for throwing today. Now I am anxious to return home and see my girl friend, and also compete in some of the games there (Germany). Also, I expect to return to Northeast Louisiana in January."

Patrik Boden, Texas, Javelin

"It was a good meet and I'm very happy. I was nervous and aware of Texas track tradition. I had only one good throw, but that was enough."

Temperature during event: 80°

2nd Place: Siggy Matthiasson, Alabama

Asked if he was disappointed in his throw, he answered: "No, I was not disappointed in the throw but was disappointed in the distance I lost by. This meet will be good for me and how I feel about throwing."

Quotes & Remarks:

Dennis Mitchell, Florida

"I wanted this race to be the most perfect I ever ran. I was disappointed with what happened yesterday and wanted to show the fans what I could do. I took all the days and hours of working out and put them into this one race. It turned out very well. I wanted this to be my best because this is my last NCAA tournament."

Temperature at conclusion of race: 76°

Quotes & Remarks:

Raymond Pierre, Baylor

"Tyrone Kemp runs a strong 300, and my coach said he would likely be ahead to that point. From what I saw yesterday, I knew he would do that. I wanted to save my strength and catch him the last 100 meters. When I came off the curve, I felt that I still had strength, and I was able to catch him. I wanted to pump my arms and lift my knees as hard as I could and catch him close to the tape. This is my last year and I really wanted to win. It seems like these freshmen are coming out of nowhere to push us. I also had a goal of getting under 45 seconds."

Tyrone Kemp, Florida, 2nd Place: "It was a good race. I did everything possible. My coach said to take it out and let him come get me. That's what happened. I'm upset that I didn't win, but it all I had. I knew Raymond (Pierre) would be my strongest competition since Lewis isn't here, and he just ran a better race today."

Kip Cheruiyot, Mt. St. Marys

"I stayed behind early in the race. I didn't want to push because the wind would be too strong. I let the others break the wind. I started the move with about 500 meters to go. I really wanted to finish with Peter (Rono). It's no problem whether I win or he wins. Competition is like playing cards. Somebody wins today and somebody wins tomorrow."

Peter Rono, Mt. St. Marys, Second Place: "I expected the race to go a little faster. I knew it was a little slow and personally, I don't like slow races. If it were a fast race, Falcon would not have fallen. (Referring to the altitude) we both trained in Albuquerque. We wanted to win 1-2 so it doesn't matter to us as long as we finish that way. I felt sorry for Falcon."

Joe Falcon, Arkansas (who fell during race): "I was sitting on Peter's shoulder. Someone came up from behind and tripped me. I stumbled and then someone pushed me and I went down. He must have been very strong. I'm not hurt, just maybe my ego. It couldn't have been Peter because he was in front. I got back up to run, but my coach told me to stop. If they didn't throw a red flag, that's a crying shame. I'm disappointed. It's not how you want your career to end."

Marc Davis, Arizona

"I thought if I could just sit back, I knew I could get these guys. I knew I could do it if I dug down deep enough. I'm just running on adrenalin. It feels great at 19 years old and as a sophomore. I need this. I can't quit here. I didn't really know I could run as fast as I did this year. I thought coming into this 'I have a lot more championships to win.' I wanted to win, but second would have been okay. When tonight came around, going in I felt I could win. I just gave it a little more. I kept thinking if I had it open the last 100 meters, I'd still have to dig down deep. It was close, they knew I wanted to get it done, and I got it done."

John Nuttall, Iowa State, 2nd Place: "I thought this would be a tactical race because of the altitude. No one would want take it out. I thought it would come down to the last half mile and that's how it came out. I thought when I came around the last bend, I would make my move, but the other guy was stronger."

John Scherer, Michigan

"I wasn't planning on leading until the end of the race. Harry Green took off early and luckily there were others who wanted to go out after him. With the split board we could see his splits and ours so I knew I was catching him. I tried not to think about the altitude. It's not so high that it's going to make that much of a difference."

Quotes & Remarks:

Robert Reading, USC

"At the first hurdle, I noticed Cannon was ahead. I just chased and chased and chased him. He was still ahead at the tenth hurdle, so I just went all out to the tape. I don't know if I hit some hurdles. I saw him out of the corner of my eye, and gave it 100 plus percent. If I was tired, I didn't know it. I just wanted to win so bad. The time I ran was hard to grasp. I'm very excited."

Eric Cannon, Pittsburgh, 2nd Place: "Robert (Reading) is a strong runner. The race really began at the seventh hurdle. The taller hurdler won. We both wanted to give the other hurdlers in the country something to think about.. I thought if I could get over the last hurdle even with Robert, my foot speed could take him, but I lost my balance on the way down."

Quotes & Remarks:

Winthrop Graham, Texas

"I'd been preparing for this race all year both mentally and physically. When the gun went off, I just did my job. I had no problems during the race. I was worried about my leg and I switched my blocks around to protect by strained left leg. Usually I take the first few hurdles leading with my left but today I led with my right. I couldn't tell where anyone was. I blocked them out and concentrated on each hurdle. One problem I had in the past is looking around at what the others are doing. This definitely made up for last year. My dream was to come back this year and win this race.

Patrick McGhee, Iowa. "My strategy was to not to come out too strong. I knew the other guys would be pressing. I guess it worked because I caught Porter at the end. I was happy with my finish but I still need some more conditioning."

Hollis Conway, Southwestern LA

"It was raining when we came to Provo, and I wanted to go home. I always wanted the American record. I set goals for myself, and once I get them I move on. It felt great when I was on the mat, but then I started thinking about my next goal. I tried a lower height, but it's a big jump between 2.38 and 2.44, so you need another height in between. I try not to put a limit on how high I can jump. I try to go as high as I can. In high school, I went 7'2" but I was weak. I've gotten on the weights and I'm stronger now, but I have a long way to go. That's why I know I can go higher."

Charles Austin, Southwest Texas State, 2nd Place: "I feel great about placing second. Especially behind Hollis Conway, the Olympic champion. I feel great. My curve was off and I asked Hollis how to correct it. At 7'7" I was getting the height but I hit the bar under my arm. I was happy with my efforts, but it could have been better."

Quotes & Remarks:

Tim Mc Michael, Oklahoma

"I used the same strategy that I used at other NCAA meets. I knew I had All-American when I cleared 17'10". After that it didn't matter whether I finished second or third. I had one miss at 17'6" and Pat (Manson) had none so I passed at 18'2" and made 18'6" on my first try. I was hurt at the airport (SLC) when I bent over to pick up my pole bag. My back locked up and I didn't know if I was even going to be able to qualify. But Ollie Julkenen (BYU trainer) fixed me up."

Joe Greene, Ohio State

"I have jumped over 26 feet 8 inches three times and it has always been windy. I don't know if Jesse Owens had a wind gauge back then (he broke Jesse Owen's school record for the long jump tonight but the wind was over the allowable 2.0 miles per hour). Everybody has 0. or 1. something but Joe Green has 2.04 in the wind. I could really hear the crowd. Usually when I jump the crowd does that."

Team Scoring

Mike Stulce, Texas A & M

"My first throws felt weak. I decided to stay back and watch my technique. Technique-wise it was one of my worst throws. If I had used good technique, it would have been a good throw. This year I wanted to take it easy and relax. I wanted to get a good throw early and just relax after that."

David Wilson, UCLA, Second Place: "All week I didn't feel that well (ear infection). But when I got in the ring on my last throw, I thought I'm okay. I placed the shot on my neck and it felt good. It felt good to catch one on my last throw."

Quotes & Remarks:

John Nicholas, Louisiana State

"I threw 60 meters. It was my last throw so I lucked out. The one before was only 193 feet so I decided to let it go all out and just try to stay in the ring. I was having trouble with my knee and just wanted to win really bad."

Quotes & Remarks: Christoph Kock, Northeast Louisiana:

"I worked very hard, especially after my knee surgery, to improve my skill this year, and I'm very happy to have won the championship. I set a goal for a personal best, and to win the NCAA meet. I fell short of the best, but fortunately I was still the winner. For me, the conditions were ideal for throwing today. Now I am anxious to return home and see my girl friend, and also compete in some of the games there (Germany). Also, I expect to return to Northeast Louisiana in January."

Patrik Boden, Texas, Javelin

"It was a good meet and I'm very happy. I was nervous and aware of Texas track tradition. I had only one good throw, but that was enough."

Temperature during event: 80°

2nd Place: Siggy Matthiasson, Alabama

Asked if he was disappointed in his throw, he answered: "No, I was not disappointed in the throw but was disappointed in the distance I lost by. This meet will be good for me and how I feel about throwing."

Quotes & Remarks:

Raymond Stewart, TCU

"I haven't lost yet in the 100 meters this year. I think it was a great race. I don't know if was wind-aided, but that doesn't matter because of the way I ran. The main objective was to end the college season with a win. This is something I can look back on 10 years from now. When I was warming up, Mitchell (the favorite who was disqualified in the preliminaries) said to me 'We'll in Zurich.'"

Augustine Olobia, Texas Southern, 2nd Place: "I'm very satisfied with second place. I had kind of an average start. This was my first complete 100 meters since the Texas relays. Luckily I did well. I figured to finish in the top six, but I didn't think I would take second."

Quotes & Remarks:

Dennis Mitchell, Florida

"I wanted this race to be the most perfect I ever ran. I was disappointed with what happened yesterday and wanted to show the fans what I could do. I took all the days and hours of working out and put them into this one race. It turned out very well. I wanted this to be my best because this is my last NCAA tournament."

Temperature at conclusion of race: 76°

Quotes & Remarks:

Raymond Pierre, Baylor

"Tyrone Kemp runs a strong 300, and my coach said he would likely be ahead to that point. From what I saw yesterday, I knew he would do that. I wanted to save my strength and catch him the last 100 meters. When I came off the curve, I felt that I still had strength, and I was able to catch him. I wanted to pump my arms and lift my knees as hard as I could and catch him close to the tape. This is my last year and I really wanted to win. It seems like these freshmen are coming out of nowhere to push us. I also had a goal of getting under 45 seconds."

Tyrone Kemp, Florida, 2nd Place: "It was a good race. I did everything possible. My coach said to take it out and let him come get me. That's what happened. I'm upset that I didn't win, but it all I had. I knew Raymond (Pierre) would be my strongest competition since Lewis isn't here, and he just ran a better race today."

Kip Cheruiyot, Mt. St. Marys

"I stayed behind early in the race. I didn't want to push because the wind would be too strong. I let the others break the wind. I started the move with about 500 meters to go. I really wanted to finish with Peter (Rono). It's no problem whether I win or he wins. Competition is like playing cards. Somebody wins today and somebody wins tomorrow."

Peter Rono, Mt. St. Marys, Second Place: "I expected the race to go a little faster. I knew it was a little slow and personally, I don't like slow races. If it were a fast race, Falcon would not have fallen. (Referring to the altitude) we both trained in Albuquerque. We wanted to win 1-2 so it doesn't matter to us as long as we finish that way. I felt sorry for Falcon."

Joe Falcon, Arkansas (who fell during race): "I was sitting on Peter's shoulder. Someone came up from behind and tripped me. I stumbled and then someone pushed me and I went down. He must have been very strong. I'm not hurt, just maybe my ego. It couldn't have been Peter because he was in front. I got back up to run, but my coach told me to stop. If they didn't throw a red flag, that's a crying shame. I'm disappointed. It's not how you want your career to end."

Marc Davis, Arizona

"I thought if I could just sit back, I knew I could get these guys. I knew I could do it if I dug down deep enough. I'm just running on adrenalin. It feels great at 19 years old and as a sophomore. I need this. I can't quit here. I didn't really know I could run as fast as I did this year. I thought coming into this 'I have a lot more championships to win.' I wanted to win, but second would have been okay. When tonight came around, going in I felt I could win. I just gave it a little more. I kept thinking if I had it open the last 100 meters, I'd still have to dig down deep. It was close, they knew I wanted to get it done, and I got it done."

John Nuttall, Iowa State, 2nd Place: "I thought this would be a tactical race because of the altitude. No one would want take it out. I thought it would come down to the last half mile and that's how it came out. I thought when I came around the last bend, I would make my move, but the other guy was stronger. "

"I wasn't planning on leading until the end of the race. Harry Green took off early and luckily there were others who wanted to go out after him. With the split board we could see his splits and ours so I knew I was catching him. I tried not to think about the altitude. It's not so high that it's going to make that much of a difference."

Quotes & Remarks:

Robert Reading, USC

"At the first hurdle, I noticed Cannon was ahead. I just chased and chased and chased him. He was still ahead at the tenth hurdle, so I just went all out to the tape. I don't know if I hit some hurdles. I saw him out of the corner of my eye, and gave it 100 plus percent. If I was tired, I didn't know it. I just wanted to win so bad. The time I ran was hard to grasp. I'm very excited."

Eric Cannon, Pittsburgh, 2nd Place: "Robert (Reading) is a strong runner. The race really began at the seventh hurdle. The taller hurdler won. We both wanted to give the other hurdlers in the country something to think about.. I thought if I could get over the last hurdle even with Robert, my foot speed could take him, but I lost my balance on the way down."

Quotes & Remarks:

Winthrop Graham, Texas

"I'd been preparing for this race all year both mentally and physically. When the gun went off, I just did my job. I had no problems during the race. I was worried about my leg and I switched my blocks around to protect by strained left leg. Usually I take the first few hurdles leading with my left but today I led with my right. I couldn't tell where anyone was. I blocked them out and concentrated on each hurdle. One problem I had in the past is looking around at what the others are doing. This definitely made up for last year. My dream was to come back this year and win this race."

Patrick McGhee, Iowa. "My strategy was to not to come out too strong. I knew the other guys would be pressing. I guess it worked because I caught Porter at the end. I was happy with my finish but I still need some more conditioning."

Quotes & Remarks:

Speaking for TCU, Horatio Porter

"All season long this is the one we've been waiting for. We worked on our handoffs yesterday, and it went really well. This is the smoothest our handoffs have gone all year."

RECORDS SET AT 1989 NCAA TRACK AND FIELD CHAMPIONSHIPS

American Record (1)

High Jump Mens [Finals]--1, Hollis Conway, Southwestern La., 7-09 3/4, American record; old record 7-9 1/4, Tom McCants, Unattached, 1988, Jerome Carterm, Una, 1988, Hollis Conway, Southwestern La, 1989.

NCAA Records (4)

200-Meter Womens [Finals]--1, Dawn Sowell, Louisiana St., 22.04, NCAA record, old record 22.17, Merlene Ottey-Page, Nebraska, 1982.

4x100-Meter Relay Womens [Finals]--1, Louisiana St., Tananjalyln Stanley, Dawn Sowell, Cinnamon Sheffield, Esther Jones, 42.50, old record 42.94, Florida St., June 4, 1983.

4x100-Meter Relay Mens [Finals]--1, Texas Christian, Andrew Smith, Horatio Porter, Raymond Stewart, Greg Sholars, 38.23, NCAA record; old record 38.46, TCU, 1986.

100-Meter Womens [Finals]--1, Dawn Sowell, Louisiana St., 10.78, NCAA record; old record 10.93, Dawn Sowell, LSU, 1989. Also betters her NCAA meet record set earlier (6/1/89) in **100-Meter Womens [Trials] Heat #1--1**, Dawn Sowell, Louisiana St., 11.07, NCAA meet record; old record 11.12, Gail Deyers, UCLA, June 5, 1986.

NCAA Meet Records (3)

Pole Vault Mens [Finals] Flight--1, Tim McMichael, Oklahoma, 18-06 1/2, NCAA meet record, old record 18-6, Joe Dial, Oklahoma State, May 31, 1985.

Long Jump Mens [Finals]--2, Leroy Burrell, Houston, [+0.36], 27-05 1/2, NCAA meet record, old record 27-2, Mike Conley, Arkansas, May 31, 1985. Note, Joe Greene of Ohio St. won this event, but because the wind was at +2.04, his leap of 27-07 1/4 does not count for a record.

400-Meter Womens [Finals]--1, Pauline Davis, Alabama, 50.18, NCAA meet record; old record 50.90, Lillie Leatherwood-King, Alabama, June 6, 1987.

Stadium Records (15)

400-Meter Womens [Finals]--1, Pauline Davis, Alabama, 50.18, old record 51.21 Charaine Crooks, Canada, 1986.

Triple Jump Womens [Finals]--1, Renita Robinson, Nebraska, [+3.34], 44-07 1/2, old record 39-8 3/4 Judy Hair, BYU, 1986.

Shot Put Mens [Finals]--1, Mike Stulce, Texas A&M, 68-11 3/4, old record 68 4 1/2 Dean Crouser, Oregon, June 5, 1982.

400-Meter Mens [Finals]--1, Raymond Pierre, Baylor, 44.59, old record 45.47 Kasheef Hassan, Oregon State, June 5, 1982.

1500-Meters Mens [Finals]--1, S. Kip Cheruiyot, Mt. St. Mary's (Md.), 3:42.06, old record 3:45.42 Jim Spivey, Indiana, June 5, 1982.

100-Meter Hurdles Womens [Finals]--1, Tananjalyln Stanley, Louisiana St., 12.70, old record 12.80 Julie Rocheleau, Canada, May 21, 1988.

5000-Meter Mens [Finals]--1, Marc Davis, Arizona, 14:07.88, old record 14:14.86 Gidamis Shahanga, UTEP, June 5, 1982.

4x400-Meter Relay Mens [Finals]--1, Texas A&M, Stanley Kerr, Errington Lindo, Derrick Florence, Howard Davis. 3:00.91. 2, Baylor, 3:02.73, old record 3:02.60, Texas A & M, June 1, 1989.

Decathlon [Finals]--1, Derek Huff, Arizona, 8020, old record 7770 Trond Skramstad, Mt. St. Mary's, 1982.

Discus Mens [Finals]--1, John Nichols, Louisiana St., 208-01, old record 207-7 Dean Crouser, Oregon, 1982.

200-Meter Mens [Finals]--1, Dennis Mitchell, Florida, 20.09, old record 20.15 Mike Miller, Tennessee, 1982.

400-Meter Hurdles Womens [Finals]--1, Janeene Vickers, UCLA, 55.27, old record 55.83 Linetta Wilson, Nebraska, May 31, 1989.

800-Meter Mens [Finals]--1, Paul Ereng, Virginia, 1:47.50, old record 1:48.00 Dave Mack, Oregon, 1982.

3000-Meter Womens [Finals]--1, Vicki Huber, Villanova, 9:06.96, old record 9:28.92 Ceci Hopp, Stanford, 1982.

110-Meter Hurdles Mens [Trials] Heat #1--1, Robert Reading, Southern Cal., 13.42, old record 13.53, Milan Stewart, Southern Cal, 1982.7

Derek Huff, Arizona

"I wanted this for such a long time, and I'm glad I had to run a touch 1500. I knew it would be close. This has been a dream for awhile, and I wanted a winner. About Desilva, I had to beat him by a 100 meters, and I just wanted to make sure. I've always dreamed it would be in the 1500, and I kept thinking, this is how it's supposed to be. I had to do my best in my worst event. I'm very happy with my finish in the 1500. This was the only way I wanted to finish. I set my mind to it and it was something I had to do before I completed my college career. The score was secondary, I just wanted to win."

Pedro Desilva, Oregon. 2nd Place. "I was doing fine until the pole vault. That's where I messed up. I had problems with my technique. I should have started higher because I'm not consistent. But I felt good. I'm pleased with the fact that I was able to complete. My first intention at this meet was to finish. I took it easy the last few days and just gave my all. I talked to my coach when I joined the team and we decided that my best shot would be at this meet. I can assure you I'd be much different with more training."

Quotes & Remarks:

John Nicholas, Louisiana State

"I threw 60 meters. It was my last throw so I lucked out. The one before was only 193 feet so I decided to let it go all out and just try to stay in the ring. I was having trouble with my knee and just wanted to win really bad."

Quotes & Remarks: Christoph Kock, Northeast Louisiana:

"I worked very hard, especially after my knee surgery, to improve my skill this year, and I'm very happy to have won the championship. I set a goal for a personal best, and to win the NCAA meet. I fell short of the best, but fortunately I was still the winner. For me, the conditions were ideal for throwing today. Now I am anxious to return home and see my girl friend, and also compete in some of the games there (Germany). Also, I expect to return to Northeast Louisiana in January."

Quotes & Remarks:

Hollis Conway, Southwestern LA

"It was raining when we came to Provo, and I wanted to go home. I always wanted the American record. I set goals for myself, and once I get them I move on. It felt great when I was on the mat, but then I started thinking about my next goal. I tried a lower height, but it's a big jump between 2.38 and 2.44, so you need another height in between. I try not to put a limit on how high I can jump. I try to go as high as I can. In high school, I went 7'2" but I was weak. I've gotten on the weights and I'm stronger now, but I have a long way to go. That's why I know I can go higher."

Joe Greene, Ohio State

"I have jumped over 26 feet 8 inches three times and it has always been windy. I don't know if Jesse Owens had a wind gauge back then (he broke Jesse Owen's school record for the long jump tonight but the wind was over the allowable 2.0 miles per hour). Everybody has 0. or 1. something but Joe Green has 2.04 in the wind. I could really hear the crowd. Usually when I jump the crowd does that."

Quotes & Remarks:

Tim Mc Michael, Oklahoma

"I used the same strategy that I used at other NCAA meets. I knew I had All-American when I cleared 17'10". After that it didn't matter whether I finished second or third. I had one miss at 17'6" and Pat (Manson) had none so I passed at 18'2" and made 18'6" on my first try. I was hurt at the airport (SLC) when I bent over to pick up my pole bag. My back locked up and I didn't know if I was even going to be able to qualify. But Ollie Julkenen (BYU trainer) fixed me up."

Quotes & Remarks:

Mike Stulce, Texas A & M

"My first throws felt weak. I decided to stay back and watch my technique. Technique-wise it was one of my worst throws. If I had used good technique, it would have been a good throw. This year I wanted to take it easy and relax. I wanted to get a good throw early and just relax after that."

Edrick Floreal, Arkansas

"I felt like I had a 57 or 58 (foot) in me today. I felt like I could have broken the record, but I made a few mistakes. I think I can be real competitive in the world now. I was really disappointed yesterday in the Long Jump. I had 5 fouls and wanted to get revenge and show the other guys what I could do. My next goal is to win both (the longjump and triple) at next year's national championship."

1	"I haven't lost yet in the 100 meters this year. I think it was a great race. I don't know if was wind-aided, but that doesn't matter because of the way I ran. The main objective was to end the college season with a win. This is something I can look back on 10 years from now. When I was warming up, Mitchell (the favorite who was disqualified in the preliminaries) said to me 'We'll in Zurich.'"

"At the first hurdle, I noticed Cannon was ahead. I just chased and chased and chased him. He was still ahead at the tenth hurdle, so I just went all out to the tape. I don't know if I hit some hurdles. I saw him out of the corner of my eye. and gave it 100 plus percent. If I was tired, I didn't know it. I just wanted to win so bad. The time I ran was hard to grasp. I'm very excited."

Raymond Pierre, Baylor

"Tyrone Kemp runs a strong 300, and my coach said he would likely be ahead to that point. From what I saw yesterday, I knew he would do that. I wanted to save my strength and catch him the last 100 meters. When I came off the curve, I felt that I still had strength, and I was able to catch him. I wanted to pump my arms and lift my knees as hard as I could and catch him close to the tape. This is my last year and I really wanted to win. It seems like these freshmen are coming out of nowhere to push us. I also had a goal of getting under 45 seconds."

"I'd been preparing for this race all year both mentally and physically. When the gun went off, I just did my job. I had no problems during the race. I was worried about my leg and I switched my blocks around to protect by strained left leg. Usually I take the first few hurdles leading with my left but today I led with my right. I couldn't tell where anyone was. I blocked them out and concentrated on each hurdle. One problem I had in the past is looking around at what the others are doing. This definitely made up for last year. My dream was to come back this year and win this race."

Kip Cheruiyot, Mt. St. Marys

"I stayed behind early in the race. I didn't want to push because the wind would be too strong. I let the others break the wind. I started the move with about 500 meters to go. I really wanted to finish with Peter (Rono). It's no problem whether I win or he wins. Competition is like playing cards. Somebody wins today and somebody wins tomorrow."

Peter Rono, Mt. St. Marys, Second Place: "I expected the race to go a little faster. I knew it was a little slow and personally, I don't like slow races. If it were a fast race, Falcon would not have fallen. (Referring to the altitude) we both trained in Albuquerque. We wanted to win 1-2 so it doesn't matter to us as long as we finish that way. I felt sorry for Falcon."

Joe Falcon, Arkansas (who fell during race): "I was sitting on Peter's shoulder. Someone came up from behind and tripped me. I stumbled and then someone pushed me and I went down. He must have been very strong. I'm not hurt, just maybe my ego. It couldn't have been Peter because he was in front. I got back up to run, but my coach told me to stop. If they didn't throw a red flag, that's a crying shame. I'm disappointed. It's not how you want your career to end."

Marc Davis, Arizona

"I thought if I could just sit back, I knew I could get these guys. I knew I could do it if I dug down deep enough. I'm just running on adrenalin. It feels great at 19 years old and as a sophomore. I need this. I can't quit here. I didn't really know I could run as fast as I did this year. I thought coming into this 'I have a lot more championships to win.' I wanted to win, but second would have been okay. When tonight came around, going in I felt I could win. I just gave it a little more. I kept thinking if I had it open the last 100 meters, I'd still have to dig down deep. It was close, they knew I wanted to get it done, and I got it done."

John Nuttall, Iowa State, 2nd Place: "I thought this would be a tactical race because of the altitude. No one would want take it out. I thought it would come down to the last half mile and that's how it came out. I thought when I came around the last bend, I would make my move, but the other guy was stronger. "

19	BARQUIST, Brad	Michigan	DNC
20	MARKEZICH, Ron	Notre Dame	DNC
21	MORGAN, Chris	Arizona	DNC

John Scherer, Michigan

"I wasn't planning on leading until the end of the race. Harry Green took off early and luckily there were others who wanted to go out after him. With the split board we could see his splits and ours so I knew I was catching him. I tried not to think about the altitude. It's not so high that it's going to make that much of a difference."

Quotes & Remarks:

Speaking for TCU, Horatio Porter

"All season long this is the one we've been waiting for. We worked on our handoffs yesterday, and it went really well. This is the smoothest our handoffs have gone all year."

Quotes & Remarks:

Carla Garrett, Arizona

"I think it was good competition tonight, but it's hard throwing late at night because we have to sit around and let the anxiety build up in us. I was happy to win. I wanted to throw farther, but 190 is a good throw. So right now discus is my main event but I hope to win tomorrow also." (Also competing in the shotput)

Quotes & Remarks:

Melinda Clark, Texas A & M: "I was a little nervous on my third attempt at 1.85. I changed my approach on that jump and it worked. It was weird. I was weaving on my approach." Referring to her strategy of passing: "My foot hurt and I didn't want to jumptoo much. I have a soft tissue tear on my instep and I wanted to stay off it as much as possible." It was great coming back here and winning. My first effort at 1.88 was my best. I'm not disappointed at all especially considering my foot. I'd like to go to TAC but it all depends on my foot."

Quotes & Remarks:

Kim Engel, Georgia

"I p.r.ed with a throw of 59.96. I knew it was good even before it hit the ground. The wind was a cross wind, which isn't really good. I throw to the right anyway, and it pushed my third throw out of bounds. I was in the first flight and was in first place. That was good because I was a little more relaxed. In the second flight, my coach told me to pass on all my throws unless someone passed me up because I have a sore shoulder. I was nervous because I didn't want to have to throw again and maybe hurt my shoulder."

Quotes & Remarks:

Carla Garrett, Arizona

"That was very ironic. (By winning the discus, she become the second woman in the NCAA to do so; second only to her coach Meg Ritchie) Coming in I thought I could win, but not by this far. I'm very happy. I haven't the shot as much, mainly concentrating on the discus. It feels great. I can't even tell you. Usually if my discus is going well, my shot usually follows. (Talking about the time of day) It was a great time to throw, and this weather with hardly any wind, I love it. I'm pretty happy with the series. Today I was competing against myself. Subconsciously I probably thought about being second to Meg to win both because that probable won't ever happen again (a coach and an athletic) I had a little technical difficulty today, but everything ended up great."

Renita Robinson, Nebraska

"I had a terrific day. I had a personal record and probably the best series of my life. After my best jump, I didn't realize it was that far. I decided the markers were probably off a little bit and weren't giving us an accurate picture of the results. If I could have had a closer competition it would have helped me get into it. I was kind of sort after the trials, but finally got back into it in the finals."

"I knew we could wrap up the team championship if Cinnamon went 1-2. I had a very bad start and was left back in the blocks, but it made me work harder. Everyone has been saying that I run best in altitude. But I don't that is the reason. I'm confident of my own abilities. It didn't surprise me but Cinnamon jumped out in front. She has a really good start.

"It was a sloppy ending for me, but I ran better than usual around the turn. I had to run the turn hard. I wasn't paying attention to anyone around me. I was just concentrating on what I was doing. I wanted to run 21 seconds today, but that's okay; I'll take what I got."

"I remember passing Natasha (Kaiser) just before the 200 meter mark. From then on, I couldn't see anyone and I tried to use my speed to push it down the straight away. I'm not used to running the 400 meters. I usually run the 100 or 200. I only ran the 400 once last year and this year once at the Drake relays."

Janeene Vickers, UCLA

"I came off the blocks and knew the rest of the pack was flying. I wasn't sure what to do but I knew that if I didn't keep contact with them it would be over. But I didn't want to out too fast. I came off the curve and saw people still a stride and a half in front of me. I thought Linetta had the race won on the 10th hurdle but I saw her stutter-step. The key to this race is coming off the curve. It doesn't matter who is ahead at that point. The one who attacks the last hurdle is going to win."

Suzanne Favor, Wisconsin

"My strategy was to go out and run a first lap at about 67 or 68 seconds. That went according to plan. Then I wanted to get away from the pack with about 600 meters to go and kick the rest of the way in. I could feel the pack behind me and that really helped. I didn't notice the altitude during the race, but I looked at the clock after and realized that it was a slower time even though I ran hard. This is a great way to end the season."

Vicki Huber, Villanova

"The last half mile was real hard. My legs felt like they didn't have anything in them. Then I heard the announcer say that the others had one lap to go and I felt safe. I kept telling myself 'the altitude is not a problem; the altitude is not a problem.' I was real nervous coming into this because this is my last NCAA meet. I went out in front after 600 meters because I felt the pace was too slow."

Valerie Mc Govern, Kentucky

"I felt confident the whole race. Going into the race, I didn't know the rest of the competition. It was like cat-and-mouse through the whole time. Even with 300 meters to go, I knew the kick was on. I put out all I had and could feel the UTEP girl behind me. When I was coming in, I looked to the side and saw a shadow. I knew it either hers or mine, but I couldn't tell so I decided I was going right then. Altitude had an effect on the time but it's really more psychological. I just get in and run my own race."

Jackie Goodman, Oklahoma State, first winner (10,000m) of this year's NCAAAs.

"I'm pleased with the result."

"I used surges, under the coach's direction, to shake the others. I was worried after the last surge."

"It's a national meet and I expected it to be a tough race--and it was."

"My goal was to win the 10,000 and then see what happens at 5,000." (This was only her third ever 10,000.)

"I didn't really notice the altitude."

Quotes & Remarks:

Dawn Sowell, LSU, speaking for Women's 4 x 100m

"We talked about breaking the collegiate record all year. Our freshman ran 13.1 split which was great. Our handoffs were much better than in the preliminaries. We worked on them two days ago."

Quotes & Remarks:

Kellie Roberts, representing Texas

"I think we all ran this race from our hearts. It was rough because we were coming off a tough three days of competition. But we knew we were the team to beat. All of us had had at least two or three races before tonight's race. Our handoffs were pretty smooth. We didn't have any problems."

THANKS TO APPLE COMPUTER CORP.

The Apple Computer Corporation has donated a considerable amount of money to Brigham Young University for the development and application of the Track and Field Management System (Scoreboard™). Without their gracious help and financial support with both hardware and software, the development of the Track and Field Management System would have been impossible.

Special thanks to:

Mark Linnel, Arne Anderson, Peter Lycurgus,
Rusty Wilson and Katie Povejsil

Apple Computer Corporation
