HEAD COACH - JoAnne Graf

In three years as head coach of the softball team, JoAnne Graf has pushed Florida State into the national spotlight. A three-year record of 113-32 (a .779 winning percentage) and three state championships is overshadowed only by this season's accomplishments: a 50-7 record--best in the school's history--and first place finishes in the state and regional tournaments. In addition, Florida State is ranked number one in the nation. For her efforts, Graf was recently named Coach of the Year in Florida.

Graf, a 1975 graduate of Florida State, returned to her alma mater as head coach in 1978. Prior to that, Graf was earning her master's degree in physical education at North Carolina-Greensboro while coaching three sports teams. She was the head coach of the men's and women's swimming teams and assistant softball coach.

While an undergraduate at Florida State, Graf was a member of both the tennis and softball teams. She served as a co-captain for the 1974 and 1975 softball squads that finished second in the state tournament.

Graf is the national softball chairperson for the AIAW and is serving a two-year term as Region III softball chairperson.

SEASON SUMMARY

Florida State head coach JoAnne Graf will always remember this season--not because what it should have been but what it turned out to be. It was a season that should have been of the rebuilding nature, but seldom do those types of seasons show a 50-7 record, first place finishes in both state and regional tournaments and a number one national ranking. It wasn't suppose to be, but the Seminoles find themselves at the top of the collegiate slow pitch softball world.

Graf's starting lineup includes two freshmen and four transfer students. Furthermore, consider that of ten starters, only outfielder Linda Tyrrell had put in more than one year in a Seminole uniform before the season had started. Tyrrell became the veteran of the starting unit with only two years experience under her belt.

"We were able to win while we were still learning," says Graf, giving her best attempt at explaining the good fortunes of her team. "I thought we'd lose more games than we did. We won a few close ones at the beginning of the year and that really upped our confidence. We still show some inexperience now and then since we have a lot of new people out there on the field. But we've learned to support each other and it's paid off."

Seven starters are hitting over .400 and as a team, the Seminoles are hitting .399. "Although our offense has come and gone at times, we've had good hitters to put the pressure on teams' defenses," says Graf. "That has to be an important factor in our success."

Florida State started off the season with first place finishes in the Lady Gator and Miami Dade North Invitationals. But at the South Florida Invitational, FSU dropped two of five games--both to the Florida Gators--and then dropped a single game to Florida, too. "We had just lost (then) starter Karen Kelly to academic ineligibility," says Graf. "Then our hitting tailed off in the tourna-

ment. We just needed to regroup a bit and we did." What followed were 16 straight wins, including first place honors in the Georgia Tech Invitational.

At the North Carolina State Invitational, Florida State lost twice to East Carolina, but Graf knew at that point that she had herself a great team. "We finished second in that one, but we really did play well," she remembers. "We made a few too many mental mistakes but I could see at that point that we really had something."

Graf was right. Florida State had no problems with either its state or regional tournaments, easily sweeping aside eight straight opponents to earn the number one seed in the national tournament. "We dominated our state and region," says Graf. "But this is a bit different. We have more to lose than any other team. We're going to have to be able not to panic if we get down. If we can keep our composure, our chances are good. The kids want it really bad."
